KITCHIN IN THE WEST.

Republican Speakers Playing Out—Dock-ery Sick Abed—Devereux's Voice Gone— Barshall Mott as the Substitute—Kitch-in's Greatest Speech Yet, Cor. of the News and Observer.
ASHEVILLE, N. C., October 12.

Precisely at 12 o'clock the Court House bell rang, calling the citizens of Buncombe together. From some cause the number of Republicans expected did not arrive. Not more than ten per cent of the number that greeted Judge Fowle were present.

Voiceless Tom Devereux was the first speaker. He was introduced by Major Malone as the best orator in North Carolina (Heavens!). He began as "heretofore," (Dockery's favorite word) with slime and (Dockery's slander, and wound up in libel. The new "features" in his remarks were few and far between.

Devereux admitted here today that the impeachment of Holden was right. This sounds strange, when only a few days ago these Republican candidates were being escorted through these mountains by the last remnant of Kirk's cavalry. He closed after spouting out his usual amount of busive charges upon leading Demo-

Marshall Mott followed Devereux. making the most respectable speech ret made on the Republican stump. Perfectly free from personal abuse, it was by far a much more effective effort than Dockery's and Devereux's put together. His remarks were con-fined principally to "infernal" reve-nue and the tariff. He finished with an outburst of sphool-boy eloquence that was amusing, to say the most of it. At the conclusion of Mott's youth-

ful oration, Maj. Malone announced the day's proceedings, "so far as we Republicans are concerned," were at an

My Son Oliver was sick in bed at his room at the hotel. He therefore took no part in the day's programme. While the Republicans were leaving the hall the court bell again rang out calling up the crowd to a Democratic speaking. Capt. Kitchin has as usual asked for

division of time but knew that the request would-be declined, and therefore was not disappointed in the least. After the court-house had been evacuated by Devereux, Mott and their allies, Capt. Kitchin and between five and six hundred people entered the room. The crowd was en-thusiastic, and Kitchin was greeted with rounds of applause.

Capt. McLoud introduced Capt.

Kitchin to the audience, briefly saying, "Gentlemen, this is Mr. Kitchin."
Yells and cheers greeted this announcement, and the fearless, able Halifax began his speech. He said the Philistines had evacuated their fortress without a show of fight. He fortress without a show of fight. He that there was a clamor for its overthrow—a demand for its abandonand incomparable Democrat from Republicans refused. Briefly referring to his following Dock-ery, he said that he had been sent by the State Democratic Executive committee to meet Dockery at these appointments in the West, and he was going to do his duty though the heavens should fall. The Republican hyenas, "yaller" dogs and buzzards, could not drive him from the field; "the more they attack me and attempt to besmirch my character the prouder I feel, and the more determined I am to fight the

hounds and secundrels who are lead-ing the Republicans in this contest." Capt. Kitchin showed how Dockery and Moore had canvassed the entire east, unmolested by Democrats, and how Dockery and Devereux were now refusing to allow the people to hear the truth. He made a powerful speech, explaining the tariff, the defeat of the internal revenue laws by the Republicans in Congress, &c., &c. He de-

nounced the author of the infamous statement regarding his personal character in yesterday's Advance-Herald, as a "white hearted, whitelivered dog." He also denounced Dockery and Devereux as "infamous, foul-mouthed slanderers, who were aware that they were uttering false and slanderous utterances when they attacked Judge Fowle, Donald Bain, Spier Whitaker, Ransom, Vance and Jarvis. He said that the "alime from these pukes, hounds and secondrels, would not be

MR. COCKRELL ON THE TARIFF -MR. HIMSELF -OTHER REWS.

Washington, October 16—Senate The Senate at 12 10 resumed consid eration of the tariff bill (there bing wenty Senators present) and was ad tressed by Mr. Cockrell.

In the course of a long speech, rea i tions of the two political parties as between the question of ultra protec fon and that of moderate rates of duty. He described the Senate bill in its proposal to increase some rates and to reduce others as a doubleedged sword, keen on both sides There was "fat" to be "fried" out of the manufacturers-those on whose goods rates were raised were to be forced to contribute to the Republican campaign fund in order to keep them up and those on whose goeds rates were reduced were also to

e forced to contribute so as to have the rates increased. He charged that the bill instead of being pressed to its passage was kept open with the object of thus "frying fat out of the manufacturers," and rumor had it, he said, that the frying-pan was kept not far from the room of the Senate finance committee, so that when the manufacturers went there to make their statements they had an opporfunity of visiting the frying pan. He instanced the explanation and prom-ise made by Mr. Allison last week as to slack coal being put on the free list by mistake as a proof of what he said. and remarked that when anybody else found in the Senate bill something objectionable a like explanation and

promise would be made. In conclusion he charged the Republican Senstors with having no intention to low to have some tired Democrat ntroduce a resolution to adjourn. Then, he said, the Republican Senators would say that the reason why they had not passed their bill was that the Democrats had offered an adjournment resolution.

Mr. Spooner next addressed the Senate. He excused himself for reading from a prepared speech (an unusual thing for him) but said that his speech consisted largely of extracts from testimony given by boards of trade and other bodies before an ment. He intended to prove, he said, that under the influence of free trade in Great Britain there had been for 12 years past (with slight intermissions) serious depression in industry and trade and depression in agriculture which defied parallel. As against the

picture drawn in the report of the royal commission of the condition of England under free trade he pointed to the marvellous growth and prosperity of the United States under the protective system. "The object lesson bus afforded," he said, "was unanwerable in favor of the protective system and against trying an experiment that would hamper the wellbeing of labor and the growth and

development of the country." The House amendment to the Senate joint resolution authorizing the Secretary of War to protect the Washington Aqued ict tunnel was concurred in.

After a brief executive session the Senate at 5:40 adjourned.

"The necessity of reducing taxation to prevent such an accomulation of surplus revenue, and the consequent depletion of the circulating medium, is se apparent that no party dares to deny it. or, of the News and Observer.

The reports from the western part the State concerning the plan of sampaign resorted to by Dockery and Devereux remind me that the time has come when I might throw some ght upon the motives and methods the Republican party of the present-light which would show that if som, Bain and Merrimon were absolute verity instead of oft-refuted slander, there would still be reason or repudiating the Republican candidstes. | The question, Quis custodes custodiet? (Who will keep the keepers?) is one that should never be disregarded by the people in selecting the custodians of their authority and the guardians of their interests. For it is not from the throne, but from behind the throne that the policy and movements of parties are directed. It is the men that manipulate conventions, who dictate the course to be pursued by their candidates; and these men select candi dates whom they can manage.

If the convention is composed intelligent, clean-handed and patriotic men, its selections for officers are likely to be of the same character. If it is composed of ignorant, venal, sordid, selfish men-devoid alike of patriotism and honor, its candidates are likely to be adepts in all those intrigues and practices which disgrace man and jeopardize society. Like begets like. Figs are not produced thistles, nor grapes by thorns. The Republican State ticket is the twin-brother of the North Carolina delegation to the Chicago convention. It was sired by the same party. It is the fruit of the same tree.

Now let us examine the record of that remarkable delegation, and we may then form some idea of the requisites for popularity in that party. We may then see what sort of men that party honors.

And not withstanding the strong sentiment of the party in this State against Sherman, they barrel in sight, and then some of to have voted for him because he was Alger was three times as good a friend to those delegates as Sherman was, apiece, whereas Sherman had only paid them \$100. The venality of the Southern delegates was so scandalous as to disgust the Northern Republidals in the future, it was seriously suggested by many politicians that no State should be entitled to represen-

for the Republican ticket. It is these negroes and their managers; it is venality, fraud and corrup tion; it is careering, rampant and unbridled villainy-it is these, I say, that constitute the power behind the throne in the Republican party in this State; it is these that mould its policy and control its movements; and when you repeat, quis custodes custodiet, it is these that answer 'WE". God forbid! I know nothing of Dockery except that he is daily repeating stories which he knows to be untrue. I know nothing of Devereux except that he is engaged in retailing slanders which he has in writing characterized as such. But'were their own records and present practices and they shall never be the keepers Greeks even when they bring gifts." Among the visiting young ladies who graced the occasion with their presence were Misses Annie and Sue Haigh, Misses Balser, Young and Pittman.

Let Everybody Register.

The registration books in Raleigh township are now open and voters should not delay the matter of seeing that they are properly registered. This is not a new registration, but every voter moving into the city, or from one ward to another, etc., must register and vote in the township or ward in which he is now living. The voter must have a certificate from the registrar where he formerly lived. All Democrats should look to the matter and be careful that their votes are not lost by negligence. Promptness will also save much labor to the com-

mittees. The following are the registrars and places where the registration books are kept in Raleigh township:

The Greatest Living Tragic Actress. To night at Metropolitan Hall the greatest actress now living, Mme. Janauschek, will commence a three nights engagement. The bill for tonight is Macbeth. We clip from the Philadelphia Evening Item the fol-

She has brought to this character the results of years of hard study and studious observation, and has breathed into it the breath of genius until it becomes a living, breathing flesh and blood creature in which the actress is lost sight of and only "Meg," hideous, defiant, loving, cringing and forgiv-ing, is seen and heard. It is in every sense a character that will always live

in the memory of those who witness it. The melancholy fire of those mysterious eyes, the low and awecompelling tones of that deep, rich and vibrant voice, grand and imperious force and gesture, form a noble and ideal embodiment of lofty tragi-
