Secretary Whitney's Report to the Presi-By Telegraph to the News and Observer.

WASHINGTON, D. C., Nov. 30 .- Secre tary Whitney has presented his annual report to the President. After giving brief review of the condition of the navy as it will exist on the 4th day of March, 1885, in comparison with the same as it existed on the 4th day of March, 1889, the Secretary says: "At the present time the conditions are such that everything necessary to a first-class fighting ship can be produced and furnished to the department in this country as soon as in the course of construction any element or feature is required, but this has never until the present time been true and therefore consideration of the subject has been necessarily postponed by the department until the present time.

It is believed that at the present time, the department has reached a point where entire reliance can be placed upon it for the production of war vessels equal in character to those of any other eduntry. "It is gratifying to be able to report

that, as will be seen from the following table, notwithstanding large expenditures for a new navy in the last three years the reduction in other directions has made the total expenditures of the department less for these years than for the three years ending June 30th, 1884, the ordinary expenses of the department having been reduced 20 per cent. (The year 1881-'85 was omitted from the table as not having been wholly in either administration)."

HOTLY CONTESTED GAME OF BOOT BALL BETWEEN THE UNIVERSITY AND TRINITY COLLEGE TEAMS - FINE ATTENDANCE - BRILLIANT

Never has it been our good fortune to see a more beautiful day than was Thursday. The day itself was indeed fit to make everybody feel thankful N. C. for blessings past and present. The gates at Base-ball park were thrown open about 2 o'clock and the crowd began to assemble at once. The easttions from Chapel Hill and Trinity Raleigh people, on foot and in 'busses and carriages, soon swelled the number to about six hundred. The game was called about 3 o'clock, both semblage was shown by the distribu- teams settling down to hard work ber of the hand bills of Herr Most and chose to play from the southern which caused the disruption of the goal. Trinity kicked off and fought who did not believe in dynamite. the University's goal-line. Trinity The principal speaker was Albert held the leather most of the time for Curtain. He said the present system the first twenty minutes and about of society was not worth giving this time Durham, S., succeeded in thanks for, but was worth cursing to making a touch down, which resulted in a goal (six points) for his side. The

ball was then brought up to the centre If there was a God, what a moaster of the field and the University kicked off. They fought hard to get behind Trinity's goal, but they were soon forced back towards their own goal and by dint of hard work Daniels scored another touch down, which gave Trinity one more goal. The rest of the first half showed fine work on the part of the University, who kept the ball in Trinity's territory until time was called for a ten minutes intermission. The score stood 12 to 0 in favor of Trinity.

The field of play rapidly filled with the enthusiastic admirers of both teams and profuse were the praises bestowed on those who had distinguished themselves by their fine playing during the first 45 minutes. Mr. Graham, of the University, received the lion's share. The intermission

was soon over. The University now went to the Northern goal and kicked off the ball. They kept the leather well down in Trinity's territory for a long time, Trinity half-backs now put in some excellent work, and soon had the ball going towards University's goal. Trinity pushed them behind their own goal, and by securing the ball from them, secured their third and last touch-down, which did not bring them a goal.

The score now stood 16 to 0. The remainder of the contest was hou and close, University straining every nerve to score some points and Trinity working to prevent them. The second half ended without any change in the above score.

The players were: UNIVERSITY - Rushers, Bragaw (Captain), Little, Wharton, Shaffner, Blount, Dalrymple and Headen (who sprained his leg and whose place was am not able to enjoy the hospitality taken by Howell); Quarter-back, Campwhich they so cordially extend. bell; Half-backs, Graham and Gil-

Referee, Mr. Shaw, of Chapel Hill; Umpire, Mr. Jones, of Trinity College. The playing on both sides was excellent. The Trinity team played together better than the University. Trinity's half-backs in several cases sacrificed personal plays for the benefit of team work. This was the first scientific game of foot-ball ever played in the State and was appreciated to the full extent by the good people of Raleigh. We cannot begin to mention all of the players who distinguished themselves. Suffice it to say that every player did credit to his team. Trinity's half-backs, Daniels and Rahders, and Graham, of the University, deserve special mention for their brilliant work. These three gentlemen were applauded time and again for their daring runs and skilful dodges. Mr. Little, of the Univer sity, did some fine work, too. The captains, Messrs. Johnston and Bra gaw, deserve special praise for the excellent manner in which they handled their men. The decisions of the referee, Mr. Shaw, and of Mr. Jones, umpire, were entirely satisfac tory to all concerned. The very finest of feeling prevailed between the two teams over the result and at the close of the game the University gave three cheers for Trinity

which were returned with a will. The soft glow of the tea rose is acquired by ladies who use Pozzoni's Comlexion Powder. Try it.
