Commercial Epitome. N. Y. Commercial and Financial Caronicle. FRIDAY NIGHT, NOV. 36, 1888. General trade has remained com-

paratively quiet without special fea-ture, there being little in sommercial affairs to call for special reference. The tendency of values has been generally downward and epeculation sluggish throughout the week. The drops are being moved alowly; this is not only true of cotton, cassing some anxiety regarding the extent of the final ou turn, but also of wheat. The weather has been warm, though a killing frost is reported in some of the Southern States, and the temperature is now becoming codler here.

Lard on the spot has been dull until today, when a good demand sprung up and prices slightly recovered, closing steady at \$7.90c for prime city, \$8 653\$8.70c for prime to choice western and \$8.225c for the Continent.

Pork has met with a better demand, and the close is steady at \$15a \$15.25 for extra prime, \$16.816 50 for new mess and \$17a\$19 for clear back. Out meats have been dull and somewha: unsettled; pickled bellies, 9a94c; shoulders, 84a84c, and hams, 94a10c; smoked shoulders, 94c and hams 11 a12c. Beef steady at \$7.50 a\$8 for extra mess and \$949.75 for packet per barrel; Iudia mess quoted at \$18a\$22 per tierce. Beef hams are dull at \$13.75a\$14 per barrol. Tallow steady at 6c but very quiet. Stearine quoted 9\frac{1}{2}\frac{1}{2}c and oleomas garine 7a 7\frac{1}{2}c. Butter is dull at 2\frac{1}{2}27c for creamery and 13a21c for Western fac-

State factory. Coffee on the spot has been quiet, but closes about steady, the sales today embracing Rio No. 5 at 142c, and Jamaica at 14121473, with considerable lines of other mild grades on private terms. The speculation in Rio options has lately been dull at drooping prices, but today made some re-

tory. Cheese is steady at 9alle for

Raw sugars have been arm, but close quiet and nearly nominal; fair refining Cuba quoted at 5½ c and Centrifugal, 96 deg test, at 6½c. Refined sugars are quiet. Molasses is without dealings, except a jobbing trade in new crop New Ocleans at 44a50c. The tea sale on Wadnesday went off at steady prices.

The interior iron markets are fairly strength than last week.

Spirits turpentine has been quiet till today, when it became active and buoyant on Southern advices, the sales aggregating 350 bbls., at 45% a 46 c., closing at the outside figure. Rosins also quite active today, the sales reaching 3,200 bbls. mostly common to good strained, at \$1a1.05 per pound.

The speculation in cotton for fu-

fure delivery at this market opened the week somewhat depressed, the Bureau report being more favorable as regards prospects for the total yield than was generally expected. But on Sunday there was severe cold in the South, and killing frosts reported from many points, which led to brisk buying on Southern account and a general covering of short contracts. It was remarked on Tuesday that the principal buying was on Southern order and the principal sell-ing was for Liverpool. On Wednesday a buoyant opening, on the exeaution of Southern orders that had been received during the night, was followed by a smart decline under sales to realize. A recovery on Thursday was followed by a decline, under the report that a New Orleans house of some repute in such matters had put out an estimate of the crop at 71 million bales. Liver- the rest abroad. pool opened at a decline this morning, and we followed suit; but a small advance was made on the reduced interior movement, although the usual buying orders from the South were wanting. Cotton on spot was quoted 1-16c lower on Monday and 1-16 dearer on Tuesday. On Wednesday the market was weak, especially for the poorer grades. Today there was a good demand for home consumption and middling uplands were steady

VICTORIA.

THE EMPRESS FREDERICK VISITS HER MOTHER,

THE RULER OF THE BRITISH EMPIRE-THE INCIDENTS OF THE ARBIVAL IN ENGLAND-OTHER

By Cable to the News and Observer. LONDON, Nov. 19 .- The royal yacht bearing the Empress Frederick of Germany and her daughters and the Prince of Wales reached Port Victoria this morning. Queen Victoria and the Princesses Louise and Beatrice left Windsor this morning to greet the Empress on landing. They were joined at the Waterloo Station of the London and Southeastern Railway in London by Count Von Hatzfeldt, the German ambassador, who will accompany them to Port Victoria and will afterwards go with them to Windsor. There was only a small crowd at the station on the arrival of

was overcast. THE LANDING. LONDON, November 19 .- The Empress landed shortly after the arrival of the royal train at Port Victoria. When greetings were over the whole party boarded the train and proceeded to Windsor, where they arrived this afternoon.

THE CALIFORNIA EARTHQUAKE.

THE SEVEREST SHOCK SINCE 1871.

By Telegraph to the News and Observer. SAN FRANCISCO, Cal., Nov. 19 .- Observations on the movements of the earthquake taken at the University at Oakland and at Alameda show the motion and direction to be virtually the same as in this city. The University of California reports the shock to be the severest since 1871. In some places children are reported to have been rolled out of their cradles. The shock was followed by a rumbling sound which was distinctly audible.

Washington Notes.

By Telegraph to the News and Observer. Washington, Nov. 19.—Surgeon Porter at Jacksonville has telegraphed to Surgeon General Hamilton as folactive, but show rather less spirit and lows: The agent of the Clyde steamers at Vayport assures me that if steamers are permitted to bring passengers for non infected points in Florida, he will guarantee not to allow them to land at Mayport but will have them ransferred to other steamers. Preight for Jacksonville need not be stopped at all as it is not my desire to hamper commerce any more than is consistent with public safety. Under the above agreement I think the steamers could continue to run. Tickets to Jacksonville could be sold to acclimated refugees holding permits from me.

> The Steamer Elpinstone on Fire. By Telegraph to the News and Observer. CHARLESTON, S. C. Nov. 19 -A fire broke out at 1 o'clock this afternoon on the steamer Elpinstone, lying at Vanderhorst wharf on the opposite side of the pier from Sandringham. The Elphinstone is loading with cotton for Bremen. Several engines are pouring water into her hold.

The fire proved to be slight, but necessitated the filling of the forward compartment with water. About 2,-700 bales of cotton is liable to damage by water but the loss cannot be given until the cargo is discharged. Part of the cargo is insured in the Atlantic Mutual of New York, and

A Stockman Brutally Murdered. By Telegraph to the News and Observer.

THE BAPTIST STATE CONVENTION.

Cor. of the News and Observer. GREENSBORO, N. C.

BATURDAY. The special order was the report

of the committee on periodicals. Dr. J. Wm. Jones, of Atlanta, addressed the convention. He thinks the publications of the American Baptist Publication Society not sound in Baptist doctrine. The convention decided not to recommend there publications to the churches.

Dr. C. T. Bailey made a very happy speech in his own manner in behalf of the Biblical Recorder. Dr. Hume complimented the Wake Forest Stu dent in the highest terms. Messis Snow and Foushee, bu in as ma a, e and chief editor respectively, spoke to the convention in behaf of bein magazine. We do not hesitate to say that this is the best college mag azine in the South. The subject of the Greenville ma

morial church debt was then taken up and this, the greatest burden and the one laying heaviest upon the convention, was lefted from its should ers. Pledges due April 1st, 1880, sufficient to pay the debt, were made. This includes the amounts which will be arranged by Dr. Hufham.

Dr. C. E. Taylor led in prayer and 'Jesus Lover of my Soul" was sung with great feeling.

This was a great day in convention The report on obituaries was read

by the chairman of the committee and was adopted—a beautiful report. The Hon. G. W. Sanderlin read the

report of the committee to appoint the Board of Education. The report on Sunday School Supply Store was then read and the sub ect of Sunday School Associations and Conventions was discussed by Rev. C. Durham, N. B. Broughton

and Hon. John C. Scarboro.

Dr. Hufham spake adversely to the subject. Dr. T. H. Pritchard offered a resolution of thanks to the good people of Greensboro for their kind hospitality to the delegates and visitors to the convention and thanks to the railroads for kindness to us. Speaking to the resolution, he said he re membered no more pleasant or successful session of the convention or one that had ever taken greater steps for work in the future. He felt thankful that he had been permitted to attend such a session of the Baptist people of the State. It does us good to meet in these conventions. We get inspiration for better, greater and

nobler work. The resolution was unanimously adopted.

Dr. C. A. Rominger read the report of the finance committee, which was

After announcemen's, the convention adjourned to meet at night. Rev. Mr. Taylor, of Warrenton, led in

SATURDAY NIGHT. President Pace called the convention to order. After the singing of a hymn Rev. R. T. Vann led in prayer and another hymn was sung. The president stated that the subject ac-

cording to arrangement was General Education. Prof. F. P. Hobgood offered a resolution in regard to Wake Forest College, recommending that \$50,000 additional endowment be raised at as early a time as possible

Dr. J. Wm. Jones addressed the convention. Said he came very near being elected president of a female college once because the people could not find anybody else. He had known Wake Forest for a long time. He rejoiced at the prosperity of the fe male colleges of the State But we should consider nothing accomplished while so much remains to be done Dr. Jones made a strong speech urging parents to educate their children

"but, boys, if your parents can't educate you, educate yourselves," he said Dr. Thos. E. Skinner then spoke to the subject. He is a strong believe: in the providence of God. We shall see that the things which we now rant had been quarreling with two think were originated by men were assassination aroused his friends, man's life has a plan in it. God made ment did not strike at the Ashbourne all men with a specific purpose for

> He gave some of his early experi ence at Wake Forest College-much to the delight of the audience. Wake Forest College has not culminated It is just going up the hill, and the day will be when Wake Forest will be known throughout the world. That institution will never die. The cause

the fact of its religious power. Dr. Skinner made one of the master efforts of his life. In his style of fun he went on, but now and then in the most forcible manner he planted forgotten, in regard to Wake Forest

College. Rev. Mr. Carswell, of Atlanta, then forcible speech, treating principally religious education.

The report of the committee was then adopted. Adjourned.

FINAL ADJOURNMENT.

After service Sunday night in the tion the convention adjourned to meet in Henderson on the Wednesday after the second Sunday in November,

HAYTI,

THE REPORTED SEIZURE OF THE AMERICAN STEAMSHIP CONFIRMED.

CONDEMNED BY A PRIZE COURT-AGAINST THE PROTEST OF THE UNITED STATES MINISTER - OTHER NEWS.

By Telegraph to the News and Observer. WASHINGTON, Nov. 19 -The Department of State has received official confirmation of the reported condemnation and seizure by a Haytian court of the American steamship 'Haytian Republic." The condemna tion was pronounced on Friday, Nov. 3d. The Saturday following the United States Minister protested against the proceedings, alleging that the prize court was illegally consti-

tuted, and appealed to a higher court. He also advised the captain of the seized vessel to refuse to surrender the craft The United States manof-war "Boston" arrived on the scene the same day to support the protest of the United States Minister.

Powderly to be His Own Successor. By Telegraph to the News and Observer.

Indianapolis, Ind , Nov. 19'-The desire of the delegates to the General Assembly of the Knights of Labor to continue Mr. Powderly as their chief has been expressed to him formally. Seven delegates who represent the Canadian assemblies. called on him and asked him to accept the office once more. He gave them to understand that he would do so providing he could choose his own advisors on the general executive board. Everything indicates that he will be given his wish and there is now only a difference of opinion regarding the way it shall be done. Under any circumstances Mr. Powderly will undoubtedly continue in office and will choose hisown cabinet. Canada wants to be represented on the general executive board. The South has the like desire, and a movement is on foot looking to the selection of some representative business man.

The British Parliament.

By Cable to the News and Observer. London, Nov. 19 .- In the House of Commons this evening Mr. Madden, Solicitor General for Ireland, in the absence of Mr. Balfour, who is ill, the purchase by the tenants of the land in Ireland by adding £5,000,000 to the amount applicable under the Ashbourne act. Mr. Madden described the Ashbourne act as a great success. There had been, he said, 14,338 signed agreements for the purchase of land, of which 8,632 had been completed There were only two courses open to the government. One was to abandon the scheme of the land purchase, and the other was to extend the act. The fact that the act had been a conspicuous success, justified the government in seeking to enlarge its operations.

When Mr. Madden had finished, Mr Gladstone arose and was received with prolonged cheers from the oppo-

Mr. Gladstone moved the following amendment to the government pro posal: "That in lieu of voting £5,000, 000 it is expedient in view of the lamentable sufferings arising from the recent evictions in Ireland to extend the land law of 1887 so as to empower the courts to reduce or cancel arrears of rents that are found to be excessive." He complained that the government had broken its pledge to the House after obtaining the whole command of the time at the disposal of the members under engagement that no controversial measures should be introduced. Here was a bill of the first importance challenging discussion. It was submitted with the threat that it would be put forward daily until it was settled. His protest was equally against the mode of presenting the bill and the method in which its discusreally originated by God. Every sion was to be pressed. His amendact nor would it necessarily stop its by a small but sure majority; the rest operation. He did not desire to stop of the State ticket being elected by the operation of the act whatever he larger majorities. The legislature might consider its dangers, and he did not oppose the bill because it proposed to keep the act alive, but he objected to it because of the amount
