TO THE PEOPLE OF CALD. WELL COUNTY.

A great disaster has befallen us. An institution in which every class of our citizens felt a just pride-one which we felt was an honor to us allis to-day in ashes.

Davenport Female College has -hurnod to the ground. The fire was purely accidental, and over which there could not possibly be any control.

It is no use to stop here and reproach somebody else because the affairs are not different-blame somebody because the fire was not seen in time or prevented entirely -no use to blame somebody for failure to have more secure arrangements in case of such a catastrophe-it is no use to rise up and say why was there not ample insurance? It is not worth while to argue these matters. The past is beyend control, and our criticisms, be they just or unjust, cannot bring back from the ashes that which has been so great a blessing to us all. The College must be rebuilt and it is jdle to indulge in either regrets or roproaches. This duty faces us allthe duty of seeing that the buildings are replaced, and the institution at work again.

Some may say that they have no interest in it in any event, that they have no daughter to educate, or that they have nothing to sell to those who buy for Colleges. It is only plexion of that court would be; nevernecessary to reflect one moment to convince any man that all of our citizens-every man woman and child in the county-are alike interested in the restoration of this College. The reasons are many but we need site but two here.

It is well-known that there has been an annual average of nearly \$10,000 in actual money put in circulation in our midst by this school. This money has found its way to every class of our citizens-from the humblest colored woman who washes the garments of the pupils-from the boys who chop the fire wool or hunt hen eggs-to the most influential men of our day who sell their bacon and We rested our cause with the last flour by the thousand pounds, or who

THE DEMOCRATS NOT TO BLAME

It is a current opiaion among many that the Democratic party surrendered the presidency to Hayes when their representatives in Congress voted for the Electoral Bill. This is a wrong idea. The Democracy have the same power to-day, that they had in December-as far as making the President is concerned. The House can go ahead and ballot for Mr. Tilden just as well as if the Commission had not acted. Our people ought to know the Democrats of the House of Represenatives to make the lawful decision. The Senate has always been in the way, and always would have prevented the inauguration of Tilden. The right of protest still remains to us,

The attitule of the Democratic Congressmen was simply this: While being thoroughly convinced that Mr. Tilden was the lawfully elected candidate, they were willing to show to the world that they could rest their cause with the highest tribunals in the land. They knew what the political comtheless they reposed a confidence in that court, believing that virtue and honesty could be had away from the arena of purely politics. If the decision was in favor of Tilden, there could not be lawful resistance to his inauguration. . It simply put the contest away from the absolute certainty of a gerious conflict between the two houses of Congress. Everybody knows of the preparations the radical party were making for this conflict, in the assembly of troops at Washington, and otherwise.

The Democratic party was charged with bringing on the last war. Shall it lieved ten minutes remained, but the become responsible for another ? No ! tribunal to which we could annial

by Mr. Bayard, as follows :

Resolved, That no person holding an office of trust profit under the United States, is sirgible to be appointed an elector, and that this commission will receive evidence tending to prove sail ineligibility an offered by counsel for objectors to certificates Nos. 1 and 3.

Rejected by the same vote,

Mr. Justic Field offered the eighth and last substitute, as follows: Resolved, That in the opinion of the commissividence is admissible upon the several matters which the counsel for objectors Nos, 1 and 3 offeres to prove.

This was also rejected by the same that it has never been in the power of vote, and the question on the original order submitted by Mr. Hoar came up namely : "That the evidence offered be not received."

> Mr. Payne moved to strike out the word "not," Rejected by the same Site.

The vote on the original order was then taken and it was adopted by the following vote :

After the conclusion had been reached by the comission, couns:1 were admitted, and the above resolutions were read by the Secretary As soon as the final vote was taken Mr. Justice Field moved that the in junction of secresy be removed from the proceedings of the commission, and it was adopted unanimously.

Mr. Hoar inquired of the Chair whether any of the time to which counsel were entitled under the order of the commission, remained, or whether it had been exhausted.

The Chair replied that the time for objectors to numbers one and three was exhausted. On the the part of objectors to certificate number two, he be, time had been substantially exhausted. Mr. Payne moved that one hour be counsel, and several other prominent given each side for the respective
