A OUESTION ABOUT Brown's Iron Bitters ANSWERED.

The question has probably been asked thousand of times. How can Brown's Iron Bitters cure everything?" Well, it doesn't but it does cure any discass for which are putable physician would prescribe Held Physicians recognize Iron as the best restorative agent known to the profession, and inquiry of any leading chemical firm will substantiate the assertion that there are more preparations of iron than of any other substance used in medicine. This shows conclusively that iron is acknowledged to be the minest important factor in successful medical practice. It is however, a remarkable fact, that prior to the discovery of BROWN'S IRON BITTERS does not in jure BROWN'S IRON BITTERS does not in jure headach, or produce constipation—all ether Iron headache, or produce constipation—all ether iron medicines do. He Says that the Linights of Labor Must

Leave it Alone.

Curcago, Ills., May 10.—A secret circular was read last week to all the assemblies of the Knight of Labor. It is from Mr. Powderly and is dated at Philadelphia, May 3. It says nearly 4,000 assemblies have pledged themselves to act on the advice contained in the circular of the 13th April. Mr. Powderly feels that it only requires the coming to the front of the real men of the order to set it right before the world. He says: "We have been losing ground so far as public opinion is concerned for some time. One of the causes is that we have allowed things to be done under our name, for which the organization was in no way responsible. If a paper criticises the order or its officers, do not boycott, and if you have any such boycott on, remove it. We must tolerate fair, open criticism. If reply is necessary, make it in a gentlemanly, dignified manner. That our aims and objects are good is no reason why our members should be regarded as beings of superior build or material. We are no more the salt of the earth in our dealings with laborers and capitalists. We must deal justly and fairly by them. If we would have it equally done to us, we in turn must do equally to others. This is the act of the Knights of Labor and must not be lost sight of in the future. If boycott notices are sent to you, burn them. I have in my possession four hundred boycott notices, which were sent to assemblies with a request that they be acted upon. Our order has been used as a tail for a hundred different kites, and in future it must soar aloft free from all of them. I hate the word 'boycott.' I was boycotted ten years ago and could not get work at my trade for months. It is a had practice. It has been handed to us by the capitalists. I have no use for it only when everything else fails. In future the general executive board must not be interfered with in the performance of its duty. If you have confidence in them, sustain them and obey them; if not ask for their resignations. The general assembly will meet in special session May 25, at

Chicago's Great Strike. CHICAGO, May 10 .- The excitement ever the labor troubles this moruing is principally confined to the lumber district. In that sec-tion great crowds assembled at an early hour to see whether any of the old hands in the yards and planing mills would return to work. Along Blue Island avenue and Twenty-second street the sidewalks were lined with men, and a heavy patrol of policemen was on hand to quiet any disturbance. The orly mill to start up was that of P. O Wohler & Co. Here eighty men went to work at nine hours' pay. Thomas R. Lyon put some of his teamsters o work, but as they are employed by the month the circumstance did not attract much attention. Later in the morning all the sash, door and blind factories in the distriet started up and about 1,500 men went to work. They will get nine hours' pay for eight hours' work. The planing mill men said they would start up, but could not, as they are dependent on the umber yards for material.

Cleveland.

All the railways in the city resumed operations this morning and are accepting and carrying all freight offered, without limit The situation, however. is affecting freight-handlers and is still unsettled, and has developed unexpected phases. The Baltimore & Ohio railroad set its men to work this morning. conceding them an eight hour working day with nine hours' pay. The freighthandlers of this road have not been acting in concert with other city freighthandlers, and gained their victory by independent negotiations with the company. It is not known what effect this

concession will have upon other roads. A committee of the striking freighthandlers of the Chicago & Northwestern road called upon the officials of that road this morning and expressed a desire to return to work on the old basis. The company replied that the men had been given full notice to return to work, but had failed to do so. As a consequence the company had its business seriously interfered with, and had been at trouble and expense in procuring new men. These men fill the working quota of the company and it had no places to offer the men who had gone out on the strike.

The Methodist Conferency.

DEFINITE PROPOSAL TO UNITE THE NORTH-EEN AND SOUTHERN CHURCHES.

RICHMOND, Va., May 10.—In the Methodist Episcopal general conference today Dr. M. B. Chapman, of Missouri. introduced a preamble and resolution in relation to the confederation of the Methodist Episcopal church, South, and the Methodist Episcopal church, North. The preamble sets forth in substance that the two churches have a common history and preach the same truths: therefore be it resolved that the general conference shall elect a committee of seven, four of whom shall be clerical and three lay delegates, who shall meet like committee from the Northern Methodist church in 1888, looking to a reunion of the two churches. The resolution further sets forth that it is a sin and folly for two Methodist churches to occupy the same territory. Dr Chapman was earnest in his advocacy of the resolutions. Where the Northern Methodist church is in the ascendancy, we are lying by inches and where we are in the scendency that church is dying by inches. Dr. Whitehead, of Va., was in favor of referring the matter to the committee on fraternal correspondence. The uestion was discussed at some length and finally was referred to a special committee to be composed of one from cach annual conference.

Another important matter, looking in the same direction, was referred to an appropriate committee: of the preparaon of a common hymnal that may used by all the different bodies of Methodism in the country. The committee ou itineracy to which was referred a memorial from the Louisville and Denver conferences, that provision be made for the appointment of evangelists reported. Dr. Adams, of Ga., said Sam Jones and other such men should have nominal appointments. Dr. Messick, of Louisville, strongly supported the rewas in favor of allowing the question of evangelism to stand as it is. He very forcibly contended that the church did not want specialists on the subject; that every Methodist preacher is equally qualified to save souls. In the name of Methodism he protested against such an innovation and when he concluded there was a hearty "Amen." Dr. Neely, of Texas, said that these evangelists, as far as he knew, were running on the plan of religion made easy in name of the Methodist church and of the entire church of God. He hoped that the measure would fail. There is but one Sam. Jones in the world and there will never be but one, and every little fellow that tries to be like Sam. Jones will fail. He is by himself. He has turned Chicago upside down, and any man that has courage to attack Chicago cannot be duplicated. He is being heard in Baltimore. He is the man of the century. We don't want any evangelists among Southern Methodists. We have already grandest machinery in the world. Dr. McFerrin said: "Suppose we pass a law making Sam. Jones an evangelist. Then he is confined to Georgia, never to go to Chicago or Baltimore, but to stay in the backwoods of Georgia. Dr. Andrews, of Mississippi, offered a substitute for the whole matter. His substitute provided for

the appointment of evangelists under certain conditions, to be defined by the conferences appointing them. Mr. Machen, of Kentucky, was opposed to "erratic missionaries," and several other delegates took the same position. After a lengthy and interesting discussion of the matter the substitute was rejected and the report of the committee was

adopted by an almost unanimous vote. The conference adjourned. The Planting Season.

Washington, D. C., May 10 .- While the season has been more alvanced than usual, north of the thirty-seventh parallel the heavy snows of early April in the west and the excess of rain prior to April 15th have retarded the spring. It is somewhat more advanced than usual in the States between Maine and North Carolina, and in Wisconsin and Minnesota. Elsewhere in the South. Missouri valley and on the Pacific coast it is below an average. In the corngrowing States preparations for seeding are later than in the regions where small grain predominates. It is estimated that seventy-two per cent, is done. In fested, especially over the work in Mexaverage years seventy-five per cent is ico. Great interest was awakened in

WASHINGTON, May 10 .- SENATE. -Mr. Dawes offered the following resolutions, both of which were agreed to without debate :

"Resolved, That the President be requested to communicate to the Senate. if in his opinion not incompatible with the public interests, any information in the possession of the government concerning the alleged seizure of the U. S. fishing vessel David J. Adams while engaged in lawful commerce in one or the ports of Canada, and what measures, if any, have been taken to protect fishing vessels of the United States while engaged in lawful commerce in the ports of Canada."

"Resolved. That the committee on foreign relations be instructed to inquire whether the U. S. fishing vessel David J. Adams has been seized while engaged in lawful commerce in a port of lanada, and what measures, if any, are necessary to protect persons and property of American citizens while engaged n lawful commerce in the ports of Can ada; and to report by bill or other-

Mr. Frye introduced a bill to limit the commercial privileges of vessels of foreign countries in the ports of the United States to such privileges as are accorded to American vessels in the ports of foreign countries. (A copy of this bill was also introduced in the. House today by Mr. Dingley, of Maine.)

A resolution offered by Mr. Logan was agreed to, directing the committee on pensions to report back to the Senate the Senate bill providing for the repeal of the limitation on arrears of pensions (This is the Ingalls bill.) The inter-State commerce bill was

place before the Senate. Mr. Ingalls' proposed amendment was agreed to, giving to the commission right to report to the U. S. circuit court and get its speedy judgment on complaints whenever companies decline to obey an order of the commission. Mr. Walthall addressed the Senate on the bill. An amendment, offered by Mr. Conger, was agreed to, modifying the first section of the bill, which relates to when men are on their holidays, they the class of companies to which the bill is made applicable. In case of a common spite from smoking. Then it does not carrier whose routes are partly by railroad and partly by water, when both is; living so much in the open air the are used for continuous passage or shipment from one State to another, Mr. Conger's amendment limits the bill to such of those carriers as are "under common control, management or arrangement." Considerable debate arose as to the effect of the bill in its present amended condition and as it might be for our susceptible wives and sisters and further modified by various proposed amendments. Speaking of the the bill as a whole, Mr. Standford said, with emphasis, that if it passed it meant complete commercial disaster. Mr. Sewell said that if it became a law with the Camden amendment in it, it would destroy the railroad system that A man looks foolish of an evening doing we had been fifty years in building up. Without further action on the bill the Senate adjourned.

HOUSE. A bill to punish the advertisement of ottery tickets in the District of Columbia was passed. Several bills of a purely local character were passed and the House adjourned.

Crop Report.

Washington, May 10.—The May crop report of the department of agriculture indicates an improvement in wheat during April of 2 points, with a general average of condition of 95. There is no marked change anywhere, but a slight advance is noted in the Ohio valley. The Missouri, Texas, Tennessee, Carolina, Virginia and Maryland May average last year was 70. The season has been favorable and the crops are more advanced than usual. Averages in the principal States are: New York, 96; Pennsylvania, 95; Ohio, 97; Michigan, 91; Indiana, 98; Illinois, 92 Missouri, 101; Kansas, 67. The condition of rye averages 96, barley, 97 Cotton planting has been delayed by the rains on the Atlantic coast, and by overflows on the Gulf coast. The proportion to be planted in May averages 20 per cent. In averages this year's proportion does not exceed 14 or 15 per cent. The stand is necessarily defective on the wet areas, but replanting is rapidly filling gaps. The proportions already planted are as follows: North Carolina, 78; South Carolina, 82; Georgia, 83; Florida, 94; Alabama, 80; Mississipi, 76; Leuisiana, 77; Texas, 84; Arkansas 75: Tennessee. 77.

The Southern Baptist Convention MONTGOMERY, ALA., May 10 .- The Southern Baptist convention met in its third day's session at 9 o'clock this morning. The business in hand was a report on foreign missions. Different features of the work, embracing the Cuban, Mexican, Brazilian, African and Chinese missions, were discussed. Missionaries from each of these lands were present and presented the claims of these missions. Great enthusiasm was manithe work in Africa, and Dr. Kllis. of Baltimore, made an able speech in behalf of it. Dr. T. P. Crawford, of DENVER, Col., May 9.- The hostile China, was earnest in advocacy of missions on the self-sustaining plan.

The U. S. Supreme tourt, and the Utah Cases.

Washington, May 10 .- The United States supreme court today rendered a decision in the Utah polygamy cases of Snow vs. the United States. Snow was convicted under the Edmunds act for unlawful cohabitation and sent to prison , where he now is. He appealed from the decree of the supreme court of the Territory of Utah, which sustained the judgment of the lower court in which he was convicted. The supreme court of the United States holds that it has no jurisdiction in the cases, and therefore dismisses them.
