Democratic orators were attempting, in the manufacturing districts, to shift their ground and to conceal the purpose of their party. But the official utterances of the President and the reports of the Secretary of the Treasury, emphasized by the Mills bill (which had been endorsed by the National Democratic Convention and which had passed the House by a strict party vote), left no doubt whatever as to the true position of the Democratic party on that great economic question. There was no question as to the amount of the reduction of taxation—the question was as to the manner of it. He examined some of the details of the Mills bill in order to prove that in the proposed reductions there were discriminations in favor of the industries of the Confederate States

There has been considerable confusion in county politics here among the Republicans owing to the withdrawal of Cobb from the campaign for the office of sheriff. As will be remembered, Cobb and Kilibrew were both in the field, each claiming to be the regular nominee of the party. Mr. Cobb expressed a desire to with draw. He came out in a card to that effect some time ago. He is now charged with having sold out to Kilibrew, Humphrey & Co., as you see from the enclosed handbill, which is being freely circulated here:

Mr. Cobb denies that he sold out The facts, he says, are these: When Humphrey heard that he

Our esteemed friend Mr. B. B. Winborne of Murfreesboro writes us to the effect that Levi P. Morton, Republican candidate for Vice-President, is in his own person interested in the special tax bonds and is pressing the tax bond suit. We have shown this to the readers of the News and Observer time and again. As Mr. Winborne says the suit is brought by Morton, Bliss & Co. as owners and holders of coupons &c. and Levi P. Morton, once Moses P. Levi, is the senior member of the firm. Morton is undoubtedly the owner of a portion if not all of the special tax bonds, amounting now, principal and interest, to about \$30,000,000 and for which the people of North Carolina have never received any consideration, and he it is who is seeking to use the courts to compel the tax-payers of the State to pay these infamous legacies of Radicalism. And the case may be taken up in the Supreme court at Washington tomorrow!

Mr. Gudges made an admirable address last night-logical, clear, eloquent, convincing. It ought to have made votes if it didn't. It is safe to say the dodger will not be able to dodge him much longer, and that he will suffer merited castigation at his hands wherever he (the dodger) may appear. The campaign of misrepre-sentation and slander of the Radicals will not avail the negro party much. It is being exposed with terrible effect for them by the champions of Democracy.
