THE HEAVY WORK OF THE RE-LIEF COMMITTEES.

THE SPECIAL EXAMINATIONS OF BUILDINGS AND AID ALL WANCES.

CHARLESTON, S. C., Sept 29.—There has been no recurrence of the earthquake shocks since yesterday afternoon, although some nervous persons say they felt a slight tremor about 10 o'clock last night. There were several slight shocks at Summerville last night, but no damage is reported from any quarter. The weather in Charleston today is mild and pleasant. The sun is shining brightly. The tem-perature is not oppressively warm and the city is full of activity and hope, in spite of Wiggins' fearful prophecy. The signal officer here has received special bulletins from Washington today. This powder never varies. A marvel of parity, strength and wholesomeness. More economical than ordinary kinds and caunot be seld in competition with the multitude of lew test, short weight, alum or phosphate powders cold only in cans. Royal Barnes Powder to. 108 Wall Street, New York. Sold by W C & A B Stronach, George T Torsuch and J R Ferrall & Co. indicating no unusual meteorological phenomena and pleasant weather, with the probability of a shower of rain this afternoon. This day has been anticipated with a great deal of fear and trembling by hundreds of anxious people in Charleston. For the last three or four nights the colored churches have been crowded with worshippers and several revivals are now in progress among these people in the city. Even the nost courageous have

felt some dread at the approach of the 29th, and although they have earnestly asserted that they did not believe in Wiggins, they have all felt that it would be comfortable to live in Charleston after the 29th. The indications are exceedingly favorable and there are no premonitions of approaching shocks The local scientists, who have given great study to the subject, say there is no danger of a recurrence of heavy shocks, and the community will surely settle down after today unless there should be an unexpected manifestation of the disturbances. A state of feverish excitement and foreboding seems to exist, however, among those who passed through the great shock of August 31st.

The work of rebuilding and repairing has been going on all day without interruption and there is a growing feeling of confidence throughout the city.

Up to this evening the relief commit tee had received 1,375 applications for relief money from property-holders who are unable to repair their own shattered houses. The total of the amounts asked for reaches about \$800,000, The relie fund bas not yet quite reached \$500,000 and the amount contributed is not suffi cient to meet the necessities of the care I he relief committee feel that the money so generously contributed by the peopl of the United States is intended only for use in cases of actual distress and adopted today a form of voucher which covers all the essential points in repairs of houses and which is absolutely a cash voucher upon completion the work and its approval by the committee. It is expected that

the whole number of applications for relier for this purpose will not exceed 1,600, and it is the intention of the committee to pay out money as rapidly as the vouchers mature. The committee have also determined to superintend the repairing of houses in certain cases. Expert mechanics employed to examine damaged buildings have so far reported upon 400 applications. The committee on immediate relief has distributed every day for the past three weeks small sums, not exceeding \$10, to persons in actual distress.

Miss Clara Barton and Mr. Hubbell representatives of the "Red Cross" society, left the city for Washington today, having decided that the field of charity work was fully covered During their stay here they were the guests of the city and before leaving Miss Barton lar, at the Racket Store. A Safe Robbed in the Post Office of the Produce Exchange Building. NEW YORK, Sept. 29 -The safe of the post office in the produce exchange building was opened last night by some person who knew the combination and two thousand five hundred dollars stolen from it. Business at the branch postoffice was paralyzed this morning. The demand for postage stamps was heavier than usual and there was not a single stamp to supply the demand The safe was certainly opened by some one who knew the combination, for there was not a mark, not even a scratch, upon it. The news of the robbery was at once communicated to the postmaster general, and in a short time two detectives in the secret service went down to the produce exchange, and at once began an investigation of the affair. It is believed that they have a clew to the perpetrators of the robbery. Gentlemen in the produce exchange said today that only a few weeks ago a young man who had been employed in the station had been discharged for cause. It was said at the exchange that the thief had entered the station through a window that opens on Stone street, and after accomplishing his purpose left by the Broadway door of the exchange.

Indians on the Warpath. CHICAGO, Sept. 29 .- A special from Ottawa, Ont., published here this morning, says: "Word has been received by the department of mounted police, from the Crow Creek agency, in the Northwest Territory, that the Blood Indians have gone on the warpath and are de-

vastating about there, in revenge for the killing of six of their band recently by the Gros Ventres. They left their reservation, so the report states, Monday morning after a war dance, and went south to Hudson, Northwest Territory, where they came on a small settlement of whites, some sixteen in number, of whom ten were women and children. These were all killed and scalped, the besieging party carrying off the scalps as trophies on poles. They then continued on their way toward the Gros Ventres settlement. Along their track were many farm houses of settlers. These were all laid in ashes and the inhabitants killed and scalped. Not less than one hundred whites have so far fallen victims to the red devils' knives.

Among those killed are two Roman Catholic missionaries at the Crow Foot agency, whose bodies are said to have been terribly mutilated. few were fully prepared for anything dreadful to occur. Some had read and others had been told of fissures in the earth, through which water was forced. Yesterday morning, while a number of draymen were at the Raleigh & Gaston depot, loading their drays with freight, an excited darkey ran up, exclaiming "The earth is a crackin' open and water is a pourin' out!" This was enough. One drayman had three large boxes to "load up." He had one in the wagon and two more on the platform of the warehouse. He drove right off, leaving the two boxes unnoticed. A crowd went to the place where the "fissure' was alleged to have formed. They found water trickling out of the ground. A railroad man coming up laughed heartly. He remembered that the pipe which conveys water from the depot to the tank at the cotton platform ran the platform and addressed the convenacross the street at that point.
