NEWS OBSERVATIONS

- An epidemic of tragedy is presiling in New York. -Senator J. B. Eustis, who has been quite ill at his residence in New Orleans during the past ten days, is now believed to be out of danger.

-All the inhabitants of the village of Malental, in Abyssinia, have been butchered by order of King John, because it is alleged they favored the advance of the Italian forces.

-M. Floquet, as President of the new Cabinet, unfolded his programme to the French Chamber of Deputies, urging the necessity for united republican action to carry out the many important measures he named.

-Tue doctors appointed to examine into the health of Jacob Sharp reported that he is in no condition to be exposed to physical exertion or mental excitement, and argument in the case was postponed until the 11th

—During the past year \$33,000 has been realized from cabbages shipped from Wythe county, Va, in car-load lots alone. In addition it is estimated that the railroads realized about \$24,-000 from the freights on these cabbages. This is a handsome sum of money to go to one county for an "infant industry."

-Tammany's expedition to St. Louis, on the occasion of the Democratic national convention, is to be on an extensive scale. Fifty rooms have the removal of the duty on sugar and already been engaged at the Southern already been engaged at the Southern

CONTINUATION OF THE FIGHT IN THE HOUSE OVER THE DIRECT TAX BILL-OTHER NEWS.

By Telegraph to the News and Observer. WASHINGTON, April 5 .- SENATE-The House bills to remove the politi cal disabilities of Wm. W. Mackall. of Virginia and to provide terms of United States courts at Vicksburg, Miss., were reported from the judiciary committee and passed.

Mr. Wilson, of Iowa, addressed the Senate on the subject of the President's annual message. He quoted the figures contained in the last annual report of the Secretary of the Treasury, showing the receipts and expenditures of the government for the last three years, the aggregate of receipts over expenditures being \$178,000,000 or an average of \$59, 000,000 a year. The result thus disclosed, he said, presents the limit within which Congress should move in the matter of reducing the revenue. However much Senators might differ as to methods of reduction, all would doubtless agree that the revenue should be reduced. The mos: favorably to him (Wilson) was bounty to American sugar producers. HOUSE. The fight over the direct tax bill

This motion having been defeated, Mr. Lanham, of Texas, at 12:20, raised the point of order that the day ceeded to argue in favor of the point.

Mr. Reed inquired of the Speaker how it was that the gentleman obtained the floor when there were seve-al motions pending to adjourn to a day certain. The Speaker replied that the point of order was intended to operate as an estoppel of those motions. Mr. Lanham suggested that Mr. Reed permit him to air his parliamentary knowledge in order to vary the monotony of the proceedings. He then proceeded to argue with frequent citations from previous decisions that the Speaker had the power to say that under a common sense construction of the rules the

order assigning Tuesday and Wednesday for consideration direct tax bill expired. To adopt any other construction would be to violate the intention of the committee on rules in reporting the assignment and of the House in agreeing to it. A clear construction of the assignment would

show that it applied not to the legislative day but to the calendar day. If we remain true to our principles | The Speaker disclaimed any power to adjourn the House and held that as long as the House refused to adjourn precedents for his decision and especase of the electoral commission bill, when the legislative day extended over thirty calendar days. He over-

ruled the point of order. Mr. Lanham suggested that the legislative day of Wednesday might continue until December. Mr. Grosvenor, of Ohio, extended

the suggestion by remarking that it might continue until March. The Speaker: "It might last until the terms of the present members

expire. Mr. Buchanan, of New Jersey "And it will." Mr. Wilson, of Minnesota, attempt ed to find a flaw in the decision of the Speaker, but as the Speaker was forti-

fied with a long line of precedents, the attempt was unsuccessful. The dreary round of roll calls on dilatory motions was then resumed. In an interval between the votes Mr. Hatch, by unanimous consent, introluced the following resolution:

Resolved.
