THE CIRCULATION OF THE CAROLINA MESSENGER IS NOW LARGER THAN THAT OF ANY OTHER PAPER PUBLISHED IN EASTERN CAROLINA.

something peculiarly impressive connected with this marked epoch in Time's revolu tions. The great globe on which we exist -great, in our estimation, though insignificant when we compare it with countless orbs, mapped out in the mighty Universe-revolves upon its axes once every twenty-four hours, and in the space of twelve short months performs its annual circuit round the sun-a central orb mightier than them all-to which it, with other vast planet; belongs.

Each revolution of the earth upon its axis, as astronomers say, and as every sensible man knows, closes up its history for that particular period. So in like manner is it regarding those annual revolutions which bring to us the new Year. What has been done, whether approved by man wish it had been otherwise, but no power it does not do so in so many words. of taking trouble upon interest about things unalterable and past recovery. The great globe has written its history with each diurnal and annual revolution, and no power less than Omnipotence can change that feat thus gone forth.

But this is a time for reflection. Looking back upon the dawn of the past year, behold how many changes have taken place all around us. How many of our friends have resigned Life's ephemeral breath and yielded to the stern monster-Death ! 'Tis but a few short months since the late year rose bright and beautiful on the young, bappy and blithe; but where are many of them now? They have ended Life's pilgrimage ere it had shall have been catombed in the dark sep- verted by federal power. alchre of the past. No harm can result from trying the experi-

The past year has been one of plents ousness. Its blessings have been vouchsifed to us all, and we are thankful. Our lives have been spared, and many of our friends made prosperous and happy. We have had more than really merited.-Let us then be thankful and wish to allreaders of the MESSENGER and others-a happy New Year.

Col Humphrey's Address.

By request, and as a matter of instice to Col. L. W. Humphrey, we publish, to-Love to the people of North Carolina. I for themselves and form their verdict accordingly. We ask for the address, however, a patient and impartial perusal by the readers.

It is well known that the Messenger remained entirely neutral, as between Covernor Vance and Judge Merrimon, in the Senatorial contest. We regretted their rivalry for the distinguished honors, and infinitely preferred that they should both be 'drapped' to creating atheism in the party-of which they were both distinguished and meritorious leaders. That, however, is now a thing of the past, and we fondly hope that all bal feelings, ani-

Love is a long one, covering the whole ground in controversy, and we ask for itan in lending a great deal of money, which, and impartial reading. We have no further comments to make.

Louisiana-Alabama.

Louisiana had lately two Legislatures-Radical and Liberal-but the latter was blotted out of existence by the simple imperial feat of a Federal Judge, whose mandate was executed by United States soldiers. The details of this act of tyranny and federal usurpation are familiar to our readers. In a late number of the MESSENGER, we stated that if the course pursued by this federal judge, and sanctioned by the administration be constitutional, there is an end to civil liberty in this country. Nor are we alone in this The old year has passed into oblivion opinion. Most of the leading journals of and the new one has taken the place to the country agree with us. Indeed we run a twelve months' round. There is have not seen a single paper of any influence or respectability that attempts to justify the Louisiana usurpation. Even the Washington Chronicle, lately edited by Mr. Holden, with all its radical instincts, indirectly utters its' condemnation.

"This abolition of courts because the judges have used their power arbitrarily and corruptly, and ejecting legally elected members because they have failed to take their seats in the Republican body or have entered the Warmouth body, looks as if there was more of vindictiveness than wisdom and regard for the public peace.-So precipitate an exercise of extreme powing a bill into the U. S. Senate to remove er is calculated to embitter prejudice and awaken doubt as to the fair intentions of

When federal judges are permitted to invade the rights of State officials, and arrest them in the exercise of their authority, then State ights are in imminent peril. The precedent set in Louisiana is an exceedingly bad one, and it should be so thoroughly re buked that it will not be repeated. It is, in fact, the overthrow of a State government by the interference of federal officers; and no party zeal should defend it for a moment. The principle at stake is one of the highest consequence to the whole country. The question now is not one of parties; not who is the best or worst man, Warmouth or Kellogg; not whether Kelhardly begun, and are slumbering sound- logg or McEnery was actually elected by ly on their pillows of dust in the city of the people; not whether gross frauds were the dead, waiting to be awaked on the perpetrated by both of the contending factions; but whether the constitutional morn of eternity when old Time himself government shall in time of peace be sub-

Holiday Horrors.

· Close following upon the heels of our Christmas festivities come from all quarters fearful accounts of disasters and death. Our northern exchanges, and the Press telegrams, are filled with such reedrds. Railroad trains are precipitated over trestiework on a northern road and ourned to death, and nearly as many nore badly injured; other trains collided, and more human lives are lost, and human beings maimed; Barnum's great Museum in New York was burned and with it a rare collection of costly animals, such as elephants, lions, tigers, zebras, snakes,&c,; a church falls, burying in its ruins several hundred people, of Carriages, Buggies, whom fourteen are taken out dead, and some fifty others badl; wounded; another disasterous fire in New York, with sevday, the address of Messrs. Humphrey and en persons smothered and roasted to death; conflagrations elswhere, ship is intended to explain the course pursued wrecks and loss or lives, and an endby these gentlemen and others in the mat- less variety of crime. Such are some of ter of the Secatorial election. Under the the horrors that hang in and around circumstances, it is only proper that this the christmas holidays of 1872 in the explanation should be made. Of its merits norhern States. Fortunate'y we have we say nothing, as the people will judge no such calamities to record - for all of which let us be thankful.

The Usury Question. The New York Evening Post in its financial column of Saturday says: "The money market continues very stringent, the stock brokers paying feely 1-8 to 1-4 of one per cent., with legal interest added. for meney to carry stocks until Monday, or for two day's interest. We have heard of loans as high as 5-15, in addition to legal interest, for money until Monday .-Mercantile paper is nominal. Such monstrous rates as now obtained for money genuered will go to the past with it.—

There are always more aspirants than there are offices to confer, but no aspirant should ever be allowed, from personal considerations, to distract or discreptions.

The past with it.—

that they protect borrowers. Farmers suppose that but for the Usury laws they would have to pay more than 7 per cent. on the mortgages on their property. The fact is Usury laws cannot be enforced at The address of Messrs. Humphrey and any commercial centre, and they only operate to exclude from direct competition if it could be offered directly, would keep rates down. As it is, this money is borrowed by those who brave the penalties of the Usury laws, but who only relend at rates which couer their risks in so doing. The high ratef thus made drain the interior of money, where the question becomes not one merely of rates, but of supply. It is the hope of every borrower that the Usury laws will be swept away in this State, as they practically heve been in neighboring States. If the rural districts are not yet ready for free trade in money, let the law be qualified so that business men in this and other cities in the State will have the opportunity of borrowing more cheaply. It is the opinion of experienced bankers here, who are lenders rather than borrowers, that with the Usury law repealed rates here would never rise above twelve to fifteen per cent. per aunum, and then only at seasons of the year when they now range from forty five to one hundred and thirty-five per cent. per annum, the latter rate having been ruled on two days of this week."

How Yankees Hate the Southern People.

The Massachusetts Legislature, on Friday the 19th inst., by a vote of 104 to 76 passed resolutions condemnatory of the course of Senator Sumner in introducall inscriptions relating to the rebellion from the army register and National regimental flags. | The bill heretofore refered to in the Messenger.] The Senate passed the same resolutions by a vote of 20 to 9. It is a humiliating fact that, while the Southern people have nobly responded to the appeal for reconciliation, these It yankee puritans have stubbornly refused a listening ear and have acted absolutely in-Massachusetts Legislature are equivalent to telling the Southtern people that they want no reconciliation. But it is scarcely "When judges on the bench abuse their necessary to speak of this-the Southern keep the South under their heels, and this section will never see peace until the bones of every radical leader are cast on some dung hili to decay.
