DEMOCRATIC NOMINEES.

NATIONAL TICKET: FOR PRESIDENT: GROVER CLEVELAND, of New York.

FOR VICE-PRESIDENT: ALLEN G. THURMAN, of Ohio.

FOR GOVERNOR: DANIEL G. FOWLE, of Wake.

FOR LIEUT. GOVERNOR: THOMAS M. HOLT, of Alamance.

FOR ASSOCIATE JUSTICE OF THE SUPREME COURT: JAMES E. SHEPHERD, of Beaufort.

FOR SECRETARY OF STATE: WM. L. SAUNDERS, of Orange.

FOR TREASURER: DONALD W. BAIN, of Wake.

FOR ATTORNEY GENERAL: THEODORE F. DAVIDSON, of Buncombe.

FOR AUDITOR: G. W. SANDERLIN, of Wayne.

FOR CONGRESS: B. H. BUNN, of Nash.

Both parties agree on the amendment increasing the number of Supreme Court Justices.

The Democrats must take no risk in this or any other matter on election day.

At the election in Richmond county in 1884, Oliver H. Dockery, the present Republican candidate for Governor, voted as follows:

To represent the public in the Legislature he voted for Harvey Quick, a negro lawyer, against John W. Sneed, one of the best white farmers of Richmond county.

For Coroner, he voted for Felix Jacobs, a negro, against Daniel Gray, a one-legged Confederate soldier.

For Register of Deeds, he voted for one N. W. Harlee, a negro man, against Alexander L. McDonald, a white man competent to fill the office and universally esteemed in the county for his courteous bearing.

SENATOR VANDE speaks in Laurinburg tomorrow.

We would direct attention to the appointments here announced for Hon. C. M. Stedman and Hon. T. C. Fuller for Johnston county.

Are you registered? Are you organized? If not, as the bright and witty Statesville Landmark says, go and get your executive committee to organize you at once.

In the name of all that is reasonable what has Nichols done since he has been in Congress for the benefit of the district?

Will the workingmen of the district be longer hoodwinked by this self-constituted labor candidate?

Will the Knights of Labor vote for a man who thus assumes their influence for the purpose of aiding to place himself in office and the Republican party in power?

Will the Republicans have been colonizing negro voters all the way from Louisiana to Indiana but their trick has been found out in time to prevent any damage being done to the cause of Democracy and good government?

Will the Democrats have been colonizing negro voters all the way from Louisiana to Indiana but their trick has been found out in time to prevent any damage being done to the cause of Democracy and good government?

DOCKERY'S "ABSOLUTE VERITIES."

We give below some of the "verities" Dockery has been in the habit of retelling about the State since he began his campaign.

1. That Mrs. Cleveland kissed negro wench. A vile slander.

2. That John W. Sneed, of Richmond county, against whom he voted for the legislature—the voted for the negro lawyer Quick against Sneed—had negro blood in him; that his grandmother was as black as any negro.

3. That the negroes had elected no negro school superintendents when they were in power. An inextinguishable mistake.

4. That no educational bill was pending before Congress in 1881. This "verity" was so barefaced that it seems strange that he did not have better judgment than to utter it.

5. That as a member of the Convention of 1875 he had helped to pass an ordinance, practically making it impossible for a negro to be a Superior Court Judge.

6. That he quit the law to keep from going to bed—slept in a chair on this unnecessary.

7. That he did not know that the Alliance had resolutions denouncing Protection and declaring that no member of the order must vote for a man who favored Protection.

8. That the negro Fred. Douglas was received socially by President Cleveland and ate dinner with him. Utterly untrue.

9. That R. H. Battle, while seated at the dining table, sandwiched, as it were, between two negroes, one on either side of him at the table, ate ice-cream at Bishop Lyman's house.

10. That a slanderer of women, a slanderer of men, utterly regardless of the truth of what he says, Dockery "verities" fall from his lips as the sparks fly upward.

11. That the negro Fred. Douglas was received socially by President Cleveland and ate dinner with him. Utterly untrue.

12. That the negro Fred. Douglas was received socially by President Cleveland and ate dinner with him. Utterly untrue.

TARIFF TAXATION AND PROSPERITY.

The Republicans insist that a high tariff means prosperity and a low tariff the reverse in spite of the fact that, on a comparison, however hurried, of a high tariff with a low tariff period shows the utter falsity of their position.

We have time and again shown from the census reports that the period of low tariff taxation was the most prosperous the country as a whole has ever known.

We have shown that between 1850 and 1860—a period of Democratic control and low tariff—the value of farms in the United States—and farming is the occupation of the great body of our people, the basic occupation on which all general prosperity rests—was doubled.

The rate of increase was 103 per cent, while from 1870 to 1880, the high tariff period of the Republicans, the rate of increase in the country at large was only 9 per cent, whereas even during the war between 1860 and 1870, the rate of increase was 40 per cent.

We have shown from the utterances of Republican leaders themselves that periods of low tariff have invariably been periods of great prosperity, while high tariff periods have been the contrary.

It is only necessary to point to the facts to prove the accuracy of the position.

We have quoted from Mr. Blaine, the leader of Republican leaders, to the same effect.

We have shown that in his "Twenty Years of Congress" when he was writing history and not making radical stump speeches—he said, page 136: "If we could have the tariff of 1842 (a low tariff, one of the lowest the country has had), 'yielded abundant revenue and the business of the country was in a flourishing condition at the time his (President Taylor's) administration was organized. Money became very abundant after the year 1849; large enterprises were undertaken, speculation was prevalent and for a considerable period the prosperity of the country was general and apparently genuine.'"

Again, page 202: "The free-traders consider the tariff of 1842 to be a conclusive proof of the beneficial effects of low duties. They challenge a comparison of the years of its operation between 1846 and 1857 with any equal period in the history of the country."

"The free-traders refer with especial emphasis to what they term the symmetrical development of all the great interests of the country under this liberal tariff."

"Manufactures were not stimulated at the expense of the commercial interests. Both were developed in harmony, while agriculture, the indispensable basis of all, was prospering and flourishing. The farmers and planters at no other period of our history were in receipt of such good prices steadily paid to them in gold coin, for their surplus products, which they could send to the domestic markets over our own railroads and to the foreign markets in our own ships."

And again: "Assertions as to the progress of manufactures in the period under discussion are denied by the protectionists; while admitting the general correctness of the free-traders' statement as to the prosperity of the country they call attention to the fact that the tariff of 1842 was abnormal in origin and in character."

There can be no denying the facts here stated by Mr. Blaine—utmost, if we may well believe, but necessarily for the credit of the book he was writing. No truthful man will write that low tariff taxation has invariably been attended by general prosperity of a high degree, while high tariff taxation on the other hand has been attended by oppression of agriculture and lack of prosperity on the part of the people as a whole.

The facts are too clearly and notoriously against such a position.

HOW WILL YOUR VOTE COUNT? John Nichols was not nominated by the Republican convention, but T. R. Purnell and D. L. Russell, both Republicans, have been aiding his canvass to the utmost of their ability in Alamance, Chatham and Johnston counties.

The votes of Nichols in Congress were always with the Republicans. He sat with Republicans in committee, counseled with them, and was and is a Republican. The man who votes for him endorses negro rule and the corrupt record of the Republican party.

M. J. STEDMAN IN RALEIGH. Hon. C. M. Stedman is to speak in Raleigh Tuesday night, and the Democracy of the city has in store for him a welcome of the very warmest kind.

He is a superb speaker and has been winning good opinions everywhere in this campaign.

The past week has been a gala period for Raleigh. What with the fair—one of the most successful of all the long series—the speeches of Vance and others, the performances at the theatre of Madame Janussek, a tragedienne of world wide fame, and so on, the time has been one long to be remembered in the history of the city.

Thousands of people have visited us and there has not been one single accident to mar the pleasure of the week.

The large attendance of friends and relatives and other folks from different parts of the State and from elsewhere has undoubtedly been due in great measure to the enterprise of our railroads in offering cheap rates of fare to and from the exhibit of the State's resources and the fact is very creditable indeed to the public spirit of our railway managers.

At the same time we hope it has appeared again that in matters of this sort what is to the advantage of the people is also to the advantage of the railroads; that an offer of low rates produces a volume of travel so great as to largely more than compensate the roads for any apparent sacrifice of interest on their part in the outset.

Look after the twenty owners and see that they are properly down on the registration books and look after the dead and departed negroes and see that they are off.

TO KNOW IT, BE A DEAF. A gallery was settling while Judge Thurman was speaking—He was told and left the building—the crowd followed him and the danger was over.

A Peru, Indiana, special of the 18th runs as follows: It poured all day. The rain utterly extinguished the barbecue and put the street parade entirely out of the question. But did not and did not keep the crowd at home. It was generally estimated at forty thousand. The rain was so incessant and so heavy that the great multitude was forced to seek shelter.

Judge Thurman arrived during the heaviest downpour at 1.30. Two thousand people under umbrellas were at the depot and received him with cheers as he alighted from his car and took a carriage for the opera house, where he made a speech.

The building was packed to its utmost capacity, and so great was the strain upon the gallery that the outer wall of the building cracked and there was danger of a collapse. A note of warning was sent to the stage manager, and Judge Thurman stopped speaking and left by the stage entrance. Two thirds of the crowd went out of the building and the danger was over. No one seemed to be aware of the condition of the gallery, which was slowly settling, and this ignorance prevented the frightful loss of life that would almost be beyond doubt had not followed a stampede by those in the gallery.

THE NORTHEAST. GEO. H. BROWN, ESQ., CRUSHES A SPARROW. Cor. of the News and Observer.

CAMDEN CO., N. C., Oct. 18. From your paper, the west is alive with prominent Democratic speakers and everything looks cheering in that section.

We had much hope. However, we have had two queer licks at one by Hon. L. O. Latham, in matchless eloquence and power, and the other on the 4th inst., when Geo. H. Brown, Jr., elected, crushed into the smallest of atoms the tiniest of sparrows—George H., the Republican elector. We must say for Mr. Brown that his speech was masterly and won golden opinions for him.

Sparrow did not seem to understand his subject; that is, if he proposed, himself, to have one. It may be, and I think it is quite likely, he had one when he started in the discussion; but Brown had mauled it out of him before he got here. Browned off for one hour, and Sparrow followed, occupying the same time. Brown closed in a reply of fifteen minutes. Sparrow looked dazed during Brown's hour, but during Brown's fifteen minutes his head went to the table, and there it remained until the happy deliverance came to him of the final let up when time was called "59th."

Notes from the Congressional Canvass. Capt. B. H. Bunn, the Democratic candidate for Congress, will begin his regular canvass of Orange county on Monday at Cedar Grove. Capt. Octavius Coke, of this city, will speak with him on Monday and Tuesday.

C. M. Busbee, Esq., of this city, will speak at Hillsboro on Tuesday night.

Col. T. C. Fuller, of this city, has four appointments in Johnston county next week, beginning on Wednesday night at Smithfield.

The canvass of John Nichols in Johnston county, during this past week, we are informed was the tamer affair ever known in the county.

At Pleasant Grove his audience consisted of three whites and five negroes, and that meeting was a sample of most of them. Our informant says that Johnston county will give Capt. Bunn and the whole Democratic ticket will sweep the county by a big majority.

Capt. Bunn has made 65 public addresses in this district since he was nominated; and at least 150 more have been made under his canvass by his executive committeemen and others.

Everywhere that Mr. Bunn goes he meets some of the old 47th Regiment and that always means a glad, hearty shake of the hand and the renewal of strong friendship. Some of the meetings with these old soldiers whom Capt. Bunn has not met since the war, have been affecting, and show how much he was loved by his comrades in grey.

At one place a man badly crippled came up to Captain Bunn and took him by the hand, saying: "I thank God for the privilege of seeing you one time more," and then turning to the crowd, he said, "If ever there was a truer, braver soldier or a nobler hearted man than Capt. Ben Bunn, I have not seen him."
