CHICAGO, Ill., August 20 .- There were a number of rumors affoat this morning about the jury in the anarchists' e se, but no means of accurately determining any of these rumors and until the verdict given, at 10 o'clock, no absolute credence could be given to any of them. The twelve jurymen remained in their room at the Revere house. just across the street from the criminal court room. About this building were a large number of police, to prevent any attempt to break in upon the privacy of the jury. In front of the main entrance to the court house were thirty policemen and three lines of police and court bailiffs had to be encountered before any one could approach the court room. At resolution indorsing the administration press representatives. The court officials decided that the relatives of the prisoners should be allowed in the court room, and at 9.15 o'clock a sister of Spies, with another young woman, made her appearance. She moved as though she would proceed to close proximity to the chairs heretofore occupied by the prisoners, but was motioned to a seat on the opposite side of the court room, in the rear of the line of police officers, thus indicating that the prisoners were not to be surrounded by their advisers.

Shortly afterward the mother of Spies, accompanied by her younger son, also entered the court room and took seats on the back benches. The jury left their hotel at 9 16 o'clock, and under the guidance of ten bailiffs took their way to the court house and were conducted to another room, immediately adjoining the main court room. At 9 20 Mrs. Parsons entered the court room with her reticule, accompanied by providing the necessary revenues to the woman who has attended her throughout the trial. She was given a scat between two policemen, and with two policemen immediately in her rear. Norte. By 9.30 o'clock the crowd in the court room numbered about one hundred, but was still composed, with the exception of the persons named, of police, court bailiffs and press representatives.

. Mrs. Black, wife of the chief counsel for the prisoners, who had been in court daily, proceeded to take her former seat near the prisoners, but was requested to take a seat on the opposite side of the court room. Mrs. Black remarked to a newspaper reporter, as she laid her package of newspapers down, "Well, they say it has all gone against our men. They take it very well. though. They seem to expect it.' The sheriff refused to allow any one to see the prisoners and no one has been permuted to enter the jail since the case was given the jury. The tremendous interest taken in the outcome of the trial and the finding of the jury was illustrated by the crowd which gathered in front of the courthouse to await the announcement. Nearly two thousand people were gathered on Michigan street in front of the main entrance to the building, gazing up at the windows. Judge Gray arrived at 9.47, and almost at the same moment Capt. Black and Mr. Zeigler, completing the quartette of the defendant's counsel, arrived. Capt. Black remarked to his wife when he entered. "I have just had a talk with the prisoners. They have seen the papers and know what the probable outcome is." "They will laugh at death," said the attorney with a half tragic air. He declared that they would show no excitement. Quite a number of at torneys were allowed to come within the railing, which served to give the room a somewhat more crowded appearance. Mrs. Parsons looked haggard as she started to leave the court room, but maintained a moderate degree of composure. The crowd remained outside for an hour after the reading of the verdict. Engel, who has maintained a very quiet air throughout the trial, appeared to be the most thoroughly depressed man of the lot. He sat on a beach with his hands clenched in front of him, looking at the floor. He did not even look up a second at a remark from one of his companions. Lingg, the young bomb-maker, walked about the cage somewhat nervously and would not respond to a salutation by the newspaper representatives. He had lost his smile, and he displayed the effect of the excitement of the ordeal of the morning by a complete loss of color. Parsons, who had given himself up for trial, looked disconcerted and broken down, but joined at intervals in the questions directed at the attorneys. fischer, who had looked very badly during the trial, having an almost absolutely colorless face, had in a measure recovered himself and smoked a cigar as he listened to an interchange of views between the counsel and Spies. Fielden, the Englishman, sat in the box at the side of Eugel and offered very little comment during the talk. Schwab stood near Spies, taking in the conversation, but offered no remark. Neebe, who was given fifteen years in the penien iar , was thorough ly composed and appeared as though he was grateful that he had escaped the death penalty. A Spider that Wove "W India" in his Oxford Torchlight.

A strange looking spider weaving a most remarkable web attracted a large crowd to the rear of Mr. J. E. Odenheimer's shoeshop one afternoon last week. The web was of ordinary size and texture, but in the centre appeared plainly the following characters, as if worked in with the most delicate white silk floss :

INDIA.

The letters were about a quarter of an inch square, and almost perfectly formed. Everyone who saw the sight was astonished and mystified, and some, with a streak of superstition in their compositions, were alarmed. The spider was different from those usually seen about here, having a narrow body an inch in length, the lower half striped with bright golden bars. It was secured, together with the web, and has been sent to a scientist.
