OBSERVATIONS:  
So far, eighty seven sheriffs in the State have made full settlement with the State treasurer.

The State treasurer yesterday issued a drummer's license to William Rankin & Co., of Wilmington.

The Raleigh baseball club are arranging to play a game of baseball with Charlotte during the fair at Mt. Holly.

The Independent Hose Company made nearly enough money by their saleable last week to purchase a handsome reel.

There was a considerable row in "East Raleigh" on Saturday night, in which two pistol shots were fired without taking effect so far as known.

Maj. S. M. Finger, Superintendent of Public Instruction, is at Sparkling Catawba Springs. He writes that "all the crops are splendid in this county. Looks indeed like the land of plenty."

The grape show committee of arrangements have engaged the Black Diamond Quartette to sing the gold plantation melodies and other songs at the exhibition hall during the show.

The city committee on public buildings inspected the market house and Metropolitan Hall yesterday. The hall is assuming a very handsome interior appearance under the new improvements.

Some people ask why the work on the fountain in Moore square cannot be completed at once. It is in position, but the proposed rock foundation and surrounding have not yet been commenced.

A new feature on the streets of Raleigh is the presence of large two-horse grape wagons. They are completely covered with oil cloth and bring grapes in baskets, ready for shipping, from the vineyards to the depots.

A. L. Plummer, agent for Cram's Family Atlas of the World, will make another delivery of that excellent work of reference in Raleigh the 1st of November. Any one wishing a copy of the Atlas should address him at Raleigh, N. C.

There was a little panic in a Hargett street car last night, brought about by the dropping of the centre lamp from the top to the floor. It was happily extinguished without doing any damage, thereby spoiling a sensational "local."

The great piles and big bogaheads of tobacco are being moved out of Stromach's tobacco warehouse and the mammoth building put in readiness for the grape show. The railroad rates to and from the show should be carefully noticed.

A cistern at the corner of Fayetteville and Hargett streets was being filled up yesterday. The wall stones were taken out to be used for street paving purposes. The fine new system of water works is gradually supplanting the primitive supply of water by public pumps and cisterns.

The Asheville Citizen notes that Messrs. Ellington and Royster, of the firm of Ellington, Royster & Co., of Raleigh, one of the largest contracting and building firms in the State, are in the city looking after certain enterprises to be started soon in our city. Both gentlemen are greatly pleased with Asheville, and the rapid improvements going on.

Mayor's Court.  
The mayor had quite a lively morning yesterday compared to the usual quietude of his court.

A commercial tourist was called up for participating in a row and was fined \$10 and costs.

Tom Lee, the Chinese laundryman and an African had a wondrous war on Wilmington street. The washer "did up" a shirt for the negro for which he charged 17 cents. The customer put down a quarter which Tom took, and then produced another bill for 7 cents, as balance due on an old account. This led to a few remarks between the parties which were made in such a tone and with such gesticulations as to disturb the peace of the neighbors. The mayor warned them that such proceedings were unorthodox by fining them \$2 each and costs.

Another case was that in which a well known umbrella repairer was defendant. There seemed to have been a family row in which the defendant did considerable earnest and positive talking. This was all that was decided that it was possible that there were occasions on which such proceedings were permissible. The case was dismissed.

A dusky defendant of the female persuasion was told to stand up, and was requested to show cause why she should choose the public streets for an exhibition of her loquacious and expressive powers. Not being able to show good cause she was fined \$5 and costs.

A party was up for cruelty to animals, being charged with driving a sheep with a broken leg to market. It was shown that the sheep broke its leg just on the verge of the city when coming in, and the case was dismissed.

Reinforcements.  
Great Salvation Army meeting to-night at Bledsoe's grove. Adjutant Beall and wife will be present and lead the attack; also comrades from Richmond, Va., and Durham, N. C. Everybody come.

The County Board of Education.  
This board was in regular session yesterday. Favorable reports were made and general routine business was transacted. An additional apportionment of ten cents per capita for school children was made for public schools. The total apportionment per capita so far this year is \$1.10, which may possibly be increased.

The 96th Report.  
Numerous inquiries are being made about the 96th Supreme Court report on account of certain statements to the effect that it is now ready. It is now in the hands of the public printer and is complete with the exception of the index, which will be ready in a few days. It will be probably two weeks or more before the report is ready for delivery.

Sale of the Atlantic Hotel.  
The fine Atlantic Hotel at Morehead City was sold yesterday in that place to the highest bidder. Dr. G. W. Blackhall bid the property in for a stock company, paying therefor the sum of \$18,100. The company is composed of Dr. G. W. Blackhall, J. S. Carr, Esq., of Durham, and Messrs. Barnes & Branch, of Wilson. The sale does not interfere with the lease of Messrs. Cook & Foster Bros. for the year 1887.

A Row, with Probably Fatal Results.  
Justice Barbee yesterday heard a case of affray, in which it was shown that a colored woman named Susan Hawkins had been hit with a large rock thrown by a colored boy 12 years old named Ruffin Bryant. The row occurred some days ago near the city. The head of the plaintiff was a ghastly sight. She was present to give evidence in the case. A physician examined the wound and said that only the best care would prevent a fatal result, and there was a very small chance for recovery at best.

Personal.  
Col. T. M. Argo is at Morehead. Senator Vance is in Asheville and recently delivered an address before the normal school at that place.

Secretary of State Col. Wm. L. Saunders is at Cleveland Springs. Lieut. Governor Chas. M. Stedman is summering at Cleveland Springs.

E. G. Harrell, Esq., has returned from St. Louis. Miss Fannie Terrell has returned from a week's visit to friends in Warrenton.

Mrs. Mollie Terrell and Miss Maria Harris, of Warrenton, are visiting the family of Mr. C. B. Terrell. Rev. C. S. Farris returned yesterday from a visit to the western part of the State.

Col. P. B. Ruffin of Hillsboro is in the city. Col. Thos. M. Holt of Haw River is at the Yarbos.

Col. J. W. Hinesdale has returned from a visit to Moore and Cumberland counties. Pulaski Cowper, Esq., returned from Morehead yesterday.

Mr. William Simpson left for Asheville last night to attend the meeting of the State Board of Pharmacy.

The Grape Show.  
It seems curious, even to many of our own people, that a grape show is to be held in the city of Raleigh, and yet the success of the undertaking is well assured.

If our cotton farmers were invited to a cotton show, where they could learn how to make an acre produce three or four bags of cotton, the city itself could hardly contain the visitors who would be present. Now this is in effect what those who learn who visit the grape show. We say, and speak advisedly, that those who attend the grape show will learn that one acre of land can be made to pay one hundred dollars, and this too at no greater expense after the first year or two, than the same acre requires to make it produce one bag of cotton. Our farmers are yet to learn the truth, but they (the progressive ones) will learn it and speedily. From competent persons we learn that by an investment of not more than \$30 per acre, land may be set in choice varieties of grapes. This includes all expenses, and the annual cultivation thereafter does not exceed that of common corn (maize).

The fruit of the vine has been a prolific source of income for three thousand years certainly. The birth of grape culture antedates the exodus of the Israelites from Egypt as appears in the 20th ch. of Numbers. The vintage with the Egyptians was the mouth of Epiphi, towards the close of our June or the beginning of July. Wilkeson in his "Ancient Egyptians" tells us that the method of this ancient people in pruning the vine was what we may best understand as the California way. No stakes were used but the vines were cut low to the ground and grew in the shape of a bush. This method is not thought best for North Carolina vineyards, the most popular way in this State being the use of common sassafras stakes. The proceeds of the vine for such a vast number of years—the staple product of so many centuries as an article of table diet—and from whose skins may be expressed wine "that maketh glad the heart of man," must be more than ordinarily useful and the fruitful parent many a dollar. Grape-growing is of paying and will continue to pay, and only the most incredulous can doubt that the advantages of our Grape Show on August 4th will be very great to all who may be present, and that information will be derived there which will add much to the prosperity of our State and people.

"The Importance of Economy on the Farm" is the subject that Mr. James H. Ennis, the veteran agricultural editor will discuss before the assembly of farmers at Mount Holly in the month of August. No selection could have been made that would suit the masses better. Mr. Ennis has had a long experience as a farmer and an agricultural editor.

Applications for Licenses.  
The county commissioners met yesterday in regular monthly session. They commenced with the regular routine business, but had scarcely opened when applications to sell beer and wine in Raleigh township commenced to pour in. These applications were presented, some by messengers, some by attorneys and some in person by the applicants themselves, all being endorsed by certain parties as required by law. They were received by the board but action on them was postponed till tomorrow. Among the applicants are Thos. R. Jones, B. F. Cheatham, Grausman & Rosenthal, F. L. Bailey, L. D. Taylor, M. C. Daugherty, E. T. Gill, J. H. Miller, N. Y. Denton, Johnson & Barber, F. W. Whitaker, C. W. Hoover, J. D. Buffalo and R. C. High.

The Tobacco Convention.  
The Raleigh Tobacco Exchange is bestirring itself with reference to the State Tobacco Convention to be held at Morehead on August 17th. At the regular meeting of the Exchange held yesterday, the following delegation was appointed from Raleigh: W. T. Lipscomb, chairman; M. A. Parker, T. B. Moseley, W. C. Reed and T. N. Jones. Alternates: E. L. Fleming, Jos. E. Pogue, E. R. Aiken, C. F. Harvey and Gep. B. McGehee. C. H. Roberts was elected secretary to the delegation.

Col. P. F. Faison, chairman of the committee on transportation and accommodation, presented a letter from the officials of the associated railways, making round-trip rates to members of the convention at about three cents per mile. The convention is strictly a North Carolina affair. Every Tobacco Exchange in the State is entitled to five votes in the convention, and should appoint as many delegates who can attend. Matters of great importance to the tobacco interest in the State will be brought before the meeting, and every section and town in the State interested in tobacco culture should co-operate through delegates, at this, the first tobacco convention ever held in the State. A large attendance is expected, and special rates will be given to delegates by Messrs. Cook & Foster Bros., of the Atlantic Hotel at Morehead.

New Advertisements.  
Captain B. P. Williamson, one of the largest and most successful grape growers in the State, yesterday presented Messrs. Norris & Carter with a 10 pound basket of grapes from his Fair View vineyard. The basket contains several choice varieties, and the arrangement is indeed very artistic. Messrs. Norris & Carter have placed these grapes in their large show window next to the bank, and every person in the city who is a lover of the beautiful should not fail to see them. They will present these grapes to some young lady today, and they want at least one thousand visitors from which to make this selection.

Messrs. C. W. Garrett & Co. will make a display of their celebrated wines at the Grape Show, which will be a most attractive one.

A Fall From Brooklyn Bridge.  
New York, August 1.—James Martin, a painter 17 years old, was at work painting on the Brooklyn Bridge, when he accidentally missed his footing on the scaffold and fell into the river below. He was picked up by a tug and taken to Chambers Street Hospital. He complained of a pain in his side which he struck the water, but apparently was not seriously injured. The distance he fell is about 160 feet. He was kept at the hospital, as it was thought he might have suffered internal injuries that may manifest themselves later.

Alghamstan's Insurgents.  
CALCUTTA, August 1.—The insurgents in Alghamstan have blocked the roads between Candahar and India.

In Brief, And to the Point.  
Dyspepsia is dreadful. Disordered liver is misery. Indigestion is a foe to good nature. The human digestive apparatus is one of the most complicated and wonderful things in existence. It is easily put out of order. Greasy food, tough food, sloppy food, and cookery, mental worry, late hours, irregular habits and many other things which ought not to be, have made the American people suffer from dyspepsia. But Green's August Flower has done a wonderful work in reforming this bad business and making the American people so healthy that they can enjoy their meals and be happy. Remember—It's happiness without health. But Green's August Flower brings health and happiness to the dyspeptic. Ask your druggist for a bottle. Seventy-five cents.
