Killed by a Boiler Explosion.

By Telegraph to the News and Observer.

READING, Pa., Nov. 17.—A terrible accident took place at Mertz- town, this county, at 7 o'clock this morning, which resulted in the death of three men and the serious injury of five. While the employees of Edward Texter's stove factory were preparing to start to work and the engineer getting up steam in the boilers, one of the large boilers ex- ploded. The building was com- pletely wrecked. Henry E. Peters, aged 71; Sassaman Hilbert, aged 25, and Charles Oswald, aged 45, were instantly killed. Among the more seriously injured are Samuel Epler, Frederick Delong, Albert Reppart, Jas. B. Ansher and Chas. Albert, all terribly scalded, and Epler, De- long and Albert had limbs broken. The exact cause of the explosion is not known. The force of the con- cussion was felt a distance of five miles. The bodies of the killed were terribly mangled. Charles Basher was badly cut, and Charles Albert received fatal injuries. All seven of the injured were standing in the boiler house warming themselves when the explosion occurred.

The North River Bank May Re-open.

By Telegraph to the News and Observer.

NEW YORK, Nov. 17.—When the North River Bank case came up before Judge O'Brien today on the motion for a receiver it was stated that negotiations were still pending to re-open the bank and an adjourn- ment was asked for till tomorrow. The Attorney General and Bank Su- perintendent Preston were repre- sented by Mr. Post, who stated that the assets of the bank were in the hands of the authorities and no harm could result from an adjournment. He thought the prospects of success were excellent. The adjournment was granted.

Late this evening State Superin- tendent of Banking Preston said it had been definitely decided that the North River Bank would not resume. The directors were unable to secure the required funds. It was pretty well understood that the result was made necessary because of the stand taken by two of the Wall street banks, which insisted that unless the actual cash to the amount of the de- posits in the bank was in the possession of the bank to meet these de- posits the bank should not be al- lowed to clear through the clearing house. Mr. Preston said that from closer examination the collateral held by the bank as security for the loans, he had found there would be a shrinkage in their actual value. This, he believed, would make a nominal deficiency of about \$100,000.

Indians Cause Alarm.

By Telegraph to the News and Observer.

MINNEAPOLIS, Nov. 17.—A Journal's Mandan, N. D., special says: Supt. Green, at Riverside ranch, whose ranch is between Mandan and the Sioux reservation, came in this morning, being alarmed at the be- havior and sullenness of the Indians who are coming in rth well armed and acting in an unfriendly manner. Today a number of Indians, armed with two guns each and plenty of ammunition, passed through this town presumably en route to stir up the Indians on the reservations north. The people are coming in from the south and begging the citizens to stir up the authorities at Washington to action. Enough Indians are now traveling about this section to run off all the cattle and kill half of the settlers in the country.

MINNEAPOLIS, Nov. 17.—A friendly Indian brings warning from the Sioux reservation. He says there is great danger there and that the Indians propose to attack Fort Abraham Lin- coln knowing that there are but 50 soldiers there. Then they propose to capture Mandan and massacre the citizens and burn the town. The greatest alarm prevails among the people here. It is reported that the Indian police at Standing Rock have torn off their beards and re- volved.

Nihilists Convicted.

By Cable to the News and Observer.

ST. PETERSBURG, Nov. 17.—The trial of the nihilists accused of being implicated in the plot against the Czar was concluded today. Sophie Guengberg, one of the prisoners arrested here after her trial in Paris, in which city she was arrested for having bombs in her possession, to- gether with two accomplices named Stoiianoffski and Freifeld, were found guilty, and condemned to be hanged. The court, however, recom- mended that the Czar merit the sentence of death against Stoiianoffski and Freifeld, and that they be banished to Siberia. Two officers, also charged with complicity in the plot, were acquitted.

Parnell's Political Obituary.

By Cable to the News and Observer.

LONDON, Nov. 17.—The Daily Telegraph publishes Parnell's political obituary. It says he must cease for the present at least to lead the National party. It is reported that the followers of Parnell do not desire him to retire unless by his own volition in which event the leadership of the Irish party will be vested in a commission of which Gaston McCarty will be the president.

THE SITUATION.

THE STOCK MARKET FREE FROM EXCITEMENT.

Stocks Picking Up a Little and a Comparatively Healthy Tone Prevailing—Some Lack of Confidence Abroad—The Barings Solid.

By Telegraph to the News and Observer.

NEW YORK, 10:00 a. m.—The stock market opened comparatively free from excitement and strong and higher for many of the leading shares. Delaware, Lackawanna and Western, Burlington and Quincy and sugar trust were the only stocks which showed any marked decline.

10:30 a. m.—Randall and Wierum, brokers, have just announced their suspension on the stock exchange. The failure had no effect on the market.

Randall is lying critically ill at his home. Wierum states that the en- gagements of the firm are very small and that he expects an early adjust- ment of the affairs of the firm to be made.

The failure is said by the friends of the firm to be due mainly to Ran- dall's physical inability to be upon the floor of the Exchange this morn- ing. Much sympathy was expressed, and offers of assistance were numer- ous, but they came too late to avert the misfortune. It is understood that arrangements have been per- fected to re-establish the house in business at an early date.

NEW YORK, Nov. 17.—Wall Street, 10:30 a. m.—The market is more steady with general list well held at small fractions above opening figures.

11:30 a. m.—Gregory, Ballou & Co., brokers of No. 1 New street, have announced their suspension on Stock Exchange. Gregory, of Gre- gory, Ballou & Co., says the cause of the suspension of the firm was the shrinkage in stock and believes their embarrassment to be temporary only. Other members of the firm concur in this statement.

NEW YORK, Noon—Money is quiet at 5/16. The stock market after 11 o'clock subsided into the usual mod- erate business. Lackawanna rose to 126 1/2 against 125 at the open- ing, and Burlington at 83 1/2 was 1 1/2 per cent. better than when it opened. Sales under the rule for accounts of the suspended firms are numerous and some bulls are again predicted among which the Virginia Midland which was quoted lately at 52 bid, but sold at 37 1/2 and the Iowa Central which has ranged around to 7, sold at 3 1/2. The general market, however, remained firm even under the depressing influences of these sales, and at noon were active and firm to strong at best prices of the morning.

A special dispatch from London says: The Barings declare their financial position to be sound now, as the banks have guaranteed a three years' support. The firm will realize four million pounds surplus. They now hold 28,000,000 of the best com- mercial paper in the world, and their total liability is £21,000,000. It is conceded that while they were em- barrassed by the steady depression on Argentine's to a considerable ex- tent, the principal cause of their trouble was Russia's withdrawal of £5,000,000 in all from the firm's ac- count.

LONDON, Nov. 17.—The repre- sentative of the Associated Press to- day visited the House of Baring Bros. & Co. Everything was quiet about the place, and there were no internal or external signs of distur- bance. The members of the firm stated that all their acceptances and other liabilities will be met as they fall due, and that the position of the firm, with the Bank of England at its back, is stronger now than ever before.

BOSTON, Nov. 17.—Kidder, Pea- body & Co. are in receipt of a cable from the Barings stating that all matters are arranged satisfactorily and permanently, and authorizing Kidder, Peabody & Co. to proceed with business as usual. The Boston banks at 11 a. m. met to agree upon concerted action of precautionary measures as deemed advisable. The clearing house committee voted to issue clearing house certificates. Forty-three banks voting in favor and no vote against. The rate of in- terest on certificates will be 7 1/2 per cent. Security must be put up by a vote of the directors of any bank asking for certificates in ratio of \$100 for each \$75 advanced. No certificates asked for today. The amount will not be limited.

LONDON, 12:30 p. m.—At this hour foreign securities are depressed. Con- sols steady, American securities weak. The rate of discount in open market is nominally the same as the Bank of England rate.

LONDON, 1 p. m.—Dispatches just received from continental houses show that all is weak.

2:30 p. m.—Foreign securities and American railway securities are now flatter and prices continue to recede. Consols and English railway securi- ties are steady.

PARIS, Nov. 17.—The Press en- clouses the action of the Bank of France in helping the Bank of Eng-

land by sending gold to that insti- tution.

PARIS, Nov. 17.—11 a. m.—Finan- ciers here are now taking a pessimis- tic view of the situation.

Washington News.

By Telegraph to the News and Observer.

WASHINGTON, Nov. 17.—The amount of silver offered for sale to the treasury today was 1,475,000 ounces and the amount purchased was 747,000 ounces, rates ranging from one dollar to one dollar and a half cent., but most of one dollar rate. The amount of silver purchased during November at the mints up to date was 425,375 ounces. The total purchases including those at the mints and today's purchases in the treasury is 3,977,375 ounces.

Did McKinley Do It?

By Telegraph to the News and Observer.

DANBURY, Conn., Nov. 17.—Two thousand girls employed in the trim- ming department of eighteen facto- ries connected with the Fur Hat Manufacturers' Association were locked out this morning. Some of the factories have shut down entirely, while the remainder continue to do work in the other departments. The trimmers have taken no step to ad- just matters as yet. The annual meeting of the manufacturers will be held tonight, when the situation will be thoroughly discussed and an ac- tion decided upon. Over 5,000 hat- ters are idle here today.

A Train Goes Through a Bridge.

By Telegraph to the News and Observer.

KANSAS CITY, Nov. 17. This morning as a freight train on the K. C. Wyandotte and Northwestern was crossing a bridge over the river, in this city, a span of the bridge gave way and precipitated the entire train into the river thirty-one feet be- low. The train consisted of five cars loaded with hogs, farming imple- ments and grain. A negro who was stealing a ride, was killed. The fireman who is from Lawrence, Kansas, is missing and supposed to be under the wreck. The engineer, conductor and 3 brakemen are badly hurt and 58 hogs drowned. The river is 15 feet deep. The engine and almost the entire train are buried out of sight.

LONDON POLICE.

How Order is Maintained in the English Cap- ital.

The North American Review de- clares that, judged by results, it is not too much to say that the security of the public in the streets of Lon- don is achieved and public order maintained in a manner unsurpassed in any capital city of the world. The regulation of the vast traffic of the metropolis throughout the day, and up to a very late hour at night, is carried on in a quiet, unostentatious and efficient manner, which calls forth the highest commendation of all foreign visitors, and life and property are protected, on the whole, in a manner which leaves no very serious ground for criticism. It is true that crimes of violence generally have diminished in modern times; but, making every allowance for this, it is still marvellous that organized crime of a really serious character should prevail to so small an extent in an enormous population like that of the Metropolitan police district.

Excluding the unique series of outrages in White Chapel—at the non-discovery of the perpetrators of which none grieved more than the Metropolitan police—I cannot call to mind half a dozen really serious cases of murder which, within the last five or six years, have remained undetected; and the number of such offenses committed is really small. Serious crimes against property, such as burglary and house-breaking, oc- cur to the extent of about four a day, roughly speaking, and as re- gards detective results of these cases there is decidedly room for improve- ment.

A New Railroad.

The Tennessee River, Asheville and Coosa road is to be about 100 miles long, running from Lock No. 3 on the Coosa via Greenport and Asheville to a point on the Tennessee river. The line is being located from Asheville east and three miles have been graded from Asheville to Whit- ting. Track will be laid on this part of the line at once. Preliminary sur- veys are in progress from Asheville north toward Decatur.

HEAVY FORGERIES

CAUSE A BIG FAILURE IN NEW YORK.

Mills, Robeson and Smith Make an Assignment With Liabilities of \$600,000 in Consequence of the Peculations of a Member of the Firm.

By Telegraph to the News and Observer.

NEW YORK, November 17.—The assignment of Mills, Robeson and Smith, brought about by the forgeries of the junior partner, was formally filed in the county clerk's office today. The firm assigned to Wm. A. Watson, with a preference to Edward Sanderford for \$15,000, and to James H. Fay of \$1,000; Albert H. Smith, the guilty member of the firm, who was arraigned in police court this morning, was remanded until tomorrow.

The remarkable frauds perpetrated by Broker Albert H. Smith was the talk of the street today. The creditors of the firm ruined by his pecu- liations will hold a meeting tomorrow afternoon, and at that time a state- ment of the firm's liabilities and as- sets will be presented. The firm of lawyers representing the wrecked firm said today the figures approxi- mating the liabilities of the firm were: Due on loans for which stocks and bonds had been issued as col- lateral, \$500,000; due depositors, \$100,000; total, \$600,000. Assets—stocks and bonds pledged, \$330,000; other property about \$35,000; total, \$365,000. Smith's forgeries amount to about \$240,000, and his private loans to about \$140,000; his assets \$30,000. A partial schedule of Smith's forgeries shows that the actual value of the securities pledged is in most cases 10 or 12 per cent of the amount loaned on them. For example, a loan of \$25,000 was ob- tained on securities worth \$2,800, and for loans aggregating \$147,400, the securities pledged are actually worth only \$16,500, the certificates having been raised to ten times that amount.

Daughter—Pa, you remember you told me to save all the pieces of string from store packages and wind them into a ball. Economical Pa—Yes my dear. Did you? Governor-Elect Tillman Mad.

CHARLESTON, S. C., Nov. 15.—Governor-elect Tillman left here to- night for Edgefield via Augusta. He spent the day in talking to phos- phate men and to some politicians. He also had an interview with Capt. Abbot, the United States engineer in charge of the river and harbor works. Before leaving he said: "I have been met in my desire to put myself in possession of full and accurate information on the phosphate question. I have gathered up not only the facts, but also have had the benefit of suggestions from men whose experience entitles their views to careful consideration. The Governor-elect did not say anything for publication on the subject, but it is reported that he is exceedingly wroth at the publication in his organ this morning of an alleged interview in which he is made to appear rather below the standard of an average South Carolina Governor."

Literary Note.

The Christmas edition of the Cos- mopolitan Magazine as one hundred thousand copies. The order is origi- nally given to the printers, was for 85,000 copies, but while on the press it was thought advisable to increase the number to 100,000.

It contains a feature never before attempted by any magazine, consist- ing of 123 cartoons from the brush of Dan Beard, the now famous artist, who did such wonderful illustrations in Mark Twain's book, "The Yankee at the Court of King Arthur."

These cartoons are placed at the bottom of each page of the magazine, and take for their subject, "Christ- mas during the Eighteen Centuries of the Christian Era," with variations showing the way in which modern christians carry out some of the chief texts of the Christian Gospel.

Above, and at each side of the page is a quaint border, the whole effect being novel and extremely pleasur- and with the unusually varied table of contents, will make such a Chris- mas number as is worth, to go into more than 100,000 house holds.

The frontispieces of the Cosmopoli- tan have of late become noted for their beauty some of them having as much as four printings. That for Christmas, while in but two printings, is not behind anything that has preceded it in artistic merit.

The contents of the number are as follows:

Away on the mountain, wild and bare, (Frontispiece); The Passion Play at Oberammergau, illustrated, Elizabeth Bisland; The Race (poem), George Edgar Montgomery; The Cruise of the "Sonoma," illustrated, T. H. Stevens; Collections of Tea- pots, illustrated, Eliza Ruhamah Seidmore; The Army of Japan, (part 2), illustrated, Arthur Sherburne Hardy; Hymn (poem), John W. Weide- meyer; Field Marshal von Moltke, illustrated, James Grant Wilson; Mrs. Pendleton's Four-in-Hand, il- lustrated, Gertrude Franklin Atherton; Literary Boston, illustrated, Lillian Whiting; Equanimity, (poem) William Wheeler; A Famous Fire- place, illustrated, Herbert Pierson; The Birds of Nazareth, (poem) Eliza- beth Akers; The Pursuits of the Mar- tyrs, (part 1) illustrated, Rich- ard Malcolm Johnson; Hylas (poem) Marion M. Miller; Review of Cur- rent Events, Murat Halstead; So- cial Problem, Edward Everett Hale.

Remarkable Rescue.

Mrs. Michael Curtin, Plainfield, Ill., makes the statement that she caught cold, which settled on her lungs; she was treated for a month by her family physician, but grew worse. He told her she was a hopeless victim of consumption and that no medicine could cure her. Her druggist suggested Dr. King's New Discovery for Consumption; she bought a bottle and to her delight found herself benefited from first dose. She continued its use and after taking ten bottles, found herself sound and well, now does her own housework and is as well as she ever was. Free trial bottles of this Great Discovery at John Y. MacRae's drug store, large bottles 50c, and \$1.00.

Advice to Mothers.

Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces nat- ural, quiet sleep by relieving the children from pain, and the little cherub awakes as "bright as a button." It is very pleasant to taste; soothes the throat, softens the gums, allays all pain, relieves wind, regulates the bowels and is the best remedy for diarrhoea, whether arising from teething or other causes. Twenty-five cents a bottle.
