Mr. Oates, of Alabama, regretted that he could not agree with his colleagues on this question. The floods in Alabama had been destructive and much suffering had ensued, but today he was informed that every river in Alabama was within its banks; and the fact that houses had been destroyed would make work more plentiful and wages higher. WASHINGTON, April 17. Well, the education measure is receiving enough "consideration" today to make up for all the lost time. Both eration and a report from each will probably be made in the early part of the ensuing week. It appears that the latter committee has repented what is past, would avoid what is to come, and has grown quite tired of spreading compost on the weeds to make them ranker In other words, foreseeing the inevitable, it has concluded to make a report while "ignoring" the fact that a bill has been referred to the labor committtee. Two reports, as stated, will then be mined to make the investigation thor- made to the House; that is, two majority reports and probably two or more minority reports. All of them will be referred to the committee of the whole. The majority report of the labor committee and the minority report of the education committee will be essentially the same, embodying the substance of the Blair bill, and if a vote of the scheme are in the majority, one of them will be adopted. The two men in the House who deserve the most credit for this much progress are James W. Reid, of North Carolina, and A. S. Willis, of Kentucky, and if the bill is enacted into a law the poor children of their States and this entire country, will owe them a lasting debt of gratitude. Will the question be brought to a vote? I think it will.

MR. CLEAVELAND'S COURTSHIP. The gossips have got the President and his "approaching marriage" a-going afresh, and "society" is in a great flutter, I assure you The latest follows: Assemblyman Platt, of New York State. who is also editor of the Poughkeepsie Eagle, while in Buffalo last week is said to have been shown a letter written to a Mr. Box, a prominent lawver of the latter city, by Mrs. Folsom, who is now in Genoa, Italy. In this letter Mrs. Folsem is said to have spoken of the approaching marriage of her daughter to President Cleveland this summer. The alleged future mistress of the White House is 23 years of age, and is considered very beautiful. She has visited at the White House several times since Mr. Cleveland's inauguration. Her father was the President's law partner for a number of years, but has been dead some time. He lost a large fortune, it is stated, just previous to his death, and a local paper states that it is a well-knewn fact that President Cleveland is defraying the expenses of Miss Folsom's present European trip. If this latter statement is true, I should conclude myself that his days of "single cussedness' were numbered.

COLLECTOR YARBOROUGH'S CONFIRMATION. The names of a long list of internal revenue collectors, including that of the Code commissioners, who rejected W. H. Yarborough for the 4th North Carolina district, were announced this week as confirmed. The confirmations really took place the 29th of March, but were held back on a motion to reconsider, which was withdrawn. These complete the list of collectors nominated by President Cleveland, and there is now but one collector in office who served under President Arthur. How does that suit you, Jacksonians?

THE SENATE'S "SECRETS." In advocating open executive sessions of the Senste Messrs. Logan and Riddleberger last Thursday wanted to know why the farce should be longer continued. The newspaper men learned and published everything any way. Mr. Logan could not tell how they obtained the information-probably the desks or the spittoons told them, certainly no Senator did. Mr. Riddleberger suggested that some Senators might have journalistic private secretaries who were the smarter men of the two, "and, said Mr. Riddleberger, "my observation is that if we undertake to exchange innewspaper correspondents would have the best of this Senate by a large majority." THE CORRESPONDENCE. MONROE, N. C., April 9th, 1886. DEAR GIR:-In reading the statute on local option, as brought forward in the Code, we find that the act of 1876-77, chapter 259, adding the words "vinous or malt,"is omitted. From this circumstance it is contended by some persons that the county commissioners are authorized by the act to order an election

on the question of distilled liquors only and that if prohibition wins in said election, "vinous or malt" liquors may still Will you give us your opinion in regard to this matter? Was the act of 1876-77 referred to, omitted by the

Code commission through an oversight,

or was it supposed by the members of

said commission that "spirituous liquors' embraced "vinous and malt?" It seems to us that the words "spirityous liquors" cover the whole question. Spirituous liquors embrace vinous and malt as well as distilled liquors. As to whether any particular liquor is spirituous is a question of fact for the jury, as is said by the court in State vs. Lowery, 74 N. C.

The words of the local option act are the same as those of section 1076 of the Code, and yet has it not always been held indictable to sell vinous and malt liquors without license? Your opinion in this matter will be greatly prized and an early reply is asked for.

your letter of the 9th inst. I beg leave to say: Chapter 259, of the laws of 1876-77, was intentionally omitted by the words "vinous or malt liquors" as surplusage. They supposed that the words "spirituous, or malt liquors'' meant no more than the words "spirituous liquors." Sections 1070 and 3110 of the Code are in pari materia and u.ust be construed with reference to each other You will recollect that the entire Code is one statute. See Preamble, Vov. 1, page 1,S. 3876 and the ratifying clause, Vol. 2, p. p. 603,604. The language of this statute will doubtless be construed by the courts as it is written Ita lex scripta est.
