NEW YORK, Feb. 13 .- Governor's Island, visited by a raging storm and banked with fog, was apparently as isolated this morning as a rock in midocean. The tooting of steam whistles and the occasional tones of distant fog bells were the only evidence of its nearness to the great city. The military colony was astir at an early hour. The ittle steamer Atlantic, which darts to and fro between the Battery and the pier four gentlemen above mentioned came on the island, brought over loads of offi- eight stalwart soldiers, bearing the cers in uniforms and citizens in dripping magnificent casket, and on either overcoats. Many an eye was filled with tears at the solemn spectacle. Those who had served the General many years and who cherished for him warm feelings of attachment, were loudest in their mourning. This morning Dr. Janeway reported that Mrs. Hancock had passed a restless night, but seemed better at daybreak. Her grief seems almost too heavy for her to bear. Between 7 and 8 o'clock the guard of honor detailed by Maj Richard H. Jackson, consisting of four sergeants and seven corporals, drew up in front of the General's mansion. Then came detachment of 200 soldiers from several forts and drew up behind them. In the meantime the widow of Gen. Hancock, accompanied by Mrs Lieut. for the New York shore.

At an early hour people began to gather on the streets through which the procession would pass, but the rain evilently had effect and the crowd grew slowly, while all who could find shelter sought such as enclosures as doorways, awnings, &c., might afford The decoations were few and far between, conisting chiefly of flags, hanging limp and moist from their staffs. The Stevens house was appropriately draped and flags were displayed at the Consolidated exchange, the Battery and the barge office. At 9.30 o'clock the coffin, which had rested for a few minutes at the barge office, was lifted from its trestles by eight stalwart soldiers, who carried it to the hearse, with four horses attached, which stood in waiting on the plaza. WAKE FOREST COLLEGE. The Anniversary of the Secieties-

Cor. of the News and OBSERVER.

WAKE FOREST, N. C., Feb. 13. Yesterday was the anniversary of the Euzelian and Philomathesian societies of Wake Forest college, an event always looked forward to by the students and citizens generally with great pleasure. A special train from Raleigh brought down about fifty persons, and the attendance from other points and the surrounding country was good, considering

the inclemency of the day. The exercises were held in Wingate hall and commenced at 2 o clock p m The subject for debate was "Should Governments furnish Free Education by Taxation to all classes of their citizens?' Argued by Messrs. Bushell, of Camden, and Carlisle, of Robeson, for the affirmative, and Messrs, Stewart, of of Davie. and Stradley, of Granville, for the nega-

It is the custom with the societies to alternate the presidents at every anniversary, and on this occasion the choice was with the Philomathesians, Mr. McCullers, of Johnston, being president, and Mr. Tayloe, of Hertford, a Euzelian, secretary of the debate. The president in a few pointed and graceful remarks welcomed the audience and stated the programme, and the secretary then introduced the first speaker, Mr. Bushell, who in demonstrating the necessity of free education said that Germany, Russia, France and even ancient Greece were and had been practical free educators, and especially dwelt upon Scotland as a country of free education and pointed to the enlightenment and progressiveness o her people as the happy result. He said that the most powerful and progressive nations of the globe were those who favored free education; that mutiny and revolution were the result of ignorance; that if a nation would have law-abiding citizens and capable statesmen it should provide them the means of understanding and performing these duties. Mr. Bushell

handled his subject with fluency and Mr. Stewart, for the negative, followed. He said that his side would not attempt to deny the advantages of education or the increase of happiness accruing therefrom, but he denied the right of the government to prescribe what that education should be; that broad culture involved the education of the heart as well as the head, which object he claimed was defeated by public education, as separation of church and State forbade moral training in the line of carriages with the family, friends public schools. We are sorry to note the personal allusions indulged in at the close of this interesting debate, which was entirely unnecessary, and had no bearing on the subject under discussion.

At 7 p. m. a large audience assembled to hear the society representatives. Messrs. J. L. White and C. E. Brewer. deliver their orations. Mr. White, of the Euzelian: subject, "Oratory, the Old and the New," contrasted the ancient with modern oratory, the contrast being adverse to the present, but he anticipated a revival of this dormant art in the future. Mr. Brewer, of the Philomathesian, had for his subject England and its Colonies." He prefaced his address by a history of the two societies His remarks were very interesting and instructive and showed considerable research and thought. After these speeches the audience were invited to visit the beautiful society halls, which with their new and handsome banners, prettily tinted walls and other equipments were much enjoyed. The Goldsboro brass band furnished music for this occasion.
