NATIONAL EXPOSITION FOR THE COL-ORED PEOPLE-ANOTHER PROPOSED APPLICATION OF THE SURPLUS-OTHER NEWS.

By Telegraph to the News and Observer, WASHINGTON, March 20 -SENATE -Among the bills reported from committees and placed on the calendar were the following : A bill to encourage the holding of

a national industrial exposition of the

arts, merchandise and products of the

colored race in the United States in A bill to authorize the Secretary of the Treasury to apply the surplus money in the treasury to the purchase of United States bonds and to the prepayment of interest. (Notice was given by Mr. Aldrich, who reported

an early date.) Mr. Blair, who yesterday intro-duced a bill giving the preference for civil service appointments among men who had been disloyal during the Confederate army and who were suffering from wounds or disabilities. asked Mr. Platt (who had objected to government demanded an explanation the second reading of the bill) to

this bill, that he would call it un at

Mr. Platt said that he could not object to the bill being read a second time today and referred to the committee. His objection yesterday had been based upon what seemed to be an inference from the title of the bill.

Mr. Blair remarked that the object of the bill was simply to provide that in appointments to the civil service made from among those who had been disloyal preference should be given to those who were suffering from wounds or disability resulting federacy. He had introduced the bill in entire good faith. He understood that in the State of North Carolina there were today 20,000 ex-soldiers limbs in the service, and that a very large number of them were in poor circumstances. It seemed to him that if the government under this administration or under any other administration gave appointments to the men who had been disloyal, preference should be given to those who had served in the Confederate army and were now disabled (other things being equal).

Debate on Mr. Blaur's bill was cont-nued up to 2 o'clock, when at his suggestion, the bill went over till tomorrow without action.

Speeches were made by Messrs. dleberger, Hampton, George, Manderson, Daniel and Hawley. The Southern Senators, while expressing the kindliest feelings for the generosity and philant rophy which had prompted the introduction of the bill disclaimed all desire on the part of ex-Confederates for the passage of any such exceptional measure, but thought that as a matter of courtesy and uniformity of practice the bill should be read a second time and referred. The Northern Senators were of one accord in considering the meas-

ure as unwise and ill considered. The Senate then passed bills to provide for warehousing fruit brandy, for the relief of the iron clad buildersthe Perines and the McKays, touch-

The Chronicle shows by elaborate tables of statistics that the prices of domestic wools have ruled higher under the low tariffs of 1846 and 1857 than under the pet tariff of 1865, and points out how France and Germany, after vainly trying to foster native wool growing by tariff taxes, were at chased from Cyrus W.
