IN HONOR OF TILDEN.

A CONGRESSMAN WITH GRIT IN HIS CRAW.

MR. CUMMINGS, OF NEW YORK, PROPOSES A SPLENDID MONUMENT TO SAMUEL J. TILDEN—OTHER DOINGS IN CONGRESS.

By Telegraph to the News and Observer. WASHINGTON, January 13.—SENATE.—Among the petitions presented and referred was one signed by the wives of Chief Justice Fuller and Justice Field and Harlan and by the wives of many other distinguished officials and citizens of Washington praying that in the legislation regarding the International Exposition of 1892 provision shall be made for the appointment of women on the board of managers in view of the fact that there is to be a presentation of the share taken by woman in the artistic, intellectual and religious progress of the nation.

Among the bills reported from the committee and placed on the calendar were the following: For a bronze statue in Washington to Christopher Columbus; to change the limit of the appropriation for a public building at Jacksonville, Fla., from \$125,000 to \$175,000; to prevent the introduction of contagious diseases from one State to another, and for the punishment of certain offenses.

Mr. Butler gave notice of his intention to address the Senate next Thursday on the subject of his bill for the emigration of the colored people, and Mr. Passo gave a like notice for the same day, his remarks to be on the subject of Federal elections.

Mr. Hoar offered a resolution, which was referred to the finance committee, instructing that committee, whenever it reports the tariff bill, to incorporate in it a provision that whenever any foreign country shall impose an export duty on logs, in any form, or on manufactured or partially manufactured lumber, the duty shall be collected on such logs or lumber in the United States equal to the amount of export duty so imposed in addition to the duty otherwise imposed by law.

The resolution heretofore offered by Mr. Plumb respecting the lease of the islands of St. Paul and St. George to the Alaska Commercial Company and requesting the Secretary of the Treasury not to make further lease of such islands until further action by Congress, and calling upon the Secretary of the Treasury for information regarding the methods of the seal of the company, was taken up, debated at some length and finally, without action, was referred to the committee on finance.

The action of the House upon the death of Representative Kelly was announced, whereupon the Senate adjourned.

Mr. Adams, of Illinois, chairman of the Select investigating committee submitted a report accompanied by a bill appropriating \$75,000 for the purpose of supplying the deficiency in the appropriation for the pay and mileage of members and delegates occasioned by the recent defalcation in the office of Sergeant-at-Arms.

Mr. Hemphill, of South Carolina, and Mr. Holman, of Indiana, submitted minority reports. They were all ordered printed in the record and recommittees. Accompanying Mr. Hemphill's report is a bill authorizing the members who suffered by the defalcation to bring suit against the government in the court of claims.

The States were called for the introduction of bills for reference. Among the bills introduced were the following: By Mr. Fithian, of Illinois, a resolution directing the committee on ways and means to report a separate bill placing lumber, salt, jute, hemp, manilla and sisal grass on the free list.

By Mr. Morgan, of Mississippi, placing bagging for cotton on the free list.

By Mr. Stockdale, of Mississippi, for a public building at Natchez, Miss.

By Mr. Dannel, of Minnesota, to repeal so much of an act of July 1st, 1870, as authorizes leasing of the right to engage in taking fur seals from the Island of St. Paul and St. George.

By Mr. Baker, of New York, (by request), extending the right of suffrage to women.

By Mr. Cummings, of New York, a joint resolution for the erection of a statue to the memory of the late Samuel J. Tilden. The joint resolution was read as follows: Resolved, That there is appropriated from the treasury of the United States the sum of \$50,000 to erect a bronze statue of Samuel J. Tilden, to be placed in the centre of the rotunda of the Capitol; that on the tablet at the front base of said statue there shall be conspicuously engraved these words: Samuel J. Tilden, the nineteenth President of the United States, elected but not seated; (applause on the Democratic side); that on the right square of the base shall be engraved the date of birth, election and death of such President, and that on the opposite side shall be engraved an eagle with a snake in his talons, and under them these words: "For the right."

perintendent the expenditure of the money and that a copy of these resolutions with the names and titles of said dignitaries be engraved on the rear of said base.

Mr. Sweeney, of Iowa, inquired whether the gentleman expected the inscriptions to be in cipher. (Applause on the Republican side.)

By Mr. Ewart, of North Carolina, exempting from the operation of the civil service law soldiers, sailors and marines of the late war.

By Mr. Grosvenor, of Ohio, for a Military National Park (Obiokananga battlefield bill).

By Mr. A. Taylor, of Tennessee, for a public building at Morristown and Bristol, Tenn.

By Mr. Washington, of Tennessee, making Andrew Jackson's birthday a national holiday.

By Mr. Stewart, of Georgia, to amend the naturalization laws.

The House then proceeded in a committee of the whole to the consideration of the bill to provide for a townsite entry of the lands in Oklahoma. In order to enable the members to examine the bill at their leisure no action was taken and the committee and the House at 3:15 adjourned.

About the Storm. By Telegraph to the News and Observer. WASHINGTON, N. J., Jan. 13.—The storm which was central in the southwest yesterday morning moved northeastward rapidly with great energy, passing over the central valley and lake region, attended by severe gales and destructive local storms.

Unusual local warm southerly winds prevailed to the eastward of the storm centre, while the cold wave extended southward over Mississippi, Missouri and Illinois, southward to the coast, the change in the temperature in twelve hours ranging from forty degrees to fifty degrees from Missouri and Illinois southward to the Gulf coast. The temperature is now below freezing in northeastern Louisiana and Texas; and it is above sixty degrees from Florida northward to New York.

Phenomenal Fog in Boston. By Telegraph to the News and Observer. BOSTON, Jan. 13.—A phenomenal fog shut down on Boston for several hours this morning. Nothing like it has been seen before in this city. It was impossible to discern objects from across the street. The vehicles crawled along to avoid collisions and blockades in the business streets. In the harbor craft of all kinds reduced the speed one half.

A Vessel Goes Down. By Telegraph to the News and Observer. NEW YORK, Jan. 13.—The steamer City of Augusta, from Savannah, which arrived here today, reports that on the 12th instant, at 9:40 a. m., eleven miles north of Barnegat and about four miles from land, she passed a mast floating, and the spar, topmast awast, apparently attached to a sunken vessel.

A Terrible Windstorm. By Telegraph to the News and Observer. PITTSBURG, Jan. 13.—A terrific wind storm passed over the city about six o'clock this morning doing considerable damage and prostrating the wires in every direction. Communication east and west for a time was entirely cut off but it has again been established although the telegraphic service is still badly crippled.

An After-dinner of McAllister's Ball. N. Y. World. Mention was made last week of the criticisms which had been awakened by Cornelius Vanderbilt and Ward McAllister reserving a table for the committee at the New Year's ball and inviting a number of distinguished people, including Dr. Dappew, Grover Cleveland, Mrs. Cleveland, Mrs. Parson Stevens and others, to sit down with them. The table was immediately dubbed the royal table, and it was declared that the appropriation of exclusive privileges at a subscription ball, where everybody contributed to wards the expenses of the ball, was altogether unwarranted. The pros and cons of this serious and important matter have been canvassed at the Union Club particularly and in the drawing rooms of the town throughout the entire week, and more bitterness and acrimony have been engendered than if the discussion had been a political one and the fate of the country had depended on its outcome. As this matter of committee tables is by no means a new thing it is rather strange that the discussion should have been stirred up just at the present time. At the Patriarch balls the committee has always had a table of its own, and other prominent men and women have made up parties for supper simply in order that people who are friendly with each other and enjoy each other's society should be together. Such an arrangement does away with the haphazard character of the ordinary ball supper, and makes the whole thing pleasant and homelike. It is of course understood that all the tables in the supper room at the New Year's ball were supplied with the same menu. The only difference was that more prominent people were at this table than at the others. It would be rather interesting for some of these Union Club critics to come forward and formulate their side of the case.

If you suffer pricking pains on moving the eyes, or cannot bear bright light, and find your sight weak and falling, you should promptly use Dr. J. H. McLesan's Strengthening Eye Salve. 25 cents a box.

WHAT OF GERONIMO??

SECRETARY PROCTOR'S TWO PROPOSITIONS.

THE PURCHASE OF LAND IN WESTERN NORTH CAROLINA SUGGESTED AND ALSO A PROPOSED SETTLEMENT IN THE INDIAN TERRITORY.

By Telegraph to the News and Observer. WASHINGTON, Jan. 13.—Secretary Proctor has sent to the Speaker of the House a report upon the survey of the Cooga river, in Alabama, made under the direction of Capt. Philip M. Price and corps of engineers in compliance with a provision of the law requiring the survey for the location of the channel in and along the river in Alabama from its rapids at Wetumpka to connect with the improvements already completed on the river above Ten Islands. The plan of improvement recommended by Capt. Price as the most feasible, economical and suitable is to provide a system of slack water navigation over the greater part of the distance by the construction of a dam to back the water over the swift, shallow portions and of locks to pass the boats from one level to another, and in addition to excavate a suitable channel through the reefs by blasting and the removal of rock where necessary. The estimated cost of the improvement, consisting of twenty-seven locks, dams and abutments, lock-keeper's dwelling and the rock excavation in the channel between the locks, is given at \$6,074,913.

Secretary Proctor, who has been for some months giving earnest consideration to the amelioration of the condition of the Apache Indians who have been held as prisoners of war since Geronimo and his band surrendered to Gen. Miles, today submitted his conclusions to the President in two alternative suggestions—one the purchase of a tract of land in the mountain region of Western North Carolina or one in the adjacent State; the other that the consent of Congress be requested for their transfer to some point in the Indian Territory, proposing if such transfer be authorized to locate them at Fort Sill temporarily with a view to their final settlement on the Kiowa, Comanche and Apache reservation if satisfactory negotiations can be consummated with those confederated tribes. The latter suggestion has the approval of the Secretary of War, and he recommends its adoption. This is in harmony with the views of Major-General Crook and Lieutenant-General Howard, who, under instructions of the Secretary of War, have recently visited the Apache prisoners at Mt. Vernon barracks, Alabama, where they have been held in custody and who reports as follows: "The band now numbers four hundred and sixty. Two are in confinement at Governor's Island; twenty are at Carlisle school, and three hundred and nine women and children and seventy-nine men are at Mount Vernon. Thirty of these men only are able bodied; twenty-five are able to do more or less work and the rest are old or crippled. Not all of them were hostiles, some of them having been in the army as scouts, in which they rendered valuable and loyal service. Banishment and imprisonment have been their reward. These Indians have had all the desire for war taken out of them and now only desire a term in some location where they can find a more healthful climate and learn the ways of white men."

The President today nominated the following postmasters: Richard D. Locke, Macon, Georgia; W. Walker Russell, Anderson Court House, S. C.; Guilford M. Taylor, Covington, Tenn.; Wm. Spelling, McKensie, Tenn. Also the following recess nominations: George F. Fisher, of Delaware, to be First Auditor of the Treasury; Henry O. Warmouth, collector of customs for the district of New Orleans.

Kinston News. By Telegraph to the News and Observer. KINSTON, N. C., Jan. 13, '90. Messrs. O. E. Barrett and James Cox two of Kinston's young men left last week for Waco, Texas, which they expect to make their future home.

Mr. A. Mitchell had his arm hurt last Saturday by being thrown from his road cart and was dragged a short distance. He succeeded in getting possession of the lines and stopped the horse. The cart was turned over by running over a plough. We are glad to know that Mr. Mitchell was not seriously hurt.

Doctors Busy at Norfolk. BALTIMORE SUN. NORFOLK, Va., Jan. 12.—The police, fire department, railroads, street car lines, ferries, etc. are all attacked by the gripe, and six or seven hundred cases are in the two cities. Some of the doctors report fifty cases on their hands, and the doctors themselves have it. Dr. J. G. McWhorter, of the marine corps, was sent to the hospital yesterday very ill with the disease.

Wearists. whether on pleasure bent or business, should take on every trip a bottle of Syrup of Figs, as it sets most pleasantly and effectually on the kidneys, liver and bowels, preventing fevers, headaches and other forms of sickness. For sale in 50c and \$1.00 bottles by all leading druggists.

TRINITY AWAKE.

SHE IS STILL KICKING THE LEATHER SHOE.

Cor. of the News and Observer. TRINITY COLLEGE, Jan. 12, 1890.

Most of the students have returned "battered and torn" from the places where their hearts lie buried, and have entered college again. A number of students who were with us several years ago have also returned to staff the intellectual air in this vicinity, and with the return of the students the question is put: Now for the foot ball pennant. Shall Trinity win it? The future will have this to solve. The University team having reinforced their ranks by the addition of men said to be from other institutions are putting forth every effort to keep Trinity from winning the pennant. It will be remembered that this season there were to be three games, each college to play the other once. Wake Forest won the game over the "Varsity boys, and on last Thanksgiving day Trinity stole the "turkey" off of Wake Forest's table. Should the "Varsity boys win the coming game against Trinity they would not gain the pennant themselves but only make it a tie as last season. But should Trinity blue win the day the pennant is hers.

Today our team began to play. They mean to PLAY, and play you may expect it to be. While our boys are not totally confident of victory, still it would not surprise us very much to see it perch upon our standard.

If the good people who view the next game will not let their enthusiasm run them all over the grounds in the way of players perhaps Raders and Daniels may get a chance to run, a privilege which they were not given in the last year at Raleigh owing to the crowds that were in their way.

It has already been announced to the public that Dr. Wm. V. Tudor, of Norfolk, has accepted the invitation to preach the Baccalaureate sermon before the graduating class next commencement; but just here let it be stated that Trinity bids all people who love to hear genuine sermons to be with us on that day.

FIXE BOOM TIGER. The Western Union's New Line to Fayetteville. Wilmington Messenger. Capt. G. W. Alley, who is supervising the building of the Western Union Company's Telegraph line along the Cape Fear and Yadkin Valley Railway, from Wilmington to Fayetteville, came down the road yesterday to spend Sunday in the city. He informs us that about thirty miles of the line have been completed and that the poles are up to within twenty-five miles of Fayetteville. That part of the line completed is from the city to a point near Black River, Sampson county. The Captain expects to have the line completed for business by the 10th of February.

Dr. Eugene Grissom. Asheville Citizen. This distinguished gentleman reached here yesterday by the 2 o'clock p. m. train from Knoxville, and was warmly received by many friends, notably among those of the Masonic fraternity, in which he holds high rank and consideration. He will leave today at 2 p. m. for Raleigh. Dr. Grissom has been on a visit to St. Louis, where he has been offered a high and lucrative position in an institution of high character in which the treatment of various ailments is a specialty, and it is probable he will accept the offer. An erroneous statement comes from Washington, that he had been an applicant for the control of St. Elizabeth, the National Insane Asylum. This is an error, his absence from Raleigh being connected solely with the St. Louis proposition.

Give Your Sons a Chance. Every youth looks forward to a bright future in which self acquired wealth figures as a most prominent feature. Success is not acquired without effort, and effort is useless unless intelligently directed. To be a business man, one must be trained to business methods. This is just what the great Business College of Messrs. Sadler, Bryant & Stratton, Baltimore, Md., is doing for thousands of our youths. It is the best in the country. Send for circulars. Terms moderate.

Blood Diseases. Blood diseases are terrible on account of their loathsome nature, and the fact that they wreck the constitution completely unless the proper antidote is applied. S. S. S. (Scallop Blood Tonic) is composed of the true antidote for blood poison. Its use never fails to give satisfaction. Dr. Laura Clark, of Baltimore, Md., writes: "A loathsome form of blood poison was killing my appetite was lost, my bones ached, and parts of my body seemed as if it would come off my bones. A friend brought me a bottle of S. S. S. This began to do me good, and when I had taken two bottles I surprised my friends as my rapid recovery."

Dr. Bryant Moody, Texas, writes: "I had an aggravation case of salt rheum for four years, which medicine I took only seemed to aggravate until I found S. S. S. It cured my hands, which resembled a burnt surface. It also cured my two children, a boy, which had resisted previous treatment."

Satin Etchings. The hand-drawn lines of Satin Etchings ever exhibited in the State can be seen at Fred A. Watson's Picture and Art Store. In the collection is a satin copy of The Angelus, the highest price picture now in America. On Christmas Goods I am prepared to offer extra inducements. Elegant line of novelties, hand painted cards, Chamois skin goods elaborately furnished. Shopkeepers can save money by looking through my stock. Mail orders have prompt attention.

FRED A. WATSON, 112 Fayetteville's St.

Danville and Lynchburg.

Richmond Register. Captain E. T. Lamb, agent of the Richmond and Danville Railroad at this point, writes to Captain Harry Wooding, president Chamber of Commerce, as follows in regard to the Rocky Mount train:

"I am glad to inform you that on Monday next, January 13th, 1890, we will have a mixed train running between Danville and Lynchburg that will carry passengers. This train will make close connections at Franklin Junction for Rocky Mount each way, thereby enabling passengers on the Rocky Mount division to come to Danville, attend to their business, and return home the same night."

The "baby's best friend" is the most appropriate title for Dr. Bull's Baby Syrup. It is perfectly safe and reliable under all circumstances and by allaying the usual stomach and bowel disorders of babyhood keeps the child from fretting and crying.

Some people are queer; they will suffer with dyspepsia or liver disease for months and even years, and when finally cured by a 50 cent package of Leascher, wonder why they never tried it before.

Waked up Effectually. A lethargic, dormant condition of the liver is hardly to be overcome with drastic cathartics and nauseous colagogues. A gentle, pleasant and far more effective means exists of arousing the organ when somnolent. This is Hostetter's Stomach Bitters, vouches for by the medical fraternity, tested by the public for many years. A resumption by the biliary organ of its secretory function, with the activity attendant upon health, a return to regularity of the bowels, and a renewal of digestion, are the no less happy and certain results of using the bitters systematically. Its laxative effect is never painful and distressing, its tendency being rather to perpetuate regularity than to produce a copious action. Malaria, nervous debility, kidney troubles, and neuralgia it subdues effectually.

New Orleans Melange. Choice new crop New Orleans and Porto Rico Melanges. Maple Syrup by measure. Best Buckwheat, etc. HARDIS & FISCUD. A Cheap Vegetable. Bickardson's corn 10c per can. A good standard brand of corn in full size No 2 cans. A full stock of reliable canned goods of every description—fruits, vegetables, fish, etc. HARDIS & FISCUD.

ONE ENJOYS Both the method and results when Syrup of Figs is taken; it is pleasant and refreshing to the taste, and acts gently yet promptly on the Kidneys, Liver and Bowels, cleanses the system effectually, dispels colds, headaches and fevers and cures habitual constipation. Syrup of Figs is the only remedy of its kind ever produced, pleasing to the taste and acceptable to the stomach, prompt in its action and truly beneficial in its effects, prepared only from the most healthy and agreeable substances, its many excellent qualities commend it to all and have made it the most popular remedy known.

Syrup of Figs is for sale in 50c and \$1 bottles by all leading druggists. Any reliable druggist who may not have it on hand will procure it promptly for any one who wishes to try it. Do not accept any substitute.

CALIFORNIA FIG SYRUP CO. LOUISVILLE, KY. FRANCISCO, CALIF. NEW YORK, N.Y. JOHN B. FISCUD, Raleigh, N. C.

THE SON OF "McGINTY" IS ALL THE CRAZE NORTH, BUT

RALEIGH PEOPLE Content Themselves WITH USING

ENAMELINE, AN IMPROVED STOVEPOLISH.

It produces a jet-black enamel makes no dirt, requires no mixing, always ready for use. It is a paste. Cannot spill on the floor, and saves labor in applying it.

THEOS. H. BRIGGS & SONS, RALEIGH, N. C.
