To the Pensioners.

NORTH CAROLINA. AUDITOR'S DEPT. Raleigh, June 28, 1989. To Pensioners and applicants for Pensions under the Pension Act, and to others whom it may con-

The following information is published for the benefit of all concern-

The new pension act does not go into effect before next year (1890). except so far as relates to determining the character and classification of those who are to receive its benefits. (See 1st proviso, 19th section, of the new act, copies of which will be furnished upon application to this department.) Pensions will be paid this year from the appropria-tion (\$30,000) provided by the old act of 1885, as amended by the laws of 1887, and according to the requirements of that act as so amended. This sum is required to be paid

pro rata and is likely to be very small, owing to the large increase in the pension roll since the passage of the new pension act. 2. Pensioners whose names are

already upon the pension roll will not be required to file new applications, at least until the new pension act goes fully into effect, and most probably not then. Further information on this point will be furnished at the proper time.

3. Blank applications under the

old law have been furnished to each county whenever information has been received that the old supply previously furnished has been exhausted and a request presented to this department for a renewal of the same. As the blanks under the old law will not be available after next Monday, July 1st, the distribution of such blanks will terminate with that date.

4. Registers of Deeds will be fully informed as to the time when their duties as prescribed by the new act will be required to be performed by them. At the proper time copies of the new act will be furnished them for distribution, together with such blanks, etc., in conformity therewith as may be necessary to fully meet the requirements of the

5. The opportunity for the pre-sentation of new applications under the old law terminates with the first Monday in July of the present year After that date it will be necessary to get up other forms of application, particularly in the case of widows, and all the old blanks will be dispensed with and new ones substituted. In addition, the department will be engaged in making inquiry into the nature and extent of the wounds received by old soldiers, now pensioners, (where not specifieally stated in their original applications), in order to accomplish the classification required by Section 1 of the new pension act. Inquiry will also have to be made in the cases of nearly 3,000 widows who are already receiving a pension; the last Legislature having determined in the new pension act that only such widows shall be retained or entered on the pension rolls as are "indigent," i. e., such as are in actually destitute circumstances. As applicants will have until the first Mon day in July, 1890, in which to present their applications and have them acted upon, a suspension in the matter of the filing of new ap plications is recommended until such time as this department is prepared to furnish new blanks and to meet all the requirements of the new law. When prepared for new applications due and ample notice will be given in the columns of the various newspapers throughout the the State.

Very Respectfully, G. W. SANDERLIN. State Auditor.

The Choice was Difficult.

Here is a story that General Price Young tells says the Washington Post. Away up in the Georgia mountains lies Catoosa Springs, a favorite summer resert of Savannah and Atlanta society people. Among the pines and breezes of the hills the fever and lassitude bred by the malarial air of the low country disappear like magic. One day Gen. Young saw an old fellow come up with a basket of eggs and bunch of chickens for the hotel people, and recognized an old trooper of his command.

"Jake," he called out, "Jake Dorridge, how are you?" "Why, laws a massy, Ginral, now de-do? I hain't seen ye since the

AARON, July 4.

To the Editor of the Lenoir Topic : I felt myself quite flattered to see the Star had copied the Aaron news when I wrote last.

Rain, rain, and mud, mud, is all the crop about here that is worth much. The farmers are getting very much

discouraged at the poor prospect of corn. It has rained every day for some time until today. It has turned cool now and we hope the rain is over for a while.

Oats look very well but corn will be almost a total failure.

The new road from here to Linville City is finished and opened, and we must say one mile of it, which was made by the Company, is the best road in the county. The new hotel there is about complete I suppose. Several loads of furniture, etc., passed Aaron going up there

Williams & Banner are making furniture at this place.

Mr. E. N. Hoyt, the young actor, is spending the summer with his parents at Linville Cove, two miles below here.

Miss Harris pas given her scholars two weeks holidays. She and her brother will attend the Institute at Bakersville during that time.

A party of young folks were contemplating a "pleasure exertion" to Grandfather mountain the 4th, but the rain disappointed them. Some of the boys say they mean to have it over again before long.

Jule Sehorn, the noted "hoss" peddler," of Trade, Tenn., and his brother Ellison, passed here yesterday with a fine drove of sheep-about 120.

J. H. Rominger is having his new house built on a lot opposite to W. E. Blackburn's residence.

Revs. Matney and Rominger are improving the looks of their place some by the addition of new palings. But little work has been done tothe Seminary yet. When it does

begin it will be in earnest I suppose. The District Conference of the M. E. Church will be held here or at Forest Home-the M. E. Church two miles above here-some time in

With best wishes.

Scribner's Magazine for 1889.

The publishers of Scribner's Magazine aim to make if the most popular and enterprising of periodicals, while at all time preserving its high literary character. 25,000 new readers have been drawn to it during the past six months by the increased excellence of its contents (notably the Railway articles), and it closes its second year with a new impetus and an assured success. The illustrations will show some new effects, and nothing to make Scribner's Magazone attractive and interesting will be neglected.

The Railroad articles will be continued by several very striking papers; one especially interesting by Ex-Postmaster-General Thomas L. James on "The Railway Postal Service." Illustrated.

Mr. Robert Louis Stevenson's serial novel "The Master of Ballantrae," will run through the greater part of the year. Begun in November.

A correspondence and collection of manuscript memoirs relating to J. F. Millet and a famous group of modern French Painters will furnish the substance of several articles. Illustrated.

The brief end papers written last year by Robert Louis Stevenson, will be replaced by equally interesting contributions by different famous authors. Mr. Thomas Bailey Aldrich will write the first of them for the January number.

Many valuable literary articles will appear: a paper on Walter Scott's Methods of Work, illustrated from original MSS., a second "Shelf of Old Books," by Mrs. James T. Fields, and many other articles

from original MSS., a second "Shelf of Old Books," by Mrs. James T. Fields, and many other articles equally noteworthy. Illustrated.

Articles on Art Subjects will be a feature. Papers are arranged to appear by Clarence Cook, E. H. Biashfield, Austin Dobson and others. Illustrated, Fishing articles describing sport in the bost fishing grounds will appear. Salmon. Winninish, Bass and Tarpon are the subjects now arranged. The authors are well-known sportsmen. Illustrated, Illustrated articles of gerat variety, touching upon all manner of subjects travel, biography, description, etc., will appear, but not of the conventional commonplace sort. Illustrated.

Among the most interesting in the list of scientific papers for the year will be a remarkable article by Professor John Trowbridge, upon the most recent developments and uses of Photography, Illustrated.

A class of articles which has proved of special interest will be continued by a group of papers upon Electricity in its most recent applications, by emiment authorities; a remarkable paper on Deep Mining and other interesting papers. Unique illustons.

A special offer to cover last year's numbers, which include all the Railway Articles as follows:
