NEWS OBSERVATIONS.

This time next year the fires will be lighted under every political pot in the land.

Of the 1,000 guests at the White Sulphur Springs, very few are Virginians.

When news is received that hail has fallen to the depth of four feet in Iowa it is a sign that the Western lyre is no longer tuned to sing of old style snake stories.

Experts are pronouncing against covering the walls of houses with paper. It gives off deleterious particles, and the paste by the dampness undergoes organic decomposition.

A reporter of the Laramie Boomerang, who visited Denis Kearney in a luxurious Pullman car en route for San Francisco, declares that the Mongolian statesman was so transformed as to his outward man that the affidavits of the conductor and porter were necessary to identify him.

Two Virginia doctors, moved by the example of the Richmond editors, have fought a duel near Leesburg. No one was hurt, and reconciliation was effected.

Now is the time when the summer boarder in the mountains and at the seaside rolls himself in his ulster, seats himself by the smoky wood-fire and looking through the closed windows congratulates himself that he is not in this sweltering city, where the summer temperature is so heavily equable and the breezes are so tirelessly regular.

The New York World has discovered so-called "women's clubs" in Brooklyn which are nothing but drinking places in disguise, where ladies of respectability go to drink on the sly and become drunkards.

The recent marriage of Mrs. Fargo of Buffalo, pleasantly illustrates a certain tendency of wealthy widows to marry deservingly but not affluent editors, which is one of the rewards of the editorial profession.

That last hail storm in the West is unlike most of its precursors, which were two thin. This one poured the hail upon the devoted West to the depth of four feet. Now, there is a limit somewhere to this thing. In the matter of cyclones, we have accustomed ourselves to almost anything and inundations pass unquestioned.

The general knowledge that the electric light produces very little heat in proportion to its illuminating power has been reduced to figures by Nature, which gives the following result of careful experiments: The heat from an arc lamp of 100 candle power is from 57 to 158 heat-units, that of the incandescent lamp of equal brilliancy from 290 to 536.

Among the novelties now made for babies is the small Venetian cloak of navy blue cloth trimmed with velvet in the same shade. Down the centre of the front and back is a wide plait.

THE BIG STRIKE.

THE SITUATION AS MUCH A MYSTERY AS EVER.

The Cutting of Wires—The Strikers Assert they are Firm—Some Southern Members of the Brotherhood Return—The Railroad Operators' Strike—The Trial of a Pilot—General News.

PITTSBURG, August 11.—At six o'clock last evening the threatened strike of the telegraphers employed by the Pittsburg, Cincinnati & St. Louis railway company was inaugurated. The company decided to insist that commercial business should be received and summarily discharged Assistant Superintendent Devern, stationed at Columbus, Ohio, who was known to be in sympathy with the Brotherhood.

New York, August 11.—At a meeting of the executive committee of the Brotherhood last evening it was stated at 8 o'clock that 150 operators on the Pittsburg, Cincinnati and St. Louis railroad went out on strike, leaving but two men at work.

New York, August 11.—Superintendent Humstone, of the Western Union Telegraph Company, reported this a. m. fifteen wires out or interrupted on the eighth circuit, principally to Washington and Philadelphia in the New Jersey meadows, between Jersey city and the cars shops.

Despatches received from the West state that the Fort Wayne route was out last night in the vicinity of Chicago and that seven routes out of Chicago have been interrupted. There was no apparent change in the condition of affairs at the Western Union office to day and the strikers seem firm in their position.

Despatches received from the West state that the Fort Wayne route was out last night in the vicinity of Chicago and that seven routes out of Chicago have been interrupted. There was no apparent change in the condition of affairs at the Western Union office to day and the strikers seem firm in their position.

PITTSBURG, August 11.—The strike on the Pan-Handle railroad, which the telegraphers inaugurated last evening, is over. All the operators who left their instruments last evening have returned to work, the company reinstating them with the understanding that they leave the brotherhood. The officials of the Telegraphers' Brotherhood here announce the telegram ordering the Pan-Handle telegraphers out bogus.

BALTIMORE, August 11.—The officials of the Baltimore and Ohio railroad at the main office at 2 o'clock to-day report the situation unchanged, as well as their first determination not to treat with the brotherhood. They disclaim any knowledge of a committee of telegraphers having been sent for as reported last night.

WHEELING, W. Va., August 11.—One month ago yesterday the trial of pilot Kellon, of the steamer Scioto, which came in collision with the sterner John Loomis on July 4th, 1882, by which nearly sixty-eight lives were lost, was commenced at Parkersburg in the United States Circuit court.

BLUE AND GRAY.

ANOTHER GREAT RE-UNION OF SOLDIERS.

Veterans of Both Armies Camp Together—Some News from the Old World—The Cholera Abating—King Ceteawayo Yet Lives—The Spanish Uprising Quelled—General News.

SPRINGFIELD, Mo., August 11.—The exercises of the reunion at Wilson's Creek battle-ground took place yesterday. From 15,000 to 20,000 people were present. Lieutenant Governor Campbell, acting Governor of Missouri, delivered an address of welcome, which was responded to by Governor Berry, of Arkansas, Colonel Merritt, of Iowa, and others.

PHILADELPHIA, August 11.—The suspension of W. H. Miller & Co., stock brokers, No. 333 Chestnut street, has been announced. The firm is in possession of several stocks, among them New Jersey Central and Buffalo, New York and Philadelphia. Several hundred shares of their stock sold to-day under a rule at the Stock Exchange.

New York, August 11.—The total visible supply of cotton for the world is 1,914,460 bales, of which 1,225,860 are American; against 1,512,493 and 690,793, respectively, last year. Receipts of cotton at all interior towns 5,334; receipts from the plantations 5,025; crop insight 6,955,229.

New York, August 11.—The weekly statement of the associated banks shows the following changes: Loans decreased \$220,900; specie increased \$461,700; legal tenders increased \$9,500; deposits increased \$1,535,600; circulation decreased \$190,100; reserve increased \$87,300. The banks now hold \$9,333,655 in excess of all legal requirements.

New York, August 11.—Stocks have been weak and depressed this morning, and prices declined 1/4 to 1/2 per cent, the latter in Reading. The Gold and Stock Telegraph service is imperfect this morning. Many instruments are not working at all.

Mr. Editor, you and I have lived long enough to see a great change in the course as well as the method of education in the State. The old curriculum of Greek, Latin, etc., has given place to optional studies, embracing book-keeping, agricultural chemistry, civil and mechanical engineering, etc., designed not only to prepare the mind but to prepare the student for practical business and enable him to make a living in other pursuits than what are called "the learned professions."

Number of polls in 1882 1,516, an increase of 114. The tax levied is \$2 on the poll and 66 2/3 cents on the \$100 worth of property.

The use of Pond's Extract for complexion which particularly prevails in the season has always been attended by the happiest results. Being the specific for all inflammatory diseases, its remedial action in skin affections is very marked—while healing it soothes. Irritation of the face and hands, roughness of the skin, sun-burns, stings and bites of insects, chafings, etc., are speedily cured by Extract.

THE CAMPAIGN is not near enough yet for street sweeping to commence in earnest.

BATTLE CREEK, MICH., Jan. 21, 1879. GENTLEMEN—Having been afflicted for a number of years with indigestion and general debility, by the advice of my doctor I used Hop Bitters, and must say they afforded me almost instant relief. I am glad to be able to testify in their behalf.

Dr. Benson's Skin Cure is without a peer. It is a list of its returns and internal treatment and costs only \$1 per package, a drugstore.
