HIS SECOND SPEECH.

OUR ZEB TALKS ON THE ISSUES THIS TIME

A POWERFUL SPEECH AT STRONACH'S WAREHOUSE - RALEIGH TURNS OUT BY THOUSANDS TO GREET NORTH CAROLINA'S FAVORITE SON.

Only "Our Zeb" can draw such a crowd as assembled in Stronach's warehouse last night.

It takes an immense crowd to fill Stronach's warehouse, one of the most spacious halls to be found in the State.

Mr. E. C. Smith presented the Senator, saying "He needs no introduction - you all know him."

The Senator in beginning his speech said that once more the time had nearly approached for the people of this country to choose their President.

The Republicans of today were "the same old set" that misruled the State in 1868-69.

He proceeded to speak of the present system of federal taxation. The Senator illustrated the fallacy of protection and characterized it as "a gross, undisguised and scandalous perversion of justice."

The Senator showed the increased prosperity of manufacturers when the tariff was reduced during the time from 1860 to 1860.

The average labor-cost of American products was 21 per cent. The tariff for the benefit of the workingman was 47 per cent.

The labor-cost of a ton of Big Iron is \$2.46. The duty on a ton of foreign pig iron is \$6.72.

The House at one o'clock adjourned until eleven o'clock tomorrow.

FOUR CHILDREN BURNED. WINSTON, N. C., Oct. 19 - Yesterday, about 2 o'clock p. m., the house of Walter Porter, colored, was burned together with four small children.

ator did not believe the American workingman could be fooled this. The kind of tariff laws that would impose the lighter tax upon necessities which were used by the poor and the heavier tax upon luxuries which were used only by the rich.

If the workingman wants a drink of North Carolina whisky he pays on it a duty of 400 per cent., but "GOD and the Republican tariff law the nutmeg which he grates in on top of it is free."

He said the Democrats had made ineffectual efforts to reform this unjust system, but the Republicans had each time arrayed their solid strength against it.

When the Senator closed a perfect storm of applause ascended. Cheer after cheer went up while hundreds pressed around the gray haired Senator to shake his hand.

The general comment was that it was the strongest speech made in Raleigh during the campaign. The Senator struck a sledge-hammer blow which will do its work and which will not be forgotten.

While the Senator was speaking it was a grand sight to look over the sea captured faces eager for every word that fell from the lips of North Carolina's greatest and most beloved son.

WASHINGTON, Oct. 19 - SENATE - The resolution offered yesterday authorizing the finance committee to continue its hearings on the tariff bill was adopted.

The resolution offered yesterday by Mr. Teller in reference to the purchase of convict labor wagons for the Indian bureau was withdrawn by him.

WAS PRESIDENT GARFIELD "A British Free Trader, bought by British Gold, and a Democratic Hessian?"

James A. Garfield, July 13, 1868 - Unless the tariff men take heed, unless they consent to a rational and consistent adjustment of the tariff, such as only can be made by the full light that a careful statistical study of the subject will bring, I fear that more than from any other source, a reaction which will bring us by and by into free trade and all its consequences of evil to the manufacturing interests of the country.

James A. Garfield, April 1, 1870 - Duties should be so high that our manufacturers can fairly compete with the foreign product, but not so high as to enable them to drive out the foreign article, enjoy a monopoly of the trade, and regulate the prices as they please.

James A. Garfield, May 18, 1872 - And I know, moreover, that for nearly two years the wholesale price of American salt in Toronto, Canada, was a dollar lower per barrel than the same salt was selling for on the New York side of the lake.

James G. Blaine, Secretary of State, 1881 - The hours of labor in the Lancashire mills are 56, in the Massachusetts mills 60 per week. The hours of labor in the mills in the other New England States, where the wages are generally less than in Massachusetts, are usually 65 or 69 per week.
