EMPEROR LOUIS NAPOLEON

was a great smoker and prided himself on having the finest cigars in the world, made especially for him in Havana.

Prof. Horsford, the noted chemist, says that some years since in Cuba he had a desire to secure the best cigar made on the Island, and upon inquiry found the manufacturer who made Louis Napoleon's cigars and bought from him three of them, paying three dollars in gold for each. In conversation with the maker, Prof. Horsford asked whether a finer cigar could be made and where the leaf tobacco used in these was raised. The manufacturer replied that it was impossible to make any better goods and no other leaf would equal that used for this purpose. For these cigars he specially imported leaf grown in the golden tobacco belt

of North Carolina. Smoked by as fastidious an Emperor as Louis Napoleon and costing three dollars each in gold, we presume those cigars were perfection. The outlet of this golden tobacco belt of North Carolina is Durham and the same grade of tobacco which was exported to Havana for the Emperor's
