THEY say the Old Roman's bandanna is a yard wide. It is certainly all Democracy. Let the boys make a note of it.

Germany has had three Emperors within about three weeks and still it is not happy. It doesn't know exactly how the third is going to turn out.

The fight to seat the sixteen Mahone district delegates to Chicago is in the interest of Sherman for the Presidency. This is now acknowledged.

Boalby, too, has hopes of being struck by the lightning at Chicago. He has run up his rod. It must be a free for all fight, indeed, if such a disgraceful character as Ingalls can be counted in.

It is probable that New York could name the nominee at Chicago if she were not divided as she is. The ancient lesson of the twigs bundled and the twigs loose will never be thoroughly drawn.

Derow looks like Forepaugh the circus man, and possibly (?) the New Yorker's supporters have been relying on this somewhat to catch the votes of the twenty-ones, whose recollection of the saw-dust ring are fresh. But the majority of the young men of the country are much too fore-handed politically for this.

Elsewhere we print a circular letter from the headquarters of the National League of Democratic Clubs. We present it in full as North Carolina should and we trust will be well represented in point of numbers, character and ability at the convention to which it chiefly refers.

McKinley, of Ohio, will be chairman of the Republican platform committee. Our people know what that means. Mr. McKinley is the leading advocate of high protection in the country, and what the great majority want is a stoppage of excessive taxation and a reduction of the tariff to a revenue basis, with such incidental protection as may result in this way but with no other under the sun. Mr. McKinley of the people will not have.

Even old Mr. Tverts has his little boom and why wouldn't he make as good a candidate as any other the Republicans could have, worm-eaten political chestnut though he be? Whoever is named by our friends the enemy is to be defeated by our Grover. So why not Mr. Everts, who, while a lawyer of his art and ability, has no qualification for political leadership, as well as anybody else?

So Chaucer thinks his chance is good and takes his place in the ring. This will not add to the strength of Sherman, in whose favor Dewey was to have withdrawn according to the reports at one time.

Sherman claims twenty of the twenty-two votes from North Carolina.

THE LEADING ISSUE.

We note with pleasure that Messrs. Ferguson and Elias, the speakers in the Democratic county convention of Swain took strong ground on the Democratic proposal to stand by revenue reform and the maintenance of the present system of county government. Anything else than the latter means negro domination in the east, consequent serious injury if not ruin of all real interests in that section, and a reaction to the hurt of the whole State; for what damages one section must operate are harmful to all other sections.

The injury to any part means injury to the whole in some degree, unquestionably. The maintenance of the supremacy of the white man and a continuance of the honest, efficient and economical government afforded by the Democracy are the two points that make up the leading issue before us in the State. This issue all are interested in from Tennessee, to the ocean, from Virginia to our neighboring State on the south. This must be made our first care, must be rendered sure, because upon it rests all that is held most dear by the North Carolinian, whether he dwell by the seashore, in the middle section, or where the verdure-clad mountains of the west rise the skies and move the soul of man to adoration of the Creator.

As the Asheville Citizen says, in reporting the remarks of Messrs. Ferguson and Elias to which we have referred: "Mr. Ferguson boldly assumes that the discontent of the west, if it exist, will never go to the extent of peril to their brethren of the east. Discontent has been fomented, not because the white man have lost anything under the present system, but because the Republican party hope to gain everything by its overthrow. And as the Republican party has its strength among the black men, being in the proportion of one white man to three negroes, such overthrow would be the triumph of the black over the white; and the counties of the east would again be subjected to hateful, waseful, ruinous domination of the race whose excesses made necessary the change in county government, now complained of."

This is the land of the white man; it is a pleasant land; a goodly land to dwell in; it must be kept the land of the white man, for the white man's child and grandchild, even as it has been bequeathed to the descendant now living of the Anglo Saxon who conquered it from savagery.

The celebration of the completion of the Cape Fear & Yadkin Valley Railroad, North Carolina's own great iron highway, to Mt. Airy, which is to be held tomorrow at Mt. Airy, will be the "biggest" thing of the kind that ever took place in the State. Mark the prediction! Moreover the occasion will be fully worthy of the "bigness" of the celebration in all respects. It will mark the completion for the present in one direction of one of the most important lines, if not the most important line, of rail way in the State, to the people of the State themselves. Then the line is thoroughly North Carolinian, built by North Carolinians, owned by North Carolinians and operated by North Carolinians in a way highly creditable to the State.

We well indeed may the people of the State rejoice over its completion to Mt. Airy, one of the most salubrious, beautiful and promising of North Carolina towns, and we may the rejoicing be of such magnitude as is seldom indulged in within our borders.

All is still in chaos at Chicago. Sherman the Malignant, the leader of the Malignants, is really very strong and will probably lead by a good many lengths on the ball. But there are rumors of treachery in the Ohio delegation and it is intimated further that the Dewey and Fitch movements are in reality but one Blaine ambush, from behind which, when the right time comes, the Tattler's forces from New York and Pennsylvania will be thrown in a mass to the rescue. At this same time there is the statement that Walker Blaine, who is in Chicago, will, before the convention meets, call together his father's supporters and inform them that his father really is not a candidate and would not accept a nomination. Moreover, it is said he is prepared by means of letters and so forth which he holds to convince his hearers that what he says is true. So they are all at sea still, and there is nothing to base a prediction upon as to the outcome.

The new Supreme Chancellor of the Knights of Pythias looks like our Senator Ransom. This means that he is a very handsome man. Whether he has anything like the ability of the Senator is another question. Men as accomplished, as learned, as well equipped for public life—men as statesmanlike as Ransom are not found every day, by a good deal.

We have Bulletin No. 1 from the North Carolina Agricultural Experiment Station, Raleigh, H. B. Battle, Ph.D., director. It is entitled "Home-Made Fertilizers and Composts, and the Ingredients used in them, including Analyses of Chemicals, and Fertilizing Ingredients such as can be saved on every farm." Copies can be had on application to the Station.

One of the constraining motives at Chicago is the fact that the Republicans have to nominate a man whom Jay Gould will subscribe to help elect. This is what makes against a man of respectability like Judge Gresham.

So Chaucer thinks his chance is good and takes his place in the ring. This will not add to the strength of Sherman, in whose favor Dewey was to have withdrawn according to the reports at one time.

Sherman claims twenty of the twenty-two votes from North Carolina.

Death of Col. S. B. Spruill.

In Coleraine, Bertie county, on Tuesday, the 12th inst., Col. S. B. Spruill departed this life, aged nearly eighty years.

The announcement of the death of this well known and most highly esteemed gentleman will carry a thrill of regret to very many hearts throughout North Carolina, whose loving son he ever was and to whose fair renown he had contributed in days gone by years of honorable and devoted service.

Col. Spruill was born in Tyrrell county, N. C., on the 9th day of November, 1808, and at the age of sixteen was entered, after careful preparation, as a cadet at the United States Military Academy at West Point, but, on account of some youthful escapade (I have been told the cracking of a fellow-cadet's head for a personal affront), he was retired from that institution before graduation.

In 1830 he was licensed by the Supreme Court to practice law, which profession he followed unremittingly (save during the period of the war) until his death, when he was in the prime of his life, and in the fullness of his strength.

He was frequently called by his fellow citizens to represent them in the legislative halls at Raleigh, being at different periods honored as the representative from Bertie, Northampton and Tyrrell counties. In this sphere he acquitted himself most creditably, making a record alike honorable and efficient as a fearless and ready champion of his constituency and their rights as well as of North Carolina in general.

During the late civil war he was the first regimental commander of the 19th N. C. troops (the 2d cavalry) and saw much active service with this justly famous command to which he was always most affectionately attached.

He was a man of strong personal convictions, sincere and ardent in his attachments, yet unostentatious in his position toward an enemy.

Of a frank, genial and generous nature he won many friends to him both from the young and old, who mourn today over the grave which hides him from our sight forever—for the loss of a good, honored and useful citizen, a loyal friend and a good man gone—we trust and he believe, to an eternal happy rest.

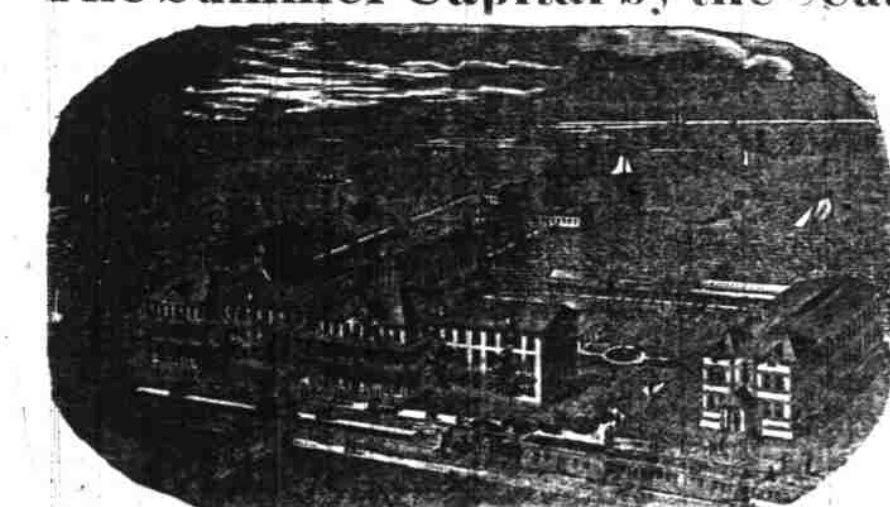

Mr. Samuel B. Spruill, of this town, a son of the deceased, is the only representative left of Colonel Spruill's family.
