SATURDAY, NOV. 24, 1888.

Now for patriotic patronizing of abroad for what we can get within the limits of our own State, our own town. Let us seek to help one another, which is equivalent to helping ourselves, for so only can we work out the independence we desire industrially and otherwise.

A PROMINENT candidate for Speaker of the Federal House is Joseph G. Cannon, of Illinois, who, the Wil mington Messenger says, is a native of North Carolina. He has been conspicuous in the House for some time as a republican leader, is a man of ability and is said to stand very close to the President-elect.

WE note that Mr. Wade H. Harris, city editor of the Charlotte Chronicle, mean that he leaves journalism. He is easily among the first of the newsdo without him.

THE Wilmington Messenger is in receipt of a letter from ex-Gov. Jarvis dated October 26th stating that he would sail for home from Rio on the 17th inst. He will probably not return and it is safe to say this country has never been better represented at the court of Brazil than during his occupancy of the mest of minister there.

THE German Reichstag re-assembled Thursday and the Emperor made a pacific speech on the occasion. His words are now weighty and are import by all Europe with earnest- ter with calm resignation and fortiness. That their true import does ways what they seem."

THE Leaksville Gazette says: "The late campaign in this county develhibition democrats, Jeffersonian dem ocrats. Jacksonian democrats and straightout democrats. The voters wisely selected their future officers from the straightout variety, with a single exception."

In which class does our esteemed contemporary put ex-Speaker Web ster, who, as we understand, while claiming to be too good a democrat to vote for Cleveland, voted for Harrison to be President? Out upon such men

steel rail from one end to the other before long, possibly within the year. There have been other marked improvements of the line, and the rolling stock of the company as well has cellence that would hardly have been expected at all a few years ago. Much good work has been done for the road of late, and it has been done with judgment. For instance, rail that is being put down was bought at the low price of \$32, while the old iron rail it is replacing was sold at \$24. We call this first rate financiering. The indica-tions are that the road will soon be in all respects equal to the best roads in this section of the country-in strictly first-class condition, indeed, and the fact is highly creditable to the energy, the intelligence, the prac-tical skill of the present management. The value of the road is being increased constantly and rapidly and the value of the stock rises accordingly in open market. It is manifest that the line is in good hands.

A POST-ELECTION SLANDER.

The Signal, in the course of a very extraordinary article about the forts made to defeat Mr. Nichols in a district whose democratic majority is reasonably 2,000, says:

"Mechanics were threatened with discharge if they voted for him; merchants were threatened with the boy eot if they permitted their clerks to vote for him; manufacturers called their employees before them and admonished them not to vote for him; heads of public institutions threatened the discharge of any employee who dared vote for him; boss work-men from our railroads left their places and spent the day at the polls to watch and report every man who dared vote for him, and even the poor negroes who worked as train hands were threatened, and some of them tern Democrat." him."-

We offer to the editor of the Signal space in the News and Observer to go into the details and specify the names of the persons referred to in the above paragraph. Come, Mr. Signal, don't let your modesty prevent your coming before the public and stating the facts. We say the whole paragraph is false and slanderous.

THE Durham Tobacco Plant is rash enough to "come again" with reference to our denial in toto of its charge that there was "a howling mob" in Raleigh on the occasion of the wreck of the State National Bank. It starts out very well by saying: "The idea of misrepresenting our Raleigh friends, or of making an attack upon them, or of provoking a controversy with them, was far removed from us. The people of our neighboring town have shown too much sympathy for Durham in her home industries. Let us not send distress for us to utter an unkind word about them."

But it makes the great mistake

of going on as follows: "If we were really 'very much misinformed' as to the excitement in Raleigh over the State National whatever is incorrect in our reference to it. But, in all truth, and in justice to ourselves, we must say that the general impression in this community is that there was great excitement in Raleigh over the failure of the State National, and the statement now made by our friend of the NEWS courts of Europe, but it does AND OBSERVER, that there never was less open expression of feeling at the wrecking of a bank,' is news indeed to our readers and such an extraordinary state of affairs should have been made public long ago.

Excitement over such a failure as that was a natural consequence, and if diplomatic corps. At the evenour memory does not play us false severs his connection with the paper the statement now made by our in question. We trust this does not brother of the NEWS AND OBSERVER does not tally exactly with the reports of the catastrophe that appeared in his local columns at the time. About paper men of the State, and North the size of the thing is that our Carolina journalism cannot afford to brother, in this instance, has strained at a gnat and swallowed a camel."

Now, we do not at all propose to quarrel with our neighbor. To refresh the memory of its editor, however, we reproduce the part of our local account of the wreck covering and Venezuela and Great Britain are the point made as to the failure of what we say now to tally with what was said at the time of the catestrophe. It appeared March 28th, the day after the failure of the bank had been announced, and is as follows:

. "Our people have accepted the situation in a practical and sensible way which is most commendable. * "Groups of people were seen to collect about the doors of the bank at intervals yesterday morning, but the place was not crowded by excited masses of people as is usually studied with reference to their true the case. THE people of Newbern have made arrangements for the publication of a hand-book of that city, descriptive of its attractions as a winter resort The Charlotte Chronicle is agitating for a book or pamphlet of the same sort for the city it represents. Raleigh should not be behind-hand in adopting like means of making its advantages known. A pamphlet widely and judiciously scattered containing the advertisements of business men as well as a description of what we have to offer as a city would be of great value and would cost but a Tus Atlantic & North Carolina trifle. Let us have the pamphlet in road, we understand, will be laid with addition to the other means we have in view for the purpose of advertis-ing our charming city and let us have it issued promptly.

JUDGE RUCKER, of Colorado, writes an open letter to Senator Blackburn been brought up to a standard of ex. which is equivalent to a challenge. The question is, therefore, What will the Senator do about it?

"A WESTERN Democrat" writes very timely and pointed letter to the New Berne Journal in which he says: "I find that you are appealing to democrats not to help republicans in your county into office by going on their official bonds. I was surprised to see that it was necessary to make any such appeal to democrats. * * We people up here prefer to elect our county commissioners by popus lar vote, but we are perfectly willing to surrender that right in order to save your county, and others like it. from being controlled by ignorant and corrupt men; but if democrats in your county are so fond of republican rule as to become surety for the good conduct of those who lead the negroes against them, I do not see why we should make the sacrifice. You certainly must be unnecessarily concerned about the matter, for I cannot conceive of what manner of democrat it is that will aid such republicans who lead the negroes against his true interest in giving bond for an office.

We say the words are to the point and of particular force just at this time. We hope they will be well considered by the democrats not only of Craven but of the whole east and of the centre as well. They should be acted upon everywhere. The question they suggest is one not of mere polities but of the maintenance or destruction of the most vital interest of this section of the country. Democrats, white men, of the State should see that it is decided in accordance with the spirit of the letter of "Wes-

The dismissal of Lord Sackville by President Cleveland puts the members of the British legation at the foot of the list of the diplomatic corps in Washington. Lord Sackville stood fifth on the list, but his dismissal sends his successor, whoever he may be, and all his official household to the bottom. Precedence in the diplomatic corps is determined on all official occasions in Washington by length of service. In the courts of Europe it is regulated by the official rank of the diplomatic representative, ambassadors always going first, then envoye, and last ministers resident. Under the sys tem which prevails in this capital it has happened for some years past that the representative of the little black republic of Hayti is the dean of the d plomatic corps. Thus Hay-Bank failure, then we take back ti, the most feeble government in the whole civilized world, and the poorest, will, through its representative stand first on the list of official honors here, while Great Britain, the most powerful and richest, comes in at the tail end. This condition might be awkward in

not amount to very much here, as in fact the only occasion when the distinction marked is on New Year's Day at the President's reception and the one dinner of the season which it is the usual habit of the Executive to give the ing receptions at the White House the diplomatic corps do not come in a body, but just as it suits them, and they are presented in the order of their arrival. With a few exceptions all the friends of the diplomatic corps at Washington bear the rank of envoys. The exceptions now are Greece

and Denmark, which have ministers resident, and Portugal, which has only a consul general. He is not of diplomatic rank, and resides in New York. Brazil, Sweden and Norway, for the present represented each by a charge d'affairs. The smallest kingdoms of Europe and the petty commonwealths of South America all send envoys to Washington, while our representatives at their capitals

A note from Taylorsville tells us that the steam saw mill, plainer, sash, door and blind machinery of Messra H. T. Campbell & Co, located just north of the depot at that place, were destroyed by fire last Saturday night, together with a lot of doors, sash and lumber. The mills had but lately gotten started and were doing a considerable amount of work. The ma-Syrup is simply wonderful, it helps my chinery was new and was worth near child every time and leaves the little fel- \$1,000. The fire is supposed to have caught from the furnace, though no work had been done in the mills Saturday afternoon. It was near midnight when the fire was discovered.

Hen. Thes. D. Johnston

Neither Mr. Johnston nor the democratic party have cause to be mortified over the race just concluded for Congress in this district. He received this year 15 404 votes, over 5,000 more than was ever before received by a democrat in this district, and 2,430 more than he received four years ago. Mr. Ewart's vote increased from 1884 to 1888 over 4,-400, which is, as yet, inexplicable. While the democratic vote shows regular and reasonable increase in every county, the republican increase in several of the counties is phenomenal. Buncombe's radical increase in four years is 800, to 400 democratic; Cher okee's, 300 to 175; Haywood 300 to 100; Madison 400 to 170; Mitchell 400 to 120; Rutherford 400 to 200 Swain 300 to 75. This relative in crease is, we say, inexplicable, and invites investigation. Mr. Johnston received 140 more votes than Gov Fowle, and 210 more votes than President Cleveland, while Mr. Harrison received 294 more than Ewart, and his majority over Mr. Cleveland is 949 to Mr. Ewart's over Johnston of Their Business Booming.

Probably, no one thing has caused such a general revival of trade at Lee, Johnson & Co's drug store as their giving away to their customers of so many free trial bottles of Dr. King's New Dis-covery for consumption. Their trade is simply enormous in this very valuable article from the fact that it always cures and never disappoints. Coughs colds, asthma, bronchitis, croup and all throat and lung diseases quickly cured. You can test it before buying by getting a trial bottle free, large size \$1 Every bottle warranted.

which, if neglected, soon leads to serious diseases. Simmons' Liver Regulator exerts a most felicitous influence over every kind of biliousness. It restores the liver to proper working order, regulates the secretion of bile and puts the digestive organs in such condition that they can do their best work. After taking this medicine no one will say, "I am bilious."

"I was affected for several years with biliousness and disordered liver, which resulted in a severe attack of jaundice. I had goo' medical attendance, and tried the favorite prescription of one of the most renowned physicians of Louisville, Ky., but to no purpose, whereupon I was induced to try Simmons Liver Regulator. I was benhated by its use and it ultimately restored me to the fall enjoyment of health.—A. H. Shin-Lex, Richmond, Ky.
