Special to the News and Observer. SHELBY NOTES. SHELBY, N. C., July 31.—The boiler of J. P. Arrowood's plaining mill at Rutherford exploded at eleven a. m. Arrowood and John Canon narrowly escaped death.

Chairman Whitaker and the Clubs. RALEIGH, N. C., July 30, 1888. Mr. Hal W. Ayer, President Young Men's Democratic Club.

Dear Sir:—Your letter of this date asking my advice as to the propriety of having a convention of delegates from all the clubs in the State for the purpose of creating a State organization, has been received.

As early as the 12th of June the State Democratic Executive Committee sent to every township in the State letters urging the immediate formation of Cleveland-Fowle clubs and a form for club constitution and by-laws, one of the articles of the constitution requiring the president of the club to report once a week to the chairman of the State Executive Committee.

Mr. Beck made a point of order on the amendment and proceeded to argue it. If this amendment were decided to be in order the effect of the decision would be that hereafter, for all time to come, the rule of the Senate would be, that the Senate might attach to the sundry bill appropriations for public buildings, for the House to act upon them, and force the President to approve them or whether he objected to them or not.

CONGRESS. PROCEEDINGS YESTERDAY IN SENATE AND HOUSE. THE M. C. RAILROAD FUNDING BILL.

WASHINGTON, July 31.—SENATE.—The House bill removing the political disabilities of Elliott Johnson, of Accomac county, was reported and passed (with a verbal amendment). Mr. Frye from the select committee on Pacific railroads, reported the Union Pacific funding bill providing for the settlement of claims growing out of the issue of bonds and to secure the payment of all indebtedness.

Mr. Frye from the select committee on Pacific railroads, reported the Union Pacific funding bill providing for the settlement of claims growing out of the issue of bonds and to secure the payment of all indebtedness. He said the bill in the Outward bill as reported to the House, containing many amendments over the bill as it came from the commission originally.

Mr. Frye read the paper referred to and said the act of the New York Life Insurance Company had been requested to prevent the statement, and that it was possible that when received the committee might act on it as an amendment to the bill.

Mr. Riddleberger, from the committee on manufactures, reported the bill providing that the surplus from the appropriation made for the Centennial Exposition of the Ohio Valley may be used for the exhibitions at Augusta, Ga., and Richmond, Va. Referred to the committee on appropriations.

The Senate resumed consideration of the sundry bill appropriation bill, the pending question being on the amendment offered yesterday by Mr. Spooner, as chairman of the committee on public buildings and grounds, appropriating \$75,000 for a public building at Atchison, Kansas.

Mr. Beck made a point of order on the amendment and proceeded to argue it. If this amendment were decided to be in order the effect of the decision would be that hereafter, for all time to come, the rule of the Senate would be, that the Senate might attach to the sundry bill appropriations for public buildings, for the House to act upon them, and force the President to approve them or whether he objected to them or not.

easy of it. The amendment was rejected—yeas 16, nays 24. Mr. Plumb offered an amendment providing that supplies the result of prison labor shall not be purchased for use at national soldiers' homes.

Mr. Brown offered an amendment appropriating \$10,000 for an arsenal well at the United States Arsenal near Augusta, Ga. Agreed to. Mr. Call offered an amendment appropriating \$10,000 to be expended at the discretion of the Secretary of the Treasury for the recovery of property of the United States now held in adverse possession to the government.

Mr. Sherman opposed the amendment and spoke of the hope of recovering property which had belonged to the Confederate States as an inalienable one. The debts of those States were a lien on their property. The proposition was simply to give some gentlemen a pleasant trip to Europe.

Mr. Sherman also argued against the amendment on like grounds. He said that several years ago he had been consulted and had advised against such an attempt and had declined to have anything whatever to do with it.

Mr. Call spoke in support of the amendment. Mr. Cockrell opposed it and spoke of the fairy tales of the wealth of the defunct Confederacy as being only equalled by the stories of the immense wealth stored up in England belonging to American heirs.

Mr. Edmunds—Of course they can be all accounted for, because they all belonged to the British navy at that time. They were just as much a part of the British navy then as they are now.

Mr. Blair—Is it necessary for the Senator from Missouri to use the words "Confederate States" so often? I don't think that expression should be made use of.

Mr. Blair—Anything you please, but do not say "Confederate States" or "Coddederate Treasury" or anything of that kind. Mr. Blair—I only express my feelings in the matter. The Senator may go on and violate them. There are other Senators just as sensitive on the subject as I am.

Mr. Blair—I have no doubt of it, and I beg those Senators' pardon. I am not trying to stun their sensibility, but I am simply reading what the Senator from Florida has compelled to be brought out in this discussion.

this by fixing the limit for the site at \$400,000, without making any provision for the building. As agreed to in the conference, the bill provided a limit of \$1,200,000 for the building and site, with a further proviso that the site shall not exceed in cost \$400,000.

Mr. Crip, of Georgia, severely criticized the practice which, he said, had grown up of the House conferees yielding to the Senate conferees in the matter of public buildings without even a semblance of insisting on the wishes of the House.

Mr. Dibble replied to what he termed the lecture which the gentleman had given the House conferees for their alleged delinquency of duty. When the House decided that a lot should be purchased in Omaha for the sum of \$400,000 it decided in effect that the lot should be used for the erection of a public building and it reserved the right to say in future that the limit of the cost should be put on the building.
