WAR for Cuba or for any reason would be unfortunate now for the United States and especially for the South. " DIAMOND COTTON CHOPPER AND CULTIVATOR: "-From the consatnt and earnest attention which this ma chine attracted, we recognize it as a prominent feature of the Fair. It is simple, durable, and strong, light und easily managed. With one man and one horse it bars and scrapes I oth sides of the row and thoroughly chops out and dirts the cotton, at the same time, thus doing the work, in a superior manner, of two men and two horses, besides saving the labor of

chopping out. From our own examination of this plow, and from the numerous testimonials which we have read from reliable cotton planters, we pronounce it the reatest labor saver, and the greatest implement for the cultivation of cotton, that we have ever seen. "The End of the World." [From Columbus Sun.] Elder T. M. Harris has been preach ng a series of sermons in Atlanta, on the subject of the early "coming of Christ." He had large andiences, that appeared to be interested. He maintained that the second coming of Christ would be before the millenium, and before the expiration of two thousand years of the Christian era. To make is theory more immediatly applicable to the present generation of men, he contended that the Christian era was one bundred years older than the commonly received chronology makes it-Pope Gregory having made an er ror of one hundred years in arranging the tables! His belief therefore i that "the end" will come before the expiration of the 19th century. His reasoning appears to be inferentia rather than demonstrative, as for instance, that no dispensation lasted longer than two thousand years, and therefore this would not; that as God

rested on the seventh day, the saints would rest in the seventh thousandth Elder Harris belongs to what is cal led the "Christian Church." We do not pretend to be posted in reference to "the end of the world." and must therefore leave our readers to judge for themselves what importance to attach to the Elder's views. But we are prepared to ease the consciences of any delinquents, who may be terrified at the idea of encountering the great day of reckoning with printer's bills unpaid, by giving them receipts in full, and thus doing what we can to "tide
