

# THE NEWS AND OBSERVER.

VOL. XXVI.

RALEIGH, N. C., SUNDAY MORNING, MARCH 28, 1886.

NO. 114

This powder never varies. A marvel of purity, strength and wholesomeness. More economical than ordinary kinds and cannot be sold in competition with the multitude of low cost, inferior, adulterated, alum or phosphate powders sold only in cans. ROYAL BAKING POWDER CO., 108 Wall Street, New York.

## RACKET STORE.

Big Prices will not do these times, when even the wealthy cannot afford to waste their money and the poor require double duty of every dollar and even every penny. We deal in good goods and not in trash, and believe the masses will patronize the house that sells the best goods for the least money. Hence we throw before the masses these specialties; these matchless goods at matchless prices. We will show the people the folly of their habit, from year to year, of wasting their money for the paltry consideration of a little credit. How can you tell the worth of money when you get your goods from a house that buys and sells on long time? Upon our counters will be placed every day new arrivals of goods, at panic prices, from houses that have collapsed and from others that will go down.

We will offer such remarkable bargains as no house can match. Best prints at 5c. a yard; worth 7c. Best sheetings, 6c. a yard. Silk gloves 30c; worth 50c. Violin, Banjo and Guitar Strings 4c. each. Needles 2c. a paper. Pins 2c. a paper. Forty-eight sheets note-paper 5c. Twenty-five envelopes for 3c. Good handkerchiefs 4c. each. Blacking 1c. box. Great bargains in Notions of All Descriptions, Dry Goods, Boots and Shoes, Clothing, Hats and Caps, Carpets, Oilcloths, Millinery Goods, &c.

Please call and examine before buying your goods, and save your money. VOLNEY PURSELL & CO. Raleigh, N. C.

## BEWARE

ADULTERATED LARD. It looks well, but the odor from it when cooking detects it. Examine for yourselves and be sure you are not using it. CASSARD'S "STAR BRAND" LARD IS GUARANTEED PURE. Put up in all styles of packages. Ask your grocer for it and if he hasn't it in stock send your address to B. H. WOODRILL, Raleigh, N. C., and you will be supplied.

G. Cassard & Son, BALTIMORE, MD. Curers of the Celebrated Star Brand Milled Cured Hams and Breakfast Bacon. NORTH CAROLINA GRANITES AND SANDSTONES. P. Linehan & Co. 409 Fayetteville St., Raleigh, N. C. Prepared to make contracts on the Most Favorable Terms for supplying Granite Sandstones of the Best Quality in any Quantity. Quotations at Henderson and Wadeboro, N. C. Ample facilities for handling and quick shipments to any point, either in or out of the State.

## CONGRESSIONAL.

### THE HOUSE ENJOYS A DISCUSSION OF THE SILVER BILL.

Speeches Made by Members of Varying Views.

WASHINGTON, March 27.—House.—The debate on the silver question was opened by Culberson, of Texas. Mr. Culberson announced himself in favor of fair play and fair dealing with silver. He was a friend of silver and in favor of placing it on the same plane with gold in regard to coinage, and giving it a full, unqualified debt-paying power.

Mr. Long, of Massachusetts, as a bi-metalist, was opposed to the continuance of the present policy of the coinage of silver, indefinite and unlimited in time and therefore in amount, which, unless we check or set some limit to it, will as surely expatriate gold as the sun will rise tomorrow.

Mr. Morgan, of South Carolina, declared that the so-called friends of silver held the light of experience in contempt and held that those who differed with their views were enemies not only of this country but of the whole human race. They had been loud in their denunciations and had included in these denunciations the President and the secretary of the treasury, but all that they had done had been to send forth an empty blast of words. They had been fierce in tongue, but gentle in action. It was now proposed to permit the free coinage of silver, while the undeniable fact was that having been fully and fairly tried in this country and Europe, free coinage and bi-metalism had always been and would always be a complete failure.

Mr. Whiting, of Massachusetts, advocated the suspension of silver coinage. Mr. Lore, of Delaware, presented an argument in favor of the Bland law. Mr. Halsted, of Kentucky, said that the people had spoken in no uncertain voice against the suspension of silver coinage, and the question was whether Congress, their servant, should heed their voice, or legislate in the interest of those who were seeking to enrich themselves at the expense of the working class. Mr. Taylor, of Tennessee, briefly favored free coinage. At 5:20 the House adjourned.

### THE END OF A NOW FAMOUS TRIAL AT ASHEVILLE.

ASHEVILLE, N. C., March 27.—The trial of William H. Jones and Frank Jones, father and son, indicted for the murder of Mary Rice, closed this afternoon at 5 o'clock, with a verdict of not guilty. The jury was out about an hour. The trial began the 10th of March. The evidence was purely circumstantial. One hundred and seven witnesses were examined. The prosecution was ably conducted by solicitor Ferguson and his assistants and the prisoners were ably defended. The crime for which the prisoners were tried involved the murder of four persons and the burning of a dwelling. The indictment was for killing Mary Rice. Bills were also found for killing the others. After the verdict today a nol. pros. was entered as to the other indictments, with leave. The prisoners were discharged.

### An Injunction Stops an Important Sale.

RICHMOND, Va., March 27.—The property of the Southern telegraph company was to have been sold today at commissioner's sale, but before the time for sale it was announced that an order had been entered in the United States court at Norfolk, postponing it indefinitely. The order was issued upon the petition of J. B. Pace, one of the largest bond-holders of the southern company.

### Weekly Bank Statement.

NEW YORK, March 27.—The following is the weekly statement of the associated national banks: Loans decreased, \$3,026,700; specie decrease, \$5,984,500; legal tenders decrease, \$2,324,300; deposits decrease, \$1,172,600; circulation decrease, \$172,500; reserves decrease, \$4,615,650. The banks now hold \$13,593,043 in excess of the 25 per cent. rate.

### Belgium's Deplorable Condition.

GANGS OF RIOTERS BREAKING UP BUSINESS. BRUSSELS, Belgium, March 27.—The rolling mills at Montceau have been sacked by strikers. Gangs of strikers are everywhere in the mining districts forcing men to stop work and are going about pillaging factories. The local authorities are absolutely powerless before the daily increasing strength of the rioters. It will now require very large reinforcements of troops to quiet the rioters.

### All the Apaches Surrender.

TOMBSTONE, Arizona, March 27.—Col. White, an insurance agent of this city, arrived from Fort Huachuca yesterday, and reports that just before he left there yesterday morning a courier arrived from Lt. Ma's camp with news that all the Indians had surrendered except Magrus and two warriors, who have been off the reservation since 1882.

### The Dunes Haywood Case.

In the case of the State vs. Duncan C. Haywood the purport of the decision of the supreme court is as follows: Two issues were submitted to the jury: one touching the sanity of the defendant and the other as to the forgery. The supreme court affirms the finding that Haywood was of sound mind and reverses the finding of guilty as to the forgery, upon the technical point that it did not appear that one of the jury which found one of the bills of indictment had paid his taxes. The case goes back to be tried only upon the question of forgery.

### Strikes and Strikers.

JAY GOULD REFUSES TO TREAT WITH THE KNIGHTS OF LABOR. NEW YORK, March 27.—An invitation was sent Jay Gould today to meet the general executive board of the Knights of Labor, with a view to submitting the southeastern railroad difficulties to an arbitration committee. Gould, acting on advice of the Missouri Pacific directors, refused to meet the board.

ST. LOUIS, March 27.—At 1:30 o'clock this afternoon the Vandallia road, in East St. Louis, succeeded in getting out a freight train of eleven cars. About 700 men were standing around the depot at the time. An Ohio & Mississippi freight train moved as if to start out and the crowd made a rush to stop it. This action of the strikers left the tracks around the depot clear. The Vandallia engineer, who was all ready to start, saw his chance, put on steam and started away. A man of the crowd saw the movement and running ahead turned a switch signal across the track, expediting the engineer would stop when he saw the track blocked, but the engineer turned on more steam and dashed through the signal. The train was off and in a few minutes was out of sight.

### From Washington.

WASHINGTON, March 27.—The river and harbor appropriation bill, as completed by the House committee, makes a total appropriation of \$15,164,200, which will become available immediately upon the passage of the bill. As there was no appropriation made for river and harbor improvements last session, the present appropriation virtually covers a period of nearly two years. North Carolina harbors, etc., receive the following: Beaufort, \$15,000; Edenton bay, \$200; between New Bern and Beaufort, \$10,000; Cape Fear river, \$125,000; Contentee creek, \$5,000; Currituck sound, Crook bay and North river bar, \$10,000; Neuse river, \$10,000; New river, \$1,000; Pamlico and Tar river, \$3,000; Roanoke river, \$10,000; Trent river, \$350. The Mississippi river receives a total of \$3,800,000, of which \$2,400,000 is for that part below Cairo and \$1,400,000 above Cairo. For the Missouri river the total is \$660,000, and the total for New York harbor is \$425,000.

### Mr. Irons' Statements.

ST. LOUIS, March 27.—Chairman Irons, of the executive committee, district assembly, 101, when shown the statements of Powderly and Turner telegraphed from New York and Philadelphia last night, said: "It is not necessary for me to give the authority for anything I have said. We don't have to be guided by what Mr. Powderly says. The general committee has no power here, and it cannot come in here and settle this trouble unless we request it." When Mr. Turner's statement, in which he declares that Mr. Irons is one of the men who is doing the order great injustice, was shown him, he said: "I have nothing to say about that, and I will not be drawn into a newspaper controversy with Mr. Powderly or Mr. Turner and they have no right to denounce me in this manner." "But you made the statement complained of," was asked. "What is said," replied Mr. Irons, "was that if the strike is not settled, it will extend over all railroads in the country, and I will tell you more than I said and that is that it may extend to the Knights all over the country."

### Secretary Manning's Condition.

WASHINGTON, March 27.—When Doctors Lincoln and Hamilton stepped into secretary Manning's sleeping-room at 10 o'clock this morning, the secretary stretched out his hand and saluted them cheerfully. After remaining at his bedside about an hour the two physicians took their departure. Before leaving Dr. Lincoln said to an associated press reporter: "There's really no change in the secretary's condition. He is holding his own and that is about all that can be said. He at times complains of headache, but that is to be expected; it is one of the results of trouble at the base of the brain."

### Trouble in Belgium.

BRUSSELS, Belgium, March 27.—The damage done to property by strikers at Charleroi alone already amounts to \$2,500,000. The strikers have threatened to destroy the gas works which supply the city with light. Strong reinforcements of troops have been sent to help protect the city. Lieutenant-General Van Dair Smisson has been sent to Charleroi to take command of the troops being assembled there to quell the rioting.

### British Cabinet Changes.

LONDON, March 27.—James Chamberlain, president of the local government board, and G. O. Trevelyan, secretary for Scotland, have resigned from Gladstone's cabinet, and the Queen has accepted the resignations of both gentlemen. James Stansfield, radical member for Halifax, succeeds Chamberlain, and the Earl of Dalhousie succeeds Trevelyan. Dalhousie, however, will not have a seat in the cabinet, as Trevelyan had.

### Total Yields of Cotton.

NEW YORK, March 27.—The total visible supply of cotton for the world is 2,890,107 bales, of which 2,503,037 are American; against 2,691,176 and 2,158,776 respectively last year; receipts at all interior towns 2,736,308; crop from the plantations 299,988; receipts in sight 5,956,178 bales.

### The Identification of the Strange Bugs.

COR. OF THE NEWS AND OBSERVER. N. C. EXPERIMENT STATION, RALEIGH, March 27.

The bugs which visited this city last night, and were described in this morning's News and Observer, under the heading "Are they Locusts?" are very likely of the species *Belostoma Americanum*. These bugs are the largest water-bugs of the family Psephenidae, which are included in the sub-order to which the squash-bug, bed-bug, water-measurer, &c., belong. They live principally in water, and feed on aquatic larvae, insects, young fish and probably fish eggs. It is said they have been seen before in ponds near Raleigh, and also that they have been known to kill small fish. This is confirmed above, and also by Prof. Riley, of Washington, D. C., who says one of them killed a gold-fish of his as soon as it was put in the same aquarium. Their sting is poisonous, though perhaps not deadly to the human body. This may account for their ability to kill large fish and sparrows, which was noticed yesterday. They conceal themselves in crevices during the winter, and live in a torpid state till warm weather, when they leave their quarters and fly to considerable distances, usually during the night, and rarely before June or July.

There need be no fear of their injuring the crops, as they are not mentioned as being at all hurtful to any kind of vegetation. As they live on fish, however, it would not be well for those having carp ponds to have them near.

There were a few beetles (of the species *Dytiscus Hybridus*) found with these bugs, which are described as having very similar habits—that is, living in water and eating other insects, fish, &c. Prof. Riley also mentions the fact of the bugs being attracted by light, which was noticed to a marked degree last night.

They also visited Durham, and perhaps other places as well, which would seem to indicate that they exist in large quantities somewhere near.

W. A. WITHERS.

### Wake Superior Court.

Court met yesterday morning at 9:30 o'clock, his honor Judge H. G. Connor presiding. The following business was transacted: State vs. Bob Robertson, concealed weapons; nol. pros., with leave. State vs. James Harris, larceny; pleaded guilty; ten years in the penitentiary. State vs. James Harris, larceny; judgment suspended. State vs. Roden Freeman, assault and battery; the jury in this case after being "hung" for two days returned a verdict of guilty; three months and costs; appeal. State vs. David Hare, perjury; verdict of guilty heretofore; two years in the penitentiary; appeal. State vs. Thomas Rogers, assault; nol. pros. State vs. Thomas Rogers, assault; nol. pros.

In the case of the State vs. Wm. Yeargin, David Crockett, Garrett Johnson, John H. Bell, Thomas Johnson, Richard Gattis, John Pool, respectively indicted for escapes, the defendants submitted and were fined one penny and costs. State vs. David Hare; sci fa; judgment absolute. State vs. Badger Terrell and Joseph Terrell, affray; verdict guilty; \$10 fine each and costs. State vs. Edward Lucas, burning fodder; jury empaneled and after evidence for State had closed the solicitor thinking it not sufficient, consented to a verdict of not guilty, which was accordingly entered.

The grand jury having finished all the business before it were discharged for the term. Court took a recess till Monday morning at 9:30 o'clock. The following is a list of jurors drawn to serve past week: G. A. Upchurch, J. L. H. Jones, John G. Powell, J. L. Markham, G. D. Martin, J. C. Medlin, Wm. Medlin (colored), J. T. Hagwood, J. G. Beck, Horace Baucum, W. D. Partin, Rufin Evans (colored), C. W. Blackard, Fab. H. Briggs, T. W. Blake, A. M. Beck, T. A. Bowen.

### New Advertisements.

The advertisement of the N. C. lime phosphate, with valuable directions for composting, &c., published today, should be read by all who desire to do good farming on our lands. W. H. & R. S. Tucker & Co. always have attractions at their great store and always know the right way to make that fact known—by advertising. Today's advertisement is well worth reading. Mr. John S. Pescud has made a decided success of his new (or rather old) drug store. He gives careful attention to the business, and, like his clerks, is careful and competent. He has a particularly fine line of garden seeds in stock.

Mr. George T. Stronach offers for sale a large lot of small packages of fat mackerel, just from the fisheries at Gloucester; also a full assortment of heavy and fancy groceries and liquors and cider. Morris & Carter's Spring opening of fine dress goods, notions, etc. was a grand success in selling some very fine dress goods. The ladies say that their selections this season are the finest in the city. No lady should make her spring purchases before visiting their store. Notice their advertisement of fine dress goods, in this issue.

### The German Parliament Antagonizes Bismarck.

BERLIN, March 27.—The Reichstag this afternoon, by a vote of 181 to 3, rejected Prince Bismarck's spirituous monopoly bill. The members of the right abstained from voting.

## LLEWELLYN.

### A SUNDAY SALAD OF SENTIMENTAL SKETCHES.

Portraying with Freedom and in Printers' Ink, the Capers of Congressmen and Carolinians at the Country's Capital—Political Parings.

SPECIAL COR. NEWS AND OBSERVER. WASHINGTON, March 27.

The condition of secretary of the treasury Manning is of a more serious character than the associated press dispatches would lead one to infer. He is, in truth, critically ill, and his son, in response to a summons, has arrived from Albany to attend his bedside. His face is flushed, his breathing labored, and his intimate friends are alarmed at his condition. As soon as his condition warrants it, he will be removed to his Albany home, and his physicians stated yesterday that under no circumstances would he be able to attend to his official duties within a month. Should death ensue it would be peculiarly unfortunate, especially at this time, for the administration.

### WAR WILL BE WAGED

to the bitter end—if the end shall be bitter—by the friends of the educational measure in the House. The result of the conference of the advocates of the scheme, held last Wednesday evening, was an emphatic earnest of this. As usual, Hon. J. W. Reid played a prominent part in the deliberations of the conference, and, in pursuance of the resolution introduced by him, and adopted, a committee, consisting of two members of each delegation, was appointed to confer with their respective colleagues, with a view to securing all possible support to secure the reference to a different committee of the bill to be introduced by Representative Willis next Monday. This committee will make a report today (Saturday) at 11 o'clock. The bill which Mr. Willis proposes to introduce will be a duplicate of the Blair bill already in the hands of the committee on education, with some insignificant changes to make it pass muster as a new bill. The friends of the measure are not yet without hope. All they ask is fair play, believing that if they can get the bill before the House, and to a vote, it will pass that body; and the very fact that the opponents of the bill on the education committee refuse to report it to the House for action is prima facie evidence that they are afraid of such a result. That is the situation, in a nutshell, and the fate of the measure will probably be decided by the action of the House on Mr. Willis' bill next Monday. Hoping for the best and fearing the worst is about the best of my mind on the subject.

### THE CIVIL SERVICE COMMISSION

has made its annual report and Thursday the President transmitted it to Congress. The report shows that 7,002 persons were examined during the year, of whom 730 were females. Of the total number examined 5,034 passed and 2,568 failed. The number of appointments made during the year was 1,876, making a total of 4,176 appointments under the rules since the law went into effect, and it is intimated that the political complexion of the appointees is about equally divided. At present there are more than 14,000 places subject to the examinations, 5,650 in the departmental service at Washington; 2,673 in the customs service; 5,690 in the postal service, and it is suggested that the scope of the law be extended. The Democratic House is not likely to act favorably on this latter proposition, however.

### THE TARIFF TANGLE.

Speaker Carlisle says that a tariff bill will pass the House during the present session of Congress. It is generally supposed that it will be a compromise measure, and Mr. Randall had a conference with Mr. Morrison's ways and means committee a couple of days ago. No agreement, however, was reached, nor was any understanding looking to one had, and no one can say just now what the ultimate result of the tinkering will be.

### VOORHEES' VINDICATION

of the President in the Senate last Thursday was the eloquent effort of one of the finest orators in the country. His speech was well seasoned with political thrusts at the other side of the chamber and a flow of wit and satire that convulsed Senators and spectators alike. He laughed at the idea of Republican Senators complaining of and attempting to prevent the suspension or removal of office-holders, "when there are today, under a Democratic administration, ten Republican Federal office-holders to one Democrat." He thought that if any complaint was to be made it should come from his side of the chamber, and he alluded to the fact that of the 3,200 employees in the interior department, less than 400 changes had been made, "including the secretary himself."

### EVARTS' EFFORT

was worthy of the great lawyer, and, regarded as a legal argument, the speech was probably the best that has been delivered on the subject—certainly the best that has been made in support of the resolutions. He was compelled to eat his own words, used in the impeachment trial of Andrew Johnson, however, before he concluded.

### INGALLS' INEFFECTIVE

would have been inventive and effective Friday if he had been on the right side of the question. The Kansas Senator is known as the "Dude of the Senate." He is spare, wears a closely-buttoned frock coat, and is never seen without his eye-glasses. In general appearance I never saw a more typical representative of the dude species, but he is by no means a dude in other respects. On the contrary, he is a talented man and an uncommonly good speaker, and we probably should not ridicule him for his anatomical make-up. As he said

### A Dollar Should be a Dollar.

COR. OF THE NEWS AND OBSERVER.

How long would you trade with a merchant who used yard-sticks of different lengths? Or buy from a farmer who used bushel measures of different sizes? Or be indifferent to the ton as "long" or short? by which you lay in your coal? or carry a watch which did not tell the true time? Then why should you—should any of us—tolerate different values in our standard for money? A dollar should be a dollar, and nothing else, whether it appear in gold, or in silver, or in copper, or in iron, or in tobacco. But the dollars we use differ in value by more than twenty cents—by more than twenty per cent of our gold dollar. For one, I say, let Congress increase the weight of our silver dollar, or decrease that of our gold dollar, so our mints can coin as much of either as are demanded, and merchants and their customers, employers and employees, lenders and borrowers, buyers and sellers, may mean the same thing when they talk or write about money.

Rev. Father Mahony, Dean, officiating for His Grace the Archbishop, St. Mary's Cathedral, Sydney, New South Wales, writes that St. Jacobs Oil was used by many people in his parish with wonderful results, and that it is the greatest of all pain-cures.

### The "Last Passenger to Leave the Oregon" is in several States already.

They are telling different stories too. "For the many complaints incidental to cold and severe weather, Pond's Extract will be found a welcome and effective remedy. Use it in all cases of Chills, Coughs, Frozen Limbs, Stiffness of the joints, Swollen Face, Chapped Hands and Lips, Roughness of skin caused by harsh winds, Hoarseness, Asthma, &c. Use internally and externally. For Catarrh it is remarkably efficacious. Genuine in Bottles only with Buff Wrappers."

### A Bank Suspends.

CALENS, Me., March 27.—Devote's bank here has suspended payment. The liabilities are stated to be \$500,000.

### The Beginnings of Sickness.

Never trifle with what are called small ailments. A disorder easy of control at first, if neglected for a few weeks may become a mortal disease. Be especially careful not to let debility gain upon you, for it is the door through which all maladies enter the system. If you feel languid, inert, and to use a common expression, "as if there was no life left in you," resort at once to Hostetter's Stomach Bitters. That great vegetable tonic will supply the vitality you so urgently need. It is nerve food. By its tonic action the stomach is so invigorated that digestion becomes regular, easy, perfect; while its mild, cathartic properties relieve the bowels from obstructions, and its alterative operation beneficially affects all the secretive organs. For the miseries of dyspepsia, and they include almost every unpleasant feeling that belongs to physical disease and mental wretchedness, this potent tonic is a certain and speedy balm.

### "A stage smile"—the pastboard goblets of a theatrical banquet.

The St. Louis Review says: "We desire to call attention to the reliability of the preparations manufactured by the Liebig Company and to the high character of the indigestions accorded to its Coca Beef Tonic by leading physicians and medical journals of all schools." Invaluable in debility, dyspepsia, catarrh biliousness and nervousness.

### The Senate has about talked itself out.

John H. Kimball, of Westfield Chautauque Co., N. Y., writes Mr. 20, 1885, that he was suffering with Rheumatism, neuralgia, and had Contipation so bad that many times he went to bed without an evacuation. Given up by physicians, he as a last resort took Brandreth's Pills, two every night for seven weeks. Now he is an entirely well man, and never uses any other medicine for himself or family. He will answer any inquiries.

### A temperance movement turning on the water.

RIDDLES. Why is a newly-born baby like a gale of wind? Because it begins with a squall. Cold gales induce coughs and croup. Taylor's Cherokee Remedy of Sweet Gum and Mullein will cure it. A man who writes poetry in his hat is a versatile man.

### If all so-called remedies have failed, Dr. Sage's Catarrh Remedy cures.

The Massachusetts senate has passed a bill abolishing the poll tax.

### The Name Human Nature.

Many vain attempts are made to repeat the remarkable success of Benson's Caprine Plaster. This splendid remedy is known, sold and used everywhere, and its prompt action and unrivaled curative powers have won for it hosts of friends. Imitations have sprung up under similar sounding names, such as "Capsicum," "Capsicum," etc., intended to deceive the careless and unwary. These articles possess none of the virtues of the genuine. Therefore we hope the people will assist us to protect what are at once their interests and ours. Ask for Benson's Plaster, and examine what is given you, and make sure that the "Caprine" is out in the middle of the plaster itself, and the "Three Seals" trademark is on the face cloth. Any reputable dealer will show you these safeguards without hesitation. If you cannot remember the name—Benson's Caprine Plaster—cut this paragraph from the paper.

## D' BULL'S COUGH SYRUP.

Cures Coughs, Colds, Hoarseness, Croup, Asthma, Bronchitis, Whooping Cough, Indigestion, Consumption, and Relieves Constipation. It is a reliable remedy of the highest quality. It is sold in all the principal cities of the United States, and is prepared by Dr. J. C. Bull, of Baltimore, Md., U.S.A.

Salvation Oil, "The Greatest Cure on Earth for Pain." Will relieve more quickly than any other known remedy. Rheumatism, Neuralgia, Swellings, Bruises, Burns, Scalds, Cuts, Lumbago, Sore, Frost-bites, Backache, Wounds, Headache, Toothache, Sprains, &c. Sold by all Druggists. Price 25 Cents a Bottle.
