FOR THE EAGLE.

CARTHAGE, N. C., May 5th, 1871. Mr. Editor:—Last Saturday, 29th ult., was a day long to be remembered as one of joy, pleasure and happiness both to the young and the old of Carthage and the surrounding country.

At an early hour the parents came driving in from the country with their buggies and carriages literally crammed with children and good things for the dinner. Not long were the children permitted to nourish their impatience, for at half past nine the bell rang and in fifteen minutes everybody was in the grove at the Presbyterian Church ready to join in the procession.

From the P. M. Herald we learn that the annual election of the municipal officers for the town of Wake-fore, which took place on Monday last, the 1st inst., resulted as follows: For Mayor, Dr. E. F. Ashe; for Commissioners, M. H. McBryde, J. A. Little and G. W. Wiloughby.

The Robesonian learns that Henry Berry Lowry and Boss Strong visited the house of a gentleman in Richmond county a few days ago, went deliberately to his stable, harnessed two mules, and, having attached them to a wagon drove to his corn crib, where they loaded the wagon with corn and proceeded to South-foren distributed the load among their friends. Late in the afternoon of the same day the wagon and team were returned and no questions asked.

WILMINGTON, N. C., May 3.—From the Star we learn that 192 steamers, 19 barques, 81 brigs, 221 schooners—total 513 craft in all, with a total of 174,877 tons, have sailed or steamed from Wilmington for the calendar year ending May 1st, 1871.

The friends of Convention in Wayne County will hold a County Convention in Goldsboro, June 10th to nominate candidates for the proposed State Convention.

ACCEPTED.—We are gratified at being able to announce that Mr. Boyden has accepted the seat on the Supreme Court bench recently tendered him by His Excellency, Gov. Caldwell. He qualified before Judge Dick, in Greensboro on yesterday.—Old North State, 5th inst.

FROM WASHINGTON.—THE LEGAL-TENDER DECISION.—The decision of the Supreme Court yesterday, affirming the validity of contracts for the payment of specific weights of gold in coined money, was based upon a case appealed from the Superior Court of Michigan, which presented an instance of singular provision and caution. The action in the court below was brought to recover a rent upon a lease executed in 1836 for the term of one hundred years, in which the yearly rent reserved was four ounces, two pennyweights, and twelve grains of pure gold coined in money, payable quarterly. The State court, instead of giving judgment for the rent and interest in coined money, gave judgment for the market value, in United States notes, of the coined money; but the Supreme Court reversed this judgment, and held that payment must be made in coined gold money.

THE KUKLUX LAW. It is understood that the kuklux law will be at once enforced. Instructions to United States marshals are to be issued relative to the mode of procedure and the employment of deputies under it. Advices from South and North Carolina, however, show a growing quietude throughout both States.

FROM CONNECTICUT.—Hartford May 3.—The Legislature organized to-day. The officers are all Republicans. A Joint Committee, with power to send for persons and papers, was appointed to investigate the alleged errors in election returns.

THE PRICE OF CUBA.—Senor Vildosola, during the sitting of the Spanish Cortes on the 6th instant, read from a dispatch respecting the sale of Cuba to the United States for the sum of one hundred millions of dollars. The worthy Senator asked the Government for explanations on the subject. The Colonial Minister, warmed to a respectable degree of well assumed frenzy, answered Senor Vildosola by the solemn assurance that the island had but one price—"the blood of the Spanish army."

KEEP YOUR COTTON TAX RECEIPTS.—Governor Alcorn recommends the Legislature of Mississippi to memorialize Congress to refund the cotton tax paid in 1865 and 1869. It is not improbable that this tax will have to be refunded by and by, and therefore people should file away their receipts carefully.

THE NEW LAND-GRANT MEASURES which passed the Forty-first Congress were:—Oregon Branch R. R., 4,700,000 acres; supplemental North Pacific, 11,000,000 acres; Texas Pacific, with New Orleans, Louisiana, and Fort Yuma, California branches, 18,000,000 acres; a total of 32,700,000 acres. At the opening of last session there were on the speaker's table 23 land-grant Senate bills, 19 for grants to railroads; one for an irrigating canal in New Mexico, another for the improvement of Duluth harbor.

AFRICA HAS TAKEN HIGH GROUND in Arkansas, it is said. White applicants to office by the Governor are warned to get away in two days. These are black kuklux.

THE WOMAN AT LA CRUCES Wis. have got the rag carpet man a 'he worst way, making up all the old clothes they can find. Men have to sleep in their pants to keep from having them made into carpets, and they often wake up in the morning and find a leg out off.

CONVERSATION WITH WOMEN.—It is very well to call a conversation of women trifling and frivolous; if it is pleasant and graceful, it is all that can be desired. Conversation should be the relaxation, not the business of life; and the moralist should require that it should be always of an improving character, have the aim of its proper social uses. Improving lectures, social sermons, good lectures, exhibitions, and all kinds of machinery employed of all kinds to improve us all off the face of the earth, if nature did not give a little who some duncehood in sweeping the of instruction.

THE "QUEENS OF SOCIETY" will only give us talk which shall be bright without ill-natured sharpness, playful without silliness—if they will show us that affluence, vanity, jealousy, and slander are not necessary ingredients in the social dialogue, but that, rather, they give all an ill-savor to the wit and the cleverest play of words—if they remember that good humor sympathy and the wish to please for the sake of giving pleasure, will lend a charm to the most commonplace thoughts and expressions, their conversation will "improve" us, perhaps, quite as much as most popular lectures and some popular sermons.

THE BACHELOR EDITOR of the Raleigh Telegram "knows how it is himself" and says: "If our people would imitate the business, so far as to furnish their boarding schools, they would solve the problem which so puzzles the usually good heads of the *Wiley* and *Wiley*, and give us a population of young women fit to become wives and mothers, while practicing domestic education for our girls, and skillful training in their legitimate duties of housewifery, would justify our young men in taking unto themselves wives; whereas the fact is, that under the present system of education, the social habits of our people, their style of living and their extravagant Parisian and European Court fashions, which both our men and women have adopted, restrict judicious matrimony to the most favored sons and daughters of fortune."

PARENTAL LOVE.—What is more true and lasting than the love a parent bears its child? Brotherly and sisterly love is dear, the love of a friend, sweet; but, oh! where is the love that can compare with parental affection? When sorrow visits us, it is always in the parents' ear the tale of grief is poured, for we know, whether our pain be great or little, the soft voice of mother, or the firmer one of father, has always sweet words of consolation and endearment to offer, which make our hearts light again, and our spirits gay. When sickness or its threatening hand hovers over us, is it from nurse, friend, or even sister, that we wish to receive the cooling drink? Ah, no! 'tis from mother, who, with sweet smile and soft caress, makes us feel that, even though we are sick and suffering, earth has one bright, golden chain which binds us to it. 'Tis the gentle pressure of mother's hand on our forehead which drives away pain; mother's soft voice in our ear, teaching us the sweet voice of heaven; his act in the speediest manner under any reasonable terms. I will take pleasure in giving any information upon the subject. Address JOHN W. HINSDALE, ATTORNEY AND COUNSELLOR AT LAW, Fayetteville, N. C., March 4th, 1871.

SIXTY-FIVE First Prize Medals Awarded.—THE GREAT SOUTHERN Piano Manufacturing Co., manufacturers of Grand, Square and Upright Piano Fortes, Baltimore, Md. These instruments have been before the public for nearly thirty years, and upon their excellence alone obtained an unsurpassed prominence, which pronounces them unequalled. Their tone combines great power, sweetness and fine singing quality, as well as great purity of intonation and sweetness throughout the entire scale. Their touch is light and elastic, and entirely free from the stiffness found in so many Pianos. IN WORKMANSHIP they are unequalled, using none but the very best seasoned materials, the large capital employed in our business enabling us to keep continually an immense stock of lumber, &c., on hand. All our Square Pianos have our new Improved Overstrung Scale and the Agraffe Treble. We would call special attention to our late improvements in Grand Pianos and Square Grand, patented August 14 1866, which bring the Piano nearer perfection than has yet been attained. Every Piano fully warranted for five years. LOUISVILLE, Ky., Sept. 1. I feel that we have now an article of gin suitable for such cases as that remedy is adapted to. Dkt. J. W. BRIGHT. "Schuppas" is a remedy in chronic catarrhal complaints, etc. I take great pleasure in bearing highly creditable testimony to its efficacy as a remedial agent in the diseases for which you recommend it. Having a natural tendency to the mucous surface, with a slight degree of stimulation. I regard it as one of the most important remedies in the diseases of the genito-urinary apparatus. 26 FINE STREET, NEW YORK, Nov. 21, 1867. UPHOLSTERY, &c. Present: DEAR SIR, I have made a chemical examination of a sample of your "Sclidiam Schuppas," with the view of determining if any foreign or injurious substance had been added to the simple distilled spirits. The examination has resulted in the conclusion that the sample contained no poisonous or harmful admixtures. I would not hesitate to use myself, nor to recommend to others, for medicinal purposes, the "Sclidiam Schuppas" as an excellent and unobjectionable article of gin. Very respectfully, (Signed) CHAS.
