Florida Press Association. GALLESVILLE, Fla., Feb. 12 .- The annual meeting of the State Press Association was held here yesterday. Representatives were present from all parts of Florida and the following resolutions were unonimously adopted:

"The Florida Press Association, assem bled in regular annual meeting, having

had their attention drawn to numerous published exaggerations and misrepresentations of the extent of the damage done in Florida by the recent unprececommittees for reports of a private na- dented cold weather, and knowing that thousands of persons are looking forward to settlement in this State, are disturbed by these unfounded state-

ments and deem it proper to make a true and candid statement of facts as they exist; without coloring and without partiality. It is therefore Resolved, That we, the members of the Florida Press Association, coming from all parts of the State, and therefore fully cognizant of the real condition of the orange groves, as now shown at the end of thirty days from the time of the freeze, state the following as the true facts in reference thereto: 1st.

That in consequence of the exceeding low temperature the larger part of the fruit remaining on the trees was frozen. 2d. That the bearing trees and the trees which were in a healthy condition received no injury, although losing their leaves, and are already budding, with the promise of a fair crop for the present year. 3d. That while the tre.s in the more northerly counties are not as advanced in budding out, it is believed

that in no portion of the brange-growing region of Florida have the trees received any material damage. 4th. That it has been demonstrated that degree of cold than has been ueretofore the safety and durability of the orangegrowing interests of the State."

NEW YORK, Feb. 11.-Mrs. Hancock passed a comfortable night and rested better than she has at any time since Gen. Hancock's death. The secretary of war will arrive in the city tomorrow morning and will proceed at once to the Battery, where a carriage will be in waiting to take him to Trinity church. After the funeral he will probably accompany the funeral party as far as Philadelphia. Commodore Chan-dler detailed Lt. Nichols of the navy to proceed to Governor's Island and tender Gen. Whipple the use of a steamer to ransport the troops from Governor's Island to New York and afterwards to Jersey City. Arrangements for the funeral are now complete. The pallbearers, in citizens' dress, will assemble at the barge office, where collector Hedden has placed a room at their disposal. They will not proceed to Governor's Island, but will receive the body on this side. The navy yard staff will be represented\_at the funeral by twenty officers. Capt. C. P. Cook, commander J. C. Watson, medical inspector J. C. Spear and chief engineer E. D. Robie have been detailed by commodore Chandler to accompany the funeral party to Norristown, Pa.

At the last meeting of the board of commissioners of Wake county much business of a general character was transacted. The first day tht matter of the Raleigh & Gaston railroad company against the county commissioners was, on motion made at request of plaintiff's attorney, continued till the March meeting. Persons were appointed to keep rafts from bridges. A committee was appointed to build a bridge across Horse creek, on the road between Dr. Harris's and Purnell postoffice. The bridge at Alford's mill was ordered to be repaired. A petition for the revocation of a recent order of the board opening a road through Swift Creek township and for a change of route of said road, was unfavorably acted upon. Relief from payment of taxes erroneously charged was granted. On the second day the poor and work houses were visted and the usual business transacted thereat. Considerable relief was extended the outside poor. For the three months ending Feb 1. superintendent Allen received \$675 15, as follows: Wages work-house hands, \$116.15; costs cf prisoners paid, \$249.25; sales of cotton and tobacco, \$307.75; other sources \$2. The third and last day a proposition from the Thompson-Houston electric Co. to light the front of the jail was read, but no action was taken respecting it. #### The Pittman Murder Trial. Wilson Advance.

The event of this week has been the trial of Herbert Pittman for shooting and killing his brother, William Pittman, which crime was committed January 19th. Many persons were examined. Thomas Tomlinson was the only witness of the killing and his testimony was the most important. He said that he (Tomlinson) and Herbert Pittman were standing in the yard of Herbert Pittman when William Pittman came in and asked Herbert "where in the ---- he was going." Herbert had put the harness

going to seek a home. William had a whife in his hand when he came up and attempted to cut the harness. Herbert told him not to do so. This angered William! who at once cut at his brother. The latter ran from him, until he was hemmed in between a crib and a cart. Herbert's vest was cut on the side and the buttons cut off-all except the top one. Herbert shot twice at William. The second shot was fired while William held him by the hair. This shot entered his bowels. Herbert made every

effort to escape from his brother before he fired. Tomlinson swore that William out at Herbert three times before the fatal shot was fired. The jury reverdict of not guilty.
