And she must put such thoughts away Resolved, That we regard a free and fair expression of the public will at the ballot-box as the only sure means of preserving our free American institutions, and that the corrupt and corrupting use of federal patronage, in influencing and controlling elections is dangerous to the liberties of the State and the Union.

Resolved, That we are in favor of the unconditional and immediate abolition of the whole internal revenue system, as an intolerable burden, a standing mensoe to the freedom of slections, and a source of great annoyance and corruption in its practical operation.

Resolved, That no government has a right to burden its people with taxes beyond the amount required to pay its necessary expenses and gradually extinguish its public debt. And that whenever the revenues, however derived, exceed this amount, they should be reduced so as to avoid a surplus in the treasury. We therefore urge upon our Senators and Representatives in Congress to exert themselves in favor of such legislation as will secure this end.

Resolved, That with respect to the tariff we reaffirm the life-long and fundamental principles of the party as declared in the National Democratic platforms; and that the details of the method by which the constitutional revenue tariff shall be gradually reached, are subjects which the party's representatives at the federal capital must be trusted to adjust. But while in our opinion the duties on foreign importations should be levied for the production of public revenue, and the discriminations in its adjustment should be such as would place the highest rates on luxuries and the owest on the necessaries of life, distribute as equally as possible the burdens of taxation and confer the greatest good upon the greatest number of the American people.

Resolved. That the course of the Democratic party in furtherance of popular education, by efficient public schools in all sections, and the establishment of graded and normal schools in the larger towns and accessible centers, is a sufficient guarantee that we favor the education of all classes of our people and we will promote and improve the present educational advantages so far as it can pedone without burdening of robbery and attempted murder there the people by excessive taxation.

Resolved, That in view of the existing and increasing harmony and kindly feeling between the two races in this State and a similar condition of things which we believe to exist generally in other Southern States, we deprecate the attempt of the Republican party in its recent platform at Chicago, to force civil rights as a living issue, and we denounce it as a fire: brand and a hypocritical expression of interest in the black race, a wanton insult to the whites of the South, and tending to stir up strife between the now friendly
