YELLOW JACK. ST. LOUIS' HANDSOME DONATION TO THE SUFFERERS. THE EFFECT OF THE COOLER WEATHER—THE SITUATION—OTHER NEWS.

ST. LOUIS, Sept. 29.—One thousand dollars have been sent to Jackson, Miss., by this morning's mail and a like amount will go to Decatur, Ala., today out of the general fund for the yellow fever sufferers subscribed in St. Louis, which now amounts to over \$9,000.

WASHINGTON, Sept. 29.—The Marine Hospital Bureau is informed that there are now 146 persons at Camp Perry and six in the fever camp.

Mr. McQuaid, of the Jacksonville Citizens Committee, suggests to Dr. Hamilton that arrangements be made so that physicians and acclimated persons, especially those who have experienced an attack of the fever during this epidemic, shall be exempted from the ten days quarantine at Camp Perry after property fumigating their clothing and baggage.

JACKSONVILLE, Fla., Sept. 29.—Up to noon today 48 new cases of yellow fever were reported, of which 21 were white. One death—that of G. J. Hollenbeck, the telegraph operator from Memphis, a volunteer who recently came here.

A Story Told. BY Cable to the News and Observer. LONDON, Oct. 29.—The officers of the Inman steamship line state that the dispatch from Queenstown yesterday saying that two passengers on the steamer City of New York were thrown to the floor and sustained fractures of their ribs and that another became insane and was put in a straight-jacket during gales while the vessel was on her last voyage from New York was untrue.

The Public Debt. BY Cable to the News and Observer. WASHINGTON, Sept. 29.—It is estimated at the Treasury Department that there has been a decrease of \$14,500,000 in the public debt since September 1. The total amount of bonds purchased under the circular of April 17th, is \$60,186,900, of which \$41,831,700 are four and a half, \$18,555,200 are four and a half, their cost was \$73,340,268, of which \$63,415,353 was paid for four and a half, and \$9,924,915 for 4 1/2.

Total Week's Supply of Cotton. BY Cable to the News and Observer. NEW YORK, Sept. 29.—The total visible supply of cotton for the world is 831,872 bales, of which 568,372 are American; against 1,606,942 bales and 1,018,142 bales respectively last year. Receipts at all interior towns, 68,258 bales. Receipts from plantations, 153,365 bales. Crop in sight, 600,000.

Weekly Bank Statement. BY Cable to the News and Observer. NEW YORK, Sept. 26.—The following is the weekly bank statement: Reserve, increase, \$2,813,450; loans, decrease, \$690,000; specie, increase, \$4,726,700; legal tenders, decrease, \$1,311,800; deposits, increase, \$2,405,800; circulation, decrease, \$1,091,300. The banks now hold \$14,557,275 in excess of the 25 per cent rule.

Head Offerings and Acceptances. BY Cable to the News and Observer. WASHINGTON, D. C., Sept. 29.—Bond offerings at the Treasury today aggregated \$474,000. All accepted, at 107 1/2 for four and a half and 130 for fours.

WALTON COVE, N. C., Sept. 29.—Considerable frost here this morning. Slight damage to tobacco. (Correspondence of the News and Observer.) RALEIGH, N. C., Sept. 29, 1888. Mr. Editor.—I observe in the Chronicle of this city, an extract from the Raleigh Standard of 1868, in which allusion is made to the weather of North Carolina. I ask space in your paper to say that I was not the writer of the article from which the extract was taken, and that I was not the owner of the Standard at the time the article appeared.

W. W. HOLDEN. A dispatch from Marshall, Ills., says: "A wedding entirely out of the usual run was that of Rev. John Holston and Mrs. Matilda Pierson Friday. The groom is 42 years old, of medium height and weighs about 150 pounds, while the bride is nearly six feet tall, weighs fully 250 and is close to 80 years of age. She has a son several years older than her husband. Holston claims to be a preacher of the Campbellite denomination. He has lived in Wabash township a little over three years. Senator Coke did not care to sell his boot by kicking Billee Chandler, but the viper was practically kicked to the satisfaction of the country all the same. When will our most august legislative body cease to be disgraced by the membership of such a contemptible little person as the Senator from New Hampshire, whose whole aim and study seem to be to stir up strife between the sections?"

THE FAILURE OF WILLIAMS, BLACK & CO. Only a Temporary Embarrassment. BY Cable to the News and Observer. NEW YORK, September 29.—The failure of Williams, Black & Co., commission merchants of No. 1 Warren street, whose suspension was announced yesterday on the Produce Exchange, was only a temporary embarrassment, and before the Exchange opened this morning, a member of the firm called on Superintendent Howland and announced that the firm was ready to settle with their creditors in full. The firm's trouble was caused by the fact that its surplus capital was locked up in a bogus

VIENNA, Sept. 29.—The artillery practice yesterday at which the Emperor Francis Joseph narrowly escaped being shot took place at the Steindl range. The Emperor had ordered that the bugler sound the great to cease firing in order that he might inspect the target. The officer in command of the battery, located a thousand yards away, did not hear the signal and as it was impossible for him to see the Emperor as he advanced, owing to a depression in the ground, the battery again fired. Fortunately the Emperor and his suite were out of the line of fire and consequently were not hurt. Orders were issued for the battery to cease firing and the Emperor and his suite were out of the line of fire and consequently were not hurt.

Illinois for the Democracy. NEW BERN, N. C., Sept. 29.—We are not of those who have been claiming Illinois for the Democracy, but the following special from Chicago to the New York World is significant and raises expectations not heretofore indulged in (Chicago, Sept. 25). The Democratic State Committee is stated over three recent addresses to the Democratic rally in Illinois that will be of great importance in the coming election. A joint meeting of the Grievance Committee of the Brotherhood of Locomotive Engineers and Firemen, the Switchmen and Brakemen, has adopted a resolution to support General Palmer, the Democratic candidate for Governor, and has requested the co-operation of all the subordinate lodges of each order in the State. There are about twenty-two thousand brotherhood men in the State who will vote almost unanimously for Palmer. The employees of the Union Steel Works, the largest institution of the kind in Chicago, met Sunday and also voted to support Palmer. Last night the United Labor Party met in its headquarters and unanimously passed a resolution pledging the party to vote for Palmer. The United Labor men have about six thousand votes in Cook county alone.

Old Hatch's Corner. A Chicago special of the 28th says: The inevitable calm after the storm yesterday prevailed in the wheat pit this morning. Up stairs in the visitors' gallery men and women had packed themselves like sardines in anticipation of a renewal of yesterday's excitement. Down stairs "Old Hatch," with the collar of his overcoat buttoned around his ears, sat in an arm-chair and smiled grimly on the army of brokers that surrounded him and wanted to know when he was going to let up. "I have no wheat for sale," he said, "and I don't know what the price is or will be. I may have some on tap between 12 and 1 o'clock." That was all the satisfaction the shorts could get. Cash wheat opened at 1.25, last night's closing price, then went in jumps to 1.30, 1.40, 1.41, 1.45, and finally, at 1.20 to 1.50. The trades however, were small. Five thousand bushels of September were sold at 1.50 by Lendbloom to one of Hutchison's brokers, Lendbloom having paid a dollar for it less than a week ago.

After this sale the price receded to 1.49. A broker close to the confidence of "Hatch," said the present price of September wheat was not a circumstance to what May and December would be before long. It is the general impression that Hutchison will keep the market at \$1.50 in order to compel settlement at those figures. People behind the scenes estimate his profit on the corner at a million and a half dollars. Commission houses have this morning been taking a few orders as possible with the view of settling their open deals and setting their margins down.

A Gully-washer and Trash-lifter. GREENSBORO WORKMAN. If there is a man between the heaven and earth we would walk twenty-five miles before breakfast on a rainy day to hear speak, it is W. H. Kitchin, of Halifax. His speech in the court-house here last night was a "gully-washer and trash-lifter," so to speak, and will kindle anew the fires of patriotism in every white man's heart who listened to his masterly effort. With a few more such men on the canvass, North Carolina will roll up a thirty thousand dollar majority for Cleveland and Fowle.

A SNOW STORM. IT RAGES FOR TWO HOURS OR MORE IN A MARVELL TOWN—NEWS OF COOL WEATHER ELSEWHERE—OTHER NEWS.

BALTIMORE, Md., Sept. 29.—A special from Deer Park, Md., timed 1 p. m., says a snow storm has been raging there for the last two hours. SNOW IN VIRGINIA. HARRISBURG, Va., Sept. 29.—A light snow fell here today. The mountains in this county are covered with it. Weather very cold.

FITFUL FALLS OF SNOW. ROANOKE, Va., Sept. 25.—Fitful falls of snow fell today at Pulaski City, Pulaski county, and a light fall in the mountains. DAMAGING FROST AT LYNCHBURG. LYNCHBURG, Va., September 29.—A heavy frost fell through this section last night, and it is thought a great deal of tobacco has been ruined.

Jubilee at Clarkston. CLARKSTON, N. C., Sept. 29.—The largest and most enthusiastic crowd assembled at Clarkston today and raised a Cleveland and Thurman flag one hundred and twenty-five feet high. The county Democratic candidates all made telling speeches. Major Stedman closed the occasion with one of the finest speeches ever presented to our people on all the great issues of the day.

Asheville and the West. Cor. of the News and Observer. ASHEVILLE, Sept. 28.—It is authoritatively announced this morning that the R. & D. R. Co. company will, at an early day, put a through passenger train on the line to run direct from Washington city to Asheville. It will be a special train made up of parlor cars and sleepers. In view of the yellow fever epidemic and panic continuing well on into the winter season, large numbers of Northern people who heretofore have sought Florida in the cold months will come to Asheville; and it is to accommodate this anticipated travel that the new line is to be established.

It is publicly announced here that the Richmond & Danville Terminal Company have concluded a lease of the East Tennessee, Virginia and Georgia Railroad and will merge the line of that corporation in the Richmond & Danville system. The effect of such a change, it is thought, will be highly beneficial to Asheville, giving us freer and easier connections westward and southward.

The Third Party men here are much in earnest, and Fisk and Wilker will receive some votes in Buncombe. An estimate would be mere guess-work now. Politicians who profess to know usually speak of their strength as from fifty to one hundred votes, two-thirds of which number would probably be Democrats.

(Fisherman and Farmer.) The county ticket for Chowan has been named, and the selections made are all good honest men, staunch Democrats, and men in whose hands the interest of the county and taxpayers will be well and faithfully guarded.

First comes, for the Legislature, Mr. H. A. Bond, Jr., an intelligent gentleman, a man of incorruptible honesty, liberal in his ideas yet strong in his convictions, and withal a good democrat. Next comes, for Sheriff, Mr. James C. Warren, for Register, Mr. Deeds, Mr. T. M. Small; for Treasurer, Mr. W. H. Coffield; for Coroner, Dr. R. W. Winborne, and for Surveyor, J. M. Jones, Esq.

Josey, Scotland Neck; S. O. Moore, Aurelian Springs; G. S. White, Scotland Neck. Some other marshals who have been invited have not yet been heard from. JOHN S. CUNNINGHAM, Chief Marshal.

The Republican convention of the tenth Ohio district has renominated Jacob B. Romeis for Congress.

Christian Thought. For October contains, as usual, good articles. There are two of the lectures delivered at the recent summer schools of the American Institute of Christian Philosophy at Round Lake and Key East. The first is by Rev. Dr. Horace C. Hovey, of Bridgeport, Conn., on "The Vibratory Law of Progress," a well written and instructive paper. His concluding sentences give an idea of his scope. "My endeavor has been to show that changes, transformations, and all the things I have grouped as 'vibrations,' are held under control by a central Law of Progress, to which they themselves are made tributary. The whole cosmic system seems to gravitate toward a coming kingdom foretold in the Word of God. As it is written: 'Behold I create a new heaven and a new earth.' It is conceded by Herbert Spencer that 'Evolution has an impassable limit.' He speaks of the visible as the universe. But, as a believer in the Christian religion, I declare my own belief that the same Finger of God, that has run a central line of orderly progression through all the changes and oscillations of the present system of things, points to higher and grander developments awaiting us in another and a future world. Of that world we have now bright foregleams, and hope in a few more years to see the full unfolding of its ripened splendor. We are, we would recognize, both on philosophical and religious grounds, the practical lesson that everywhere, whether in the shop, the school or the sanctuary, man advances, not always with even steps and equal speed, but according to his reception of truth, his sincerity of motives, his convictions of right and duty, his love for his fellow-man and his humble trust in the triune God who stands revealed as our Father, Redeemer and Sanctifier."

The second paper is by George Wm. Knox, Professor in the Union Theological Seminary, Tokio, Japan, on Philosophy in Japan, Past and Present. After a lucid account of the creeds of Japan under the heads of, 1st, Shin-to, the way of the Gods; 2d, Buddhism; 3rd, Chinese Rationalism; 4th, New Japan; 5th, The Father. Prof. Knox comes to the conclusion that "Japan's experiment will be successful only as the people are christianized. Shin-to is dead. Buddhism is decrepit and stricken with mortal disease. Rationalism has exhausted its influence. Western agnosticism has nothing to offer beyond the message of the Chinese classics, save as it echoes the Sermon on the Mount. Christianity only has living power."

The article by ex-President of Harvard University Dr. Thos. Hill, on "Creation is Revelation," is an able answer to those who deny that God has revealed Himself. The "Views and Reviews" are faithful criticisms of the subjects discussed. "Dr. McCosh on Schools of Philosophy," "An Unbelievable Unbeliever," "Science Testifies for the Bible," "Evolution and Development."

All, especially clergymen, who wish to keep up with the latest discussions of Christian Philosophy, should read Christian Thought.

WASHINGTON'S DEMOCRATIC CLUB. A Fine Speech from W. R. Henry, Esq., Cor. of the News and Observer. WASHINGTON, N. C., Sept. 24, 1888. The Democratic campaign club of this town is now in a flourishing condition. The membership has increased rapidly and the weekly meetings are largely attended. At its last meeting, Thursday night, 20th inst., Mr. Walter R. Henry, of Henderson, made an excellent address before the club. It was one of the finest efforts of the campaign in this county and was received by the large audience with universal approval and tumultuous applause. I am glad to be able to state that Mr. Henry has consented to make several speeches in the First district before the election. The sections where he will speak are to be sincerely congratulated.

Democratic prospects in this county have recently undergone a marked improvement and success is now almost assured. There are no independent, and the party is under fair organization. The people of the section are anxious to welcome Fowle and Davidson, Strudwick and Kitchin, and Waddell and Sanderlin.

Judge Fowle at Oxford and Henderson. Judge Fowle's speeches at Oxford and Henderson are pronounced by competent judges to have been as fine efforts as have ever been heard in those towns. Logical, eloquent and convincing they have done conspicuously good work for Democracy. At Henderson, after the speaking was over a prominent Republican advanced and took the Judge's hand and said he was convinced of the error of Radicalism and that he proposed to forsake it forever and to induce all he could to do so. His word was not without weight either. He is known to control quite a number of votes. So the good work goes on and Judge Fowle makes converts to the Democratic faith wherever he goes.

The President is at home again after a short visit to the model farm of Editor Singler of the Philadelphia Record near the City of Brotherly love. He enjoys looking at fine stock and improved methods of farming as much as anybody. He is a first class farmer himself, indeed, in that he knows what is best for the farmer, as all his State papers and his official action show.

Now is the time to buy winter flannels cheap. A full and complete stock can be found at Whiting Bros., STAMPS & DEVEREUX, Assignees and Receivers.

It will pay you to inspect Whiting Bros.' stock of clothing, hats, shoes, underwear, &c., before buying elsewhere as the goods must be sold to pay off creditors.

DIED IN CHICAGO. A REFUGEE FROM THE YELLOW FEVER. A WOMAN FLIES FROM THE INFECTED DISTRICT BUT THE DREAD PHANTOM FOLLOWS HER TO THE GRAVE.

CHICAGO, Ill., Sept. 29.—A Special from Rockford, Ill., says: This morning Mrs. Lizzie DeWolff died at the pest house of yellow fever. She came here a few years ago from Decatur, Ala., where her husband died after a sickness of 36 hours of fever. Every possible precaution has been taken to prevent the spread of the disease.

Bulletin No. 58 of the North Carolina Experiment Station, Dr. H. B. Baile, director, is ready for mailing. It contains the details of the plan of the field experiments now in operation in the various counties. A diagram shows the size of plots experimented on, the amount of fertilizing ingredients added to each plot, the cost of each application and the weight of phosphoric acid, ammonia and potash applied to each plot. The results of these experiments are looked for with much interest.

The meteorological summary for the State is given for the month by Mr. H. McP. Baldwin, meteorologist, as well as a tabulated statement of the data furnished by various cooperating observers. Mr. R. G. Grissom, assistant chemist, describes the value and need of water analyses, details of the compounds generally given in a portable water analysis, and appends interesting results of waters analyzed at the Station in the past few months.

All those interested in the Station's progress will be glad to learn that, in addition to the contemplated investigation already announced, botanical work by an experienced specialist on the identification of grasses and weeds to ascertain their value; and also publication in the Station's Bulletin of description and value of each of the grasses and clovers, and adaptability to our climate. It has been determined also in this connection to institute an examination of seed on sale in the State. There is room for as much fraud here as there is in the case of fertilizers, and if the seed are of little value, then all of the farmer's labor and amount expended are thrown away. The value of this work, therefore, is readily seen. Similar investigations are contemplated as to the various insects injurious to vegetation and their ravages. Field and orchard crops suffer by this cause in the State to the extent of many thousand dollars annually. The Experiment Station, even if it decreases the loss but slightly, will do well.

Shoppers' Notes. All the dry goods people have been saying for a year or more that silks were coming back for street and general wear; they were prophesying truly. Silks are back. Messrs. W. H. & R. S. Tucker & Co., long before the season began, felt that silks would be in demand and placed import orders with the manufacturers in France for large lines of the most desirable fabrics in the approved shades and blacks. They are thus better prepared to serve their patrons, as to qualities and prices, than any previous season.

On Wednesday next The Durham Land and Security Company will sell on easy terms 75 desirable lots in the city of Durham. They are suitable for dwelling or for factory sites. See advertisement.

The rush continued at the new store of the Messrs. Berwanger yesterday. The ladies who are looking for boys' clothing find their store especially attractive. They have an elegant little apartment fitted up with carpet, chairs, mirrors, etc., for the convenience of ladies who wish to examine boys' clothing. Their superb stock is now fully displayed, and it is dazzling to the eye. Nothing can now be called for in their line that they cannot furnish. They guarantee the most elegant line of scarfs ever brought to Raleigh, while their stock of overcoats and clothing leaves absolutely nothing to be desired.

Four years ago P. T. Barnum offered to sell out for twenty-five cents on the dollar if Cleveland was elected. After election he refused ninety-five per cent, and is now worth a million dollars more than he was then.—Detroit Free Press.

Chase Foot-Wear. Heller Bros. are pleased to inform the public that they are daily receiving portions of their immense fall stock from the most reliable manufacturers. Among the shoes already received, they have selected the following as leaders, and will make special prices: To begin with, we will mention our \$2.13 ladies kid button shoe, equal to most shoes offered in this market for \$3. We have them in all sizes and widths and narrow or wide toes. Can furnish them with patent leather tips if so desired. We have also received a large stock of gents' hand sewed Congress balm and button which will be sold for \$4.75. If you wish to see a real bargain ask to see the "\$4.75 hand sewed shoe." We have just received a complete line of "W. L. Douglas's" and "Heller's" ever popular \$5 shoes in all styles, etc., for gent wear.

If you wish to purchase a trunk and wish to see a complete line of trunks, do not forget that we have the largest stock of trunks as well as valises, travelling bag, etc. in the State.

Grand Ball at Greensboro. The "Grand Ball at Greensboro" was the most brilliant affair ever given in that city. The ball was given complimentary to the visiting ladies and gentlemen and was one of the most elaborate and recherche on record. The costumes which were beautiful and elegant were as follows, and we are indebted for them to one of the most charming visions of fairness and sweetness that graced the occasion:

Miss Willie Moore, Mt. Airy, white surah and tulle, natural flowers; Miss Bleaker Springs, Charlotte, blue satin, pink roses, diamonds; Miss Maie Keogh, Greensboro, black lace red satin bodice and ribbons, and red roses; Miss Lucy Ball, Greensboro, combination satin and nun's veiling, color ashes-of-roses; Miss Withers, Danville, pink satin, lace flouncing, diamonds; Miss Mary Gray, Greensboro, blue satin, striped; Miss Dodge, Charlotte (a lovely blonde), white cashmere beautifully trimmed in more ribbon, red roses; Miss May Hagan, Nashville, Tenn., pink satin, figured organ tulle front; Miss Lizzie Settle, Greensboro, blue satin, beautifully hand-painted, shellie pompadour; Miss Gennie Gray, Greensboro, pink satin, lace overdress, diamonds; Miss May Tate, Greensboro, handsome plain moire and satin, pearls; Miss Annie Tate, Charlotte, pink satin, lace overdress, diamonds; Miss Boyd, Reidsville, blue satin with blue figured tulle and lace trimmings, en train, diamonds; Miss Lora Hagan, Greensboro, pink satin, white ottoman, fruit flowers; Mrs. J. W. Hittet, black lace dress, red roses; Miss Dine, white india silk; Miss Leticia Tate (one of the most graceful dancers on the floor), pink mill; Miss Kyle, Gaston, Ala., white cashmere, pink roses; Mrs. Chichester, white satin, en train; Mrs. Ed. Richardson, blue satin, lace overdress, diamonds; Mrs. S. Dick, black lace, blue flowers.

Among the visiting young men were: Messrs. Vaughan, of Reidsville, A. E. Aiken, J. S. McAllister, Tucker, Raleigh; J. R. Williams, Fayetteville; E. Williamson, Graham; Holt, of Burlington, and Schenck, of Lincoln.
