Unnecessary taxation is unjust taxation.—Cleveland's Letter of Acceptance.

Both parties agree on the amendment increasing the salary of the Chief Justice, but all the same it is important for Democrats not only to vote for the amendment, but to vote for the Democratic nominees for Judges, as well, lest if the amendment be carried and Davis, Avery and Shepherd be beaten. The Radicals will be sure to vote for the amendment and their nominees for Judges.

The Democrats must take no risks in this or any other matter on election day. Take warning from the Radicals, and as they will be certain to vote for the amendment and their nominees, be sure that you vote for the amendment and your men—Davis, Avery and Shepherd. Don't fail to vote for your nominees.

DICKER'S TICKET IN 1884. At the election in Richmond county in 1884, Oliver H. Dockery, the present Republican candidate for Governor, voted as follows: To represent the public in the Legislature he voted for Harvey Quick, a negro lawyer, against John W. Snead, one of the best white farmers of Richmond county. For Coroner, he voted for Felix Jacobs, a negro man, against Daniel Gay, a one-legged Confederate soldier. For Register of Deeds, he voted for one N. W. Harlow, a negro man, against Alexander L. McDonald, a white man prominent in all the offices and universally esteemed in the county for his courteous bearing.

ONE MINUTE FRIEND. Are you registered? "No!" Are you not aware that the time is getting mighty short indeed? Go at once and see that your name is properly on the book.

Democrats of the seventh district, see that your able, faithful and patriotic representative Henderson is returned to Congress. The high tax Republicans are using money without stint to defeat him. See that every Democrat is registered and votes for him.

WHERE WEST MUST GO—East, instead of West like the Chinese.

Don't forget, Democrats, that those who are not for us in this election are against us. Don't allow yourselves to be entrapped in Radical snares.

White men of the first district, the Radicals are using monopolistic money without stint to defeat your candidate. See that you register and vote in a man for Skinner.

Even Ohio is doubtful. The Democrats there are confident of carrying the state and the Republicans are alarmed. Is it going to be a tidal wave for Cleveland and tax reduction? Democrats of North Carolina must stand to their posts as becomes them and keep their state in line for good government.

ANOTHER RADICAL TRICK.

We call special attention, particularly the attention of temperance men, to the letter of Mr. F. Grady, elsewhere printed in this issue. It will be seen that our friend points out the Radical trick of making a cat's-paw of the Prohibition organization in close counties. Our opponents are very smart and they have set this trap to catch the unwary. Democrats who are also Prohibitionists should see that they do not fall into the net thus spread for them and so give aid to the enemy of both Democracy and Prohibition. "The assassins," indeed, "of temperance reform." Let Democrats everywhere look alive. Let them take warning from the observation of Mr. Grady.

Ho, ye Democrats of the eighth district, look out for Radical money! It is being furnished from the North and used without stint to defeat your gallant candidate. To work and see that every possible voter is registered and polled for Cowles!

A WORD WITH YOU, OLD FELLOW. I believe you've changed your residence since last election. Have you got your transfer? What! "No!" Then go at once and get it. There is no time to be lost.

Democrats of the sixth district, rally to Rowland! The Radicals have Northern money and are using it without stint and we may well believe without scruple to defeat him. See that you are registered and vote to a man for the return of your able and faithful representative.

The French Broad Voice, published at Brevard, Transylvania county, has this to say of Mr. Ennis, who has been representing us in the mountains and who has been sending us some "mighty interesting" reading from his facile pen: "Mr. P. C. Ennis, of Raleigh, representing that valuable daily, the NEWS AND OBSERVER, and who is traveling with Hon. W. H. Kitchin in the western campaign, gave us a pleasant call last Monday. Mr. Ennis gave us a glowing and interesting account of his trip through the west, and says that the prospects for the Democracy are exceedingly bright. No young man, in our opinion, has seen more of, or is better acquainted with the political situation of the State, than is Mr. Ennis. The description of the west, and the information of the western campaign, furnished by him to the people of the east, in the NEWS AND OBSERVER, can be relied upon as the truth."

Men of the second district, ye who have any real interests to care for, ye who are opposed to war taxation in times of peace, ye who are opposed to unnecessary taxation, register and vote for Simmons. The Radicals have used and are still using money without stint to defeat him.

Capt. KITCHEN spoke with Dockery in Charlotte on Monday night. As usual the Radical candidate refused to divide time with him so that he spoke in Independence Square, while Dockery entertained his crowd of darkeys in the Mint yard. Capt. Kitchin was greeted by a gathering of 1,000 of the best people of the city and spoke for two hours, making a particularly brilliant speech, we are informed by an excellent judge of speeches, and stirring up the Democracy in a wonderful way. He handled Dockery as usual with gloves off and gave him, also as usual, a sound drubbing. The Chronicle pronounces Capt. Kitchin's speech one of the best of the campaign and says it created great enthusiasm. Certainly the eloquent gentleman referred to is a power on the stump, particularly when it comes to handling such a demagogue as Dockery.

Ye men of the mountains, ye sturdy Democrats of the Ninth district, Radical money from the North is being poured into your country to defeat your candidate for Congress. See that you are registered and that you vote to a man for the return of the patriotic, vigilant and efficient Johnston. Rally to your nominees!

ELECTION day next Tuesday. Do you realize it, Democrats? To work, every man of you, in every way possible to you, for the salvation of the State from the "hell broth" of Radicalism!

Democrats of the fifth district, Brower is bragging that he is going to defeat your able and eloquent nominee, Morehead. See that he is taught the lesson that "Big is a good dog but hold-fast is a better." See that you register and vote to a man for Morehead.

The canvass in Wake from this time on will be hot, indeed, for the Radicals. Chairman Smith has proven himself the right man in the right place. The metropolitan county will give a good account of itself in election day.

Democrats of the third district, the Radicals are doing their utmost, are using protection gold without stint and without scruple, we may well believe, to defeat your candidate. Rally to your gallant "Clammy, the Cincinnatus of the House at Washington." Register and vote for him to a man.

"A Republican will crawl two miles on his all fours, with somebody behind him urging him on with a paddle, in order to reach the registration book, and the man who bets on any of them getting left will lose."—Capt. Kitchin. Will any Democrats permit themselves to "get left"?

"Grover! Grover! He'll hold over!" So said in chorus the business men of New York as they tramped through the rain in procession in honor of Cleveland and so the indications seem to be. Selah!

"THAT'S RIGHT! THAT'S RIGHT!"

To the talk of Dockery at Charlotte about two colored men being appointed road supervisors and working white men under them the response was made in enthusiastic chorus by his thousand negro hearers. "That's right! That's right!" And the issue of the contest in North Carolina now immediately before us is right here. The question is as to whether the 160,000 white men of the State are to submit to the domination of the 110,000 blacks. The question is as to whether the white man is to continue to rule in this white man's land or is to hand the reins of government over to the negroes, led by such cattle as Dockery, Devereux & Co.; whether after the intense struggle since the war to regain his own, he is going to turn over the control of affairs again to the negroes, is going to return voluntarily to the "hell broth" of Radicalism, as Senator Vance well calls it. We do not intend to be going to permit the question to be decided in the affirmative, but we are certain he will unless he registers and votes himself and sees as far as lies in his power that everybody else interested in good government is registered and votes for the nominees of the Democracy party.

The question with us is undoubtedly as to whether we shall have the supremacy of the white man or the supremacy of the black. The color line, so called, has been drawn by the negroes themselves in submitting to be led by unprincipled white men against the welfare of the State as a whole. Their sentiment as a body was expressed by the negroes at Charlotte when the latter cried out in glee in response to the suggestion of negro men working white men under them "That's right! That's right!" Their sentiment is also shown by the extracts we print from the Labor Rambler, the negro paper published at Rocky Mount. Let the white men teach the negro and his white leader a lesson that they will not forget, let them assert themselves in unmistakable terms, and to this end let them apply themselves now and until the night of November sixth to work, work, WORK!

Jones Fowle spoke at Bayboro, Pamlico county, Monday to about twelve hundred people. When he had concluded, the New Bern Journal says, several Republicans went forward, took him by the hand and promised him their support. On his way to New Bern he was met at Neuse by a large number of the people of the Craven capital on the steamer Trent and as he approached the city on the boat he was greeted with the firing of cannon and the cheers of the people. He was royally received and spoke at night to the people of the city, Messrs. Strudwick and Robbins having arrived and sharing with him as he entered the court house rounds of enthusiastic applause. His effort was "sublime and captivating," to use the words of the Journal, "and impressed every one present with the idea that Daniel G. Fowle is the right man for Governor of North Carolina." There is no doubt about that.

The Radicals are smart in setting traps to catch Democrats, but no true Democrat will be caught if he keeps his eyes open. Look to your safety, citizens of North Carolina.

Democrats of the fourth district, Nichols is demoralized. His forces are in confusion. Stand to the gallant, the able Bunn, and you will not much longer be misrepresented by a political "Be."

The Special Closed. A gold-stored Special to Wilmington Messenger. Saturday was spent in warm discussion of evangelistic work of the Synod, and all feel assured that the Synod has done more at this meeting for the prosecution of our Evangelistic work than has been done for years past. Every recommendation of the Synodical Convention of Home Missions was adopted by the Synod.

The special committee appointed, brought in a report on the overture from Chapel Hill church asking that Synod authorize the session to appeal for financial aid to presbyteries, churches, and individuals throughout the State.

That the session be authorized temporarily to fill the pupil by securing occasional services from the different ministers in the Synod, the church bearing all necessary expenses, and that the Synod urge the ministers to accept these invitations to hold services, whenever possible."

That both requests be granted. 2d. That the church at Chapel Hill be and hereby is commended to the generous consideration of our people as a most important point for evangelistic labor. 3d. That all money obtained by the session and for the purpose indicated be reported to the Committee of Home Missions for the Presbytery of Orange and by said committee to Synod, in the annual report of the same. 4th. That the ministers be and hereby are requested to accept invitations of the session to hold services when practicable."

The annual report of agent of publication was read by Rev. John S. Watkins, D. D. The following resolution offered by him were adopted, viz: 1. The Synod expresses its high appreciation of the valuable services rendered by Dr. Hazen, secretary of the General Assembly's committee of Publication, in removing the burden of a heavy debt and placing the work on a good financial basis. The Synod also expresses its deep interest in the plans which have been projected for the more efficient presentation of the work of collecting and hearingly demands the books, pamphlets, papers, etc., of our own Committee of Publication.

2. The Synod most earnestly urges the ministers of our Presbyteries to pre upon their people the claim of publication and colportage work, and enjoins upon them to give their congregations at least an opportunity of contributing to the cause. 3. It is further resolved that the Synod appoint a committee to be known as "the Synodical Colportage Committee," to consist of the agents of Publication, of the different Presbyteries,

whose business it shall be to recommend a colportage to the Committee of the Assembly and to take the oversight of his work in this field."

The committee on Union Theological Seminary reported "a marked and gratifying progress of this school of the prophets, in the improvement of the buildings and grounds, its increasing patronage, the satisfactory investment of its funds and the enlargement of its library." The endorsement of the fifth professorship thus far is said to be "with encouraging success." The "amount received for maintaining this chair exceeds \$20,000." To this last item your committee would call special attention of the Synod with the apprehension that the success may not seem to be as encouraging as in the past in the report. The following directors go out of office at this meeting, viz: Rev. Drs. J. H. Smith and H. G. Hill and Dr. E. Nye Hutchinson, and a vacancy occurs by the removal of the Rev. W. S. Lacy from the Synod. Your committee recommends the reappointment of Dr. S. Smith, Hill and Hutchinson, not on account of their previous appointment, but because of their known punctuality, fidelity and efficiency as members of the board of directors, and they further recommend the appointment of Rev. D. M. McBride to succeed Rev. W. S. Lacy.

The following narrative on the state of religion in the Synod was adopted, viz: To the churches in its bounds the Synod of North Carolina sends greeting in the Lord. Dear Brethren: The reports for our Presbyteries present encouraging and hopeful aspects. Many of our churches speak at revivals and the indications are that our church at large is taking more interest in its members of the board of directors, and they further recommend the appointment of Rev. D. M. McBride to succeed Rev. W. S. Lacy.
