Gold Plags, \$1.60; Teeth on Pirot, \$4; Teeth on Gold Plats, \$8 each up to six-all above that \$6 each; a Full Upper Set on Suction, \$75; Lower Teeth, the same. All other operations equally low. When I have to credit my old charges will be made. I can refer these who wish it to some of the most respectable citizens for whom I have plugged teeth eighteen years ago; the same plugs are still in and doing well. For others I have put in teeth on pivot and gold plats, some full sets on suc-tion, which have been done for about eighteen years, all doing well. But as I warrant all my operations,

tions, which have been done for about eighteen years, all doing well. But as I warrant all my operations, and have the advantage of upwards of eighteen years practice, I have no doubt but I can give satisfaction to all who are disposed to patronise and give me a fair trial, which is all I sak. N. B.--Having engaged in the Photographic Art, some have been induced to believe I had quit the practice of Dontistry. Now this is a false impression. I have not made enough to justify my retiring from the business. On the contrary, I am better prepared now than ever to apsente on teeth, and am still in the field, ready at all times to attend to all calls from this or any of the adjoining soundles, and respectfully ask a continuance of that potensing foredofore so liber-ally hastewed. There is an hour of peaceful rest, To mourning wanderers gives; There is a joy for couls distressed, A balm for every wounded breast-'Tis found alone in Heaven.

There is a home for weary souls, By sin and sorrow driven; When tossed on life's tempestuous whoals, Where storms arise and ocean rolls, And all is drear but Heaven.

There faith lifts up her cheerful eye To brighter prospects given, And views the tempest passing by, The evening shadows quickly fly, And all serene in Heaven.

There fragrant flowers immortal bloom And joys supreme are given: There rays divine disperse the gloom; Beyond the confines of the tomb Appears the dawn of Heaven.

[From the Chickness and Choctaw Herald. AN OLD STORY IN A NEW DRESS.

> BY F. E. PINER. "I tell it as 'twas told to me."

A very long time ago, in the western part of England, there lived an aged couple, whose time had passed away since early youth, in the every day round of farm life, and who had never been known to have the least ill-feelings towards each other since the time when good old Parson Hewas the fact of their conjugal happiness known, that they were spoken of far and near as the happiest pair known. Now, the Devil (excuse the abrupt mention of his name,) had been trying for twenty years to create what is so commonly called " a fuss in the family," between these old companions. But much to his mortification, he had not been able to induce the old gentleman to grumble about breakfast being late once, or the old lady to give a single curtain lec ture. After repeated efforts the Devil became discouraged, and had he not been a person of great determination he would doubtless have given up in despair. One day as he walked along, in a very surly mood, after another attempt to get the old lady to quarrel about the pigs getting, into the yard, he met an old woman, a near

"Well, what is the matter, my highly honored master."

"Everything else is going on well enough," replied the Devil, " but," and here he looked as sour as a monkey on a crab-apple tree,

Over this vast surface, therefore, there is, for that period, a heat too great to permit the formation of ice; while south of this latitude, where the sun sets nightly, the coldness of the night counteracts, in part, the heat of the day. Hence the phenomenon of an open sea around the pole in spite of a colder belt to the south of it. Hence also the fact that the actual

It is certain at least that the magnetic pole is in a different latitude from the actual pole of maximum cold.
