Tue duty of every Democrat now is to register and to see as far as pos. sible that all other Democrats are registered. Let the young men coming of age be looked after par-ticularly. Let them be registered in fall time for the election.

The necessity of reducing taxation to The necessity of reducing taxation to prevent such an accumulation of surplus revenue, and the consequent depletion of the circulating medium, is so apparent that no party dares to deny it, but when we come to consider the modes by which the reduction may be made we find a wide antagonism between our party and the monopolistic leaders of our political opponents. - Thurman's Letter of Accep-

The idea that a perple can be enriched by a heavy and unnecessary taxation, that a man's condition can be improved by taxing him on all he wears, on all his wife and children wear, on all his tools and implements of industry, is an obvi-ous absurdity. - Thurman's Letter of Ac-

WHITE MEN of North Carolina, there are 160,000 of you. Do you propose to let the 110,000 negroes of the State secure control of affairs and make of this white man's land a land of the negro! Do you propose to let this black minority fasten negro domination on the State? If so, vote for Dockery, who expects to rise on the dark cloud referred to into the gubernatorial chair. If not, vote Dockery. the demagogue, down and put an end to Radicalism in the State forever. Rise in your might, white men of the State, and vote Dockery with his negro horde down

THE STATE PAIR This great exposition of North Carolina's material resources has pened brilliantly. Under the influence of clear akies and pleasant weather and under its excellent management it has blossomed out into probably the finest flower of all the efforts ever made by the State Agricultural Society. As a show it is great and as a gathering of many of the State's best and truest sons and

city through the courtesy of Chairdaughters it is greater still. Its display of the results of the agricultural and industrial enterprise of our people is most valuable and encouraging. It should be seen by every cit zen who can get to Raleigh.

Toour readers one and all we would say, This is just the weather for visiting. Jump on the cars and come to your capital city to see what your State is doing and to shake hands with your friends and relations from everywhere here at the Fair. It will do you good in every way. The great day of the exposition still remains and there is another day still. Today, too, the incomparable Vance is to be heard on the Fair grounds. Come and hear our loved and honored Sen-

If, on the contrary, the people of the district wish to be represented by one who is a true son of the district, whose inter-ests are identical with those of the people he lives among; who would creditably represent the district in every way; who would neek to advance the real interests of the people and who would be in a position to secomplish a great deal by reason of being on the side of a strong majority; who would be recognized as a man of ability and a truly represen-tative man; who would work and vote persistently and consistently for tax reduction and a removal the burdens and harassments of the internal revenue system; who would vote every time and if possible oftener against the Northern trusts and other capitalistic combines that are throttling agriculture and the

In D. G Fowle the citizens of the State have a man whom they may well delight to honor, a man who would reflect credit upon the State in every way as Governor, a man who would maintain the laws without fear or favor, a man who would rigorously execute justice, an able, eloquent, earnest man, a statesman and a patriot. As compared to his Radical opponent be is as Hyperion to a ratyr. He represents the glorious principles of sound Democracy; he represents lower taxes, taxation of the luxuries rather

than the necessities of life, the adjustment of taxation with reference to equal and exact justice to all; he represents opposition to the northern trusts and all other capitalistic combines against the interests of the people; he represents economical and efficient government at home and in the country at large. Vote for Fowle against extravagance and corruption in the administration of public affairs. Mr. Haveneyer to those who are employed in such in-dustries, is it not undesiable that the duties proposed by the Demecratic measure called the Mills bill far exceed the difference between American and Euro-pean wages, and that, therefore, if it were admitted that our workingmen can be protected by tariffs against cheaper labor, they would be fully protected, and more than protected, by that bill?-

It means success against the negro hordes of Dockery, against the money every time he has a chance to rote at bags of Morton, against the malicious every time he has a chance to vote at slanders of Cat's-paw Devereux and the rest of the Radical crew—that is consistently and persistently; who to say if the Democracy of the State, will vote for the trusts and the Shy- if the white men, will register and locks of Wall street like Morton every vote. But when the Superior Court having jurisdiction of the parties and of the subject matter hears the cause without objection, its action will not be disturbed for irregularity. Prior to July 1st, 1869, there was

Reducing the Surplus

The disposition of the surplus in the U. S. Treasury engages the attention of our Statesmen, but a more vital question has our attention and that is the reduction of the Surplus Consumptives. Since the discovery and introduction of Dr. King's New Discovery for Consumption. there has been a marked decrease in the mortality from this dreaded disease, and it is possible to still further reduce the number of Consumptives. How? By keeping constantly at hand a bottle of Dr. King's New Discovery and using ac-cording to directions, upon the appear-ance of the first symptoms, such as a Cough, a Cold, a Sore Throat, a Chest, or Side Fain.
