Killed in Honduras.

By Telegraph to the News and Observer. NEW ORLEANS, Nov. 19.—Page M. Baker, managing editor of the Times-Democrat, received a cable dispatch yesterday from Tegucigalpa, Honduras, stating that his brother, Col. Allen H. Baker, was killed on the 4th inst. while serving under President Brogran. Col. Baker was a gallant ex-Confederate soldier and was 44 years old. He leaves a wife and three children who are now in this city. He went to Honduras about five years ago and took charge of the Police Department of the Republic. This position he held until about six weeks ago when a revolution broke out. Col. Baker, Charles D. Beyer, his successor; Bertie Cicole, telegraph manager, and Capt. Frank Imboden, all Americans, were on the Atlantic coast. By forced marches they reached Brogran's headquarters in four days, joined his army and were in the fight which resulted in the overthrow of the revolution.

An Actress Dying.

By Telegraph to the News and Observer. PHILADELPHIA, Nov. 19.—Miss Julia Marlowe, actress, today is lying at the point of death, with the only hope for life depending on an almost hopeless surgical operation. Miss Marlowe was taken sick with typhoid fever three weeks ago, and last Friday passed the crisis of the disease in safety, and but for complications would by this time have been on a fair way to recovery. On Sunday the glands in her throat began to swell, abscesses formed, from which blood poisoning set in, and she is now in imminent danger of death. Her physicians have hesitated to operate upon the abscess, as in her weak condition they consider she would not be able to survive it. This afternoon at 3 o'clock they will hold a consultation, and as she will inevitably die if the operation is not performed, will probably decide to open the abscesses, although her chances of living through the operation are small.

O'Brien, John Dillon and Patrick O'Brien, all of whom are members of Parliament, John Curran, Thos. Walsh, Pat Meekler and Balton, who were indicted for trying to induce tenants on the Smith-Biarny estate not to pay rent. Wm. O'Brien and Dillon are each sentenced to 2 terms of imprisonment in prison of 6 months each but sentences are to run concurrently. Patrick O'Brien and Cullinane were each sentenced to 6 months imprisonment and Walsh, Meekler and Balton 4 months each. Father Humphrey and Thos. J. Conden, members of Parliament, Daniel Kelly and David Sheehy, members of Parliament, indicted on the same charges were found not guilty and discharged.

The Anniversary of the Riot.

By Cable to the News and Observer. MADRID, Nov. 19.—Today was the anniversary of the riot which occurred in 1834. The students at the University refused to enter the building. They formed in procession and marched to the offices of Minister Justice, where they made a hostile demonstration. They then marched through the streets singing and shouting. The police drew their swords and attempted to check the progress of the mob, but they were speedily disarmed. The students afterwards gradually dispersed.

A MYSTERIOUS SHOT.

UNACCOUNTABLE DEATH OF A RUSSIAN AGENT.

He Dies From the Effects of a Bullet Wound in His Head, But Who Fired the Shot Is Involved in Mystery.

By Cable to the News and Observer.

PARIS, Nov. 19.—Gen. Seliverskoff, Russian agent in France, died today from the effects of a bullet wound in his head, inflicted in a manner which at present is a mystery. Conflicting reports are current as to how the shot was fired. One report says a stranger called upon him yesterday at his residence at the Hotel Bado, and that half an hour after the visitor departed Gen. Seliverskoff was found by his valet lying unconscious in his room, shot in the head. Other reports state that the General received no visitors. No weapon was found, and the furniture in the room was not disarranged. The police attach some suspicion to the valet, and he is carefully watched.

The judicial authorities conducting the inquiry at the Hotel Bado into Gen. Seliverskoff's death have examined a number of servants. The police have become convinced that the valet had nothing to do with shooting his master, therefore they have withdrawn the watch on him. The valet was much attached to Seliverskoff. The evidence clearly points to an assassination. A clue has been obtained which will probably lead to the detection of the murderer. A few days ago M. M. Bernoff, owners of the Franco-Russian rooms on the Rue Royale, engaged as an employee a Russian Pole named Podleski. Podleski was entrusted by his employers with an invitation to a ball which he was to deliver to Gen. Seliverskoff. This enabled him to obtain access to the General's room. Podleski has absconded.

The further the authorities inquire into the case the more the evidence tends to prove that the murder was committed by Nihilists and that it was an act of political vengeance. The police believe that the murder was committed when Gen. Seliverskoff was answering the note of invitation which was delivered to him by Podleski and that Podleski left the hotel unobserved. Podleski's identity has been established as one of Paris' colony of Nihilists.

PRECAUTIONS TAKEN.

Troops Will be Ready for the Indians if There is an Outbreak.

By Telegraph to the News and Observer. WASHINGTON, D. C., Nov. 19.—General Miles telegraphs from Chicago today to the Adjutant General of the army that the reports today are of the same threatening tenor from Pine Ridge. Troops have been ordered to that agency and to Rosebud to give protection, encourage the loyal and restrain if possible the turbulent. The military are now using every effort to restrain and avoid an outbreak or at least to bridge over the time between this and severe cold weather. It is believed any other course would precipitate hostilities. Thus far no Indians have been reported as having left their reservation with hostile intent. Gen. Schofield telegraphed Gen. Miles as follows:

"I approve of the measures you have taken in sending troops to Rosebud and Pine Ridge agencies and also of your proposed efforts while giving necessary protection to agencies and restraining, as far as possible, to prevent Indians to avoid, if possible, an outbreak or any active hostilities for the present till the advancing season and further preparations shall be made for the operation of the troops more effectively, with less danger to the surrounding settlements. The cavalry and artillery at Fort Riley and all other available troops will be placed under your orders if the emergency seems to require it."

A dispatch from the Rosebud agency says that to tomorrow the Indians at both the Rosebud and Pine Ridge agencies will find themselves confronted by the largest force of troops that has ever been assembled in the United States since the Geronimo outbreak in Arizona, and that confidence has been reestablished there. This force embraces eight companies of infantry and six companies of cavalry under Gen. Brooke. Seven companies of the Seventh infantry are in readiness to start from Fort Russell at Cheyenne, Wyoming, at an hour's notice. They can reach Pine Ridge in forty hours. The Pine Ridge and Rosebud agencies are only fifty miles apart.

JAY GOULD.

Regains Control of the Pacific Steamship Company.

By Telegraph to the News and Observer. NEW YORK, Nov. 18.—The Gould party have regained control of the Pacific Mail Steamship Company. At the meeting of the directors of that company today the resignations of Ed. Lauterback, C. M. McGhee and Oliver H. Payne were received and George J. Gould, Jay Gould and Russel Sage elected in their places. Then J. C. Houston resigned the office of President and was succeeded by Geo. J. Gould who immediately offered a resolution that Houston be elected vice-president and General Manager. This resolution was carried without dissent.

The Situation in London.

By Cable to the News and Observer. LONDON, Nov. 19.—The Stock Exchange today was a prey to rumors none of which were founded on fact. It will be astonishing if today's consternation is not followed by a sharp rally. There is nothing in the monetary situation to create uneasiness. The Bank of England returns will probably exceed fourteen million pounds and will probably reach sixteen millions. A week later every facility will be given by the Bank of England and other banks to borrowers, stocks and other securities. Country banks have ceased to withdraw money from London and there is every appearance that the acute panic is over. There was a very sharp rally this afternoon all around. Prices did not fully recover, but the market was reassured and business which had been practically impossible was resumed even in the most speculative stocks. Money for the payment of Argentine loans and January and next coupons of Uruguay's debt is already in hand. The statement that the bill drawn by Baring Bros. after Saturday would not be accepted is denied. They will be accepted as usual.

Parnell May Marry Mrs. O'Shea.

LONDON, Nov. 17.—The latest report current is that Mr. Parnell will marry Mrs. O'Shea as soon as she is clear from her husband. Owing to delays of the British divorce system, about seven months will pass before the marriage can take place. The rumors that Mr. Parnell has a wife to whom he was secretly united in wedlock do not find any credit, and no substantial ground has been given for that. General Sir Evelyn Wood, who, although a near relative, is not on the best of terms with Mr. O'Shea, has openly stated that, as a man of honor, Parnell could take but one step adequate to make the public condone his misconduct, and that was to marry Mrs. O'Shea. It is thought that Mr. Parnell, unless there is something in the story of another marriage, will not be averse to this, as he is believed to be deeply attached to Mrs. O'Shea, who retains much of her youthful beauty, and whose family will compare favorably with that of Mr. Parnell as to social position and public distinction.

DEPOSITORS SCARED.

HEAVY RUN ON A NEW YORK SAVINGS BANK.

Alarm Among the Poorer Classes on the Bowery Causes Them to Draw Their Deposits—A Run in Newark—No Disastrous Results Feared.

By Telegraph to the News and Observer.

NEW YORK, Nov. 19.—The uncertainty in financial circles has caused an unsettled feeling to possess the minds of those who have deposits in the banks of the city, particularly among the poorer people. Depositors in the Citizens' Savings Bank of the city of New York at the Bowery and Canal streets, besieged its doors today from the opening hour till six o'clock when the doors were closed with difficulty. All day long the crowd surrounded the bank and clamored for admission. The officials paid the demands of the depositors with as much expedition as possible, but it was impossible to pass over the money quickly enough to satisfy the applicants who were laboring under the impression that the bank had failed. President Quintard, at the close of the day, said about \$100,000 had been paid out averaging about \$75 to a depositor. President Quintard said the bank was all right. He showed by the books that the bank had a surplus of \$1,400,000. There was \$1,360,000 subject to check at any time.

NEWARK DEPOSITORS ALARMED.

NEWARK, N. J., Nov. 19.—The run on the Howard Savings Bank continued today. Most of those who withdrew their deposits were poor, and had become frightened at the Wall street troubles. President Frelinghuysen said the bank had sufficient money to pay off all depositors. NEW YORK, Nov. 19.—10.15 A. M.—The stock market, in response to the panicky feeling, opened from 1 to 3/4 per cent down, the prices since, however, have been fairly well held, notwithstanding considerable excitement exists.

The W. C. T. U.

By Telegraph to the News and Observer. ATLANTA, Nov. 19.—Delegates to the Woman's Christian Temperance Union Convention spent today at Indian Springs, where it is proposed to establish an inebriate asylum under the auspices of the National Woman's Christian Temperance Union. The ladies were the guests of the citizens.

Speeches were made and a banquet was given the visitors. A site and the nucleus of a fund is offered by Indian Springs for the establishment there of such an institution. The waters there are famous and it is claimed that they furnish a sure cure for the whiskey habit. Efforts have been made to get the State of Georgia to put an inebriate asylum there, but they have failed through the legislative ideas of economy. Several resolutions have been passed by the convention, but were omitted in the reports of the committee that were furnished by the secretary today. One of these is: Resolved, That the National Woman's Christian Temperance Union was never planned or purposed to organize a new church, nor has our president ever advised us to undertake any such work of supererogation.

Georgia Legislature.

By Telegraph to the News and Observer. ATLANTA, Ga., Nov. 19.—The legislature met in joint session today and formally announced the result of yesterday's election of John B. Gordon as Senator for the full term of six years from March 4th, 1891.

JOHNSTONE JONES ELECTED.

He is to be District Attorney in San Diego, California.

Asheville Citizen. Gen. Johnstone Jones, formerly of Asheville and now living in San Diego, California, has been elected district attorney by the democrats in his district. He received a majority of twenty-six and the county in which he lives gave a republican majority of 1,000. This is a great victory for Gen. Jones and his hosts of friends in Asheville will rejoice in it.

The daily San Diegoan, of the city in which he now lives, has the following complimentary paragraph about Gen. Jones: "General Johnstone Jones, democratic nominee for district attorney, combines every element that could commend one to voters of the country. An eminent lawyer, a man of mature age and experience, he has all his life taken a prominent part in public affairs, and held such high and responsible position as to give him a reputation which is national in its character and extent."

NO OPPOSITION TO HILL.

All the Signs Point to His Election as United States Senator.

ALBANY, Nov. 17.—There is an impression here, growing wider as the days go by, that David B. Hill will be the next United States Senator. It is impossible to give a reason for this. None of those who may fairly be presumed to have the confidence of the Governor will speak at all upon the subject; none of those who may be classed as belonging to the other wing of the party will say that there is any strong opposition to him. The impression is prevalent, though; it is in the atmosphere, intangible, invisible, but undoubtedly existent. Indeed, the very absence of any combination or a candidate in opposition to him is taken as meaning that the honor must come to him.

Mention any other person and a score of objections is immediately heard. Mention him and there is no objection even his enemies, who grow fierce at the connection of his name with the Presidency, consent to his taking the lesser honor and admit that he would do the party and the State much honor in the Senate. He is the arbiter of his own destiny and seems now to stand at a Rubicon. Nobody knows whether he will cross and carry his contest up to the Capitol itself and recruit his armies in his own State.

A Chip of the Old Block.

By Cable to the News and Observer. During the sixties Mr. Thos. H. Raney, of Granville county, was one of her most thrifty farmers and prided himself on having the best of everything. His horses and mules surpassed any in the neighborhood; his cows, hogs, turkeys and fowls were beauties to be admired—his garden and orchards produced fruits and vegetables unequalled, and in fact everything he handled was of the best.

One day a passing neighbor admiring a beautiful flock of over fifty turkeys, asked the price of a pair of the shining beauties. "We never sell turkeys," said Mr. R., "what our family and friends can't eat we give away." Seeing three of the finest bronze gobblers ever shown in the city, sent up by Mr. C. W. Raney of Kirtland to three of his friends for their appreciation, calls back to our minds the liberality of his esteemed father. Long may Charley live and prosper. B. W. G.

A Big Brown-Stone Deal.

By Cable to the News and Observer. Carthage, Tenn. Col. Evans, of Philadelphia, representing a syndicate of capitalists, has been here several days on a trade for large brownstone interests, owned by Messrs. L. Grimm and J. McL. Kelly, situated three or four miles northwest of town. The trade has not been closed yet, but the papers have been drawn up, and it will very likely be settled within a few days. These quarries contain thousands of tons of stone, which has been pronounced by experts to be the finest in the United States. The purpose of this company is to build a railroad to these quarries, and begin taking out the stone at an early day. Col. Evans has secured the right of way for the railroad over nearly the entire proposed route. The opening of these quarries will be quite a boom for Carthage, and we hope it will not be long before they are running at full blast.

Cremation at Milan.

Westminster Review. The Italian clergy, unlike the clergy of France—and for the most part of England—have never made any objection to cremation, and at Milan, where nearly 2,000 bodies have been cremated during the last thirteen years, and where at the present rate of increase cremations will soon reach an average of one a day. The same funeral service is performed, whether the corpse be destined for slow corruption under the earth, or for rapid incineration above ground. Two systems of cremation are followed at Milan.

Wanted Some Store Teeth.

The other day a woman not over 30, but minus her teeth, called on a prominent dentist, and asked him if he could not rent her a set of teeth to wear to a party that evening. She told the dentist that she supposed that false teeth were kept in stock and that people fitted themselves.—Waterbury American.
