

SETH M. CARPENTER, Local Editor.

The Editor of this paper is in no way responsible for the views or statements of Correspondents. No communications of an anonymous character will be published; the real name of the writer must accompany all communications.

REPUBLICAN NOMINEES FOR THE TOWNSHIP.

MAGISTRATES: Wm. L. Palmer—First Ward. D. N. Kilburn—Second Ward. Richard Tucker—Third Ward. E. A. Richardson—Fourth Ward. Harry P. Hickman—Fifth Ward. John R. Good—Sixth Ward. Joseph Mumford—Seventh Ward. E. R. Dudley, Township at Large. R. T. Berry.

FOR SCHOOL COMMITTEE: John S. Manix, Amos York and Geo. S. Fisher. FOR TOWNSHIP CLERK: Thomas McCarthy. FOR CONSTABLE: Daniel T. Carraway, Jr.

Township Committee for ensuing two Years.

First Ward—T. A. Henry. Second Ward—G. B. Willis. Third Ward—W. G. West. Fourth Ward—C. R. Robbins. Fifth Ward—O. Hubbs. Sixth Ward—Thomas Morris. Seventh Ward—J. D. Dudley. Township at Large—E. K. Dudley.

Table with 2 columns: Item and Price. Includes Turpentine, Virgin Dip, Yellow Dip, Scrape, Spirits, Rosin, common strained, Corn, from boats, Cotton, Baled.

State of the Thermometer.

Table with 2 columns: Time and Temperature. Shows readings at 6 o'clock, 8, 10, 12, 2, 4, 6 P. M.

Wanted—A purchaser for the entire stock of the TIMES. Good reasons given for selling, and a reasonable price will be taken. E. HUBBS.

Camp Meeting—A Camp Meeting will be held at Pine Grove, Clunford's Creek, commencing Sept. 4th, 1873. All churches are invited to attend. HENRY JONES, Elder.

Mortuary—During the month of July there were interred in the Cedar Grove Cemetery one adult and seven infants. In the Greenwood (colored) Cemetery there were ten interments, all infants.

Look Out for Them—We are informed by the National Bank of this city that there are in circulation \$10 bills of the Farmers and Manufacturers' National Bank of Poughkeepsie, N. Y., which are an excellent imitation, the engraving being well executed. Mr. Roberts, teller, pronounces them a dangerous counterfeit.

Outsuring—A strong movement is on foot to cause the removal of the present Postmaster of this city. The pressure being brought to bear is heavy, and from present appearances of the strength of the movement it would appear as if there was a positive determination on the part of several prominent Republicans to compass their object if possible.

Correction—By accident, the name of E. R. Stanly, Esq., was substituted for that of E. R. Dudley, Esq., as one of the speakers named to address the meeting at the Court House on Monday night last. R. F. Lehman, Esq., was not present, although announced as one of the speakers, he, we learn, having a prior engagement, which prevented his attendance.

To be Hanged—Governor Caldwell has refused to interfere with the regular process of law in the case of Hardy Jones the murderer, who was sentenced at the last term of Craven County Superior Court to be hanged on the 5th inst. The Governor declines the commutation of his sentence to imprisonment for life, for the reason that the petitions do not show sufficient reason for this clemency, and are not signed by the Judge and Solicitor of the Court in which he was convicted.

Sacrifice—Bismarck has granted permission for the Good Templars to organize in the Prussian Empire. This is another good thing done by this wonderful man, who seems to be the autocrat of the Prussians, and who does the right thing at the right time. But what a sacrifice those beer drinking Germans will have to make if the Order prospers. "I pay mine money and I drink mine beer" will have to be changed to "I save mine money and smoke mine pipe without mine beer."

9th Township Meeting—At a meeting of the citizens of Township No. 9 (respective of party, held at village-bran-h School House on Saturday, Aug. 2nd, 1873, on motion, Rev. E. H. Hill was called to the chair, and J. H. Bryan chosen as secretary.

On motion, C. Green, Anthony Harris, Brister Jackson, Emanuel Watkins and W. B. Lutz were appointed a committee on nominations, and made the following report: For Justices of the Peace, R. A. Russell and Samuel Perkins. For Clerk, J. H. Bryan. For Constable, Peter Walden. For School Committee, C. L. Wetherington, Geo. Taylor and Edward Jones. On motion, the thanks of the meeting were tendered to the officers. On motion, the newspapers of New Berne were requested to publish the proceedings. On motion, the meeting adjourned. E. H. HILL, President. J. H. BRYAN, Secretary.

LOCAL BITS—Yesterday

Splendid weather. Business very quiet. No. 1 cotton 15 1/2 cents. Eggs 18 cents per dozen. Corn 75 cents per bushel. Markets moderately supplied.

Watermelons at retail from 1 to 20 cents each. The steamer Hackensack sailed for Baltimore. No sinners arraigned before His Honor Mayor Palmer.

A better quality of peaches was noticeable in market, and more of them. The U. S. Lighthouse tender Schooner Spray, Mitchell master, arrived in port.

A large number of visitors called to see Hardy Jones, the murderer, at the jail. Claypool, the Marble Carver, was not digging for sand, though he was excavating for it.

A large supply of preserved fruit jars (a new patent) were for sale at Meadows & Co.'s Drug Store.

The building on Middle, near Broad Street, which was formerly occupied by W. M. Watson, Esq., as a Dry Goods and Grocery store, is now a Mart for Watermelons, under the proprietorship of Mr. Frank S. Buzant.

Save your Earnings—A machinist died lately at the age of 51, in Rhode Island, who has been unable to do any work for two years, and who had never received over \$1.50 per day for wages, and yet he left a snug little fortune of \$15,000, all from his own earnings. He was not pious, was married, had one child, and educated her, lived comfortably, and dressed neatly. He merely saved small sums, beginning with \$200 when he became of age, and added the interest of his deposits to the principal.

Open Air Concerts.

We do not observe that any steps are being taken towards fitting up the rostrum at the flag staff for the accommodation of the Silver Cornet Band, who recently volunteered to give the citizens a series of open air concerts without charge. Will not some one take action in the premises and raise the amount necessary to do the work? We understand that Capt. S. H. Gray has kindly offered to donate the lumber required for this purpose, and we see no reason why the thing should not be carried out.

I. O. of G. T.

At a regular meeting of Pamlico Lodge of I. O. of G. T., town of Washington, held 28th ult., the following persons were elected officers for the ensuing term: M. S. Frizzle, P. W. C.; T. James H. Gordon, W. C. T.; Miss Annie P. Latham, W. V. T.; A. W. Thomas, W. S.; B. Kahn, F. S.; Miss Ella J. Wise, W. T.; Wm. L. Belbro, W. C.; George E. Beckman, M.; Miss Cattie Waddell, I. S.; Chas. Bishop, O. S.; W. S. Frizzle, L. D.

Installation of officers Monday night, 4th inst. Membership, sixty one; regular meetings Monday nights.

Death of an Authoress.

A novel entitled "Paul Ferrol," and its sequel, "Why Paul Ferrol Killed his Wife," attracted considerable attention in England a few years ago, and being admirably written, and original even to eccentricity, were reprinted and widely read in this country. Their readers will regret to learn that their author, Mrs. OLIVE, wife of the Rev. ARCHER OLIVE, of Whitefield, Eng., was fatally burned by her dress taking fire from a spark on the 12th of July last, and died on the day following, after great suffering. Mrs. OLIVE had been long a confirmed invalid, and was consequently unable to extinguish the flames which caused her untimely and painful death.

Kosuth.

Mr. William J. Stillman, over his signature, relates the following: "In the Scott and Pierce campaign Kosuth was, as we all know, in the United States, and the politicians of both parties were anxious to secure his influence, for which of course he exacted his terms. I was almost daily at his house and in his confidence, preparing for a mission, charged with which I went to Hungary that autumn, and I was more or less acquainted with the negotiations as they advanced. The Democrats finally offered him a specified sum of money—how much I have forgotten—and two men of war if he would give his influence to Mr. Pierce, but they repudiated their promises after election. During these negotiations, which were long, Kosuth said to me: 'Mr. Stillman, if you do not get rid of these politicians, your country will be lost within fifty years.'"

County Tax Levy Changed.

The following orders of the Board, changing the tax levy for 1873, was adopted by the Board of County Commissioners on Monday, August 4th, 1873, to-wit: Ordered, That Order 4th, of the series of Orders passed by the Board on the third Monday in May, 1873, by which a special tax of one dollar on the one hundred dollars was levied on the taxable property, to be applied to the payment of detached coupons, orders, vouchers, warrants, etc., contracted prior to the adoption of the present State Constitution and made receivable in payment of taxes, be and is hereby rescinded.

Ordered, That Order 3rd of the same series be amended as follows: The word "attached" be inserted between the words "and" and "coupons" in the fourth line.

Ordered further, That the Clerk of the Board adjust the taxes on the tax lists in accordance with the above resolutions.

The Meeting Monday Night.

The meeting at the Court House on Monday night last, the proceedings of which are reported in this issue, was very enthusiastic and, notwithstanding the inclemency of the weather, largely attended. The earnestness of the speakers was a marked feature and the determined opposition shown to the proposed amendments to the Constitution fully sustained the TIMES in its views, as expressed heretofore. The opposition to the course pursued by Mr. Nason, the Postmaster of this city, and the desire expressed for his removal, was very strongly expressed, as will be seen by reading the minutes, which, however, do not give full particulars. The principal opposition to him seemed to arise from his not employing a colored man in his office, and defying the wishes of Republicans, as charged.—Ed.

County Commissioners met.

The Commissioners met at the Register's office on Monday and yesterday, all being present except the chairman, E. R. Stanly, Esq., who, through illness, was prevented from attending. In the absence of Mr. Stanly, John Patterson, Esq., was called to the chair.

During the sessions a number of petitions for reduction of valuation on property were acted upon, and also the hearing of complaints as to excessive valuations. In some cases reductions were made, and in others denied.

On motion, R. C. Kehoe and Jesse Brooks were appointed a committee to make further and other arrangements for the burial of county paupers, and for the indigent outside of the county poor.

Several petitions for the sale of liquor were received and acted upon; and several bills examined and allowed.

Granges.

John S. Long, Esq., State Deputy of the Patrons of Husbandry, will address the people touching the principles of that Order, at the following times and places:

- Aug. 20th, Wednesday, Dudley. " 21 Thursday, Mt. Olive. " 22 Friday, Faison. " 23 Saturday, Warsaw. " 25 Monday, Clinton. " 26 Tuesday, Magnolia. " 27 Wednesday, K-nansville. " 28 Thursday, Teach's. " 29 Friday, Duplin R. Road. " 30 Saturday, Rocky Point. Sept. 1st, Monday, Nahunta. " 2 Tuesday, Pinkerville. " 6 Saturday, White Hall.

We notice from our exchanges that Mr. Long has already organized a goodly number of granges in the several counties he has visited.

Personal.

Mr. A. M. Kirkland, the indefatigable agent for the Atlantic Coast and Freight Line, took his departure yesterday morning for Wilmington on business pertaining to the interests of the Company which he so well represents in this city, and where, especially with those who desire to obtain low tariffs on freight, his presence is greatly needed and appreciated. Our merchants and shippers have long felt the want and necessity of cheap transportation in forwarding and receiving their goods, and we are pleased to learn that through Mr. Kirkland, arrangements can now be made so as to forward and receive with dispatch all merchandise requiring transit to and from New York, Boston, Philadelphia, Baltimore, Norfolk, Cincinnati and all important points, at much lower rates than has ever been offered in this city by any transportation Company heretofore. In the person of Mr. Kirkland, this Company has a valuable and worthy Agent, through whom their business in this section will prosper and increase.

Feeding a Lunatic Patient Through the Nose.

The current report of the Belfast Hospital for the Insane contains an account of a remarkable case of a woman who had, with the utmost pertinacity, refused all food or drink. For nearly three weeks after her admission, says the report, she continued this resistance, during which time it was necessary to feed her forcibly in order to prevent her sinking from inanition. This was accomplished very successfully, though with great difficulty, by means of a small glass tin dish or funnel introduced into one nostril, the other being firmly closed, as well as the mouth, while she lay on a mattress, her hands and feet being kept confined by attendants to prevent struggling, and thus small quantities of the strongest nourishment, together with stimulants, such as brandy and milk, yolks of eggs, beef essence, &c., were administered three or four times, at short intervals during the twenty-four hours, till she came around gradually to take food of her own accord, and lost all her delusions; and in the course of a couple of months afterward returned to her family quite restored in mental and physical health.

N. C. Inst. for the Deaf and Dumb and the Blind.

As there seems to be a misapprehension on the part of many persons as to the terms of admission into this Institution the following regulations are published for general information: Equal provisions are made for both white and colored children, but the two departments are entirely separate and distinct, being located in different parts of the city, but both under the management of the same Board of Trustees.

1. The North Carolina Institution for the Deaf and Dumb and the Blind, is purely an Education Institution, and not an Asylum. As deafness and blindness are generally conceded to be incurable, we do not receive applicants to be treated, but to be educated.

2. Pupils from this State are admitted to all the privileges of the Institution, upon compliance with the rules, free of charge; being provided with board, washing, fuel, tuition, books, medical attention, and everything necessary, except clothing and traveling expenses.

3. Each pupil should come with sufficient clothing to last one year, or it must be sent when needed, or the money furnished to purchase it. They should also have a good trunk, large enough to contain all their clothing, each article of which should be distinctly marked with their names. A list of all clothing furnished pupils should be sent to the Principal when the pupil enters.

4. The session commences on the first Monday in September, and closes the latter part of June. All pupils are expected to come promptly at the first of the session. Only a certain number can be accommodated, therefore it is important that the Principal know before the commencement of the session the names, age, residence, &c., of those who propose to enter.

5. The course of study pursued at the Institution embraces all the English branches, consisting of spelling, reading, writing, arithmetic, geography, grammar, and the sciences, and ordinarily requires eight years to complete it. The Blind are taught, in addition, Vocal and Instrumental Music.

Applications from a distance, letters of enquiry, &c., should be addressed to JOHN NICHOLS, Principal, Raleigh, who will take pleasure in giving all needful information. Arrangements have been made with most of the Railroads to convey pupils to and from the Institution at reduced rates. Upon application to the Principal, he will furnish the necessary certificates to secure the benefit of cheap transportation.

City Council.

This Board met on Monday night, pursuant to adjournment.

Present: His Honor Mayor Palmer, Councilmen Guthrie, Gray, Crawford, McGee and James.

Minutes of last Regular meeting were read and approved.

Petitions for the erection of frame buildings from S. H. Gray and J. J. Wolfenden, were read and allowed. Also petitions from citizens for new pumps (one to be placed on Ash Street and one on New South Front) were read and referred to Committee on Pumps.

Committee on Cemeteries reported as in bad order, a portion of the fence at Cedar Grove Cemetery, which was ordered to be repaired, and the City Marshal authorized to procure the necessary material. It was also ordered that an estimate be made as to the cost of enclosing the lots recently purchased from E. R. Stanly, Esq., for the extension of said Cemetery.

City Marshal Turner reported the suspension by him of Officer James for ten days, for absence from duty without leave.

By request of Excelsior Fire Company, No. 1 and upon recommendation of Chief Engineer Radcliffe, the sum of \$250 was appropriated by the Board for the purpose of purchasing a double-decked Engine and Jumper for the use of said Company. The motion for the above appropriation was made by Councilman Guthrie, and same was amended by motion of Councilman Gray, that a City Note be issued for the amount, and payable January 1st, 1874.

The petition from the Fire Department Board asking for an appropriation of \$900 for running expenses for the ensuing year, was taken up and, on motion of Councilman Gray, was laid over for the rendering by the Chief Engineer of an itemized statement as to the expenditures for which the appropriation is required.

Councilman McGee, having reported the upper part of the city in the vicinity of the Market house, as disorderly, it was ordered that the City Marshal detail an officer for duty at that point.

On motion of Councilman Gray, it was ordered that the Ordinance relating to the obstruction of sidewalks be strictly enforced by the Marshal.

City Marshal Turner reported the killing of 33 dogs by poison.

On motion of Councilman Crawford, it was resolved that a discount of 5 per cent. be allowed upon all taxes due and paid prior to September 1st, and after September 1st, that 1/2 per cent. be allowed on all taxes paid prior to October 1st; and that as soon as the tax list is put in the hands of the Collector, he shall advertise in accordance therewith.

After allowing the usual monthly bills amounting to \$454.48, the Board adjourned to meet on the first Monday in September, at 8 o'clock P. M.

Citizens Building and Loan Association.

This association was organized in this city June 10, 1873, and is now on a firm footing. George Allen, Esq., the President, elected by the association, a driving, energetic and careful business man, was an excellent selection, as was that of all the other officers. Five hundred and twenty-five shares have been taken, and a considerable money loaned for building purposes in sums of \$200,—each of which are disposed of publicly to the highest bidder, viz: \$200 being charged, and \$120 or more taken by the bidder according to the bids made—a large per centage to pay for the use of money, but it is to be understood that each shareholder participates in the profits and is virtually laying up the balance in the hands of the association until the close of its affairs, when he will participate in the final dividend in proportion to his number of shares. The monthly dues are \$1.00 per share, no one person being allowed to hold more than fifty. Mr. Roberts, the Secretary and Treasurer, informs us that the prospects ahead are A. 1, and the workings of the association highly satisfactory to all concerned. We have no doubt but that very many will be benefited by connection with it, and thus lay up money which would not otherwise be saved. Success to all such enterprises say we.

A Remarkable Case of Reasoning or Instinct in a Dumb Animal. Which?

Sometimes since a fine dog of the female kind and mongrel breed, about five years old, owned by Hon. R. W. King of Kinston, was observed by the inmates of the house to be in great distress and endeavoring to attract their attention. She ran to them, and then to a well in the yard; and finally, not succeeding in getting the attention she desired, she redoubled her efforts, and took hold of their clothes and pulled them one after another in the direction of the well. Taking the hint, an eva nination of the well disclosed the fact that a young dog, one of her companions and a play fellow, had fallen into the well and was nearly drowned. The dog was taken out and conveyed into an outhoubling, while she looked on with apparent solicitude; and then, by a careful personal inspection, satisfied herself that he was alive, and not till then did she cease her interference and mourning. This is one of the most remarkable cases of instinct or brute reasoning we ever heard of. She is of a very affectionate disposition toward all with whom acquainted, a mixture of pointer, cur and bull in breed, and an excellent watch dog, and frequently joins her friend, she saved and another larger ally in chasing up stray dogs which come on the premises. The three have killed four or five dogs in this way.

No pill in the world ever had anything like the circulation of Ayer's Pills.

Throughout these States, Mexico, and the Central American Republic, down the slopes of the Andes, and across the pampas of South America, in negro villages, amid the fervid wilds of Africa, throughout the jungles of India, and the steep crevices of interior Asia, over the continent of Australia, and the islands of the Pacific, these PILLS are known and everywhere used as family remedies for diseases. With distant nations, their wonderful cures attract more attention than they do at home; for the sentiment of wonder takes a far deeper hold on their minds than the results of a higher scientific skill with us. The amount consumed requires seventy-five thousand doses to supply it. An inspection of the manufacturing process showed us how this enormous demand is made and sustained. Added to the consummate skill of their composition, is an extreme care in their manufacture, which at once secures the most perfect material and their most accurate combination. The consequence is a power and certainty in controlling disease which other remedies never attain. Baltimore Courier.

STATE.

Warrenton proposes to organize a brass band.

Raleigh needs a Society for the Prevention of Cruelty to Animals.

The invincible Woodson of the Year is being heavily tomatoized by the Raleigh gardeners; the love apples weighing from 1 1/2 to 2 1/2 pounds each.

The Cape Fear Steam Fire Engine Company, colored, with 90 pounds of steam thrown through 401 feet of hose with 1/2 inch nozzle a stream 167 feet.

Mr. J. A. Edwards, Agent of the Carolina Central road at Rosedale, was attacked by five colored men on Saturday evening last and inhumanly beaten, his cheek bone being broken and other severe injuries received. We learn that to cause is assigned for the outrage save a difference of opinion and bad whiskey, of which latter the assassins had partaken freely previous to the dastardly assault being made. Mr. Edwards, who is a prominent and highly respected citizen, is now lying in a very critical condition, while the parties who made the attack upon him are still at large.—Wil. Star.

At Brown, Marsh, Bladen county, on Monday, a colored man by the name of Solomon Lemson shot Alex. Robinson, also colored, severely wounding him in the left side. It seems that L-m-n had been arrested on a bail warrant issued at the instance of Robinson, but escaped and made his way into South Carolina, at the same time making threats that he would return and have revenge on Robinson. How he kept his word is sufficiently apparent by the above. Lemson is still at large, while the recovery of the wounded man is considered extremely doubtful. The would-be murderer is of a yell w complexion about 5 feet 5 inches in height and heavy set. It is thought likely that he has made his way to his old haunts in South Carolina.—Wil. Star.

A few years ago Judge Watts, whose farm is near Franklinton discovered in his cotton field quite a number of stalks which contained double or twin bolls of cotton, each of the two being as large as ordinary single bolls. As a matter of experiment he preserved all the seed of this cotton, which he planted the next year in a lot apart from his other crop. Every stalk from this seed produced double bolls and a superior article of lint. Again he was careful in preserving every seed, and this season planted with it the most of his crop of about 100 acres, manuring the land very heavily. Very strange to say, the stalk of this year produces a trip boll, and each of the three are larger, on an average, than the original single boll. The boll germinates from the main stalk and branches in the largest profusion, and in some instances so heavily is the stalk laden, with them, that propping the stalk with supports is necessary. An Eastern farmer who saw the field, and who gave us the information, says, never in his experience has he seen, read or heard of the like before. Judge Watts will have several of the stalks on exhibition at the State Fair when all can see this freak of nature.—Raleigh News.

(COMMUNICATED.)

Editor Times.

In reference to a paragraph in your column this morning, headed "Open Air Concerts," I have something to say in my own defence. In response to the generous offer of the Band to play one evening of each week, for the benefit of our citizens, without charge, I took it upon myself, unsolicited, to make the necessary arrangements, both for the accommodation of our citizens and our Band, to which end I waited upon a few of the citizens, who, without a single exception, agreed to contribute what might be necessary. One of them, Capt. S. H. Gray, as you state, offered to contribute a sufficient quantity of lumber to do the work. After which I requested the City Marshal to have the weeds removed from the ground, which he had done immediately. Having thus completed, as I thought, all that was necessary in the matter, I waited on the Band at their room, and requested the appointment of a committee to confer with contractor Pavia and instruct him as to what they wished done. They accordingly appointed the committee, who may, or may not, have performed the duty assigned them. I have frequently asked Mr. Pavia why the work had not been done, and he has invariably told me that he had received no instructions from the Band committee, and would do the work as soon as he knew what was wanted. WM. M. WATSON.

A HINT TO HOUSEWIVES. HOW TO KEEP KITCHEN WARE CLEAN AND BRIGHT.

Every housewife of neat tidy habits takes especial delight in keeping all the tin, copper and iron ware of her kitchen as clean and bright as painstaking labor can make them. A pride in this direction is commendable, and always meets the smiling approval of the "tyrant man" who pays the household bills. Remember that SAPOLIO is the only thing on earth that will make an old tarnished tin pan or rusty kettle shine bright as new. And by the use of Sapolio it is the quickest and easiest thing in the world to keep every utensil in a high state of polish.

Dooley's Yeast Powder is the cheapest, but not lowest priced Baking Powder. Elegant Biscuits, Rolls, &c., prepared in a few minutes.

For Loss of Appetite, Dyspepsia, Indigestion, Depression of Spirits & General Debility in their various forms, FERRO-PROPRIETARY EXTRACT OF CALSAYA, made by CASWELL, HARRIS & Co., New York, and sold by all druggists, is the best tonic. As a stimulant tonic for patient recovering from fever or other sickness, it has no equal. If taken during the season it prevents fever and ague and other intermittent fevers.

DIED.

In New York City, July 25th, BESSIE SLOVER, infant daughter of Nathaniel and Hattie F. Smith, formerly of this city; aged 1 year, 1 month and 25 days.

The funeral service was read by an Episcopal Minister. The Lord gave, and the Lord taketh away; blessed be the name of the Lord.

As the sweet flower that scents the morn, But withers in the rising day, Thus lovingly was this infant's dawn, Thus swiftly fled its life away.

ENOCH MORCAN'S SONS' SAPOLIO

is a substitute for soap for all household purposes, except washing clothes.

SAPOLIO for cleaning your house will save the labor of one cleaner. Give it a trial.

SAPOLIO for Windows is better than Whiting or Water. No removing curtains and sashes.

SAPOLIO cleans Paint and Wood, it fast the entire house, better than Soap. No scraping, sanding, labor. You can afford to be well off.

SAPOLIO for Scouring Knives is better and cleaner than Bath Brick. Will not scratch.

SAPOLIO is better than Soap and Sand for polishing Tinware. Brightens without scratching.

SAPOLIO Polishes Brass and Copper utensils better than Acid or Oil and Soda Stone.

SAPOLIO for Washing Dishes and Glassware is invaluable. Cheaper than Soap.

SAPOLIO removes Stains from Marble Mantels, Tables and Statuary, from Hard-finished Walls, and from China and Porcelain.

SAPOLIO removes Stains and Grease from Carpets and other woven fabrics.

There is no one article known that will do so many kinds of work, and do it as well as Sapolio. Try it.

HAND SAPOLIO a new and wonderfully effective Toilet Soap, having no equal in this country or abroad.

HAND SAPOLIO as an article for the Bath, "removes the foundation" of all dirt, opens the pores and gives a healthy action and brilliant tint to the skin.

HAND SAPOLIO Cleanses and Beautifies the Skin, instantly removing any stain or blemish from both hands and face.

HAND SAPOLIO is without a rival in the world for curing or preventing roughness and chapping of either hands or face.

HAND SAPOLIO removes Tar, Pitch, Iron or Ink Stains and Grease; for workers in Machine Shops, Mines, &c., is invaluable. For making the Skin White and Soft, and giving to it a "blow of beauty," it is unsurpassed by any Cosmetic known.

HAND SAPOLIO costs 10 to 15 cents per cake, and every body should have it. You will like it.

DON'T FAIL TO TRY THESE GOODS. Buy it of your merchant if he has it or will procure it for you. If not, then write for our Pamphlet, "All about Sapolio," and it will be mailed free.

ENOCH MORCAN'S SONS, 20 PARK PLACE, N. Y.

Ayer's Hair Vigor,

For restoring to Gray Hair its natural Vitality and Color.

A dressing, which is at once agreeable, healthy, and effectual for preserving the hair. It soon restores faded or gray hair to its original color, with the gloss and freshness of youth. Thin hair is thickened, fallen hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed; but such as remain can be saved by this application, and stimulated into activity, so that a new growth of hair is produced. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. The restoration of vitality it gives to the scalp arrests and prevents the formation of dandruff, which is often so troublesome and offensive. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a HAIR DRESSING, nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich, glossy lustre, and a grateful perfume.
