W. H. & R. S. TUCKER & CO'S WEEKLY SPECIALS. Carpets Until July. Right now we are going through our carpet department, mapping out work and buying stuff for our fall business. Of course we wish to place every dollar that we can in carpets before the fall. From now until July we will interest housekeepers in carpets. Prices will be such that one can buy now, anticipating their wants for next season. On present purchases we can save one from 15c to 25c per yard, and these are not low grade goods either, but they are Hartford's, Biglow's. Some are patterns that will not be duplicated, others have only enough for a small room. In short lengths—remnants we are offering a lot for less than you could buy new pieces from the mills. W. H. & R. S. TUCKER & Co. Parlor Furniture. Since we have been in the furniture business we have in previous seasons handled quite a lot of Parlor Furniture, just at this time of the year, along about the middle of June to the middle of July. We can hardly tell why this is, but taking experience as a go by, we expect to do likewise this summer, and have brought out some exquisite things in Parlor Furniture. The suits we are now showing are as rich and dainty as any ever seen in Raleigh. W. H. & R. S. TUCKER & Co. French China. Just now is a good time to buy a set of China. Why? Because our importations for fall will soon begin to arrive, and at this season we are always glad to turn into money the accumulations of pieces from the past season, and such sets of China that we will not duplicate. One can save from \$15 to \$20 on a set of china if bought now. This department is worthy of special consideration during June and July. W. H. & R. S. TUCKER & Co.

COL. L. L. POLK DEAD.

HE PASSES AWAY YESTERDAY IN WASHINGTON.

He Was Removed to Garfield Hospital to Have an Operation Performed But Death Came First—The Remains to Arrive Here Today and the Funeral to Be Held at the First Baptist Church.

By Telegraph to the News and Observer.

WASHINGTON, June 11.—Col. Polk, President of the National Farmers' Alliance, died at the Garfield Hospital, in this city, this morning at 11:15. He had for a long time suffered with an affection of the bladder, but not until a week ago did it become serious when he was confined to his bed and summoned Dr. Hays, formerly of Oxford, N. C., to attend him. It was finally determined to remove him to the hospital for an operation. After his arrival at the hospital it was determined that his case was hopeless and an operation was not performed. The immediate cause of his death is now said to have been uremia. His wife and son-in-law, Mr. Denmark, were at his bedside, accompanied by doctors Hays and Leitch, when he died. His remains, accompanied by Senator Peffer, Senator Irby, Congressman John Davis and wife, John G. Otis and wife, W. A. McKeghan, Mrs. Jerre Simpson, Wilson Baker and wife and Messrs. Williams, Branch, Alexander and other North Carolina Congressmen, together with Dr. C. W. McCune, chairman of the executive board; J. F. Tillman, secretary of the executive board; S. J. H. Turner, secretary of the National Farmers Alliance, W. F. Gwynne and Dr. Walter C. Murphy, will be carried to Raleigh, North Carolina, where the interment will take place at 4 p. m., Sunday. The funeral party will be conveyed in a specially provided Pullman sleeper on the Richmond & Danville Railroad.

WALTER C. MURPHY, M. D.

The Cholera in Persia.

By Cable to the News and Observer. LONDON, June 11.—A despatch, from Meshed, in northeast Persia says all the Europeans in that city have escaped safely from the cholera, which was ravaging Meshed and the provinces of Vorthassan. Among the natives the deaths have reached 250 daily. The disease is of the most violent type and persons seemingly perfectly well are seized, with the disease while passing along the streets or attending to their usual business and in a few hours many of them are dead. No panic prevails, for the people look upon the epidemic as a visitation from God and with calm indifference that characterizes the orientals bury their dead with a callousness that would lead a stranger to conclude that they were without hearts. The story that the dead are cremated and that often those who are suffering with the disease are thrown while still alive upon the pyres is absolutely without a grain of truth. On sanitary grounds the burning of the dead would be of the greatest possible benefit to the living, but as a matter of fact no attention whatever is paid in Persia to sanitary laws. In deed such laws are unknown and the dead are buried in the usual manner within the provinces of the town.

The News From New Bern.

NEWBERNE, June 12.—Rev. Robert Strange, of Wilmington, delivered the baccalaureate sermon before the Newberne Collegiate Institute Thursday night and Prof. George T. Winston, president of the University, the literary address on Friday night.

Prof. G. T. Adams, who is president of the institute, with the aid of a competent corps of teachers, is working up an institution of learning, much needed in that section, and highly creditable to himself and his assistants. Judge Winston has just closed the term of Craven Superior Court after a busy session. His course has been highly commended by all.

Depew Will Probably Be Secretary of State.

By Telegraph to the News and Observer. WASHINGTON, June 11.—It is expected that the vacancy in the cabinet caused by the resignation of Blaine will be filled next week and the general impression in Washington is that the President will tender the appointment to Chauncey M. Depew, of New York.

Baseball Yesterday.

By Telegraph to News and Observer. WASHINGTON, D. C., June 11.—At Washington—Washington 16, St. Louis 4. At Philadelphia—Philadelphia 10, Pittsburg 6. At Baltimore—Baltimore 4, Louisville 6. At Boston—Boston 6, Cincinnati 4. At New York—New York 1, Cleveland 5.

THE PEOPLE'S PARTY.

County Convention Held Here Yesterday and Delegates Chosen to the District Convention.

Yesterday was the day designated by the People's Party call for county conventions to be held to elect delegates to the Congressional district conventions to be held next Thursday to elect delegates to Omaha.

The county convention here was called to order in the court house at noon by Mr. S. Otho Wilson, Chairman of the Wake County People's Party Executive Committee. Mr. J. B. Penny was elected Permanent Chairman, and Mr. C. H. Utley Secretary.

On motion of Mr. S. O. Wilson the following resolution was unanimously adopted: Resolved, That a committee of 7 be appointed, to which the different Townships shall report the delegations to the District Convention, said committee to report a list of delegates for Wake county.

And the following committee was appointed by the chairman: S. Otho Wilson, R. H. Utley, J. B. Scarborough, J. A. Arnold, F. B. Buffaloe, W. J. Johnson, Rufus Gardner.

Capt. R. J. Powell, moved that owing to the death of the President of the National Farmers' Alliance and Industrial Union the convention adjourn a half hour, and that the chairman appoint a committee to draft resolutions of the respect and esteem this body has for Col. L. L. Polk.

The motion was unanimously adopted. The convention was called to order by the chairman at 1:30 p. m. The report of the committee on the death of L. L. Polk was called for, and after several touching talks on the loss sustained in the death of Colonel Polk, the resolutions were unanimously adopted. They read as follows:

Whereas, We have just received the sad intelligence of the death of our beloved brother and able leader L. L. Polk, president of the National Alliance and Industrial Union; and while we bow in meek submission to this sad dispensation of an All-wise and All-merciful Providence which sends a dagger of sadness and grief to the hearts of millions of the toiling people of the United States and shrouds the homes of multitudes in the dark drapery of mourning; therefore,

Resolved, 1. That in the death of our esteemed brother the church has lost one of its purest and ablest supporters, the State one of its brightest luminaries and patriotic sons, the nation a pure statesman and a patriot whose place cannot be easily filled.

2. That in the death of L. L. Polk the reform movement has sustained an irreparable loss, a scholar of rare abilities, a speaker of the most eloquent type, a leader in whom was combined all those noble qualities which go to make up the true man in the highest degree.

3. That we, as citizens of Wake county, extend to his bereaved family our deepest sympathy and condolence.

4. That a copy of these resolutions be sent to his family, and also be published in the Progressive Farmer.

D. P. MEACHAM, H. W. NORRIS, S. OTHO WILSON, B. B. BUFFALO, R. J. POWELL, Committee.

The following list of thirty-two delegates was reported by the committee to recommend delegates and adopted: J. D. Underhill, J. A. Arnold, A. T. Byrum, L. M. Upchurch, Mark Wimberly, A. M. Jones, Seth Perry, W. H. J. Goodwin, C. H. Horton, J. A. Stell, J. R. Whitehead, A. C. Green, J. L. Ramsey, G. L. Tonoffski, C. E. King, J. J. Penny, C. E. McCullers, Charles Debnam, Alfred Powell, R. H. Utley, M. J. Wood, Tom Council, H. T. Lawrence, B. B. Buffaloe, W. A. Whitted, Sol. Barbee, C. W. Lawrence, S. Otho Wilson, S. W. Terrell, H. H. Knight, J. R. Medlin, D. P. Meacham.

On motion, S. Otho Wilson, A. C. Green, G. L. Tonoffski were unanimously elected as the executive committee for the following two years.

Beginning to Hustle.

Matters are going to get lively in this community. Some stirring work is on hand and is going to be done in a vigorous manner. The programme begins this week by a joint committee meeting at the Mayor's office on Monday night to discuss and begin arrangements for a great celebration of Raleigh's centennial year. The Executive Committee of the State Fair is expected to attend this meeting, and it is important that every member should be present. Whatever may be evolved at this meeting will be further discussed by the Chamber of Commerce on Tuesday night.

The True Laxative Principle.

Of the plants used in manufacturing the pleasant remedy, Syrup of Figs, has a permanently beneficial effect on the human system, while the cheap vegetable extracts and mineral solutions, usually sold as medicines, are permanently injurious. Being well-informed, you will use the true remedy only. Manufactured by the California Fig Syrup Co.

HELP FOR THE RUSSIANS.

THE SHIP LEO SAILS LADEN WITH PROVISIONS.

Religious Services Held on Board and the Cargo Sent on its Way With a Blessing.

By Telegraph to the News and Observer.

NEW YORK, June 11.—The ship St. Leo this afternoon left from the Central Dock near Hamilton ferry, Brooklyn, with a cargo of breadstuffs, meats and infant's food, in addition to 1,500 tons of flour for the starving Russian peasants. The ship was decorated by the ladies of the different Circles of Kings Daughters with flags and bunting, and here and there fluttered a streamer with red cross emblems of the King's Daughters. Before leaving Rev. Dr. Talmage held a short service on board, blessing the cargo and asking for a safe journey across the ocean. Conspicuous in the gathering was Louis Louis, Russian exile, who is in this country lecturing and sending the proceeds to his suffering countrymen. Dr. Talmage said that he and Dr. Kiopisch would be in Russia when the St. Leo arrived, and would personally superintend the distribution of gifts as the ship weighed anchor. The Tabernacle choir and others on the dock gave the vessel and its freight a Godspeed in song.

The Foreign Press on Harrison's Nomination.

By Cable to the News and Observer.

LONDON, June 11.—The burden of comments of all the evening papers on the renomination of Harrison and the selection of Whitelaw Reid as the Republican candidate for Vice President is joyous over the defeat of Blaine.

The Pall Mall Gazette says: "Even those least in sympathy with Mr. Blaine as a politician may spare a passing regret at the cruel disappointment of a man who is the ablest Republican and the most astute politician in the United States."

The American caucus was of real interest to outsiders, especially England. In view of the dissension in the Democratic party the nominee of yesterday stands a good chance of being the next President. It was a happy thing that the caucus decided overwhelmingly against the career wire puller whose entire career has been marked with attempts to make party capital out of foreign politics."

It adds: "Even as it was Harrison sometimes had a difficult task to check the mischief."

The Star publishes the most violent attack on Blaine because of his protection principles and sums up its estimates of Harrison's qualification by declaring that he is "a quiet, unassuming, old gentleman of great personal integrity but without great ability." It then predicts the nomination of Grover Cleveland by the Democrats and concludes by saying: "The sympathies of all free traders and liberals should be with the champion of reform, Grover Cleveland."

The St. James Gazette says: "It is a matter of indifference to Englishmen which party in America is in power since both cater for the Irish who by occasional rudeness to Great Britain. President Harrison following less ardently Blaine's example carried bragadocho to an absurdity in the Bering Sea negotiations until it was found to be in vain when he dropped it and climbed down. So much for republican courtesy. But almost the last act of the late Democratic cabinet was an insult the British representative at Washington."

The National Republican Committee.

By Telegraph to News and Observer.

MINNEAPOLIS, June 11.—The first thing done by the National Committee after the battle was to unanimously choose J. S. Clarkson temporary chairman of the committee, and D. E. Young, temporary secretary. The committee will meet at Washington June 27th, when permanent organization will be effected. Clarkson was named for the place by Powell Clayton, of Arkansas, in a highly complimentary speech. It is not certain that Clarkson will be willing to accept the place permanently.

Total Visible Supply of Cotton.

By Telegraph to News and Observer.

NEW YORK, June 11.—The total visible supply of cotton for the world is 3,756,674 bales, of which 3,026,074 bales are American; against 2,665,796, and 1,991,896 respectively last year. The receipts at all interior towns is 14,552 bales; receipts at the plantations 18,807 bales; crop in sight 8,853,529 bales.

City Cotton Report.

The following is the report from the office of the Raleigh Cotton Exchange for the week ending June 10, 1892:

Table with 2 columns: Receipts for the week, Same last year, To date, Same last year, Stock on platform, Shipments.

A Wonderful Instrument.

Curative results, startling in their seeming impossibility, have marked the history of the Electropoise since its introduction to the public, as a method of treatment for all diseases.

For years the public prints have been full of advertisements, detailing the value of nostrums without merit, in which medical charlatans have endeavored to interest the public. In the face of the prejudices which have been aroused by these impostors, the unqualified statement, that the Electropoise is for the cure of all diseases, needs, and has, evidence in its support, some of which is subjoined.

The Electropoise, it should be remembered, is merely a factor in its system of cure—a medium for the transmission of the treatment by Electrolibration, which in its method of application can only be defined by the broadest terms of universality.

The absorption into the system of hydrogen and other positive gases—malaria—contained in the atmosphere, causes the physical disturbances known as disease. To cure, the electric poise of the system must be restored by the absorption of the negative gases. With the Electropoise we so fix the electrical condition of the body that oxygen—the vitalizer—the most negative substance in the world, is absorbed.

The accumulation of morbid matter, causing the disturbance, is combustible, and when brought in contact with the requisite supply of oxygen, combustion follows in the tissues of the body, so generating vital force, and enabling every organ to properly perform its normal functions.

The blood passes through the lungs to have the impurities which it has gathered up in the course of its circulation through the body burned out by the oxygen which we inhale with every breath. The Electropoise causes this combustion to take place in the capillaries, by the oxygen absorbed at every pore, so that the blood returns to the lungs with this work more than half done, thus eradicating the cause, and in consequence effecting the cure of disease. To these facts (we no longer say theory, for a theory proven is a fact,) we invite the attention of all who are interested in getting well and staying well.

Do not believe what we say, or accept our statements; read this: "Unless about ten thousand men, mainly professional men, lawyers, doctors, editors, preachers and all classes, including the writer, are very much mistaken, the Electropoise effects cures and gives relief where all other known remedies have failed. Especially is it efficacious in the case of delicate women and feeble children. I have used one of the Standard Electropoises for the past two years and find it invaluable as a curative agent."

Letter from Rev. Zephaniah Meek, D. D., editor of the Central Methodist, Catskillsburg, Ky.

Below we publish some of the testimonials supporting the claims made for the Electropoise and invite your investigation.

We have successfully treated thousands of patients and have testimonials covering the cure of nearly every form of disease. Many of these we have permission to use, and will be glad to mail them to interested parties.

We especially invite correspondence from those who have been treated in vain; who have found no relief in change of scene and climate; who have been pronounced incurable; who are desperate, for it is in chronic cases of this description that the Electropoise is most successful.

Remember the Electropoise is not subject to errors of diagnosis, ignorance or carelessness of administration. It exists nature at once in the cause of the suffering, and draws its remedial agency from the great storehouse of vitality, which heretofore undiscovered or unapprehended now opens a rosy pathway to the suffering through the desert of disease to the ever beautiful basis of good health, perfect womanhood and robust manhood.

In regard to convenience and economy the Electropoise stands without a peer in any method of treatment. It is easily applied, and treatment can be taken at home either night or day as the patient may elect. In its use there are no doctor's bills to pay, no druggists' account to settle, no expensive appliances to be bought. It is ready at all times for immediate use, and we have testimonials from patients who have owned instruments for an extended time, and in whose families diseases, differing widely in their character, have appeared in the interim, who state they have all been so successfully treated and cured by the Electropoise, that they have not purchased an ounce of medicine since they have had the instrument.

WATSON & BUXTON, Attorneys at Law, WINSTON, N. C., Sept. 16, 1891. JAS. H. WEBB, Sec'y, 1405 New York Avenue, Washington, D. C.

Dear Sir: I have been using one of your Electropoises for four years upon a little invalid son, who has been afflicted with a pulmonary trouble and a dropsical tendency. I have found great relief for him in the use of the Electropoise, when

the doctors had failed to give him any permanent relief, and I am satisfied that but for its use, we should have lost him.

I have never seen it fail to reduce his fever, or to bring sound, sweet sleep. I would not be without it for many times its cost.

Yours truly, J. C. BUXTON. Mr. Buxton is also President of the First National Bank, Winston, N. C., and is one of the foremost men of the South.

WILLIAMSON, N. C., March 7, '92. I have found more relief in Bright's disease, from a few months' use of the Electropoise than from all patent medicines, physicians' prescriptions, mineral waters, "faith-healing," sea voyages and a winter residence in a warmer climate.

SILVESTER HASSALL. (Rev. Mr. Hassell is a pastor of the Baptist church and associate editor of "Gospel Messenger.") In the introduction of this treatment founded upon discoveries far in advance of all the "theories" of the past, we invite the most searching investigation by an intelligent and discriminating public. Write us for further information and testimonials. Your correspondence will be held strictly confidential and our advice will cost nothing.

Respectfully, Atlantic Electropoise Co., Washington, D. C. THE ELECTROPPOSE BURLINGTON, N. C., July 9, 1891.

I have been suffering with pulmonary consumption for more than three years, unable to perform any manual labor, and was finally closely confined to my bed, without hope of recovery. Commenced using the Electropoise last March, and I am now able to walk around anywhere I wish. It has proved a wonderful success in my case. To those that are suffering I say try it.

THOMAS BOSWELL, Gloucester Cotton Mills, WILMINGTON, N. C. JOHN N. WEBB, Esq., Washington, D. C.

My Dear Sir: For the benefit of those who suffer from Nervous Debility I would say that in my opinion no medicine will give the permanent relief to be obtained from the use of the Electropoise. I have had one in my family for nearly a year, and do not hesitate to say it is invaluable to us.

In my own case of Nervous Dyspepsia which was attended with all the horrors incident to the disease in its worst form, I found it gave me relief when everything else failed, and I feel confident its use laid the foundations for the good health I now enjoy after three years of suffering such as few men could stand.

Very Truly Yours, W. R. FRENCH. For further information apply to the Atlantic Electropoise Company, Washington, D. C.

A Solid Knock-Down Blow.

The whole blows water while at play; Trees blow in every clime; The sweetest flowers blow in May, But winds blow all the time.

There's lots of blowing in this world. Sufferers from catarrh blow their noses, and quacks blow about their "cures." Dr. Sage's Catarrh Remedy is the only infallible one. Its proprietors back up this claim by offering \$500 for every case they fail to cure permanently. This is an unswerving blow at humbuggery, coming from men of sterling reputation and ample capital. Nasal catarrh cannot resist the potency of this Remedy. It stops discharges, leaving the senses acute, the head clear, and the breath normal. Of all druggists, 50 cents.

The Third Party in Burke. Special to the News and Observer. MORGANTON, N. C., June 11.—The Third Party of Burke mustered fifteen democrats and about twenty radicals.

A Wonder Worker.

Mr. Frank Huffman, a young man of Burlington, O., states that he had been under the care of two prominent physicians, and used their treatment until he was not able to get around. They pronounced his case to be Consumption and incurable. He was persuaded to try Dr. King's New Discovery for Consumption, Coughs and Colds, and at that time was not able to walk across the street without resting. He found, before he had used half of a dollar bottle, that he was much better. He continued to use it and is today enjoying good health. If you have any Throat, Lung or Chest Trouble try it. We guarantee satisfaction. Trial bottle free at J. Y. McPhee's drugstore.

ROYAL BAKING POWDER Absolutely Pure. A cream of tartar Baking Powder. Highest of all in leavening strength. Latest U. S. Government Food Report. Royal Baking Powder Co., 106 Wall Street, N. Y.
