THE WASH-GRAVIT SWINDLE

From his comfortable and not luxurious quarters in Ludlow street jail Ferdinand Ward, the Napoleon of finance, has recently made a statement covering his business career, which makes plain the methods of the firm of Grant and Ward in their nefarious operations.

The firm was created in July, 1880, and subsequently G. N. Grant and his son Jess were admitted into partnership.

Until March, 1882, heavy losses were suffered, though they were not heavy enough it seems to impair the credit of the house.

After the date mentioned money began to roll in "on paper." The first notable transaction described by Ward was one implicating Gen. John B. Gordon, of Georgia, who is alleged to have induced Grant & Ward to buy the Belmont Coal Mining & Railroad Company of Alabama.

As in a nutshell Grant & Ward buy the mine from Gen. Gordon and others. They issue \$100,000 of bonds and put the \$100,000 into the mine. They used the \$100,000 in paying the debts of the mine and in putting it into working order.

5. Because many negro men voluntarily abstain from voting rather than pay a poll tax of \$1 a year, which is a tax imposed on whites and blacks alike for the public education of children of both colors.

6. Because many negro men who are employed by the white people of the South, among whom they are reared and who know them best, are their truest friends and the only ones to whom they can look for labor when well, and for charity when sick.

7. Because the course of the present Democratic national administration has dispelled whatever lingering fears the negroes may have entertained of their freedom through the vile teachings of the " Carpet-baggers," who were, if they are not now, the knights-errant of the Republican party, and the "oakners of a oalm world."

And so vanishes Senator Hoar's "Republican majority" in the South.

Canon Farrar, the great English preacher now lecturing in this country, talks forcibly on the subject of education. In the course of a lecture delivered in Baltimore the other day, he said: "The true end of education, of whatever kind, we must set steadily before us. There are some who wish to know that they may know; this is base curiosity.

At the time the mine was purchased it was decided to look for a manager, and Mr. U. S. Grant, Jr., suggested the name of Mr. H. G. Otis, a friend of his, and so the mine was considered one of the Grant investments, Mr. Otis was not opposed, and he became the manager at a regular salary.

HOAR'S REPLY TO HOAR. A long and exhaustive reply to Senator Hoar's recent speech which claimed in effect that negro majorities at the South should of necessity be Republican majorities has been made, at the instance of several gentlemen of Rhode Island, by Mr. Joseph A. Crook. Of this reply we give the most pertinent part.

THE WONDER OF WASHINGTON TERRITORY

AS THEY APPEAR TO A NORTH CAROLINIAN. Cor. of the News and Observer. SEATTLE, WASH., Oct. 5, 1885.

Perhaps a few lines regarding this ultimate of the Union may be not unacceptable. It has been little more than two years since I left the land of tar and turpentine with my eye fixed on the alluring western star of empire, but in new countries the exotic population becomes speedily acclimated, and I can now address the tenderfoot arrival with the most approved air of superior knowledge that distinguishes the "old settler."

In many respects this boastful claim is indeed, not without just foundation. The climate of this section I do not believe is equaled in the country. Usually there is almost an unbroken spell of delightful weather from the first of March until well along in the fall.

Another pre-eminent charm possessed by this section is the wonderful combination of scenery that every where greets the eye. It would be an inspiring revelation to my inland Raleigh friends to converse with nature's charms, and view her stores unrolled" from some commanding point on the gradually rising tier of terraces that forms the lovely site of this city.

21. Because many negro men are also Democrats.

22. Because many negro men who affiliated with the R-pubican party when that party was in power in the South, on account of deceptive promises to each of forty acres and a mule, and of voting behind them a novelty to them, have long since become disgusted with their white allies and perfectly listless of the rights of suffrage.

23. Because many negro men voluntarily abstain from voting rather than pay a poll tax of \$1 a year, which is a tax imposed on whites and blacks alike for the public education of children of both colors.

24. Because many negro men who are employed by the white people of the South, among whom they are reared and who know them best, are their truest friends and the only ones to whom they can look for labor when well, and for charity when sick.

25. And so vanishes Senator Hoar's "Republican majority" in the South.

The truth is, that the negroes of the South, who are mostly laborers, have as perfect freedom of political discussion and voting as any class of laborers in the North.
