"It was at first b I eved that very getions andextensive injury had been done to the cotton crop but from the best information I can get on the subject, am inclined to think that the loss incident to the storm will be rather under than over twen ty-five thous and bales,

Flad the storm occurred a month later, the conqueners might have been much more serious but it may be as well to add that the memorable storms of 14th S ptember, 1824, and 5th and 6th, and 7th October, 1837 occurring, as they didwhen the fields were white with open hells, were much less disasseous than was generally believed anthestime and in the end, the crop of those years very for exceeded the esnames formed of

A very early frost may bring the crop below 2 500 000, but if it should not occur sooner than the accourse of the last five years, and the weather in the mean time be generally favorable, it would be no matter of surprise if it reach, or exen slightly exceed 2 700 000

The Board recommend, with very great confidence, the Louisburg Female Seminary to the patrousge of the public. For cheapness, soundness of instruction, impar-tiality and fidelity in teaching, high-toned moral and re-ligious influences, and strictness in regulating the expenditures of pupils, this institution will compare successful ly with any in the State. In point of health, the Board give it as their deliberate opinion that this Village is not surpassed by any location in the Central portion of the State; and in support of this opinion they may add that among the large number of pupils from the Eastern part of the State, there has not been a death in the eight years that the Academies have been under the government of the present Principals; and there have been, for several years, very lew cases requiring the attention of a Physician; and they understand, from the most reliable sources, that, for the last four years, Medical bills among the pupils have been nearly unknown; and throughout the community there has been almost unin-

terrupted good health.
A Circular, prepared by the Principal, setting forth in detail the government, course of studies, text books prices, &c. will be issued soon, and sent on application to all who may feel interested in the minutus of the School Economy which will be observed and practised By order of the Board,
