THE Republicans have put Judge Buxton in the place respectfully declined by Judge Bynum and added the name of Mr. V. S. Lusk to their ticket. for the Supreme court. But these gentlemen will probably follow Judge Bynum's example. The republicans will probably have to bring in still another horse, if not two more horses. The more prominent members of their party do not feel that this is any better year than usual to sacrifice themselves.

HENRY GRORGE has formally accepted the labor nomination for mayor of New York city. The leading candidates in opposition to him are Orlando B. Potter and J. Edward Simmons, nominees of the Committee of One Hundred and the Business Men's Municipal Association respectively. Mr. Stmmone is a democrat and will probably get the Tammany endorsement.

LET the democrats of Wake read of the performance at Milburnie yesterday. The men who performed are not the nien either to represent this good old county in the legislature or to serve the people in the court house. Let such steps be taken at once as shall lead to the putting of such contingencies beyoud the range of possibility. Let the democratic nominees be elected. They are all worthy men, and capable men, and will do honor to the people of the county.

HOW TO ORGANIZE.

Barely three weeks remain to us now in which to prepare for the battle of ballots to be fought on the 2d of November. The democrats of the State should therefore realize the importance of perfecting the party organization without further delay. We should obtain a majority of 30 000 at least this year but it cannot be had without work Let every democrat who has the good of the State at heart interest him self in the work of organization and let us get the party enrolled for the conflict to the very last man. The way to do this is very simple.

There should in the first place be a

committee in each county composed of active, zealous and intelligent men. Then there should be township committees, composed of the very best men in each township. Up these devolves most of the work, hence the importance of forming them of the very best material the party can afford. The township should be divided into convenient districts. with well known, well defined bounds ries, such as roads, creeks, etc., as far as possible, and each township committeeman should take one of these subdivisions under his especial charge. In each subdivision there should be a sub-committee of three or four or more, as may be necessary, with its proper township committeemsn at its head. This sub-committee should | citizen is delighted with the men from the report to its chairman and operate under | big city " his directions.

In beginning he said: that time voted should be made by the sub committeemen, who should at once proceed to ascertain if the absentees can not be induced to come to the polls and vote. To this end the chairman of the township committee should have provided suitable conveyances always ready and at hand.

This is in brief the plan outlined by the democratic State executive committee, and no better one has yet been devised. Let it be carried out as it can be readily, and the democratic majority will be fully up to what it ought to be. Let all good democrats throughout the bly without having improved on the State see that it is put into operation without further delay for the sake of their own best interests and the best interests of the whole people.

THE BOCIAL EQUALITY QUESTION. From the developments at Richmond it may reasonably be concluded that an organized effort is being made by certain Northern fanatics to force again into prominence the color line issue. It apcears that the order of Knights of Labor has been deliberately chosen as an astrument to be used to this end. The determination of the delegation from assembly 49, New York Knights, to have the same courtesies extended its colored members as are given to the timent to the contrary of the people of Richmond, is proof of this. Such action was clearly intended to foment trouble and that serious trouble has been avoided is due only to the forbearance of the community which has been in-

The New York Knights had no more right to attempt to force the Richmond people to adopt their ideas of social equality than Southerners have to go north and wilfully defy any local sentiment there. That they did so while in a sense the guests of Richmond was a breach of good manners that is astonishing.

They are probably but the agents, however, of a conspiracy whose purpose is to use the new order to force again ed by an immense growd. We hear upon the Southern people the question that many colored people are going to of the color line. It remains to be seen, how the Southern Knights will deal wit the vile plan. We opine that they will quickly set upon it the seal of condem-

As the Richmond State well savs:

'The people of the South have kindly feelings for the colored race and here the colored man has equal rights with the whites in courts of law and at the ballot-box. Equality of citizenship is unhesitatingly recognized by the whites, but social equality the whites refuse to tolerate in any form. Sensible and self-respecting colored men do not seek to do violence to these feelings, nor have they any desire to obtrude themselves where they are not wanted. Now and then, however, some impudent fellow is found who is eager to have at least the appearance of enjoying a social equality that never can be and never should be his. Whites who have so little sense and so little decency as to aid and abet him in such offensive capers can hardly be expected to keep the respect of the people of their own race, who are willing always to do justice to the colored people, but who demand that their own inherent and ineradicable feelings on the race question shall not be rudely insulted. The course of the New York assembly which has attempted to dictate that the public houses of Richmond shall be conducted in a manner most objectionable to a large body of their customers will hardly receive the unanimous approval of the Knights of Labor of this city."

It will hardly receive the approval of any Southern Knights, we believe. It is well, though, that our people should be warned in time of the new and vile use to which the Knights of Labor organisation is to be put, that is to say if the Southern Knights will consent thus to be used. Will they? We don't be-

KNIGHTS OF LABOR, MR. POW-DERLY AND DISTRICT 49 OF NEW

The New York Herald, of October 5th, through its Richmond correspondent, says: "Somehow or other district assembly 49 of New York always gains notoriety. At Cleveland the district became famous on account of the Home Club circulars; and here, in Richmond, the delegates are the talk of the town on account of the question of color.

"There is some talk of having a social equality ball next Wednesday night at the festival to the general assembly by the local assemblies in Richmond. At this ball district 49 will take a prominent part, and white delegates will not hesitate to ask dusky sisters to walts.

"District 49 still sticks to the colored boarding houses. At Harris hall, the headquarters of the district, the proprietor of which is a colored man, dusky damsels sing and play for the entertainment of the delegates. The parlors are neatly furnished and social entertainments are the rule each evening. Genuine social equality can be witnessed at Harris hall, and the colored fellow-

resented his annual report to the general assembly at Richmond yesterday. What he says has very much less weight and will be read with very much less interest now that he has chosen unnecessarily to outrage the sentiment of the whole South on the question of social equality. His action in that regard was a disappointment to a very large class sub-committees should be early at the of people who, while not Knights, were disposed to look upon him as a wise and voters as they vote and at 1 o'clock a list | give the pith of his address in the fol-"The most eventful and trying year township chairman and given to the of our existence as an order has ended, and we assemble for the purpose of reviewing what has been done, correcting those things that are wrong, and of legislating for the future."

> "If we are guided by the experience of the past," said he, "and act accordingly, we can place the order upon a footing so safe and sure that no assaults from its enemies can injure it. If we are not guided by that experience, if we fail to read aright the signs of the times, and we close this general assempast, we will fail to properly represent those who sent us here.'

ILL CONSIDERED STRIKES. "Quite a few have entered our order for the purpose of redressing existing wrongs, and before waiting to learn anything concerning the duty of the Knight to the order have plunged into rash and ill-considered strikes. The troubles coming from this direction began while the last general assembly was in session. The car-drivers of St. Louis were organized under promise from the organizer that they would receive aid, unstinted, in case of a strike. Even before the receipt of their charter they were on a strike. Their proceedings were characterized by such utter disregard for our laws and teachings that the paid and known agents of their employwhites, in the face of the well known sen- ers, the detectives, had no difficulty in securing the passage of motions of a violent character. It is an established fact, that men who were employed by detective agencies, stood up on the floor of that assembly, made inflammatory speeches urging the men to deeds of violence, and urged that the property of the street car companies be destroyed. It was only the good sense of the men that prevented such outrages from being perpetrated, although these agents of a nefarious spy system induced some desperate men to blow up the cars upon the streets. For the outrages the order was in no way responsible. The St. Louis car troubles were but the beginning of the tidal wave of strikes and boycotts which swept over the country, and which strained the strength and resources of the general officers almost beyoud their powers of endurance."

> THE SOUTHWEST STRIKE. "The southwest strike began when the time and attention of the general officers were taken up with other matters of vital importance. No notice of the contemplated action was given us, and we knew nothing whatever concerning it, or the causes leading to it, until it had been in progress several days.

"It has been asserted that I condemned the men while they were on strike. No such statement ever escaped my lips. The only statement of mine that could be made to appear in the light of scondemnation was that contained in my secret circular of the 13th of March. a copy of which is herewith submitted. I did not approve of that strike. I could not do so, since confidence enough was not reposed in the general executive board to give them a chance to examine into the grievances which the members of district assembly 101 complained of. It was only when the threat was made to stop every wheel in the United States and engage the whole order in the diffioulty, that I raised my voice in denial I did that in defence of the order and the country. I am quite willing to assume all the responsibilities attached to the act, and would do the same thing again under similar circumstances." THE RIGHT HOUR STRIKE.

"The eight-hour strike which took place May 1st was not successful, except in cases where employers and employees were acting in harmony, or where employers were willing to adopt the plan. In many cases the old system of working long hours has been revived. The federation of trades recommended the 1st of May, but adopted or suggested no definite plan by which the short-hour system could be inaugurated. I cautioned our members against rushing into this movement. I had the right to do it, and am firm in the belief that had I not done so great loss would have been entailed upon vast numbers of our assemblies. What I said in my secret circular of March 13th has been severely criticised, and I have been accused of opposing the eight-hour movement. No statement ever was further from the truth. I opposed the strike on May 1st because I knew that neither workmen nor employers were ready for it; because the education which must always precede intelligent action had not been given to those most in need of it; because no definite. business-like plan for the inauguration of the eight-hour movement had been mapped out. In fact, no preparations had been made to put the plan, if it can be called a plan, into execution. These are the reasons why I opposed the movement on May 1st, and for these same reasons do I still oppose it."

SHORTER HOURS A NECESSITY. "A reduction of hours is a necessity, and sooner or later must be had; but we must not forget that in many places the ten-hour plan has not been adopted yet."

hour plan is adopted, the Knights of differences, come together, name a day on which to put the plan into execution, jury upon either employer or work-

be of any benefit to mankind can be inaugurated, the relation which the workman bears to the labor-saving machine must undergo a radical change.'

TRADES UNIONS. "For the future I recommend that all natters likely to create a breach of the peace between our order and any other be at once submitted to the executives of both organizations. If a trade union complains of any action on the part of our order, let the aggrieved party submit the matter to the president of his union-he to investigate; and, failing to effect a remedy, to place the matter before the general master workman and the executive board. If the aggrieved party is a member of an assembly of the Knights of Labor, let the same mode of procedure be gone through with, and, above all things, let a speedy and impartial investigation and an immediate settlement be made. This plan has worked well in every new case called to my attention since the Cleveland ses-. sion, and it is worthy of adoption." IN CONCLUSION

Mr. Powderly said: "It has een charged that between members of the general executive board and myself serious disturbances have taken place; that ruptures have occurred of a serious character. Others have charged that the board constituted itself a ring to manage affairs. These statementsinventions of the enemy-have a damaging effect when told to the unwary. The first assertion is utterly false, for between the board and myself there has been no rupture, or even a difference. If at first we did not agree upon a question we discussed it until the fullest possible light shone upon it, and when we went to the world with it we went as one man. Every attempt to divide us has been a failure. That we have constituted ourselves a ring to manage affairs is true; that is what you elected us for. We are a ring, solid and unbroken; and I hope the next board will be the same. For standing together in unity we have no apologies to offer. For myself I say, may it never be oth-

The losation is a pretty knoll about a quarter of a mile distant from, but in full view of both the R. & G. and the O. & H. railroad.

Rev. J. M. Rhodes, the president, is now in town.

It is stated that the management of the great musical festival at Petersburg. Va : have arranged with the Henderson musical association for a chorus from its members. This association, though but a few months old, has some of the best talent of Henderson, and will exert itself to do credit to the occasion.

Bev. C. E. Taylor, D. D., president of Wake Forest college, occupied the Baptist pulpit last Sunday, and preached a most excellent sermon. A protracted meeting is in progress

at the Methodist church by Rev. J. D. Arnold, pastor. The democratic primaries were held last Saturday and delegates were elected

to the county convention, appointed for next Saturday. It is whispered that Col. Burgwyn will be asked to accept the nomination for the senate, and J. R. Young, Esq., for clerk of superior court. The latter is almost sure to be elected.

All is not levely with the republicans; they have cause to pray deliverance from their friends. Mr. Chas. A. Alston, who was mentioned sometime ago as the people's and workingmen's candidate for clerk of the superior court, sought the republican nomination, but was defeated by B. M. Holden. He then brought about a republican massmeeting, who he claims nominated him, but it is stated that the clerk of the meeting withholds the certificate of his nomination.

Judge Shepherd will preside at the next term of our superior court, beginning the 18th inst. In view of his well known capacity for disposing of business, the lawyers have tried to lay out enough work to keep him and themselves busy. Seventy-six civil cases have been placed upon the calendar for trial

The judge will be accompanied by Mrs. Shepherd, and they will be guests of Mrs. Norwood during their stay.

The play season opened at Burwell hall last Friday evening, the Ogden farce company playing. Much of the playing was fair.
