TUESDAY, JUNE 22, 1886.

EDINBURGH is represented as being entirely daft-wild with delight over Gladstone.

WESTWARD the course of empire takes its way. We have already attained to the dignity of two cardinals.

FIVE thousand people paid their respects to the mistress of the White House Friday night. The latter lady had a time of it certainly.

BRECHER proposes to speak in England in favor of home rule. The old fellow has done a lot of speaking in his day and generation.

SPEAKER CARLISLE has been looking in the bottom of the well to see if a picture of the White House is visible therein.

THE reduction of fees on money orders is a democratic measure. Five dollars can be sent with absolute safety to any county in the United States for five cents, and ten dollars can be sent to Europe for ten cents.

DURING the past year the bank of France has gained \$50,000,000 in gold and the bank of Germany \$25,000,000. They hold about \$370,000,000 gold and \$310,000,000 silver.

TODAY Mr. Morrison is to try his tariff measure again in the House. He ought to have begun last December and have kept it up weekly until the House passed it.

A PROPOSITION is before Congress to erect a monument at Stony Point, New York, commemorative of the storming of that post by Mad Anthony Wayne.

THE Financial Chronicle says that there has been for some weeks past an increasing demand for first-class mortgages at rising prices.

A CORRESPONDENT, arguing "from the reason of the thing," arrives at the conclusion that beer, ale and wine are spirituous liquors.

COMPLAINT is made against the civil service law because no man over 45 can be appointed to a clerkship which falls under the law.

THE Georgia campaign has been very excited and much bad blood has been engendered by the canvass for the nomination by Messrs. Bacon and Gordon.

WHEN Maj. Bird swelled out like the fabled toad and challenged old Capt. Saunders, of New York, for courtesies to Jefferson Davis at Savannah he rightly imagined that his challenge would not be accepted.

Carolina, a native and to the manner born, conceiving that his claim to be Governor of the colony was better than that of the person commissioned from across the water, set up a proclamation in which he challenged his opponent to mortal combat.

THE convention that nominated that sterling old democratic warhorse-Congressman, Holman, does not please the mugwump papers.

W. D. H. Hunter is internal revenue collector for southern Indiana, and it is stated that Mr. Hunter 'sat on a front seat and made the motions.'

Mr. Holman looks for the renomination of Mr. Cleveland, and he thinks from the indications he saw among his own people that it would be a great party mistake not to put him at the head of the next ticket.

IN giving space to the article signed by Dr. A. W. Miller, of Charlotte, we are by no means to be understood as endorsing the views he expresses.

A distinguished scholar, well known and highly esteemed throughout North Carolina and filling an important office in the State, writes us, in reference to the University: "I agree with you heartily that merit and merit alone should decide who should hold the chairs at Chapel Hill and at all our schools."

These suggestions are made in the true interests of the University, by its well-wisher A. W. MILLER.

I am neither doctor nor nurse by profession, but have had twice in my lifetime to abandon my ordinary occupation and take charge of members of my family who suffered from severe illness.

My first patient was my father; he suffered from nervous fever, and the slightest noise caused him great suffering.

Some years after my first experience at nursing my wife was suddenly attacked with typhus fever. I had to clear the house of children and servants and send for two hospital nurses.

Troubles with labor have almost wholly disappeared. Concessions on both sides have restored a measure of harmony which if not disturbed promises excellent results to commerce and manufactures for the last half of the year.
