THE vote on Johnston's proposition to wipe out all internal taxes on spirits distilled from grain or fruit was 27 in favor of the proposition and 135 against. And yet the Republicans pretend that they favor the repeal of the internal revenue taxes!

THE date fixed in the Mills Democratic bill for the repeal of the tobacco tax is October 1st. But the Republicans are fighting it tooth and nail. Let us see how John Nichols will resort to Col. Dockery's "technical manœuvring" to avoid voting to repeal the tobacco tax.

Resolved. That, to meet an existing evil, we will accept, for educational pursoses, from the Federal government, our pro rata share of the surplus in its treasury; Provided, that it be disbursed through State agents and the bill for the distribution be free from objectionable fraturs.

Resolved, That the United State being one government and ours a national party, we denounce the efforts of the Republicans to force sectional issues in Congress and elsewhere, and to promote dissension and ill-will between the people of the different sections of our common country.

Resolved, That it is due to the propie of our eastern counties, who have so cheerfully borne-

different sections of our common country.

Resolved, That it is du's to the propic of our castern counties, who have so cheerfully bornetheir share of our common burdens, that the present or some equally effective system of counties, that the present or some equally effective system of county government shall be maintained.

Resolved, That the Democratic party is oprosed to any further extension of the "No-fence" law, unless such extension shall have first been authorized by a majority of the qualified voters within the territory to be affected thereby.

Resolved, That the Democratic party has ever been the party of the workingman, and has never fostered monopolies, nor have "trusts" or "combinations" or "pools" ever grown up under laws emacted by it. The contest in this country being between aggregated capital, seeking to crush oul all competition, and the individual laborer, the Democratic party is, as it has ever been, against the monopolist and in favor of a just distribution of capital, and demands the enactment of laws that will bear equally upon all.

Resolved, That as all taxation bears most heavily upon the laborer, it is the duty of the legislator, as a direct benefit to the workingman, to keep the expense of our public institutions at the lowest limit consistent with wise and efficient management. The Democratic party opposes any competition between free and convict labor, but it insists that con iets shall not remain idle at the expense of honest labor.

Resolved, That ours being an agricultural State it is our duty as well as our pleasure to promote any and all legislation that is best calculated to advance the interests of agriculture; and that in so doing we will most effectually advance the interests of agriculture; and that in so doing we will most effectually advance the interests of mechanics, manufacturers and laborers.
