STATE DEMOCRATIC CONVENTION RALEIGH, WEDNESDAY, MAY 18. The Democratic 5th District Congressional Convention, Durham May 17. Seventh Congressional District Convention, Salisbury, Aug. 24th.

NATIONAL DEMOCRATIC CONVEN-

Chicago, Tuesday June 22.

SUNDAY, MAY 8 1892.

Ingalls will probably be the preconvention. He is looking up once

THE compliment has been paid Dr. Hume of the University of engaging him to lecture on English literature at the National Summer School, Glass Falls, one of the best known of the summer schools. The men in the faculty are authorities in their several lines of work, and the invitation to Dr. Hume shows high appreciation of his excellence.

THE Alliance lecturers are in the habit of putting the question to the people, which is better for the people to own the railroads, or the railroads to own the people? There is no such dilemma. There is no occasion for the one or the other. The railroads are not seeking to "own the people," or to own the "government." That is all hum-

as mentioned in yesterday's paper, stated that peace reigned throughout the world. But a little war is going on, which has not attracted the suggestion was not taken ill. general attention. Just where the Red Sea joins the Indian Ocean is the Province of Yemen, where live the descendants of Seba, the son of Cush-a most interesting people because of their great antiquity. Their how that measure was utilized to chief city, Sanaa, is very ancient, rally them against the leaders of and contains about 150,000 inhabitants. The Arabs having possessed themselves of it, Turkey has been at war to regain her control, and laid aside, put away up in the garhas just succeeded.

a total of 898, and 599 are necessary to a choice. It is understood that from the States that have already held conventions, Cleveland will have 300 delegates. In thirteen other States it is expected that he will get 200; in this batch only Texas and West Virginia of the Southern States appear. That will leave Cleveland to get still about 100 delegates from the South. There are besides Iowa, Connecticut and New Jersey to be heard from. The probabilities seem to be that the old tickets will again be presented, Cleveland against Harri-

THE OUTLOOK.

The situation of affairs in the State continues to become brighter, the better spirit which we noted two weeks ago being manifested in a greater degree in nearly every portion of North Carolina.

As to the Third party movement, that is now quiescent. Col. Polk and his coadjutors have for the present put it in the background, and the Progressive Farmer has strongly advocated that all sorts and conditions of men should go into the Democratic primaries. Under these circumstances, the Third party agitators have grown less demonstrative; and we think it will be difficult for them to recover their lost ground. Although it is expected that Col. Polk will again erect the standard and seek to draw the Alliancemen off into the Third partystke will probably discover when too late that men cannot be dragged about in that style. Had he persistently and without back-ing and filling, pushed forward the work he has set himself to he would probably have caused a con-siderable defection from Democratic

ranks. But he has broken his

power to a certain extent by his vacillation.

Although we look for an attempt to receive the Third party later, after the Omaha convention has been held, yet the backbone of the movement has been broken by the There is still so much smoke about the purposes of the Alliance outside of the Third party movement, that the prospect is not sufficiently clear for any one to see far ahead.

Mr. Butler will have his fifth wheel here at the convention, but its composition is, as far as we have heard, such a mixture that no prediction can be made either as to its work or as to the influence it can exert on the Democratic convention. There will be a right smart sprinkling of Radicals in it-old-time Republicans—but not enough of them to make it a Republican body. There will be a considerable number of Third party men, and a large majority will favor the Third party platform. The body will probably urge the Alliancemen in the Demoeratic convention to insist on inserting the Third party resolutions in the Democratic platform. And it will also probably seek to exercise an influence on nominations and on the general work of the convention. Its influence may, however, prove quite the reverse of that Mr. Butler expected when calling the body to meet here at this time. It may be that the Democrats will resent the intrusion of Republicans and Third party men at their con-

much about that. The convention itself will probably be more conservative than the outlook indicated some time back. Missionaries, While most of the counties are yet to select delegates, we can form a comparative judgment of the State from the conventions already held. siding officer of the Minneapolis The county conventions of which we have accounts have been harmonious to a gratifying degree. The Dutch will still live in Holland. The Democrats will control the Democratic convention. That we think is very likely. But in some counties the conventions have not represented the full Democratic strength of former years. Considerable numbers of Democratic people have not participated in the primaries; and the harmony that has been observed in the county conventions may not indicate entire accord among the people in their respective neighborhoods.

vention. But we cannot predict

And thus it may prove that the State Convention may not represent the people as fully as heretofore.

From several sources we learn that the feeling in the counties is much better than it recently was. Col. Polk's Third party movement is now seen and felt to be an entire vindication of the course of the NEWS AND OBSERVER towards him as a Third party advocate and a disturber of the political peace. Indeed a gentleman told us yesterday that it had come in his way to sug-The paper deposited in the corner-that had passed a resolution dewhen such denunciations were fashionable a few months ago, that now in view of developments, they ought to repeal that resolution, and

There is to our mind substantial reason for believing that the situation will be much better later on. The people remember how their

hopes were raised to the highest pitch by the sub-treasury plan; and the Democratic party. They take notice of the fact that that project has been side-tracked and is now ret as having done its work, and as being of no more use to the agita-The national convention will have tors. In its stead, they have taken up the Government ownership of railroads, which does not appeal directly to the people like the subtreasury did, and as soon as it is discussed the people will vote it the greatest humbug ever devised by political mountebanks. They will spurn with contempt those who shall seek to make it a test of political fellowship. This we look for; and while it took two years for the sub-treasury to play out, we expect the craze over the Government ownership of the roads to run its course before the summer has ended. The melancholy days of November will indeed be melancholy

> to the victims of that delusion. On the whole, we are now much more hopeful that the storm which has been threatening will pass off in another direction, and that after the Convention on the 18th, the people will manifest more confi dence in the party they have so long maintained and will still further support it.

MR. T. V. POWDERLY, Master Workman of the Knights of Labor and a member of the St. Louis conference, is quoted as saying in a letter to Congressman Livingston, of Geor-

"It is my recollection that the resolution adopted by the St. Louis conference, asking the general government to compensate the Union soldiers with the difference between greenbacks and the price of gold, during their term of service, was adopted as a part of the platform."

Certainly; there is no doubt in the world of the fact that the committee on platform considered that subject; agreed to it; reported it; and that the body adopted it. Whether the matter was prefaced by "we demand" or not, is a mere matter of moonshine.

The Southern Baptist Convention. By Telegraph to the News and Observer.

ATLANTA, Ga., May 5, 1892. The delegates to the Southern Baptist Convention assembled in hibit. Trinity Methodist Church today at 10 o'clock, Hon. Jonathan Harralturn affairs have lately taken. son, of Alabama, former president, in the chair, and was organized by the election of Hon. J. Harralson president; Joshua Levising, of Baltimore, Md., Gov. W. J. Northern. of Georgia, and Hon. L. L. Foster. of Texas, vice-presidents. Rev. Lansing Burrows, D. D, of Georgia, and Rev. O. F. Gregory, of Baltimore, Md., secretaries.

The delegation is the largest yet known in the history of the convention, there being seventy-five present from North Carolina and a like large delegation from the other

Southern States. The convention was welcomed to the city by Rev. Dr. J. B. Hawthorne, pastor of the First Baptist Church, and to the State of Georgia by Hon. W. J. Northern, Governor of Georgia, in speeches of rare excellence. Rev. Dr. Wm. E Hatcher, of Richmond, Va., responded in his happiest and tenderest manner Some of the wisest and most experienced members of the body were appointed a committee on order of business and brought in a report, which was unanimously adopted.

Rev. Dr. J. T. Tichmore then read the report of the Home Mission Board, of which the following is a short summary:

We give a short summary of the report of the Board of Home Mis-

The results of our work are as follows: Weeks of labor. Churches and stations. 1,324 Sermons and addresses, 46,866 14,042 Prayer meetings, Baptisms. 5,274 Received by letter. Total additions, Sunday schools organized, Teachers and pupils, 17.785 Religious visits, Churches constituted. Houses of worship built, 4,304 Bibles and Testaments, Pages of tracts distributed, 919,472 This report of work, like all that

The reports of a few of our missionaries could not be obtained in time to embody in it. The work in Cuba had continued to prosper greatly—the wisdom of the purchase of the superb theatre in Havana had been fully vindicated—and the establishment of a

have preceded it, is not complete.

Girls' High School was regarded as the highest value in promoting the work of evangelizing the island. The report urges that the time has come for greatly enlarging and extending the work in Cuba, and that the board be given the means of entering the "open doors" to be found in every city, town and vil-

The report concludes as follows:

PAST TEN YEARS. Ten years ago the Convention, resolved to remove the board from Marion, Ala., to Atlanta. The condition of the board at that time excited the greatest apprehensions. Its total receipts for the year were about \$28,000. It had but forty missionaries. Except those in the Indian Territory it had few west of the Mississippi river.

How it has worked and how suc cessful have been its labors may be known from the fact that in these ten years twice as much has been accomplished as in the whole thirtyseven years of its previous history Here is a brief record of a part of its work for the past ten years: Missionaries employed, Churches constituted, 2.290 2,117 Sunday-schools organised, Houses of worship built, 632

67,166

Additions to churches,

Money received and ex-\$1,320,000 pended. May we dwell upon these figures for a moment? Twenty-two hundred and ninety-two churches with 67,169 members would not be a bad showing for a State. Half the Statse of the Union have not so many churches or so large a membership, and the the average membership of half the States in this Convention does not show an equal number. Our work for the most part has been in Florida, Arkansas, Indian Territory, Louisiana and Texas. We have been planting churches on the very borders of the wilderness which will grow like the cedars of B. Gambrill of Mississippi. Lebanon, or like oaks of Bashan for

centuries to come. With no spirit of pride or vain we have done enough to inspire the lina trustees of this institution. confidence of our brethren in our earnest purpose to do the work they have assigned to us, and to induce them to more fully meet the trunk line, The road and equipneeds of our work. Eight years remain before we enter the coming from Raleigh to Atlanta is much century. God grant that these years of our coming history may be more replete with the divine blessing than the whole century of the past.

The Treasurers report for the year shows a total of cash receipts from the States of \$74,895.18; miscellaneous receipts, \$9,976.01, maka total of \$84,871.19; amounts raised by "co operative" bodies and expended in joint Mission work on the field, \$68,683.40; for houses of worship on mission fields, \$64,-

064 42 This makes a grand total of re-Moveable hen nests are the best board, despite hard times, for the does every wise man's son.

year just closed are \$17,682.88. in excess of what they were last year. This, under all of the circum-

stances is considered a very fine ex-'The report was referred to vari-

ous committees. Rev. Dr. A. Tupper, of Richmond Va., read tha report of foreign missions. This report shows the amount collected during the past year was \$114,325.80; of this amount North Carolina is credited with \$8,-402 76 or \$999.37 more than was raised in that State last year, while the collections from all the Southern States together have advanced but \$803 43 over last year.

After giving a detailed account of the work in China, Africa, Brazil, Italy and Mexico, the report concludes with the following summary:

It is with gratitude that the Board thus reports the most prosperous year, on the field, ever recorded. Never has there been so much preaching and teaching; never so many baptisms. The future seems unprecedentedly bright. That clouds have passed over some of the missions is as true as that the greatest good frequently comes from seeming evil. There is nothing that the Board sees ahead which, in their opinion, does not betoken greater progress to our work; and the prospect at home is even more cheering than that abroad. The thunder and lightning which have disturbed some in a small area of our territory have cleared the atmosphere in that limited sphere, and given promise of more healthfulness and earnestness of action. Truly, in the judgment of the Board, there has never been, in the history the Southern Baptist Contion, interest in the cause of the world's evangelization so wide-

spread and increasing. Ten years ago there were 500 woman's societies that gave us \$8,-633.95, and no organizations for ,247 missionary contributions of the 342 children. The Board had 25 foreign missionaries, 31 native assistants, and 34 stations; 20 churches. with 740 members; 126 baptisms, and contributions amounting to \$647.83. Our home contributions were \$49,041.02. The Foreign Mission Journal was a little four-page paper, with a circulation of 5,000. Now the woman's socies, organize under the Woman's Missionary Union, are numbered by the thousands, and their contributions are \$25,040.27; some 500Sunbeam bands have been formed, who contribute \$3,713.82; our Board has 90 foreign missionaries, 77 native assistants, and some 200 stations, with 2,723 church members, who have reported 434 baptisms, and given \$3,956.09; our home contributions are \$114,325.80. The following is a list of the dele-

gates present from North Carolina on the first day of the session; from Raleigh: J. W. Carter, J. J. Hall, J. B. Boone, N. B. Cobb, C. Durham, N. B. Broughton, J. D. Boushall, L. L. Polk; from other Asthma, Summer Complaints and Casections of North Carolina: J. M. tarrh wherever it has been tried. stone of the Mary Help monastery, nouncing the News and Observer, then in session at Greenville, S. C., Bridgers. of Shelby, H. A.
