CONGRESSIONAL.

THE HOUSE KAGER TO TACKLE OLEOMARGARINE.

All Kinds of Maneuvering to Prevent This Step Being Taken.

WASHINGTON, July 22.—SENATE.—Mr. Edmunds offered a resolution directing the civil service commissioners to send to the Senate, as soon as may be, a copy of the civil service rules and regulations, both general and special, as they were in force the 4th of March, 1885; also copies of all changes and modifications thereof, both general and special, made since that date; also copies of all special orders made by any authority in reference thereto, and action thereunder since that date; also all information in their possession touching any and all alleged or supposed violations of any such rules and regulations.

Mr. Allison reported from the conference committee on the legislative, executive and judicial appropriation bill, that the committee had been unable to agree, the House still insisting, on its disagreement to the three pending propositions.

Mr. Miller inquired whether under that bill the treasury department would have a sufficient fund to enable it to execute the oleomargarine law (should it pass) through the internal revenue bureau.

Mr. Hatch contended that the House, by its action in referring the bill to the committee on agriculture, had given that committee the same privileges in regard to it as were conferred upon the ways and means committee in regard to any revenue bill.

Mr. Durr argued that the privilege attached, not to the measure, but to the committee; the bill was not privileged because it was a revenue bill, but because the ways and means committee had a right to report it at any time; that the privilege did not attach to the agricultural committee.

Mr. Teller proceeded to address the Senate in support of the views submitted by himself and Senators Evans and Logan; that an investigation should not be instituted. He reviewed a portion of the testimony taken by the committee of the Ohio legislature and inferred from its contradictory features that if the Senate undertook the inquiry it would only land the Senate in interminable confusion.

Mr. Sherman next spoke (Mr. Sewell occupying the chair). He rose, he said, to perform the most disagreeable duty of his life.

After the other reports had been made Mr. Herbert again called up the special order. Mr. Hatch again raised the question of consideration, desiring to move to go into committee of the whole for the consideration of the oleomargarine bill.

Mr. Logan yesterday showed any reflection on their motives. As a matter of course, the newspapers were rude and rough in their language about public men, but if anybody expected better treatment from newspapers he would have to live in an age yet far remote.

It was the history of politics that every man in public life must be arraigned by the newspapers. If his honored friend from Illinois were not so universally combative he would have found that it would be better not to combat the newspapers, because he has not an opportunity of replying to them.

have a fair full, and judicial investigation into the merits of the accusation. If the charges are false, stamp/hoose men with the brand of infamy. If they are true, deal with them as you shall think just and right.

Mr. Eustis, as a member of the Senate committee signing the majority report, felt it incumbent on him to speak a few words in support of that report. The subject was also discussed by Messrs. Hoar, Frye, Saulsbury and Teller. The chair (Mr. Sewell) announced the question to be on the adoption of the report of the majority of the committee.

Mr. Hatch, from the committee on agriculture, reported back, as a matter of privilege, the oleomargarine bill with the Senate amendments.

Mr. Durr argued that the privilege attached, not to the measure, but to the committee; the bill was not privileged because it was a revenue bill, but because the ways and means committee had a right to report it at any time; that the privilege did not attach to the agricultural committee.

Mr. Creary could find no instance on record where the request of one house for a conference was refused by the other house. The speaker said the privilege to report revenue bills at any time applied to the committee on ways and means. The privilege to consider revenue bills applied to all revenue bills.

Mr. Herbert, of Alabama, rose to call up the special order, the naval increase bill, when Mr. Hiseock, rising to a parliamentary inquiry, asked whether if the House refused to consider the special order a call of committees would then be in order. The speaker replied that it would. Messrs. Hiseock and Hatch thereupon raised the question of consideration, and Mr. Herbert, fearing that the friends of the oleomargarine bill would unite and vote against him, withdrew his bill for the present, and the speaker proceeded to call the committees for reports, when the following were submitted:

Mr. Hatch, from the committee on agriculture, reported the oleomargarine bill with the Senate amendments, with the recommendation that they be non-concurred in. Referred to committee of the whole, where it takes its place at the foot of the calendar, and where it can only be reached by laying aside the Morrison and Randall tariff bills and one or two internal revenue bills.

After the other reports had been made Mr. Herbert again called up the special order. Mr. Hatch again raised the question of consideration, desiring to move to go into committee of the whole for the consideration of the oleomargarine bill.

Mr. Logan yesterday showed any reflection on their motives. As a matter of course, the newspapers were rude and rough in their language about public men, but if anybody expected better treatment from newspapers he would have to live in an age yet far remote.

It was the history of politics that every man in public life must be arraigned by the newspapers. If his honored friend from Illinois were not so universally combative he would have found that it would be better not to combat the newspapers, because he has not an opportunity of replying to them.

Mr. Sherman proceeded to review the case at length and to argue that enough had been presented to the Senate to warrant the inquiry recommended by Messrs. Frye and Hoar. Mr. Sherman was frequently interrupted by Mr. Logan and a running debate between these gentlemen occurred over various points involved.

asking that the bill be laid aside, Mr. Hatch took the floor to advocate the measure. His object was to make the bill the unfinished business, so as to prevent the necessity of beginning at the head of the list tomorrow in progress towards the oleomargarine bill. He yielded to Mr. Hiseock, who in a humorous manner began to talk against time and in favor of the bills, and his remarks were received with good-natured applause and laughter.

Mr. Henderson, of Iowa, in an equally humorous manner, took the other tack and vigorously denounced the bill, declaring it to be the most infamous proposition ever brought before an American Congress, and said he was surprised to see an "old gray-haired rascal" like the gentleman from New York (Mr. Hiseock) withdrawing his offensive remarks and admitting that the gentleman had some dark hairs in his head.

Mr. Hiseock contended that the House, by its action in referring the bill to the committee on agriculture, had given that committee the same privileges in regard to it as were conferred upon the ways and means committee in regard to any revenue bill.

BOYCOTT BROKEN.

JUDGE BOND PAYS A R.O.P. TO A RICHMOND AFFAIR.

How the Pressure was Removed From Baumhann Bros.

RICHMOND, Va., July 22.—In February last the typographical union here and the Labor Herald, a newspaper, boycotted the firm of Baumhann Bros., wholesale stationers and printers of this city, for employing non-union printers. The Labor Herald has been ever since publishing each week a list of Baumhann Bros. customers on what it calls the "black list."

Mr. Henderson, of Iowa, in an equally humorous manner, took the other tack and vigorously denounced the bill, declaring it to be the most infamous proposition ever brought before an American Congress, and said he was surprised to see an "old gray-haired rascal" like the gentleman from New York (Mr. Hiseock) withdrawing his offensive remarks and admitting that the gentleman had some dark hairs in his head.

Literary Notes From the Century Co.

Frank R. Stockton's new novelette, "The Casting Away of Mrs. Leeks and Mrs. Alosheim," which is to begin in the August Century, describes the remarkable adventures of two worthy New England women and the chronicler of the tale, who were shipwrecked and cast ashore upon a small island in the Pacific ocean, which proved to be by no means a desert.

The war feature of the August Century will be "Fredericksburg," described by Gen. James Longstreet, and by Gen. Darus N. Couch and Gen. William Farrar Smith, the latter of whom were Union corps commanders in the battle. A short paper by Maj. J. Horace Lacy, of Virginia, owner of the historic "Lacy House" opposite Fredericksburg, printed in the same number, describes "Lee at Fredericksburg." It contains the following paragraph: "I am the more moved to send you these reminiscences, as in the providence of God your magazine occupies the foremost place as the great pacificator between the North and the South, holding the even scales of equal and exact justice, and pouring light on every act and incident of the great civil war. You have not raked amid the deceitful ashes of the past, to bring together upon the altar of sectional hate the live coals of that fire which once burned all too fiercely, but ever by kind, fair and impartial utterances, giving both sides an equal show, you have poured oil upon the troubled waters and do ever that benediction which rests upon the peacemaker."
