DOPE BY THE DOPER

Since the News purchased itself a electric fan, Charlie "Devil" McDade has moved his typesettin' case in the sun so he can get hot enough to use it.

Editor May has a new typewriter on trial. Since it is practically noiseless in operation and "Ye" Editor learned to type by ear, he has decided to return it. Later, we have finally persuaded Mr. May to keep the new machine as it has an attachment which automatically locks all the keys when a "cuss" word is about to be written. To overcome the noiseless objection, the old machine has been shipped to Edison who has been asked to make a recreation record. The

To Most Honored Contributor, Chestnut Mountain, N. C. The Doper is prostrate at thy feet. We kiss the ground before you and implore that you allow us to live and breathe. Your manuscript entitled, "Worms of Copper", has permitted itself to be looked upon by us, and we have read it with enchantment. We swear on the tomb of our ancestors that we have never read anything more exalted. It is with fear and trembling we tear it up as such literary pearls are created only once in 10,000 years. If we allowed ourselves to print this treasure, the News Editor would immediately order us to use it forever and forbid us ever hereafterwards to publish anything inferior.

Mr. Shoo-maker Cline's young son has written his father for permission to join the navy—he says his health is bad and he believes the navy will be good for him.

Edwin Hukill is doin' right smart courtin' these days—so is Alexander Yonnelosse Cottrell—so is Moses Abraham Harshaw—so is Reginald Camera May, etc., ad infinitum.

After careful investigation, we have absolute proof that Mr. Lee, the contest manager is SINGLE. This is a PRIZE which, owing to modesty perhaps, has been left out of the list. Just think of it, girls, is an auto worth considering when there's a chance for free grub for the balance of your lives?

When it rains, don't make a mistake and run in the News Office for shelter. The roof does pretty well in keeping out the sunlight but it never was intended to turn water.

The Red Cross doings Friday night was a grand success. The features of the occasion were the parade, the address by Mr. Brooks, the songs, and a brief history of the Red Cross Society

from Miss Florence Nightingale on down to the present by Miss Jerusha Ray Perkins. For fear that some redcrossers may rush to the front without sufficient training, we respectfully request all new members to read "Miss Greenhorn Goes A-Nursing" by Elizabeth Frazer in the last issue of the Saturday Post.

The Seaboch Tinnery & Son Company have recently purchased a fiver. It is claimed by some of the charter members of the R. Parliament that this purchase was made possible by the proceeds coming in from Dunwick's Photo Parlors on account of the flock of tin hot-air ventilators which he has recently installed.

Laura Emily Pitts is feeling right bad lately because she ain't got a porch jumper to hop up and down in and Mary Frances Ballew has.

O, to be a town commissioner! They ride to all Red Cross meetings in a fine automobile and the women walk.

Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHERRY, & CO., Toledo, Ohio. Sold by Druggists, etc. Take Hall's Family Pills for constipation.

Where Will You Be At Sixty-Five

Statistics show that out of 100 average healthy men at age 25: 36 will be dead at 65. 1 will be rich. 4 will be wealthy. 5 will be supporting themselves by work. 54 will be dependent upon friends, relatives or charity.
