New York Tashions.

NEWFORT, September, 1869. This charming watering place is this year as in years past the most exclusive and arietocratic in the Union. The richest people are here in the greatest numbers, the equipages are the most imposing, the dressing themost lavish and at the same time the most artistic. Even the young men here dress as befits the escorts of such birds of Paradise looking belles. The usual costume for young gentlemen is white duck or light cloth pants, black, green, purple or golden brown velvet coat made sack shape with large and well worked pockets, vest of white Turkish Towel cloth, Sailor hat of straw with wide ribbons- bright kid gloves.

costumes from New York. This found to be a better plan than taking several trunks along at the beginning have copied the item from the Ameriof the season, for in this way the freshest styles can be exploited-and trouble by publishing this statement. even hits of styles to be, such as are constantly coming over from Paris, can be embodied. The lady sends her measure and order, in a few days she has her suit. The following is an out door costume for damp days, made at the Metropolitan Furnishing Rooms: A suit of the new water proof golden brown. This was very simple is stated to be beyond question; and but at the same time very stylishly in Normandy and other parts of their places are grooves one and bias facing of the same, stitched on process consists in placing the cream diameter. The connecting rods are ability; there a laste without the ability to the Grover & Baker machine with a in a linen bag of moderate thickness, iron, so also the balance pole, which retain This frequently occurs in children. double row of brown silk same shade which is carefully closed; then buryas the brown in the dress and between ing the bag about a foot and a half eight pounds. The whole thing, with of, dravel or Drop y may ens e. them a row of stitching in silk. A deep in the earth and allowing it to the man, weighs 299 punds. The small tight fitting basque accompa- remain from twenty-four to twenty- propelling power is a pinion cog- to affect the bedily health and m near powers nied it, the waist of the skirt was five hours. After the expiration of wheel, made of brass, about nine as our fi sh and blood are supported from finished to match the bottom so that this period the cream is found to have inches in diameter, which is made to it could be worn over the basque as well as under it, and thus have the effect of a round waist, the bottom of ed upon it to wash out the buttermilk. ed immovably on the American shore the basque and the sleeves were To prevent any mixture of earth, it is but on the Canada shore coiled around trimmed with bias bands stitched to advisable to enclose the bag in a sec. a windlass to facilitate tightening .match the waist and bottom. For occasions when greater warmth might ter saves a great deal of labor, and slowly forward, the rope swaying This tunic was a very hanpy comthan the ordinary process; and it is stated that butter thus prepared is of which he crawled along at a snail's when of the abdomen, Ascites; and a Mackintesh wrap. The fronts were sack shape, the sleeves being large button holes formed in the seams classes of business that pay a special lava still flow, and the small flow, and the small flow, and all unnated at enlargements, Marriage. - The cheapest book ever pub of the half-cape sleeves and again in and out of a couple made under the Watteau pleat, thus allowing that and the sleeves to fall gracefully and free, each side of the fall might be looped up and thus effect a panier puff.

chilly days. There are, many such is fully stamped the note secured need The news spread like will-fire .days always on the sea coast, though here fewer than elsewhere, owing to bonds need not be stamped if stamps sale. Con- From that moment the scurge was minced its use about eight months ago, a vet cut to fit the figure, and open to each sicet or piece of paper, except curred, and the epidemic hs now enshow the petticoat beneath. They are fastened pretty close together with \$300, fifty cents for each additional black velvet bows, the sleeves are \$200, or fractional part thereof in exvet which formed battlements as a trimming. Accompanying this is a thin silk bodice, high necked, with tight fitting sleeves to be worn under ting the amount of land in different it and a long narrow slip of the same tion of a petticoat, the button holes are worked on tapes sewed on the inside of the dress, and the buttons which are of blue silk are sewn on the silk strips-the same style of buttons fasten the under waist, which is so beautifully fashioued and finished, that on warmer days, it can be worn over a white skirt when the slip that belongs up the front may be used to loop the upper skirts en panier-the buttons which are for use in one instance being for ornament in another. Blue satin slippers should be worn with it with white skirts. The back of this fell from the neck in the Watteau pleat, now so much affected-and an ornament of blue cord and black chenile held it down on the neck to about the depth of a yoke. A more

Goldsborough News, distinguished looking toilets at a small outlay could not well be devised. We are glad to see the old fashion of trimming silk with velvet revived. Velvet is one of the few trimmings which it pays to purchase and to pay even a high price for. JAPONICA.

Some DIFFERENCE .- We learn that he Judges of the Supreme Court made an estimate that their decision in the late railroad cases would reduce the taxes to be paid 27 cents from the gross amount. But the Public Treasurer in his Circular issued to the sheriffs, states the deduction at only 81 cents. This is a wide differ ence and might be well enough to inquire into. - Statesville American.

The above paragraph is copied by nearly every paper in the State. We have before stated that the Governor and Council examined the decision of the Supreme Court in the University R. R. case, and concluded that it relieved taxes to the amount of 82 cents. This interpretation was concurred in by every Justice of the Supreme Court. Acting upon it, the Public Treasurer issued the circular above Ladies here frequently order their referred to. If persons attempt to evade the payment of the tax, they trouble and expense. Papers that distinct voice Advertised can may save their readers some

A NEW WAY TO MAKE BUTTER .-A singular method of making butter has lately come into quite extensive the gorge below Nisgara Falls yesuse in France, based upon the observe terday, on a machine of his own ined fact that cream is changed into butter by being simply buried in the become hard, and it is then broken up gear to cogs which surround the front the line is indicative of the ab to diseases. by means of a wooden beater into wheel at the bottom of the groove .small pieces, and enough water pour. ### CHOLIRA. A Cure for this Diseas may be found

PERRY DAVIS' PAN KILLER. I have used the medicine hown as PERRY DAVIS' VEGETABLE PAISKILLER in my fumily for the last twelve months, and have great pleasure in testifying thits very valua ble properties. I would not n any account be without it During the xistence of the Cholera last year, I used no medicine of any sort but the Pain Killer, although myself and several members of my family were attacked by it severely, and I am happyto say that the Pain Killer was equal to every emergency ; it was both a preventive and a certain cure. I consider I should not be doing my duty to the community did I not say this much. If I were attacked by the Cholera to day, the Pain Killer would be the only remedy I should use. I have thoroughly tested it, and know it can be relied on. F. E. BERGINSEND.
