-In spite of some predictions to the contrary Dr. Oliver Wendell Holmes is taking all the honors ever in England, and that great actor, Mr. Dixey, is treated to very cold shoulders. Mr. Dixey's friends and admirers in New York regard this discrimination in favor of a Boston man as a great outrage

-A story comes from San Francisco that a European syndicate has been formed to buy the Sandwich Islands for \$10,000,000. The King is said to be willing to self out and retire from the business of ruling. We wonder that some of our American millionaires do not enter the market for a crown. There may never be another such chance.

-A Washington society woman congratulates herself that the "film flam game" played at the White House by the Hayeses will not be indulged in by this administration. We are glad to hear it. We have no idea what it is; but if the Hayeses played it it ought to be abolished, and the empty bottles should be sent to the junk dealer unless their owners carried them away after the dinners were over.

President Cleveland will open the exhibition from the White House, and start the machinery by the telegraph land lines and the cable. -A cable dispatch reports that the engagement of marriage between Earl Cairns and Miss Adele Grant, of New York, has been dissolved by the lady, and the reason given is that the Earl insisted on a loan of money from the mother of his prospective bride, so that he might meet his creditors. Karl Cairns has large estates in England and Ireland, so entailed, however, as to preclude him from raising money on them. His income is also £10,000 a year. His expenditures have been as high as £20,000 a year, and his creditors are importunate. It cost Lord Garmoyle's father \$150,000 to settle with Miss Fortesque. Miss Grant is a daughter of Mrs. Beach Grant, of New York. She is about 22 years of age, and was introduced to New York society two winters ago at a party given at the house of her mother.
