For the five months of 1874 to the 1st of June, inst., we added 500 or more new subscribers to our books and we took off, perhaps, 200 ald ones. Our circulation, for the last month or two, has been larger than ever before, but a few hundred o these are now on credit. The time they paid for is out, and some new ones were to pay in a few weeks, but have not done so. Next week we expect to drop near 250 subscribers, harvest by a grand festival, which because they are behind in payment. In hard times like these we cannot supply them with the paper except for the money. We call on our hundred, and we must demand of all who owe us to pay all, or part We send the Eagle at 25 cents a month, or \$3 a year.

Our whole county govsupport our party nominees, but the during their twenty years' quarrel, it nominations must be made with great discretion, and shall represent the sentiment, wishes and interests of the great bulk of our party.

It is not our usual custom to suggest, even, and we never have at tempted to dictate, but first in importance is to secure a good County Board. We cannot afford to allow an irresponsible and corrupt County Board to rule our affairs, as we had to submit to once before. The question has been asked whether to continue the present Board or put out a new one entire. The present Board bas sought in vain for twenty has been faithful and fully competent. and if they wish to be renominated, or will consent, we believe the whole for the first time the old Board can be nominated and federate dead wen elected.
