RELIEF

FORTY YEARS, A SUFFERER FROM CATARRH

WONDERFUL TO RELATE! "FOR FORTY YEARS I have been a victim to CATARRH-three-fourths of the time a softerer from EXCRUCIATING PAINS ACROSS MY FOREHEAD and MY NOS-TRILS. The discharges were so offensive that I hate to mention it, except for the good it may do some other sufferer. I have spent a young fortune from my earnings during my forty years of suffering to obtain relief from the doc tors. I have tried-patent medicines—every one I could learn of—from the four corners of the earth, with no relief. And AT LAST (at 57 years of age) have met with a remedy that has cured me entirely-made me a new man. I weighed 128 pounds and now weigh 146. I used thirteen bottles of the medicine, and the only regret I have is that being in the humble walks of life I may not have influence to prevail on all catarrh sufferers to use what ha cured me, GUINN'S PIONEER BLOOD RE-HENRY CHEVES. ## THE NEWS AND OBSERVER

FRIDAY MAY 14, 1886.

Three May Verses.

When April steps aside for May, Like diamonds all the raindrops glisten; Fresh violets open every-day; To some new bird each hour we listen. -Lucy Larcon: The Sister Months.

Sweet May bath come to love us. Flowers, trees, their blossoms don; And through the blue heavens above us The very clouds move on. -Heinrich Heine: The New Spring.

When May, with cowslip-braided locks, Walks through the land in green attire, And burns in meadow-grass the phlox His torch of purple fire.

Bayard Taylor: The Lost May. NORTH CAROLINA NEWS.

HOME HAPPENINGS' AS TOLD BY THE STATE PRESS. Rev. J. A. Hoyle, of Catawba county, has made 500 converts to the church.

Five thousand people participated in the memorial exercises at Fayetteville.

The Republicans carried the municipal election at Elizabeth City. Work on the Carolina Central railroad between Shelby and Rutherforu-

ton, goes on very rapidly. To date this season Wilmington has received 93,654 bales of cotton; 6,432 bales more than last season.

At Rowan superior court Franklin Gaston, colored, convicted of outrage, was sentenced to be hanged July 2d. The firm of W. Duke, Sons & Co.

proposes to spend \$500 each year for the education and support of the poor children of Durham. It is said that arrangements are being made to consolidate all the car works and machine shops of the entire Rich-

mond & Danville system at Charlotte. George Pauls, first mate of the German barque Edward Pens, fell overboard into the Cape Fear river at Wilmington, Saturday, and was drowned.

At Salisbury not long since a negro attempted to burn Theo. Buerbaum's bookstore. He has been tried, found to be insane and sent to the asylum at Goldsboro.

There is said to be much trouble shead about tobacco plants in some neighborhoods. The fly is doing great harm to hundreds of plant-beds in Surry and several apjoining counties. John L. Holtzhouser, a white man

who was suspected of burning Tobias Lyerly's dwelling, was acquitted at Salisbury last week. He was tracked by blood-hounds. There was no other evidence against him.

At Goldsboro earnest steps are being taken to aid the graded school and a committee has been appointed to secure contributions for it. In a little while the committee secured over \$2,000 for the maintenance of the school, in which Goldsboro feels so much pride.

A reunion of the 27th regiment, N. C. S. T., is proposed to be held at Seven Springs, Wayne county, in August. R. W. Joyner is chairman; Jas. A. Graham, of Alamance; S. S. Nash. of Tarboro; K. R. Jones, of New Berne, and T. W. Slocumb, of Goldsboro, compose the committee.

The Hendersonville Times says that Lewis Kilgore, the murderer, on being informed of his reprieve by Gov. Scales last Friday, remarked that he thanked the Governor for his kindness, but that he would as soon be hanged that day, if he had to die, as two weeks hence. He said he was prepared to die, but he still declares his innocence.

One of the healthiest little towns in the Piedmont section is Catawba, in Catawba county, and yet it has, the Lincolnton Press says, since the middle of February, been sadly afflicted by the loss of a number of children from scarlet fever. Seven died in one week. The disease is now abating.

The Richmond & Danville railroad company has leased the Western North Carolina road, which will be known officially as the Western division of the Richmond & Danville road." Capt. V. E McBee is superintendent of this division, and Maj. James W. Wilson is assistant engineer. The arrangement went into effect the first of the month."

Little Thomas, the son of Mr. and Mrs. John T. Brooks, who reside in Caldwell county, was drowned Monday. He had gone out to play with his little sister, four years old, and had fallen into a branch mear the house. His sister returned to the house and reported that Tommy was in the branch. A search was made immediately and the child's

body was found lodged in the stream The bugle used by Prof. Amos Cook in sounding the notices of the memorial exercises at New Berne Menday belonged to Maj. Dennison and was the identical bugle used by the Federals in sounding the charge at the battle of New Berne in 1862. The Journal says Mai. Dennison furnished the bugle for the occasion and carried a handsome bouquet of flowers and deposited on the Confederate mound. He is not afraid

of the ghost of Jeff. Davis. The late Col. John A. Sloan had in manuscript a history of North Carolina during the late war. A small part of it was published. His means gave out and he sought to have the legislature make an appropriation for its publication. The bill failed to pass, and this largely increased Col. Sloan's mental depression. It is said that the manuman will republish the book.

script of the remainder of the work has been secured and that a prominent gentle--The new Sanish Cortes met on Monday and listened to the speech from the throne, read by Senor Sagasta, the pre-mier. This was described as being less liberal in its temper and recommendations than had been expected. Sagasta appears to have adopted the time-honored excuse of all reactionary statesmen and protested that the present was no time for political discussion and constitutional changes, but that the impor-tant business before the country concerned its material interests. Of course, financial and commercial improvement is greatly needed in Spain. It is the ability of the government to bring it about amid the present political discon-tent that is questionable.

The Eight Hour Movement. New York Commercial and Financial Chron-

As to the eight hour movement, it has continued to make progress, extending to almost all parts of the country; there is, therefore, now a very large number of men idle and in the extremely dull state which business has assumed, it seems as if labor must fare very badly in the strife. Beyond a doubt, as a question of abstract right every man is at liberty to fix the duration of his own labor; that is up to the point where he becomes a vagrant; and then the State steps in and fixes his hours for him. But within those limits it is a problem for each man to determine for himself, be he an employee or an employer. Neither the one nor the other can however control the success of the operation. For instance we never saw the employer even in good times who began by fixing his own hours at eight and ceeded. Success is more exacting than that; it requires on the part of the employer a full day's work and in most cases a good part of the night too, to be reached. But the employees have no responsibility beyond the hours employed, and those they can regulate; yet in this case, too, the regulation to be successful must keep within the possibilities of the capital in use. The business must be able to pay for the materials needed, for the repairs required and for some remuneration to the capital, or production will stop. Labor ought to be able to see that it cannot permanently secure more than the business will bear, and obviously it cannot bear in bad times what it can in good times; hence the decided check trade has received would of itself decide the case against the proposal, even if it could succeed under better conditions.

Persons of sedentary pursuits are predisposed to constipation. For constipation there s nothing so good as Dr. Bull's Baltimore Pills. Price 25c.

Farmers should use Day's Horse Powder in the fall and spring of the year for their borses

Continued crying induced by colic mak's any baby cross. Dr. Bull's Baby Syrup relieves

There are no good Anarchists except dead Anarchists.

Mr. E. D. Palmer, of Alliany, one of the greatest of American Sculptors, with us; "For thirty-nine years Pend's Eate of has grown steedily in favor with the per while sundreds of so-called remedies have risen, f flen at d gone out of sight. 'U like a rocket, " n like the stick." The way of the world-Round its axis.

Advice to Mothers. Mrs. Winslow's Soothing Syrup should aiways be used when children are cutting teeth. It relieves the little sufferer at once, it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant, to taste; soothes the child, softens the gums, allay all pain, relieves wind, regulates the bowel-and is the best known remedy for diarrhoes whether rising from teething or other causes Twenty-five cepts a bottle

A party of byciclers passed Charlotte Monday, on their way to Boston.

Requires acids more potent than the solvent juices of the human stemach. And yet, in the form of medicine intended to reform the very evil they aggrevate, to wit., dyspepsia, solids and fluids, irreconcilable in their constituents that have no chemical affinity one with the other, are introduced into it. Are these so-call d remedies more digestible than vulcani'e? Positively—no! Hostetter's Stom-ach Bitters, on the other hand, a simple medicine, harmonious in its composition and readily assimilable, is active and troduces marked as well as speedily appreciable effects, because it is a rational remedy suited to to the stomach. It is a tonic in the true sense, because it harmonizes and insures regularity of the operations of digestion. Not the least of the benefits which it confers, is a thorough re-pair of the damage inflicted on the stomach by ill-chosen remedies. For billousness, constipation, malarial complaints, rheumatism,

and kidney troubles, it is alike invaluable. KEEP COOL .- Read the new advertisement of J. C. Brewster & Co., and give them s call. Everything new in the way of Refrigerators, Ice Cream Freezers, Water Coolers, &c. The Binghamton Cotton Hoe, the Farmers

The Goldsboro graded school has on its roll 680 children, and its corps of 14 teachers are the equal of any set of teachers in the State, the Messenger asserts. The pay-roll for a ten months session for fourteen teachers and one janitor foots up \$6,444 a year.

Facts About Whiskey. It is fact, that, by emment professional authority, it is established that Whiskey is a medicine; that in all Medical Colleges it is taught that alcohol is a prime factor in practice; that there is not a Hospital, Carative Institution or Infirmary in the country, in which whiskey is not employed in the treatment of disease; that nine-tenths of all the Physicians of the country prescribe whiskey in their practice; that statistics will show that ene-sixth of all liquors consumed in the country are dispensed by Draggists or Physicians; that nearly all the whiskey so consumed, until a recent period, has contained poisonous ingredients, such as fusel oil, vitriol, catechu, etc., as is shown by analyses in sufficient quantities to poi-son the system; that the fatel dose of fusel ofl, is stated by Kabutsau to be 1.4 to 1.6 grains; that thousands to day are suffering from so-called diseases, whose blood is vitiated and impoverished by the bleed is vitiated and impoverished by the poisons of impure liquors, manifested in bloat, blear-eyes, bursting veins, inflammations and running wicers; that the cause of Dyspepsia or indigestion is a weakened stomach, and that the only thing that will strengthen its functions is a stimulant, and that stimulant will cure; that in all Malarial Districts the inhabitants depend entirely for exemption from the poisonous influence upon whiskey; that the only sure for Consumption has that the only sure for Consumption has been proven to be pure whiskey; that distinguished chemists have discovered that there is no food value to Beef Tea; that distinguished chemists have discovered that Cod Liver Oil does not feed the tissues, but forms degenerated fat; that the only sure and abiling strength which Old Age receives is a medical treatment with pure whiskey; that women, from the peculiar character of their organism, frequently need pure whiskey stimulant, and with them it is indispensible; that the cause of Habitual Drunkenness or Inebriety is the poison in the system from impure liquors causing an unconquerable craving, the same as that of conquerable craving, the same as that of epium or nicotine; that for years whiskey, owing to its relation to and extensive use in Medical Practice, has been the subject

of thorough analysis by scientists, chemists, druggists and doctors to discover a process to extract the fusel eil; that this

process to extract the fusel oil: that this process has positively been discovered by The Duffy Malt Whiskey Co., and that their Duffy's pure mait whiskey is the only absolutely pure and unadulterated in the market to-day; that it has been analyzed by the most eminent scientists and characters of the world, and not a trace of final oil, or other poison, can be found in it.
