LABOR DAY.

THE NEW HOLIDAY IN NEW YORK, BOSTON AND ELSE-WHERE.

HOW IT WAS CELEBRATED -THE PARADES LARGELY MADE UP OF TRADE UNION-13TS INSTEAD OF KNIGHTS-

OTHER NEWS BY WIRE.

New York, Sept. 5.—Labor day being a legal holiday, all down town offices were closed generally. Many other business houses also closed up for the day, but some had to remain open. The courts and public deout the city in honor of the day and the streets were thronged with sightseers from an early hour. The labor parade was the feature of the day. Fully 25,000 men belonging to nearly every trade organization in the city were in line. John Morrison, carpet weaver, and a Master Workman of the Knights of Labor, was grand mar-

In the ranks were printing presses

in operation, bakers' ovens in full blast, a number of large safes, a sailing boat fully equipped and a group of "squaws" represented by cigarette manufacturing girls. The procession was headed by a platoon of mounted police and the route was down Broadway from 13th to 4th street to 5th avenue to Union Square. At this point fully 10,000 people were massed and the reviewing stand was located. On the stand were a large number of representative labor men and women. Among these was Henry George General Master Workman Powderly and Rev. Dr. McGlynn, who were announced to attend were not present. Notwithstanding the tabooing of red flags there were many of them in line, but the red in each case was relieved by coloring less suggestive, which in letters of gold told which labor organization was carrying it. No distinctly socialistic flag was to be seen. The procession wended its way up Fifth avenue to Forty-second street where it disbanded. The different had the right to make the dismissal trades then went to Brommer's Park | without assigning any reasons. Comto spend the afternoon and evening. missioner Edgerton in his report says: Many of the houses along the line of The papers in the case were sent to above. The daily average temperabunting.

THE DAY IN BALTIMORE. BALTIMORE, Md., September 5 There was quite a turn-out of labor organizations today. The District Assembly of Knights of Labor paraded in strong force, and proceeded to Round Bay on the Annapolis Short Line Road. The Olothing Cutters' Association also paraded in force with the Marine band from Washington, and marched to Eastern Scheutzen Park, where there was general enjoyment for all who participated.

CHICAGO, Sept. 5.—The celebration of labor's holiday was the most successful yet held in this city. It is estimated that from 25,000 to 30,000 men participated in the parade.

THE DAY IN CINCINNATI. CINCINNATI, O., Sept. 5.—Labor day was celebrated here this afternoon by a great parade, in which there was no effort at display except in numbers. The Lady Franklin assembly, composed of women, was represented by aid and sympathy of this reform the members riding in two large league, not for restoration to office

St. Peressure, September 5. —Ad vices from Chardjin, on the Oxus, say that Russian court chamberlain Mitchajeff, Prince Demidoff and a party of millionaires are inspecting fulness by an attempt to find some the cotton fields of Bokhara with a legal redress for such complainants view to selecting a suitable site on the as Mr. Webster, if any could be found line of the projected Samarcand railway for a cotton mill.

Arrested for Forgery.

PHILADELPHIA. Sept. 5.-Wm. H. Parker, of the firm of Loag & Parker, printers, was today arrested and placed under \$5,000 bail to answer in court the charge of having forged the names of various parties to seven promissory notes which were deposited with and discounted by the National Bank of the Republic. The arrest was made at the instance of President Rhawn of the Bank of the Republic. The notes varied in amount from \$100 to \$700 each, the total

Labor Day in Boston.

Boston, Sept. 5.—There is almost general suspension of business. A large influx of suburban visitors and grand procssion of workingmen marked the celebration of the early hours of labor day in this city. The procession was a much larger one than in the labor demonstration of last year, with the difference that in today's parade the majority of the participants are trades-unionists, while last year more than half the men were Knights of Labor. During the afternoon there will be six monster picnics and in the evening a number of gatherings under the auspices of various charitable societies.

Arrested for Libel.

MILWAUKEE, September 5.—Editors | highest purpose. arackwintzer, Cook and Parks Labor Review, were arrested Saturday on a charge of criminal libel preferred by Alderman Garrett Duncan, whom the paper termed a "boodle alderman" and a "Buddensiek builder. They are out on bail. OTHER TELEGRAPHIC NEWS ON 4TH PAGE]

civil service reformers certain persons

who might otherwise remain unknown.

Mr. Webster states that he was re-

moved or coerced to resign for politi-

cal reasons, and this is all the charge

there is against Mr. Seeberger that

deserves any consideration whatever-

This charge Mr. Seeberger emphati-

cally denies. Webster was not re-

moved; he resigned. When Mr. Webster resigned he abandoned all legal

claim to his position, and without

claim or right why should he or the Chicago Reform League seek interven-

tion of the President-or an investiga-

tion by the commission unless for

partisan political reasons? He sought

but for that temporary newspaper

prominence which might make more

popular the purposes of both, which

purposes were to antagonize and to dis-

credit the democratic administration.

The league might possibly demon-

strate its pretended power and use-

to exist. But in these cases of re-

moval from office, restoration is not

sought through the civil service com-

mission, for it is known to be power-

less to effect it, but the purpose

of the complaint is to fasten upon

some charge of violation, if not

of the letter, then of the spirit of the

law; violations which are rarely, if

ever, sought for during a republican

administration, as whatever it might

do would be called a faithful observ-

ance of the law. The "leagues" and

"associations" which are too often es-

sentially political in their character

and purposes and not composed en-

tirely of consistent reformers, as well

as the individual pretenders to devo-

tion to the public interest as civil

service reformers, should concede to

the President and to this party some

The chairman of the executive comgress. "For the high office of president of the congress," he said, "the committee unanimously nominate to important of which are voluntary practitioner and an able teacher and Davis, of Chicago.'

Dr. Davis having been unanimously elected by acclamation, the chairman but, thanks to the noble equities of appointed Dr. Francesca Duranth, of Italy, and Deputy Surgeon-General vidious bar" to the highest level of Jeffrey A. Marston, H. B. M. Army a committee to escort him to the

Dr. John B. Hamilton, Supervising Surgeon-General of the United States Marine Hospital service, havng been nominated and unanimously elected Secretary General of the congress, took his place and nominated the gentlemen agreed upon as vice presidents of the congress, who were elected.

The list contains a hundred or more names. The only Americans on the list are the ex-presidents of the American Medical Association, and the Surgeons General of the Army and Navy. The foreigners on the list include all who came as delegates from their respective governments together with many other of distinction. The president of the congress put the question and the gentlemen named were elected in the usual manner by acclama-

A delegate: "Mr. President, I would like to ask, sir, if it is proper to elect as vice-presidents those who are not members of the congress. I protest and move to amend-

President Davis: "It is hardly proper to interrupt the proceedings now. It was impossible to know who would be here in person. The gentlemen named were notified and they all accepted the places.

"The list as read is elected, and I have the honor to invite the vice-presidents to seats on the stage.

Drs. Wm. B. Atkinson, Philadelphia, George Byrd Harrison, Washington, and Henry Barga, of France, were elected associate secretaries; Dr. E. S. F. Arnold, New York, treasurer; Dr. Richard G. Dunglin, Philadelphia, chairman finance committee; Dr. Henry N. Smith, Philadelphia, chairman executive committee; Dr. A. Y. P. Garnett, Washington, chairman committee of arrangements. Presidents of the various sections were also elected, and the secretary-general read his report.
Dr. A. Y. P. Garnett, charman

committee of arrangements, announced the social programme for the congress. It includes a conversazione this evening at the Pension Office, an informal reception by the President and Mrs. Cleveland tomorrow, a lawn party by Hon. Josiah Dent, a reception by Secretary and Mrs. Whitney, a reception and buffet banquet at the Pension office, a visit to Mt. Vernon upon United States ves-Falls. He said it was a source of regret and embarrassment that the month of September had been se-Carlisle, sixth congressional district | lected for the congress and the committee felt it a duty to explain the abfor which Washington was so widely known. It was, he said, due to the absence from the city of so many of those who were at other seasons wont to open their doors to visitors.

President Davis now introduced of the United States, who welcomed

dress:

Gentlemen of the International Medical Congress:

The pleasing duty has been assigned to me of giving expression, in the name of my fellow-countrymen, to the gratification felt by us all that you should have selected this capital to be the scene of your ninth congress, and cordially to bid you welcome. The world is becoming better acquainted; social assimilation has progressed; small provinces and minor kingdoms are federalizing into great empires; international intimacy suffers less obstruction; the broad and powerful current of literature is siently wearing away the banks of geographical prejudice, and a spirit of common brotherhood, of mutuality and inter-dependence is expanding itself irresistibly over the barriers gress. kind.

and benevolence of such inon a scale that princes may envy but have never surpassed, of schools of science, colleges and universities open for the intellectual training and advancement of all who desire to share and are competent to receive such benefits. Your congress is held, gentlemen, in the closing year of the first century of our national existence, and what has been here accomplished in the line of scientific edification and equipment owes comparatively little to official or governmental assistance. To no system of proscriptive privilege, but to individual energy, enterprise and generosity we owe what under God we now possess of such things, and the non-interference by the government has proved a promotion and not a hindrance in our advancement. Busy in every department of industrial pursuit, engrossed with diversified occupations and burning with breathless energy that has left its traces uponthe physiognomy of our people, yet, believe me, we are not deaf to the calls of humanity nor lacking in appreciation and grateful respect for the votaries of science. We welcome this congress as guardians of the sanitation of the nations. In your profession we recognize the noblest school of human usefulness, and in the progress of the de velopment of the laws of cure, mitigation of suffering, prolongation of human existence and efforts to discover the true principles and conditions by which life can be made "worth living," we have learned to appreciate our debt to those whose highest reward is the "still small voice of gratitude" and the consciousness of benefaction to the human race. Gentlemen, I confidently promise your convention a worthy audience, not alone the members of your profession, here assembled nor to the imited number whom this building can contain, but that vaster audience to whom upon wings of electrical

force your message will be daily borne far and wide to the listening ear of more than sixty millions of American citizens. Sure am I that your message will be worthy and equally that your thoughtful deliverances will be welcomed by the continent. The closer relations of mankind which modern invention has induced, have been necessarily accompanied by increased sels and an excursion to Niagara dissemination of disease, and the need is obvious of frequent international conference, that, in the grand sweep of scientific observation new discoveries in the healing art may be promptly tested and applied sence of that boundless hospitality in counteraction. Forgive me, if, as one of the great army of patients, humbly petition the profession, that in your deliberations nature may be allowed a hearing when remedies are proposed; that her vis medicatrix may not be omitted in computing the forces Hon., T. F. Bayard, Secretary of State of cure, and that science may be restricted as often as possible to sound-

the congress in the following ad- ing the alarm for nature to hasten, as she surely will if permitted, to the defense of the point assailed. My duty is very simple and I fear I have already overstepped its limit, for there was indeed little more for me to say than to repeat the words of the ancient dame whose cottage was close by the battlefield of Waterloo, and, being somewhat deaf and hearing the sound of the artillery when the famous "pounding" was the hardest, thought she heard some one knocking at her door and simply said "Come in." This may seem an unscientific illustration of auscultation and percussion, but you need not make half the noise of Wellington or Bonaparte, and I can assure you the American people will hear you, and heartily say

o you as I do for them, "Come in." The welcome was acknowledged and responded to briefly by Dr. Wm. Harris Lloyd, Inspector General R. N., on behalf of Great Britain; Dr. Leon Laforte, of Paris, on behalf of France; Prof. P. G. Unna, of Hamburg, on the part of Germany; Senator M. Semmala, of Naples, for Italy, and Sir Charles Reyner, of St. Petersburg, representing the govern-ment of Russia. Prof. Unna spoke in German, Drs. Semmala and Laforte in French.

President Davis having called one of the vice-presidents to the chair, proceeded to deliver his opening ad-

The presiding officer proposed a vote of thanks to Prof. Davis, which was enthusiastically accorded, and then he announced the Congress adjourned till ten o'clock tomorrow.

There has been but one case of friction in the proceedings so far as has been learned. Some days ago the committee invited Dr. Francisco Durante, of Rome, to answer in the name of Italy to the welcoming address. Later when Senator Semmals arrived he claimed it as a right that ie should make the response, representing the government of Italy. The committee felt constrained to make the change and notified Prof. Durante. This gentleman is much offended and has withdrawn from the cengress. He claims that he, and not Senator Semmala is the representative of the Italian government.

In Brief, And to the Point
Dyspepsia is dreadful. Disordered liver is

The human digestive apparatus is one of the most complicated and wonderful things in existence. It is easily put out of order.

Greasy food, tough food, sloppy food, and cookery, mental worry, late hours, irregular habits and many other things which onght not to be, have made the American people a nation of dyspeptics. But Green's August Flower has done a

wonderful work in reforming this sad business and making the American peo-pleso healthy that they can enjoy their meals and be happy.

brings health and happiness to the dys-peptic. Ask your druggist for a bottle. leventy-five cents.

Glanders is so prevalent in Philalelphia that radical measures have been adopted to eradicate it.

When used according, to direction Ayer's Ague Cure is warranted to eradicate, from the system, Fever and Agues Intermittent, Remittent and Bilious Fe-vers, and all malarial diseases. Try it.

A brakeman, named Nordaby, leaped from his train into the Housatonic River and rescued a lady from

Once said that the secret of good health consisted in keeping the head cool, the feet warm, and the bowels open. Had this eminent physician lived in our day, and known the merits of Ayer's Pills as an aperient, he would certainly have recommended them, as so many of his distinguished successors are doing.

The celebrated Dr. Farnsworth, of

Norwich, Conn., recommends Ayer's Pills as the best of all remedies for "Intermittent Fevers." Dr. I. E. Fowler, of Bridgeport, Conn., says: "Ayer's Pills are highly and universally spoken of by the people

about here. I make daily use of them in my practice." Dr. Mayhew, of New Bedford, Mass., says: "Having prescribed many thousands of Ayer's Pills, in my practice, I can unhesitatingly pronounce them the

best cathartic in use.4 The Massachusetts State Assayer, Dr. A. A. Hayes, certifies: "I have made a careful analysis of Ayer's Pills. The contain the active principles of well-known drugs, isolated from inert nutter, which plan is, chemically speaking, of great importance to their usefulness. It insures activity, certainty, and uniformity of effect. Ayer's Pills contain no metallic or mineral substance, but the virtues of vegetable remedies in skillful combination."
