PARNELL.

PROCEEDINGS OF THE PARLIAMENTARY COMMISSION.

THE ATTORNEY GENERAL CONTINUES HIS RECITAL OF OUTRAGES— OTHER NEWS.

By Telegraph to the News and Observer.

LONDON, Oct. 26.—The Parnell Commission again listened to Attorney General Webster's presentation of the Times' case today.

At this Presiding Justice Hannen's patience seemed to be exhausted, and leaving forward he asked the Attorney General if he did not think he had already given sufficient indication of the line of argument he intended to adopt.

Sir Charles Russell, counsel for Parnell, suggested that the Attorney General might hand him copies of the speeches he meant to quote from and thus save time.

The Attorney General replied that he must deal with all the Irish counties he had picked out, affording the most striking proof of the charges.

LONDON, Oct. 26.—The Attorney General concluded his remarks by stating that men who had actually participated in the outrages would be called as witnesses and they would tell what money had been paid to them and how the crimes they were hired to commit were arranged.

The Times has served subpoenas upon Frank Hugh O'Donnell and his solicitor, requiring them to produce certain documents before the Parnell Commission.

The Outlook. Springfield Republican.

The most telling work done for Cleveland in Connecticut must be credited to the tariff reformers, the independent as New Haven having labor to go to result, and they have recently called in speakers from New York and Massachusetts.

The best political judges on the spot agree that all doubt as to New Jersey has been removed, and that Cleveland will secure its electoral vote.

It will have to be admitted, also, that the Democratic chances in Indiana appear to be the best, despite the fact that it is the home of the Republican candidate.

New York is again the pivotal State. The Republicans could lose New York and win with Indiana and either Connecticut or New Jersey; but to the Democracy Cleveland's own State is essential as the outlook now is.

Cleveland received 219 electoral votes and Mr. Blaine 182. So good an observer as E. G. Dannel, Washington correspondent of the New York Times, who has made a tour of the West thinks there is rather more than an even chance that Cleveland will secure the 13 electoral votes of Michigan.

Of the probabilities in the Empire State it can fairly be said, after much study of the situation based on expert information received from many sources, that the chances of Cleveland's success there are brighter now than they appeared to be at this stage of the canvass four years ago.

It looks as if the currents of the campaign, like its magnitude and course, were becoming evident enough so that their bearings and influence might be approximately determined.

There are some counties in which the Democrats are not in good shape, and there is likely to be a falling off of Cleveland's vote in such; but on the other hand Albany county, which gave Cleveland 600 majority in '84 is likely to yield him this year perhaps 2,000.

BROOKLYN

FRIGHTENED OVER A FATAL CASE OF YELLOW FEVER.

THE CAPTAIN OF A VESSEL DIES AT ONE OF THE CITY HOSPITALS OF THE DEAD DISEASE—THE PRECAUTIONS TO PREVENT A FURTHER OUTBREAK.

By Telegraph to the News and Observer. NEW YORK, Oct. 26.—Considerable alarm has been occasioned over the death in St. John's Hospital, in Brooklyn, of Capt. John Gillard, of the steamer Carenz, of yellow fever.

The health authorities, however, assert that there is no cause for fear, as everything possible to prevent the spread of the disease has been done.

The body of the captain, after being enclosed in an air-tight casket, was taken to Evergreen Cemetery for interment. Portions of the body had been retained by the doctors and will be subjected to microscopic examination for scientific purposes in more fully determining the diagnosis of the case.

Part of the ship's cargo which was shipped east will be looked for by the health authorities, they having been informed of the matter, so that proper precautions can be taken.
